El descubrimiento de América que todavía no fue y otros escritos

The Conquest of America is a fascinating study of cultural confrontation in the New World, with implications far beyond sixteenth-century America. The book offers an original interpretation of the Spaniards' conquest, colonization, and destruction of pre-Columbian cultures in Mexico and the Caribbean. Using sixteenth-century sources, the distinguished French writer and critic Tzvetan Todorov examines the beliefs and behavior of the Spanish conquistadors and of the Aztecs, adversaries in a clash of cultures that resulted in the near extermination of Mesoamerica's Indian population.

One of the twentieth century's enduring works, One Hundred Years of Solitude is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Alternately reverential and

comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.

Here is an intriguing exploration of the ways in which the history of the Spanish Conquest has been misread and passed down to become popular knowledge of these events. The book offers a fresh account of the activities of the best-known conquistadors and explorers, including Columbus, Cortés, and Pizarro. Using a wide array of sources, historian Matthew Restall highlights seven key myths, uncovering the source of the inaccuracies and exploding the fallacies and misconceptions behind each myth. This vividly written and authoritative book shows, for instance, that native Americans did not take the conquistadors for gods and that small numbers of vastly outnumbered Spaniards did not bring down great empires with stunning rapidity. We discover that Columbus was correctly seen in his lifetime--and for decades after--as a briefly fortunate but unexceptional participant in efforts involving many southern Europeans. It was only much later that Columbus was portrayed as a great man who fought against the ignorance of his age to discover the new world. Another popular misconception--that the Conquistadors worked alone--is shattered by the revelation that vast numbers of black and native allies joined them in a conflict that pitted native Americans against each other. This and other factors, not the supposed superiority of the Spaniards, made conquests possible. The Conquest, Restall shows, was more complex--and more fascinating--than conventional histories have portrayed it. *Seven Myths of the Spanish Conquest* offers a richer and more nuanced account of a key event in the history of the Americas.

Dazzled by the sight of the vast treasure of gold and silver being unloaded at Seville's docks in 1537, a teenaged Pedro de Cieza de León vowed to join the Spanish effort in the New World, become an explorer, and write what would become the earliest historical account of the conquest of Peru. Available for the first time in English, this history of Peru is based largely on interviews with Cieza's conquistador compatriates, as well as with Indian informants knowledgeable of the Incan past. Alexandra Parma Cook and Noble David Cook present this recently discovered third book of a four-part chronicle that provides the most thorough and definitive record of the birth of modern Andean America. It describes with unparalleled detail the exploration of the Pacific coast of South America led by Francisco Pizarro and Diego de Almagro, the imprisonment and death of the Inca Atahualpa, the Indian resistance, and the ultimate Spanish domination. Students and scholars of Latin American history and conquest narratives will welcome the publication of this volume.
