Sleeping Beauty

"Think you've found true love? Keep dreaming." Sure, Claire Beau thought about sleeping with her doctor. With his moss green eyes and sexy petulance, neurologist Brendan Charmant is definitely worth fantasizing about. But she didn't actually do it...did she? Claire should be able to answer this simple question, but she has no idea. The only thing she knows for sure is that she met him in a sleep lab for an appointment one day, and woke up at home seven weeks later to find that he's suddenly her boyfriend instead of her doctor. According to Brendan, her brother, and her best friend, Claire is in the middle of a whirlwind love affair with him, a claim bolstered by the weeks of steamy emails and text messages the two of them have exchanged. But to Claire, he's just the arrogant doctor with only a passing interest in finding a diagnosis for her debilitating symptoms. Claire Beau is afflicted with "Sleeping Beauty Syndrome," a mysterious disorder that causes her to sleep for days at a time, and black out for entire weeks. Dr. Brendan Charmant might have given her the best night (or two, or three) of her life, but she has no memory of ever seeing him out of his white coat. Still, she can't help finding herself more than willing to fall for him (again). After all, doesn't every girl deserve a Prince Charming? But when Brendan's arrested, and she discovers that she's the alleged victim of a heinous crime that she can't recall, she realizes that sometimes the best way to make your dreams come true is to just stay asleep. So why is she risking everything to save both of them from this hellish, waking nightmare?
