Music Is My Life

Learn about music and emotion in this beautifully produced anthology Do you remember the first time you discovered an artist you really loved? Have you listened to them over and over again at different points throughout your life? This book harnesses that feeling, by collecting together 80 of music's finest artists to guide young people through the good, bad and sad times. Whatever the feeling, these artists

have been there and sung about it. Organised by mood, young ones can dip into the library to discover new artists from decades past to present day. Fall in love with Mariah Carey, shout about it with Nirvana, love yourself with Lizzo, or cry it out with Adele. With 80 artists, bands, and composers from all genres (including classical) there's something for every family member to love and recommend to the next generation. Each entry contains biographical information on each artist, lists must-hear songs, and has accessible musical analysis from author and journalist Myles Tanzer. Every artist is captured in full-colour, rocking art by Ali Mac. With information at the front on how to soundtrack your mood, and information at the back on how to listen to and make your own music. A pitch-perfect first introduction to music for tweens.

My Life and Music

"A clear picture of a musician of rare integrity." — The Musical Times. Highly readable reminiscences, musical philosophy of great pianist: his experiences as a child prodigy in turn-of-the-century Vienna, concert career, thoughts on great conductors and composers of the day, preferences in the repertoire, much more. Also includes "Reflections on Music," address delivered at University of Manchester, 1933. Introduction by Edward Crankshaw. 20 illustrations. Index.

In My Life

From being transported by the sound of 'True Love' by Bing Crosby and Grace Kelly on the radio, as a small child living in condemned housing in ungentrified West London in the late 1950s, to going out to work as a postman humming 'Watching the Detectives' by Elvis Costello in 1977, Alan Johnson's life has always had a musical soundtrack. In fact music hasn't just accompanied his life, it's been an integral part of it. In the bestselling and award-winning tradition of *This Boy*, *In My Life* vividly transports us to a world that is no longer with us - a world of Dansettes and jukeboxes, of heartfelt love songs and heart-broken ballads, of smoky coffee shops and dingy dance halls. From Bob Dylan to David Bowie, from Lonnie Donnegan to Bruce Springsteen, all of Alan's favourites are here. As are, of course, his beloved Beatles, whom he has worshipped with undying admiration since 1963. But this isn't just a book about music. *In My Life* adds a fourth dimension to the story of Alan Johnson the man.

Andre Rieu: My Music, My Life

Andre Rieu is a violinist, conductor and international classical music star, who has won the hearts of millions of music-lovers throughout the world with his extravagant concerts and sell-out tours. Born in the Netherlands in 1949, Andre started taking violin lessons at the age of five, the beginning of a love affair that would never end. As a student he was asked to take part in a salon ensemble and as he played his first waltz a whole new world opened up for him. From that time on Andre was hooked on the waltz rhythm and dreamt of creating a large orchestra that would enchant its audience. After recruiting his own 'Johann Strauss Orchestra', Andre began to tour. Crowned the "Waltz King"

My Music, My Life

Los Angeles, 1988. In a summer of hedonism, everyone wants their share. On Sunset Strip, undiscovered bands dream of emulating their heroes: Mötley Crüe, Van Halen, Poison and all the other chancers who got lucky... Above them in the canyons, the city's privileged youth already live like rock stars. Drifting between these separate worlds is a journalist on the trail of stories that grow darker by the day: a rock star wannabe who may or may not be who he says he is, a guitar player who will do anything to succeed, crossing the line between reality and fantasy. Then comes beautiful Iris, distant Brenna, ambivalent Blair, Lana the singer - taking their chances, losing their way, doing whatever it takes... Set in the glory days when the music business was a vast and amoral empire where stardom seemed arbitrary and sex, drugs and rock 'n' roll were the lifestyle of choice, *My Life and the Beautiful Music* blurs memoir, myth and reality to recreate the last, lost era of a now-vanished world.

My Life And The Beautiful Music

Brian Kay has spent his entire working life in a career that is both successful and rewarding. His fascinating collection of memories and anecdotes throws a hugely entertaining light on a life entirely devoted to the joy of music and music-making. He was the founder bass of the internationally renowned vocal group The King's Singers, spent the next 25 years writing and presenting thousands of programmes for BBC Radios - his own Brian Kay's Sunday Morning on Radio 3 to such Radio 2

favourites as Friday Night is Music Night and Melodies for You. He then moved back to the open spaces of the concert hall, conducting choral and orchestral concerts all over the world, including his annual 4000-voice Really Big Chorus Messiah from Scratch in London's Royal Albert Hall. He has been the lowest frog on a Paul McCartney single and a member of the backing group for Pink Floyd. Brian Kay recounts his fascinating life in intimate and amusing detail, sharing with us his great love of life and his abiding passion for music.

