This Swordsman Come Forward but There Is an Archer in the City with a Massive Amount of Combat Promotions Here plus 10 Garrison plus Five Volley Means We Do a Ton of Damage any Units Coming In and So this Guy Should Be Able To Defend the City Pretty Well and I Can Always Bring Horseman Over if that City Is Ever under Real Threat Quadrivium Is Making Their Way We'll Go to the Next Turn I'M Kind Of Doing Everything a Little Bit Inefficiently Right Now but It's Kind of Working Out for Me I Will Never Ever Sell My Iron I Need that Iron I'M Sorry Okay that Spearman Is a Bit of an Annoyance So Can You Cross Back across the River and Shoot that Guy

I Think I'M GonNa Bring this Settler Down Here and Forward Settled Rome To Get Even More Just Control of this Island and Then I Think if I Can Grab Ostia I'll Piece Him Out I Think that Would Be if that Would Be the Moment because I'M Currently Just Dominating Him Right I Have So Much More Military than Him I Have an Equivalent Science Equivalent Culture Roughly Speaking He's Slightly Ahead but Not to a Degree That I Would Be Terrified We Also Picked Up Military Training So I'M Happy To Take the City Center One because It Means I GotTa Be Able To Build Up My Cities Love a Quicker I Would Also Take Campus but Campus Would Help Other Players a Little Bit More

than It Would Help Me because They Already Have Their Campuses Placed So I Think I'M GonNa Go Ahead and Do Public Relations against Myself It Would Be Ideal if I Could Get that but I Don't Care That Much and I Want To Save My Diplo Favor for Other Things I'M Not GonNa Invest Too Heavily in these Right Now Oh Yeah I Completely Forgot To Show You Guys That because I Gave Matheus a Single Gold

If We Were Going for some Sort of Tourism Play Monarchy Would Be Much Better because It Would Give Us Housing from Walls Which Would Be Building Anyway but since We'Re Not It's Also Good for like an Early Militaristic Game but We'Re Not Going for Military Anymore Theocracy Would Be Good if We Were Going for some Sort of Religious Play and We Could Actually Go for a Religious Play if We So Wanted To but We'Re Kind Of More in the Economic Play So I Like the Idea of Getting plus 15 % Production to Districts because We'Re a Little Bit Behind in District Production

Would Be Good if We Were Going for some Sort of Religious Play and We Could Actually Go for a Religious Play if We So Wanted To but We'Re Kind Of More in the Economic Play So I Like the Idea of Getting plus 15 % Production to Districts because We'Re a Little Bit Behind in District Production So I Kind Of like the Idea of Heading towards Exploration the Other Option We Can Go for Is Diplomatic Service To Get Early Spies and Get the Vessel Banking Character Trade with Our Allies

This Will Allow Me To Do a Bunch of Chops with these Builders Coming Out on these Tiles That'LI Allow Me To Get this City Up and Running and Then I'LI Pop Liang in Here I Get My Holy Sight and Stuff like that Okay Let's See Look Denham Has all of Its Basic City Centre Buildings up and Running I Could Use Builders in Here the City Is Never GonNa Grow without Builders and I Had To Have Two Luxuries To Improve so Builder Return on Investment Is Extremely High Here There Are Also Not That Amazing Other Places for Things like District Wise So this Might Actually Eventually Be Just like a Kind of Buffer

I Think It Could Have Been that this Was Pillaged because of the Solar Flare Which Really Sucks Cuz that's a Huge Amount My Science and Faith That I'Ve Just Lost We Got the Granary in a Red Iam the City Is Now Ready To Start Producing It Needs a Builder To Chop these Things Out so We'LI Go for a Builder I Need To Chop Out this Hill so I Can Place a Thing There Did I Already Unlock Dams no It's on My List though I'LI Go Ahead and See if I Can Get Dams a Little Bit Sooner

It's Not Usually Great To Actually Work It but if You Settle It You Get that plus One Faith per Turn in

Your City and that Can Mean an Earlier Pantheon without Actually Having To Work a Suboptimal Tile but the the Main Thing I Would Say Is if You'Re a New Player You Want To Look for Somewhere that You Can Settle that Has Good Yields Adjacent to the City Center So for Example if I Settle in Place I Will Have Adjacent to My City Center One Tile with Zero Profit 3 Tiles with One Profit and Two Tiles with Two Profit and So I Would Give these a Score of like 1

Here It Is Rationalism Gives You a 50 % Bonus to the Science Yield from Buildings inside Your Campus if the District Has At Least + 3 Adjacency and So since I Know that I Can Guarantee a + 3 Adjacency in this Campus I Know I'M Going To Get At Least a 50 % Boost if I Plug that Card in and this Card Is Extremely Important for Maximizing the Amount of Science That You Get from Your Buildings You Also Get a 50 % Bonus if the Population of the City Is 10 or Higher this Is a Pretty High Housing

Now the Other Interesting Thing about the Harbor Is if We Build this Relatively Early this Opens Up some Options for Us in Particular It Gives Us the Ability To Build the Mausoleum at Halicarnassus the Mausoleum at Halicarnassus Is Really Useful for a Number of Reasons First of all It's a Wonder that the Ai Typically Doesn't Really Go for but It Also Gives a Science Faith and Culture Which Are all Things That We Want To Be Getting as Arabia because Arabia Is a Civilization That Can Boost all of these Yields with Our Tear for Our Two or Three Worship Buildings Coming from Our Religion There Are Situations You Want To Go for It whereas if You Know You'Re Not Going To Be Settling a Bunch of Cities and You Want To Get to Colonization Really Really Early You Can Just Go Straight Monument but I Would Say this Is Generally a Pretty Weak One Especially When You'Re Playing on Higher Difficulties because It Leaves You To Open to Early Aggression and Generally What I Would Recommend Is Getting At Least One Scout Maybe Two so the Reason You Want To Go for a Scout Is

What I Would Recommend Is Getting At Least One Scout Maybe Two so the Reason You Want To Go for a Scout Is It's Actually a Kind of a Complex Way To Describe Things but Basically Out on the Map There Are a Bunch of Things That if I Discover Them First I Get Benefits so for Example if I Find a Tribal Village First I Get the Opportunity To Capture that Tribal Village Maybe I'Li Get a Builder Right So I Could Spend Six Production Sorry Six Turns of Production 30 Production on a Thing Called a Scout and Potentially Get a 50 Production Unit in Return Which Means I'M Profiting 20 Production Movement
