Bonds of Love

Bonds of love offers a fresh interpretation of a selection of prophetic texts that present the covenant relationship as a marital relationship. The accent in this study is on method: historical and biographical categories such as 'the prophet' and 'his career' are left aside in order to concentrate on the composition and internal cohesion of the text. The reading strategy developed in this book is both synchronic and communication-oriented. Since prophetic texts essentially consist of speech, it is insufficient to study the text in abstraction from the audience that it addresses. The texts have a communication purpose, and a three-part model is developed in order to investigate the communication effects of the text on the implied audience and the contemporary reader. The studies of Isaiah 50 and 54, Hosea 1-3 and Jeremiah 2-3 reveal that a synchronic interpretation of these texts can be very fruitful. Larger patterns of coherence come to the surface when one refrains from the procedure of atomizing the texts in original and secondary parts. The final chapter is devoted to the theological implications of the marriage imagery. What intriguing model of divine and human partnership is presented here? And what sort of intimate interaction between Yhwh and Israel is precisely envisioned?

The Sacred Bonds of Commerce

This study analyzes the religious mentality, commercial practices, and social composition of Roman trade society at the celebrated Hellenistic Greek, Roman Republican emporium of Delos, 166-87 B.C. The remains of this site date largely to the late second and early first centuries B.C., when Delos was the nerve center of the trans-Mediterranean luxury and slave trade of Roman Italy. Repeated military assaults between 87 and 69 B.C. destroyed the community and its trade importance declined. But as an archaeological site it offers the earliest and most detailed remains of a Roman trade community

to survive anywhere in the Mediterranean world, including the city of Rome itself. This study marks the first re-assessment and interpretation of these remains from the vantage point of Roman trade in more than seventy years. Among the subjects discussed are the religious character of the remains of Delian marketplaces and their likely commercial function; the role of oaths and, more particularly, of the gods, Mercury and Hercules, in Roman commerce; the tendency of Roman traders to organize themselves according to religious fraternities and the manner in which this enhanced trade activities such as finance; the social status of these traders in wider Roman society as reflected by their house remains; and, finally the identity of the mysterious Agora of the Italians.

Women in Ancient Greece

Largely excluded from any public role, the women of ancient Greece nonetheless appear in various guises in the art and writing of the period, and in legal documents. These representations, in Sue Blundell's analysis, reveal a great deal about women's day-to-day experience as well as their legal and economic position - and how they were regarded by men.

Do parents with adoptive children see themselves as similar to or different from nonadoptive parents? Is the stigma attached to adoption lessening? Does open communication about adoption contribute to the family's well-being? How successful are adoptive adults at putting their adolescent turmoil behind them? These and many other important and complex questions are addressed in Families and Adoption, an informative guidebook that shows you how adoption is both a condition and a lifelong

process. *Families and Adoption* discusses legislation that can serve the needs of various members of the adoptive experience to deepen your understanding of the key legal issues associated with consent and openness. It also provides you with detailed coverage of changes in adoption law, open adoption research results, transracial and transethnic adoption, and the consequences of placing versus parenting for unmarried, teenage women who give birth. Graduate students, social workers, adoption professionals, members of adoptive families, and couples wishing to adopt will find there isn't a rock that *Families and Adoption* leaves unturned. It presents you with vital information on the following topics: the developmental stages of reunion between an adoptive child and birth parent, notions of adoption, parenthood, and kinship and how these notions are challenged after a reunion has taken place, the institution of adoption as it has existed for decades in American society, international adoption, respecting the bonds children have and helping them develop critical attachment skills, those who "accept" open-adoption and those who "embrace" it, flexible parenting styles and their positive effect on developmentally vulnerable adoptees. A skillful blend of personal adoption experiences and research studies, *Families and Adoption* explores the special issues adoption presents and how all parties involved can work together to improve placement decisions, ensure that a woman is confident in her decision to relinquish her child, and help families select the most appropriate adoption arrangement. The book's main strength is that it doesn't just look at the initial considerations of adoption; it prepares you for the issues that will arise along the way.

The Economist

This book offers the first multidisciplinary analysis of the "wordless novels" of American woodcut artist and illustrator Lynd Ward (1905–1985), who has been enormously influential in the development of the contemporary graphic novel. The study examines his six pictorial novels, each part of an evolving experiment in a new form of visual narrative that offers a keen intervention in the cultural and sexual politics of the 1930s. The novels form a discrete group – much like Beethoven's piano sonatas or Keats's great odes – in which Ward evolves a unique modernist style (cinematic, expressionist, futurist, realist, documentary) and grapples with significant cultural and political ideas in a moment when the American experiment and capitalism itself hung in the balance. In testing the limits of a new narrative form, Ward's novels require a versatile critical framework as sensitive to German Expressionism and Weimar cinema as to labor politics and the new energies of proletarian homosexuality.

The Blessing Cup

Life can be experienced as a great play — sometimes a comedy, sometimes a tragedy, sometimes an epic, sometimes a satire, but always a play. We can think of ourselves as the main character in our own story. Author Peggy Rubin brilliantly uses traditional theatre as a metaphor for living life more authentically and joyfully. To understand our lives as a sacred art form, Rubin traces the roots of theatre to ancient rituals that celebrated the eternal nature of the soul. She provides the tools to tap into the nine powers of sacred theatre so that our lives can resonate with our highest purpose, including *The Power of Incarnation*, *The Power of Story*, *The Power of Place*, *The Power of Now*, *The Power of Expression*, *The Power of Point of View*, *The Power of Conflict*, *The Power of Audience*, and *The Power of Celebration*. "Playing the play of life is a daring adventure," says Rubin. "It takes courage, focus, excitement, and intention to stop just letting our stories happen and instead enact them with verve and delight." Here she invites readers to take the stage of life and play their story for all it is worth.