Music, My Life

Maceo Parker's signature style became the lynchpin of James Brown's band when he and his brother Melvin joined the Hardest Working Man in Show Business in 1964. That style helped define Brown's brand of funk, and the phrase &"Maceo, I want you to blow!&" became part of the lexicon of black music. He took time off from James Brown to play with George Clinton's P-funk collective and with Bootsy's Rubber Band; he also formed his own band, Maceo and All the King's Men, whose records are cult favorites among funk aficionados. Here Maceo tells his own warm and astonishing story, from his Southern upbringing to his career touring the world and playing to adoring fans. Maceo has long called his approach to the saxophone &"2% jazz, 98% funky stuff.&" Now, on the eve of Maceo's 70th birthday, in prose as lively and funky as his saxophone playing, here is the definitive story of one of the funkiest musicians alive.

98% Funky Stuff

Burt Bacharach is one of the most celebrated and legendary song-writers of the twentieth century. Throughout his sixty year career he has worked with artists from Dionne Warwick to Dr Dre, Marlene Dietrich to Elvis Costello. *Anyone Who Had a Heart* is the story of one of the greatest song writers of all time. It traces for the first time in his own words, the life and times of the man who created the music that has become the sound track for the lives of his millions of devoted fans all over the world. Bacharach's songs include: 'Magic Moments' - Perry Como, ' Baby It's You' - The Shirelles / The Beatles, 'Please Stay' - The Drifters / Marc Almond, 'Wishin' and Hopin'" - Dionne Warwick / Dusty Springfield / Ani DiFranco, 'Walk On By' - Dionne Warwick / The Stranglers, 'I Just Don't Know What to Do with Myself' - Dusty Springfield / The White Stripes, '(There's) Always Something There to Remind Me' - Sandie Shaw, 'A Message to Martha' - Adam Faith, 'What's New Pussycat?' - Tom Jones, 'Trains and Boats and Planes' - Billy J. Anyone Who Had a Heart

With stunning new photographs and a new final chapter detailing Ravi Shankar's hope for the preservation of Indian classical music, this updated edition of *My Music, My Life* profiles an extraordinary man. In his own words, Shankar describes his transformation from a young traveling dancer to a Grammy Award-winning, internationally known musician. An autobiography, a history of Indian classical music, and a manual on how to play the sitar, this book is about music as a both a lifestyle and an art. It embodies Ravi Shankar's unique approach to his craft.

Owain Arwel Hughes

In *Kentucky Traveler*, Ricky Skaggs, the music legend who revived modern bluegrass music, gives a warm, honest, one-of-a-kind memoir of forty years in music—along with the Ten Commandments of Bluegrass, as handed down by Ricky's mentor Bill Monroe; the Essential Guide to Bedrock Country Songs, a lovingly compiled walk through the songs that have moved Skaggs the most throughout his life; *Songs the Lord Taught Us*, a primer on Skaggs's most essential gospel songs; and a bevy of personal snapshots of his musical heroes. For readers of Johnny Cash's autobiography, lovers of *O Brother Where Art Thou*, and fans of country music and bluegrass, *Kentucky Traveler* is a priceless look at America's most cherished and vibrant musical tradition through the eyes of someone who has lived it.

