Chaos in Mechanical Systems, Routhian, Ignorable Coordinates & Symmetries, Noether's Theorem Lect 24 - Chaos in Mechanical Systems, Routhian, Ignorable Coordinates & Symmetries, Noether's Theorem Lect 24 by Dr. Shane Ross 613 views 3 years ago 58 minutes - Dr. Shane Ross, Virginia Tech. Lecture 24 of a course on analytical dynamics (Newton-Euler, Lagrangian dynamics, and 3D **rigid**, ...

We start with a brief discussion of chaotic dynamics in mechanical system and how it relates to the number of constants of motion in a system, then spend the rest of the time discussing the general Routhian method, and its relationship to physical symmetries of a system. For example, the spherical pendulum and double pendulum are both 2 degrees of freedom, with a 4-dimensional ODE phase space, but the double pendulum is chaotic and the spherical pendulum is not.

We discuss the general Routhian procedure for n degrees of freedom with n-k of them 'ignorable' (also called 'cyclic variables'). This is a method of effectively reducing the number of degrees of freedom from n to k. Each ignorable coordinate is related to a conserved 'generalized momentum'.

Routh-Jacobi constant: Under certain circumstances, there is an energy-like conserved quantity, which we might call the Routh-Jacobi integral or constant of motion

We discuss the connection between ignorable coordinates, constants of motion and physical symmetries of a system (related to Noether's theorem).

We work through several examples, starting with a point mass in a gravity field.

Example: cart-pendulum system

Example: 2-mass baton or dumbbell system sliding along the ground right after it released from the wall (e.g., a ladder sliding off a wall).

Example: spinning top

Word of caution: sometimes the choice of generalized coordinates for describing your system conceals the existence of symmetries. Orbital motion in 2D is given as an example.

We end with the tantalizing possibility that one can find coordinates for a system in which \*all\* coordinates are ignorable, which is related to Hamiltonian mechanics, action-angle variables, and the Hamilton-Jacobi approach, which is described starting here

And Meaning that We Experience Here on Earth and the Sixth Sense Is beyond Earth It Includes the Earth and It's beyond Earth and in Order To Work with the Sixth Sense Which Is the Creator Energy That Created Everything We Have To Do It from a Place of Light Heartedness So if You Are Looking To Create Something and Stimulate the Universal Mind into Bringing It Forth What You Have To Do Is Embrace a Light Hearted Energy about the Thing and Whatever It Is that You Embrace Will Allow To Be Expressed through the Various Subconscious Minds That Are Connected to the Universal Mind and What You'LI Find Is You'LI Attract the People Environment and Circumstance That Will Bring It Forth More and More People Will Show Up within Your Awareness

With that You Release Yourself from a True Identity Which Is from a Place of Abundance because Remember Your Identity Your True Identity Comes from Infinite Intelligence or the Superconscious and It Is Your Soul's Vision and by Releasing the Grip of the Identity That's the False Identity You Release into Identifying and Working with Your True Identity and Then You Cultivate that through the Process of Mental Chemistry as Described in those Controlled Chaos or Adversity Based Scenarios and Being Aware that You Might Excessively Polarize Yourself to Something Now Even Fear and Love Are Two of the Same Thing So When You'Re Experiencing Fear You Can Release Fear and Go into a Place of Unconditional Love

And as You Experience the Light Energy What You Do You Have Faith That Comes Back to You See the Law of Correspondence States What You Put Out Comes Back to You Everything You Put Out Comes Back to You and if It's Success You Want To Create and You Know I Talked a Lot about Entrepreneurship on this Channel Well Creating Success as an Entrepreneur Is a Net Result of Creating Products and Services That Are Needed and Useful and Delivering that Over to the Marketplace

This Is a High State of Consciousness a Higher Degree of Awareness That Is Embraced through Understanding and Embracing Chaos and Hardship and Adversity and Realizing that Many Successful

