And I Explain Very Briefly What these Are but They Came out of Two Things That that Vikings Standard Read In Russell One Was this You May Remember Russell's Spent a Little While in Prison during the First World War in 1918 during the Course of Which He Wrote a Book Called an Introduction to Mathematical Philosophy so Charlie Would Read Actually and in this Book He Makes Use of the Notion of Mathematical Induction That Is the Application of a Rule Will Always Guarantee the Same Outcome on each Occasion So for Example the Rule at One Will Always Give You the Successor to any Given Number if You Apply that Rule

Because of Course They Have Been Discussing these Matters Together before the War and They Had Gone in Rather Different Directions Very Very Austere Architectonic of the Tractatus in this Very Very Informal Sketchy Version of the Idea of Logical Atomism in Russell but Fundamentally the Idea Was Very Much the Same that There Are Structures that the Bottom Most Layer of Structure in the World Has To Be the the Sense-Data as Russell Called Them that We Have When We Have Empirical Experience out of Which We Build the Physical Objects That We Encounter in the World the Physical Objects Are Actually Constructions

And that of Course Is Precisely What Russell Is Doing in the Lectures in Logic Latium Ism Starting from the the Little Bits in the Computer a Sense of Sense Sensing That Goes On in the Inner Space of Our Consciousness from Which We Have To Infer an External World or Rebuild Confidence in these Internal States Being Genuinely Representative Representative of Something outside Ourselves and this Beacon Stein Recognized as Posing a Major Problem if You Were Starting as a Kind of Robinson Crusoe a Figure Just all on Your Own Solo To Talk about the Inner States of Your Own Consciousness How Could You Do It How Could There Be a Language Which Was Logically Private to Yourself in Which You Could Discuss these Things

Now How Would You Know that You Use that Sound To Denote the Experience That You'Re Having on the Later Occasion Well by Memory of Course because on the Second Occasion You'Re Remembering the Baptismal Occasion but Here's the Problem Doing that Is Very like Looking at Something in the Guardian Thinking Good God Can that Be True You Rush Out To Buy another Copy of the Guardian To See whether What the First One Says Is True So Really You You Would as a Solo Language User Never Be in a Position To Know whether You Are Using Terms with the Same