My Music, My Life

In the vein of *Sound Man* and *The Soundtrack of My Life*, a lyrical memoir from the founder of one of the greatest music labels of all time, Island Records, about his astonishing life and career helping to bring reggae music to the world stage and working with Bob Marley, U2, Grace Jones, Cat Stevens, and many other icons. Since its founding in 1959, Island Records has been home to legendary artists representing wildly divergent musical styles, yet who share the same maverick, outsider spirit of its founder, Chris Blackwell. Time and again, Blackwell and his Island cohorts identified and nurtured musicians overlooked by other labels, including Bob Marley, U2, Cat Stevens, Grace Jones, Roxy Music, Traffic, Nick Drake, Tom Waits, Robert Palmer, Free, the B-52's, John Martyn, and Jimmy Cliff. Like these artists, Blackwell never took the conventional route. After a privileged early childhood in Jamaica—crossing paths with Ian Fleming, Noël Coward, and Errol Flynn—he was expelled from the elite British school Harrow for rebellious behavior at age seventeen. Within five years, he had moved back to Jamaica, and founded Island. Intertwined with the story of Island is that of Bob Marley and the Wailers. After an impromptu meeting with the band in 1972, Blackwell produced the groundbreaking album *Catch a Fire*, formed a deep bond of mutual trust and friendship with Marley, and became known for helping to bring reggae music to the world stage. He also opened the first Jamaican boutique hotel, on the property of Ian Fleming's former home, GoldenEye, where all the James Bond books were written. This engaging memoir from one of the great raconteurs of the late 20th century makes for a giddy ride through some of that era's most cutting-edge, enduring music. As Bono says, Blackwell "is an adventurer, an entrepreneur, a buccaneer, a visionary, and a gentleman."

Kentucky Traveler

Nicholas Kenyon explores the enduring appeal of the classical canon at a moment when we can access all music—across time and cultures. Immersed in music for much of his life as writer, broadcaster and concert presenter, former director of the BBC Proms, Nicholas Kenyon has long championed an astonishingly wide range of composers and performers. Now, as we think about culture in fresh ways, Kenyon revisits the stories that make up the classical tradition and foregrounds those which are too often overlooked. This inclusive, knowledgeable, and enthusiastic guide highlights the achievements of the women and men, amateurs and professionals, who bring music to life. Taking us from pianist Myra Hess's performance in London during the Blitz, to John Adams's composition of a piece for mourners after New York's 9/11 attacks, to Italian opera singers singing from their balconies amidst the 2020 pandemic, Kenyon shows that no matter how great the crisis, music has the power to bring us together. His personal, celebratory account transforms our understanding of how classical music is made—and shows us why it is more relevant than ever.

The Islander

The autobiography of America's greatest living record man: the founder of Sire Records and spotter of rock talent from the Ramones to Madonna. Seymour Stein is America's greatest living record man. Not only has he signed and nurtured more important artists than anyone alive, now sixty years in the game, he's still the hippest label head, travelling the globe in search of the next big thing. Since the late fifties, he's been wherever it's happening: Billboard, Tin Pan Alley, The British Invasion, CBGB, Studio 54, Danceteria, the Rock n Roll Hall of Fame, the CD crash. Along that winding path, he discovered and broke out a skyline full of stars: Madonna, The Ramones, Talking Heads, Depeche Mode, Madonna, The Smiths, The Cure, Ice-T, Lou Reed, Seal, and many others. Brimming with hilarious scenes and character portraits, *Siren Song*'s wider narrative is about modernity in motion, and the slow acceptance of diversity in America – thanks largely to daring pop music. Including both the high and low points in his life, *Siren Song* touches on everything from his discovery of Madonna to his wife Linda Stein's violent

death. Ask anyone in the music business, Seymour Stein is a legend. Sung from the heart, *Siren Song* will etch his story in stone.

The Life of Music

A vivid, highly evocative memoir of one of the reigning icons of folk music, highlighting the decade of the '60s, when hits like "Both Sides Now" catapulted her to international fame. *Sweet Judy Blue Eyes* is the deeply personal, honest, and revealing memoir of folk legend and relentlessly creative spirit Judy Collins. In it, she talks about her alcoholism, her lasting love affair with Stephen Stills, her friendships with Joan Baez, Richard and Mimi Fariña, David Crosby, and Leonard Cohen and, above all, the music that helped define a decade and a generation's sound track. *Sweet Judy Blue Eyes* invites the reader into the parties that peppered Laurel Canyon and into the recording studio so we see how cuts evolved take after take, while it sets an array of amazing musical talent against the backdrop of one of the most turbulent decades of twentieth-century America. Beautifully written, richly textured, and sharply insightful, *Sweet Judy Blue Eyes* is an unforgettable chronicle of the folk renaissance in America.

