Intro

The Grant family has just lost a loved one. A family member informs you that their culture does not permit a dead person to be left alone before burial. Hospital policy states that all bodies are to be stored in the hospital morgue. How would you best handle this situation?

Your patient, Mr. Smith is elderly, has cancer and has been told he has less than 4 months to live. He has decided to enter hospice care. His family disagrees with his decision and has asked you to talk him out of it. What should you do?

What are the 6 links in the chain of infection?

Mrs. Smith is very emotional and cries very easily so she refuses to go to chapel because she will embarrass herself by crying. How should you help with this?

Your coworker has just come back from maternity leave and she seems very down and depressed. You understand that, in some cases, new mothers may not want to leave their newborn to come back to work and may suffer from hormonal originated depression called the baby blues. Having these considerations, which are important to foster team building, is the result of

Which is a physical, Integumentary risk among the elderly population?

Mr. Blaze complains of pain. You notify the nurse, who administers pain medication. While waiting for the medication to work, you can ease his pain by performing the following interventions except

Mr. Dale has insomnia. You can assist him in managing this condition by

Mr. Nick has a neck brace that he is supposed to wear when he is out of bed. He often takes it off or does not put it on when he gets up. He says it smells. How can you help in this situation?

What is a developmental disability?

Nursing assistants work in a lot of different places. One place that CNAs work is a skilled nursing facility. This type of facility is also called a

Which of the following tasks can the CNA legally perform?

Who should be members of a patient care conference?

You are assigned to give a bath to Mrs. Turner. She is an uncooperative 572-pound woman, who can sometimes be uncooperative. Mrs. Turner has trouble getting up and turning over on her own. How can you best perform this task?

As a CNA, you are assisting the EMTs move a new resident from the stretcher to the bed. You notice a skin rash and pustules around the resident's scalp and ears. What should you do?

You are the CNA assigned to clean Mrs. James' room. While you are doing this, you start to clean her clothes closet. In the closet you discover several articles of clothing with other resident's names on them. You have been informed in report that articles of clothing are missing from other resident's rooms and the families of those residents are suggesting that someone has stolen the clothing. What should you do?

Your patient's face is grimacing. What do you think your nonverbal patient is communicating to you?

A sign of depression is

Alzheimer's disease patients wander. The dangers associated with this wandering can be prevented with which of the following?

Biomolecules Notes

What is it? Proteins are enzymes and structural components Purpose: Enzymes speed up chemical reactions by lowering the activation energy and structural proteins are building components

What is the monomer of a protein?

How do enzymes speed up chemical reactions?
 Which biomolecule contains CHO in a 1:2:1 ratio?
 What is another word for a polymer of a protein?
 Which elements are in lipids?
 What is the purpose of carbohydrates?
 Steroids fall under which biomolecule category?
 A phosphate, sugar, and nitrogen base make up.....
 What binds to an enzyme?
 What's the difference between saturated and unsaturated lipids?
 What reaction takes monomers and makes polymers?
 What is cholesterol?
 What reactions is considered a breaking reaction?
 What is the product of an anabolic reaction?
 Carbohydrates Lipids Proteins Nucleic Acids
