

Organizational Analysis As Deconstructive Practice De Gruyter Studies In

[#organizational analysis](#) [#deconstructive practice](#) [#critical management studies](#) [#organizational theory](#) [#de gruyter publications](#)

This academic work explores organizational analysis through the lens of deconstructive practice, offering a critical examination of conventional structures and assumptions. It provides profound insights into the underlying mechanisms that shape organizations, challenging existing paradigms and fostering a deeper, more nuanced understanding of corporate and institutional dynamics, as part of the esteemed De Gruyter Studies series.

Our curated articles bring expert insights across a wide range of academic and professional topics.

Intro

Organizational analysis involves identifying whether training supports the strategic direction; employees support training

STRATEGIC The strategic role of training influences the frequency and type of training and how the training function is organized in the company.

SUPPORT A number of studies have found that peer and manager support for training is critical, along with employee enthusiasm and motivation to attend training

RESOURCE It is necessary to identify whether the company has the budget, time, and expertise for training.