Siren Song

From the beloved host and creator of NPR's *All Songs Considered* and *Tiny Desk Concerts* comes an essential oral history of modern music, told in the voices of iconic and up-and-coming musicians, including Dave Grohl, Jimmy Page, Michael Stipe, Carrie Brownstein, Smokey Robinson, and Jeff Tweedy, among others—published in association with NPR Music. Is there a unforgettable song that changed your life? NPR's renowned music authority Bob Boilen posed this question to some of today's best-loved musical legends and rising stars. In *Your Song Changed My Life*, Jimmy Page (Led Zeppelin), St. Vincent, Jónsi (Sigur Rós), Justin Vernon (Bon Iver), Cat Power, David Byrne (Talking Heads), Dave Grohl (Nirvana, Foo Fighters), Jeff Tweedy (Wilco), Jenny Lewis, Carrie Brownstein (Portlandia, Sleater-Kinney), Yusuf Islam (Cat Stevens), Colin Meloy (The Decemberists), Trey Anastasio (Phish), Jackson Browne, Valerie June, Philip Glass, James Blake, and other artists reflect on pivotal moments that inspired their work. For Wilco's Jeff Tweedy, it was discovering his sister's 45 of The Byrds' "Turn, Turn, Turn." A young St. Vincent's life changed the day a box of CDs literally fell off a delivery truck in front of her house. Cat Stevens was transformed when he heard John Lennon cover "Twist and Shout." These are the momentous yet unmarked events that have shaped these and many other musical talents, and ultimately the sound of modern music. A diverse collection of personal experiences, both ordinary and extraordinary, *Your Song Changed My Life* illustrates the ways in which music is revived, restored, and revolutionized. It is also a testament to the power of music in our lives, and an inspiration for future artists and music lovers. Amazing contributors include: Jimmy Page (Led Zeppelin), Carrie Brownstein (Sleater-Kinney, Portlandia, Wild Flag), Smokey Robinson, David Byrne (Talking Heads), St. Vincent, Jeff Tweedy (Wilco), James Blake, Colin Meloy (The Decemberists), Trey Anastasio (Phish), Jenny Lewis (Rilo Kiley), Dave Grohl (Nirvana, Foo Fighters), Yusuf Islam (Cat Stevens), Sturgill Simpson, Justin Vernon (Bon Iver), Cat Power, Jackson Browne, Michael Stipe (R.E.M.), Philip Glass, Jónsi (Sigur Rós), Hozier, Regina Carter, Conor Oberst (Bright Eyes, and others), Courtney Barnett, Chris Thile (Nickel Creek, Punch Brothers), Leon Bridges, Sharon Van Etten, and many more.

Sweet Judy Blue Eyes

An all-access, firsthand account of the life and music of one of history's most beloved bands--from an original mastering engineer at Abbey Road Geoff Emerick became an assistant engineer at the legendary Abbey Road Studios in 1962 at age fifteen, and was present as a new band called the Beatles recorded their first songs. He later worked with the Beatles as they recorded their singles "She Loves You" and "I Want to Hold Your Hand," the songs that would propel them to international superstardom. In 1964 he would witness the transformation of this young and playful group from Liverpool into professional, polished musicians as they put to tape classic songs such as "Eight Days A Week" and "I Feel Fine." Then, in 1966, at age nineteen, Geoff Emerick became the Beatles' chief engineer, the man responsible for their distinctive sound as they recorded the classic album *Revolver*, in which they pioneered innovative recording techniques that changed the course of rock history. Emerick would also engineer the monumental *Sgt. Pepper* and *Abbey Road* albums, considered by many the greatest rock recordings of all time. In *Here, There and Everywhere* he reveals the creative process of the band in the studio, and describes how he achieved the sounds on their most famous songs. Emerick also brings to light the personal dynamics of the band, from the relentless (and increasingly mean-spirited)

competition between Lennon and McCartney to the infighting and frustration that eventually brought a bitter end to the greatest rock band the world has ever known.

Your Song Changed My Life

One Way Or Another is multi-millionaire rock, media and sport mogul Chris Wright's explosive autobiography. In it, Wright lifts the veil on the wheeling and dealing that propelled his company Chrysalis to the forefront of the pop industry – and how the fortune he made from rock enabled him to buy Queens Park Rangers FC, Wasps Rugby Club and a fistful of radio stations and TV production companies. Chris Wright signed bands like Jethro Tull and Ten Years After who were at the forefront of the British rock invasion of America that took place in the late sixties and early seventies, then went on to embrace punk with Blondie and Billy Idol, New Romantics with Ultravox and Spandau Ballet, 2-Tone stars The Specials and many more. In a life story that reads like a Who's Who of the rock business, Wright spares no blushes in telling tales of sex, drugs and financial blowouts that made some rich and left others by the wayside. Ever the entrepreneur, Wright remained at the heart of the unfolding story that has become the contemporary entertainment industry, subsequently taking the Chrysalis brand into TV and radio. But his story goes beyond success in media and entertainment. In later years, Wright went on to own premiership football club Queens Park Rangers and rugby giants Wasps. Interwoven with a personal narrative that has all the twists and turns of a best-selling novel, One Way Or Another is a remarkable, truly gripping story of life at the top.