People in Life or Anyone That Has Achieved a High Degree of Anything whether It Be in the Business World or the Spiritual World Has at some Point Embraced the Various Chaos They'Ve Had in Their Life and Eventually Learned How To Transmute It either through What We'Re Describing Here Maybe They Understand this and It Can Explain It or They Somehow Tapped into It because You Don't Have To Consciously Know this Stuff You Just Have To Find Yourself Listening to Your Inner Voice So When I Used To Go about Creating Success in Business before I Did It from Very Much from a Place of Energetic Force like I Used To Force Myself To Do Things and Now I Flow Myself To Do Things I'M Far More Productive I'M Far More Effective I'M Far More Efficient than I'Ve Ever Been that's Why I Created those Trainings on the Productivity in the Communication Training because those Trainings Are Actually about Flow Based Communication and Flow Based Productivity To Create Success in Your Life and You Actually Get Far More Success and You Work a Lot More Effectively Efficiently and You'Re a Lot Happier in Your Life

And What Is Being Revealed to Us about Ourselves We Can Understand Embrace and Evolve and Change within To Realize Our Definite Chief Aim so the Boy in Hill Says You Come Now to the Study of Self-Control through Which You May Direct Your Enthusiasm to Constructive Ends without Self-Control Enthusiasm Resembles on Harnessed Lightning of an Electrical Storm It May Strike Anywhere It May Destroy Life and Property Enthusiasm Is a Vital Quality That Arouses You to Action while Self-Control Is a Balance Wheel That Directs Your Action so It Will Build Up and Not Tear Down To Be a Person Who Is Well Balanced You Must Be a Person in Whom Enthusiasm

Through Which You May Direct Your Enthusiasm to Constructive Ends without Self-Control Enthusiasm Resembles on Harnessed Lightning of an Electrical Storm It May Strike Anywhere It May Destroy Life and Property Enthusiasm Is a Vital Quality That Arouses You to Action while Self-Control Is a Balance Wheel That Directs Your Action so It Will Build Up and Not Tear Down To Be a Person Who Is Well Balanced You Must Be a Person in Whom Enthusiasm and Self-Control Are Equalized So Definitely Fame and the Burning Desire towards Your Definite Chief Aim Is Your Enthusiasm but if You Have Too Much Burning Desire and Too Much on the Side of Wanting It You'Re Not Going To Be Present

There Are Various Things That I Do To Release Myself and Get Myself More into a Detachment from Outcomes Space Number One Is that I Realize that My Vision Is My True Identity and this Is the Vision of My Soul and It Will Be Brought Forth Number Two Is It Will Be Brought Forth in the Way I Believe It'LI Be Brought Forth as You Believe so It Shall Be Done unto You and the Way I Believe Is through Joy Bliss and Ease and Harmony Spirit of Service High Quality Products and Service Quantity and the Spirit of Harmony in Which I Deliver It Making It a Benefit for Me Benefit for those That I Serve and Benefit for Evolution or Divine

And You Say this Is My Definite Chief Aim You Begin To Realize Your Vision and Realize Your Identity You Start Moving in that Direction during that Direction You'Re Going To Reveal Yourself to Yourself through People Environment and Circumstance and You'Re Going To Experience Positive Emotions or Negative Emotions if You Experience Negative Emotions You Have To Ask Yourself What within Me Is Projecting that Outwards To Materialize into for To Reveal to Me about Myself and What's the Work I Need To Do with Myself Is It because There's Something within My Subconscious that I Have Not Addressed

If You Experience Negative Emotions You Have To Ask Yourself What within Me Is Projecting that Outwards To Materialize into for To Reveal to Me about Myself and What's the Work I Need To Do with Myself Is It because There's Something within My Subconscious that I Have Not Addressed and that's Why I Recommend My Subconscious Mind Training or Doing Subconscious Work as a Result of Releasing that Programming You Start To Move towards Your Definite Chief Aim a Lot Faster More Harmonious You'Re More Inflow We Don't Experience those Situations That Are Distractions They Would Look at Us and Say Okay Don't Do this Thing You'Re a Bad Person for Your Bad Boy for Doing It or a Bad Girl for Doing and They Would Shame You Unknowingly Not Knowing that that's Also Being Infused in Your Subconscious Mind so We Actually Learned Then by Infusing It with Shame and Then We Go through Life Actually Looking for Learning Opportunities Where We Want Shame as Part of the Learning Opportunity and the Truth Is this Shame and Learning Are Not Part of Progress in a Harmonious Way Shame Is a Fear-Based Thing and What We'Re Really Creating within Ourselves Is Issues in Our Mind