The Musical World

The dead of Paris, before the French Revolution, were most often consigned to mass graveyards that contemporaries described as terrible and terrifying, emitting "putrid miasmas" that were a threat to both health and dignity. In a book that is at once wonderfully macabre and exceptionally informative, Erin-Marie Legacey explores how a new burial culture emerged in Paris as a result of both revolutionary

fervor and public health concerns, resulting in the construction of park-like cemeteries on the outskirts of the city and a vast underground ossuary. *Making Space for the Dead* describes how revolutionaries placed the dead at the center of their republican project of radical reinvention of French society and envisioned a future where graveyards would do more than safely contain human remains; they would serve to educate and inspire the living. *Legacey* unearths the unexpectedly lively process by which burial sites were reimagined, built, and used, focusing on three of the most important of these new spaces: the Paris Catacombs, Père Lachaise cemetery, and the short-lived Museum of French Monuments. By situating discussions of death and memory in the nation's broader cultural and political context, as well as highlighting how ordinary Parisians understood and experienced these sites, she shows how the treatment of the dead became central to the reconstruction of Parisian society after the Revolution.

Barbara Schoener, a proudly proclaimed reformed helicopter parent, saw a need to pass on some practical tips when it comes to navigating the very stressful college admissions process and the ensuing journey that commences once a college selection has occurred. A mother of two very different children, almost 6 years apart in age, she found these two journeys had some similarities that remained constant. She felt that a holistic approach to what transpires in the years leading up to setting up camp in a college dorm and then beyond could be beneficial in the hopes of helping ease this transition for other families. Looking back after steering her children in their selections of two very different universities, both several states away from home, this book came to fruition. She hopes that in some small way to be of service. She feels you can actually enjoy this journey, make some great memories along the way while navigating the process that will culminate in one of life's biggest decisions for all involved. Fingers crossed that the right decisions are made all around!

THE CHURCH HERALD.

This fascinating biography tells the story of nineteenth-century America through the life of one of its most charismatic and influential characters: Sojourner Truth. In an in-depth account of this amazing activist, Margaret Washington unravels Sojourner Truth's world within the broader panorama of African American slavery and the nation's most significant reform era. Born into bondage among the Hudson Valley Dutch in Ulster County, New York, Isabella was sold several times, married, and bore five children before fleeing in 1826 with her infant daughter one year before New York slavery was abolished. In 1829, she moved to New York City, where she worked as a domestic, preached, joined a religious commune, and then in 1843 had an epiphany. Changing her name to Sojourner Truth, she began traveling the country as a champion of the downtrodden and a spokeswoman for equality by promoting Christianity, abolitionism, and women's rights. Gifted in verbal eloquence, wit, and biblical knowledge, Sojourner Truth possessed an earthy, imaginative, homespun personality that won her many friends and admirers and made her one of the most popular and quoted reformers of her times. Washington's biography of this remarkable figure considers many facets of Sojourner Truth's life to explain how she became one of the greatest activists in American history, including her African and Dutch religious heritage; her experiences of slavery within contexts of labor, domesticity, and patriarchy; and her profoundly personal sense of justice and intuitive integrity. Organized chronologically into three distinct eras of Truth's life, *Sojourner Truth's America* examines the complex dynamics of her times, beginning with the transnational contours of her spirituality and early life as Isabella and her embroilments in legal controversy. Truth's awakening during nineteenth-century America's progressive surge then propelled her ascendancy as a rousing preacher and political orator despite her inability to read and write. Throughout the book, Washington explores Truth's passionate commitment to family and community, including her vision for a beloved community that extended beyond race, gender, and socioeconomic condition and embraced a common humanity. For Sojourner Truth, the significant model for such communalism was a primitive, prophetic Christianity. Illustrated with dozens of images of Truth and her contemporaries, *Sojourner Truth's America* draws a delicate and compelling balance between Sojourner Truth's personal motivations and the influences of her historical context. Washington provides important insights into the turbulent cultural and political climate of the age while also separating the many myths from the facts concerning this legendary American figure.

Sacred Bond

With Americans turning against the war in ever greater numbers, struggles for power between the government and the military, and no end in sight to the fighting, the Tet Offensive of 1968 proved to be the turning point of the Vietnam War. In *The Tet Offensive*, historian William Thomas Allison provides a clear, concise overview of the major events and issues surrounding the Tet Offensive, and compiles carefully selected primary sources to illustrate the complex military, political, and public decisions that made up Tet. The Tet Offensive is composed of two parts: an accessible, well-illustrated narrative overview, and a collection of core primary source documents. Throughout the narrative, historiographic questions are addressed within the text to highlight discussion among historians over pivotal points of debate. The objectively selected documents provide students with raw material from which to gain insight into these events through their own analysis, and to improve their ability to discuss and understand the importance of historical scholarship. Approachable and insightful, *The Tet Offensive* is not only a great introduction to reading history through primary sources, it is an essential tool for understanding what made the Tet Offensive such an important turning point of the Vietnam War.