Here, There and Everywhere

Rock & roll first spoke to Alec Wightman as a ten-year-old boy when he heard Dion sing "The Wanderer" on his transistor radio. Over the next sixty years, Wightman would listen to countless records, chase live shows from coast to coast, promote singer-songwriter acts through his own concert production company, and work with leaders in the music industry as a member and chair of the board of the Rock & Roll Hall of Fame—all while maintaining his day job as a successful corporate lawyer. In *MUSIC IN MY LIFE: Notes From a Longtime Fan*, Wightman chronicles his musical evolution from the great rock & roll of the 1960s to numerous Neil Young concerts in the '70s and on to decades discovering singer-songwriter favorites like John Stewart, Jesse Winchester, Tom Russell, Rosie Flores, and Dave Alvin. The constant throughout Wightman's life, as one reviewer puts it, has been his "ear for great songs and his admiration for those who craft them." In *MUSIC IN MY LIFE*, this admiration is genuine and palpable, regardless of whether the talent springs from the lesser-known (Chuck Prophet, John Fullbright) or the renowned (Bruce Springsteen, Jimmy Webb). With his tireless advocacy for live music, Wightman has forged special connections with scores of musicians over his lifetime, using his passion to bring artists and fans together. And his engagement with the Rock Hall is the cherry on top, giving him a unique perspective into the world of rock & roll—the music of our lives. *MUSIC IN MY LIFE*, says another reviewer, "is written proof that musical fandom can be a form of artistic expression."

One Way Or Another: My Life in Music, Sport & Entertainment

Neil Peart decided to drive his BMW Z-8 automobile from L.A. to Big Bend National Park, in Southwest Texas. As he sped along "between the gas-gulping SUVs and asthmatic Japanese compacts clumping in the left lane, and the roaring, straining semis in the right," he acted as his own DJ, lining up the CDs chronologically and according to his possible moods. "Not only did the music I listened to accompany my journey, but it also took me on sidetrips, through memory and fractals of associations, threads reaching back through my whole life in ways I had forgotten, or had never suspected.... Sifting through those decades and those memories, I realized that I wasn't interested in recounting the facts of my life in purely autobiographical terms, but rather ... in trying to unweave the fabric of my life and times. As one who was never much interested in looking back, because always too busy moving forward, I found that once I opened those doors to the past, I became fascinated with the times and their effect on me. The songs and the stories I had taken for granted suddenly had a resonance that had clearly echoed down the corridors of my entire life, and I felt a thrill of recognition, and the sense of a kind of adventure. A travel story, but not so much about places, but about music and memories."

Music Is My Life

In a sodden tent at a '70s festival, the teenage Mark Ellen had a dream. He dreamt that music was a rich meadow of possibility, a liberating leap to a sparkling future, an industry of human happiness - and he wanted to be part of it. Thus began his 40-year love affair with rock and roll. From his time at the NME and Smash Hits to Radio One, Old Grey Whistle Test, Live Aid, MTV, Q, Select, Mojo and The Word magazines, he's been at the molten core of its evolution, and watched its key figures from a unique perspective. This funny and touching personal memoir maps out his epic journey. It tells stories and settles scores. It charts the peaks and disappointments.

Sounds Like Me

With a voice that is both sophisticated and deeply Southern, author John Rowell evokes the memory of the great Truman Capote in this wonderful collection of short stories, peopled with unforgettable, endearing characters and filled with wry insights. Drawn from the emotional well of a young man who grew up in love with the glittery, glamorous world of music and movies and theater—far removed from his own more prosaic life in North Carolina—and informed with honesty and compassion, the seven short stories that comprise *The Music of Your Life* showcase the talent of a remarkably gifted writer. Compulsively readable and always accessible, each story takes the reader into the mind and heart of its central character, whether a young boy suffering from Lawrence Welk damage and teetering precariously on the edge of puberty (“The Music of Your Life”) or a not-so-young-anymore man for whom fantasy and reality have become a terrifying blur and who finds himself slipping over the edge toward total meltdown (“Wildlife of Coastal Carolina”). Nostalgia plays a part in these stories as a somewhat jaded New York film critic looks back on his life and the movies that shaped him (“Spectators in Love”), and an aging flower-shop owner ruefully assesses the love he found and lost when, as an eighteen-year-old, he embarked on a Hollywood career that never soared but did include one particularly memorable appearance on the *I Love Lucy* television show (“Who Loves You?”) These stories all create entire worlds within which the characters live and struggle to find their way. Funny, touching, serious, and tender, the tales within *The Music of Your Life* are sure to appeal to anyone who has ever known the awkwardness of being “different,” and while life is often harsh for the stories’ characters, the bold determination with which they persevere offers inspiration to all.

