replace the bottom bobbin with a bobbin
place the bobbin
insert the bobbin
practice stitches with the cardboard paper
turn the knob on the side of your machine
start the stitches
change the setting from zero to one
change the tension to a two

How to Thread a Machine | Sewing Machine - How to Thread a Machine | Sewing Machine by Howcast 1,682,195 views 10 years ago 3 minutes, 39 seconds - So, you should always look at your **sewing machine's user's manual**, for exact instructions on how to thread a machine. But there is ...

First thing I want to do is put it though this top loop, and then I'm going to pull the thread down, and that's going to pull the thread through the tension disks.

So, you always want to make sure that your thread is through the tension disks, which will change the tension on your sewing.

And now I need to put my thread through this piece that pulls the thread up and down.

So, I want the lever in its highest position, and then I'm going to pull the thread through.

Now, some machines, like mine, have an automatic needle threader.

If the needle is in the highest position, I can just pull this down, and a little, tiny hook goes though the eye of the needle.

And then take your thread and put it underneath your presser foot, and you are done.