If You Want To Get Really Good at Programming Your Subconscious Mind You Have To Build that Relationship with Your Subconscious Mind and if You'Ve Been Harming Your Subconscious Mind by Infusing It with Shame Then You'Re GonNa Bring It Forth Thus We Always Want To Remember that When We Encounter Various Situations that Distractions in the External World That We Don't Shame Ourselves or Get Angry at the Distraction but I Understand What Is the Cause within You Could Ask

the Subconscious Minds You Could Say Subconscious Mind I Realize that I Get Distracted because There Is Something That Is within Me That Is Projected in the External World To Materialize into Form I Also Realized that Is It an Expression of My Past and I Also Realized that My Vision Is a True Identity And I Honor You I Protect You I Guard You and I Choose To Find Myself in Environments People and Circumstances That Honor It Like I Honor You that's How You Build a Very Deep Relationship with Yourself Now as a Result of that You Are Cultivating Your Inner Voice So Again Let's Talk about this the Definite Chief Aim Is Where You'Re Moving towards Your Vision Is Your True Identity and in the Process of Realizing Your Vision You Realize and Become Your Identity and during that Journey You May Experience Distractions Negative Things That Show Up and It's Important To Understand that It Is Coming from the Subconscious Mind Based on Past Programming

Any Distractions That Show Up Reveal to You about Yourself and You Don't Get Angry about It but You Address It within and What You'LI Find as a Result of Doing It that You Will No Longer Be Distracted You'LI Find Yourself Being in Flow Anything Distracts You It May Actually Be Valid for You or It Might Be Something That's Revealing What's within and either / or You Don't Get Angry about It and Shame Yourself and Infuse Further Shame in You but You Release It from a Place of Understanding and Embrace because You Have the Power To Program Your Subconscious Mind

And It Is Done by Understanding One of the Ways Is that Adversity Negative Experiences You Can Take It or any Frustration on Whatever Emotions That You Feel You Can Transmute that Over to a Positive Constructive Outlet in Your Mind You Have To First Believe It's Possible and You Have To Train Yourself To Do this so You CanNot Theorize It You Have To Train Yourself One of the Best Ways To Do this Is by Placing Yourself in Situations Circumstance and Environments That Are Adversity Based To Create Flow That's Why I Really Recommend Everyone Start a Business or Do Take On a Project That Is both and Engaging and Motivating To Develop this Ability because It's Not Just about the Destination

And We'Re Even Taking Things That We Can't Put into Kpis into Progress Pieces like for Example 25 % of the Progress Sorry 25 % of the Project Is What I'M Looking To Complete at the End of the Week that Being a Very Clear Goal There's a Balance between Challenge and Skills as You'Re Doing the Task You Are Embracing the Adversity You Are Recognizing that Flow Is Very Important and You Are Finding Flow so You Can Look at this at the Stage and Say You Have Gotten to a High Degree of Ability To Work with Mental Chemistry

You Are Embracing the Adversity You Are Recognizing that Flow Is Very Important and You Are Finding Flow so You Can Look at this at the Stage and Say You Have Gotten to a High Degree of Ability To Work with Mental Chemistry When You Can Take Just about any Situation That Is Related to Arjun Definite Chief Fame and Fine Flow in It and It's Going To Be a Balance between Challenge and Skills so if Something Is Too Challenging You Might Feel Overwhelmed by Break It Down into Small Sections

So We Talked about this before that Distractions Reveal to You about Yourself as You'Re Being Distracted You Have To Ask Yourself Why Is It that You'Re Being Distracted What Is It Telling You and Depending on What Your Goals and Objectives Are It Could Be Various Different Things but When You'Re in Flow You No Longer Get Distracted and if You Get Distracted You Fall out of Flow Don't Shame Yourself Don't Get Angry with Yourself Ask Yourself What Can Be Done about It and Put Something in Place so You No Longer Experience that and Then a Lot of Times Involve Changing Elements within the Subconscious Fear of Failure Tapers Away and Fears Start To Go Away and as a Result of that