"A modern parable." —from the foreword by Grace Slick "Jorma Kaukonen is a force in American music, equally adept at fingerpicked acoustic folk and blues as he is at wailing on an electric." —Acoustic Guitar "Jorma Kaukonen lit a fuse and transformed his electric guitar into a firework." —Live For Live Music Includes a CD of live music as a companion to the book! From the man who made a name for himself as a founding member and lead guitarist of Jefferson Airplane comes a memoir that offers a rare glimpse into the heart and soul of a musical genius—and a vivid journey through the psychedelic era in America. "Music is the reward for being alive," writes Jorma Kaukonen in this candid and emotional account of his life and work. "It stirs memory in a singular way that is unmatched." In a career that has already spanned a half century—one that has earned him induction into the Rock & Roll Hall of Fame and a Grammy Lifetime Achievement Award, among other honors—Jorma is best known for his legendary bands Jefferson Airplane and the still-touring Hot Tuna. But before he won worldwide recognition he was just a young man with a passion and a dream. *Been So Long* is the story of how Jorma found his place in the world of music and beyond. The grandson of Finnish and Russian-Jewish immigrants whose formative years were spent abroad with his American-born diplomat father, Jorma channeled his life experiences—from his coming-of-age in Pakistan and the Philippines to his early gigs with Jack Casady in D.C. to his jam sessions in San Francisco with Jerry Garcia, Janis Joplin, Bob Dylan, and other contemporaries—into his art in unique and revelatory ways. *Been So Long* charts not only Jorma's association with the bands that made him famous but goes into never-before-told details about his

addiction and recovery, his troubled first marriage and still-thriving second, and more. Interspersed with diary entries, personal correspondence, and song lyrics, this memoir is as unforgettable and inspiring as Jorma's music itself.

The Soundtrack of My Life

The definitive chronicle of underground music in the 1980s tells the stories of Black Flag, Sonic Youth, The Replacements, and other seminal bands whose DIY revolution changed American music forever. *Our Band Could Be Your Life* is the never-before-told story of the musical revolution that happened right under the nose of the Reagan Eighties -- when a small but sprawling network of bands, labels, fanzines, radio stations, and other subversives re-energized American rock with punk's do-it-yourself credo and created music that was deeply personal, often brilliant, always challenging, and immensely influential. This sweeping chronicle of music, politics, drugs, fear, loathing, and faith is an indie rock classic in its own right. The bands profiled include: Sonic Youth Black Flag The Replacements Minutemen Husker Du Minor Threat Mission of Burma Butthole Surfers Big Black Fugazi Mudhoney Beat Happening Dinosaur Jr.

Been So Long

In the vein of *Sound Man* and *The Soundtrack of My Life*, a lyrical, warmhearted, and inspirational memoir from the founder of Island Records about his astonishing life and career helping to bring reggae music to the world stage and working with Bob Marley, U2, Grace Jones, Cat Stevens, and many other icons. Chris Blackwell, like the paradigm-shifting artists he came to support over his sixty-plus years in the music business, never took the conventional route. He grew up between Jamaica and London, crossing paths with Ian Fleming, Noel Coward, and Errol Flynn. After being expelled from an elite British school for rebellious behavior in 1954 at age seventeen, he moved back to Jamaica, and within five years, founded Island Records—the company that would make an indelible mark on music, shifting with the times, but always keeping its core identity intact. *The Islander* is the story of Blackwell and his cohorts at Island Records, who time and again, identified, nurtured, and broke out musicians who had been overlooked by bigger record labels, including Steve Winwood, Nick Drake, John Martyn, and Cat Stevens. After an impromptu meeting with Bob Marley and his bandmates in 1972, Blackwell decided to fund and produce their groundbreaking album *Catch a Fire*. He'd go on to work with Marley over the rest of his career, remain his close friend, and continually champion Jamaican culture and reggae music. In the ensuing years, Blackwell worked with U2, Grace Jones, the B-52s, Tom Waits, Robert Palmer, Tom Tom Club, and many other groundbreaking artists. He also opened the first Jamaican boutique hotel, on the property of Ian Fleming's former home, Goldeneye, where all the James Bond books were written. Blackwell is a legendary as well as deeply humble raconteur, and reading *The Islander* is like spending a day with the most interesting man in the world.

Our Band Could Be Your Life

The long-awaited memoir of Booker T. Jones, leader of the famed Stax Records house band, architect of the Memphis soul sound, and one of the most legendary figures in music. From Booker T. Jones's earliest years in segregated Memphis, music was the driving force in his life. While he worked paper routes and played gigs in local nightclubs to pay for lessons and support his family, Jones, on the side, was also recording sessions in what became the famous Stax Studios—all while still in high school. Not long after, he would form the genre-defining group Booker T. and the MGs, whose recordings went on to sell millions of copies, win a place in *Rolling Stone's* list of top 500 songs of all time, and help forge collaborations with some of the era's most influential artists, including Otis Redding, Wilson Pickett, and Sam & Dave. Nearly five decades later, Jones's influence continues to help define the music industry, but only now is he ready to tell his remarkable life story. *Time is Tight* is the deeply moving account of how Jones balanced the brutality of the segregationist South with the loving support of his family and community, all while transforming a burgeoning studio into a musical mecca. Culminating with a definitive account into the inner workings of the Stax label, as well as a fascinating portrait of working with many of the era's most legendary performers—Bob Dylan, Willie Nelson, and Tom Jones, among them—this extraordinary memoir promises to become a landmark moment in the history of Southern Soul.

John Fahey is feared and revered around the world as a guitar player and composer. His inventions for acoustic and electric strings are the stuff of legend. Known for his finger-picking finesse, Fahey's pen has the same world-gobbling ferocity as his guitar. Fahey's collection of short stories defy classification - part memoir, part personal essay, part fiction, part manifesto. It is a collection that makes an explosive selection of his work available for public consumption. What else is there to say, except 'Grab your ankles, dear readers. It's kingdom time!'

Exotic venues, sold-out concerts, and the companionship of the world's most powerful people have given Liona Boyd a lifestyle that, like her music, is one in a million. Exotic venues, sold-out concerts, and the companionship of the world's most powerful people have given Liona Boyd a lifestyle that, like her music, is one in a million. The internationally acclaimed classical guitarist has crossed numerous boundaries, both musically and romantically. In this colourful memoir covering her life up to 1998, she serves up a rich and fascinating mix: childhood with her progressive parents in England, Canada, and Mexico, exacting music studies in Toronto, down-and-out years in London and Paris, her eight-year romance with Canadian prime minister Pierre Elliott Trudeau, drug experimentation in a Mexican artists' colony, and whirlwind trips around the globe to eminent concert stages. It all makes for a rousing, feisty, passionate tale, as compelling and entrancing as the music of her Ramírez guitar.

How Bluegrass Music Destroyed My Life

A brief but extraordinarily powerful novel by the author of *Dreams of My Russian Summers* and *Requiem for a Lost Empire*, *Music of a Life* is set in the period just before, and two decades after, World War II. Alexei Berg's father is a well-known dramatist, his mother a famous opera singer. But during Stalin's reign of terror in the 1930s they, like millions of other Russians, come under attack for their presumed lack of political purity. Harassed and proscribed, they have nonetheless, on the eve of Hitler's war, not yet been arrested. And young Alexei himself, a budding classical pianist, has been allowed to continue his musical studies. His first solo concert is scheduled for May 24, 1941. Two days before the concert, on his way home from his final rehearsal, he sees his parents being arrested, taken from their Moscow apartment. Knowing his own arrest will not be far behind, Alexei flees to the country house of his fiancée, where again betrayal awaits him. He flees, one step ahead of the dreaded secret police until, taking on the identity of a dead soldier, he enlists in the Soviet army. Thus begins his seemingly endless journey, through war and peace, until he lands, two decades later, in a snowbound train station in the Urals, where he relates his harrowing saga to the novel's narrator. An international bestseller, *Music of a Life* is, in the words of *Le Monde*, "extremely powerful . . . a gem."

In My Own Key

It's been said Janis Joplin was second only to Bob Dylan as the 'creator-recorder-embodiment of her generation's mythology'. But how did a middle-class girl from Texas become a '60s countercultural icon? Janis' parents doted on her and promoted her early talent for art. But the arrival of a brother shattered the bond she had with her intellectual maverick of a father, an oil engineer. And her own maverick instincts alienated her from her socially conformist mother. That break with her parents, along with the rejection of her high school peers, who disapproved of her beatnik look and racially progressive views, and wrongly assumed she was sexually promiscuous, cemented her sense of herself as an outcast. She found her tribe with a group of offbeat young men a year ahead of her, who loved her intellectual curiosity, her passion for conversation, and her adventurous search for the blues. Although she never stopped craving the approval of her parents and hometown, she left Port Arthur at seventeen determined to prove she could be loved. She tried college twice, and dropped out both times. She ran off to California, but came back when her heavy drug use scared her into it. She almost signed up for a life as a domesticated, hang-the-curtains wife. But instead, during a second stint on the West Coast, she launched a career that would see her crowned the queen of rock and roll. What no one besides Holly George-Warren has captured in such intimate detail is the way Janis Joplin teetered between the powerful woman you hear in her songs and the little girl who just wanted to go home and feel emotionally safe there. The pain of that dichotomy fuelled her music – and ultimately killed her.

The Semantics of Chinese Music

Music is a widely enjoyed human experience. It is, therefore, natural that we have wanted to describe, document, analyse and, somehow, grasp it in language. This book surveys a representative selection of musical concepts in Chinese language, i.e. words that describe, or refer to, aspects of Chinese music. Important as these musical concepts are in the language, they have been in wide circulation since ancient times without being subjected to any serious semantic analysis. The current study is the first known attempt at analysing these Chinese musical concepts linguistically, adopting the Natural Semantic Metalanguage (NSM) approach to formulate semantically and cognitively rigorous explications. Readers will be able to better understand not only these musical concepts but also significant aspects of the Chinese culture which many of these musical concepts represent. This volume contributes to the fields of cognitive linguistics, semantics, music, musicology and Chinese studies, offering readers a fresh account of Chinese ways of thinking, not least Chinese ways of viewing or appreciating music. Ultimately, this study represents trailblazing research on the relationship between language, culture and cognition.

Music and Consciousness 2

Consciousness has been described as one of the most mysterious things in the universe. Scientists, philosophers, and commentators from a whole range of disciplines can't seem to agree on what it is, generating a sizeable field of contemporary research known as consciousness studies. Following its forebear *Music and Consciousness: Philosophical, Psychological and Cultural Perspectives* (OUP, 2011), this volume argues that music can provide a valuable route to understanding consciousness, and also that consciousness opens up new perspectives for the study of music. It argues that consciousness extends beyond the brain, and is fundamentally related to selves engaged in the world, culture, and society. The book brings together an interdisciplinary line up of authors covering topics as wide ranging as cognitive psychology, neuroscience, psychoanalysis, philosophy and phenomenology, aesthetics, sociology, ethnography, and performance studies and musical styles from classic to rock, trance to Daoism, jazz to tabla, and deep listening to free improvisation. *Music and Consciousness 2* will be fascinating reading for those studying or working in the field of musicology, those researching consciousness as well as cultural theorists, psychologists, and philosophers.

Popular Music, Cultural Politics and Music Education in China

While attention has been paid to various aspects of music education in China, to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China. Before the implementation of the new curriculum reforms in China at the beginning of the twenty-first century, there was neither Chinese nor Western popular music in textbook materials. Popular culture had long been prohibited in school music education by China's strong revolutionary orientation, which feared 'spiritual pollution' by Western cultures. However, since the early twenty-first century, education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum. In relation to this topic, this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education. Ho presents music and music education as sociopolitical constructions of nationalism and globalization. Moreover, how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education, as well as the reformation of music education in mainland China, is discussed. Based on the perspectives of school music teachers and students, the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland.

A Critical History of New Music in China

By the end of the nineteenth century, after a long period during which the weakness of China became ever more obvious, intellectuals began to go abroad for new ideas. What emerged was a musical genre that Liu Chingchih terms "New Music." With no direct ties to traditional Chinese music, New Music reflects the compositional techniques and musical idioms of eighteenth, nineteenth and early twentieth-century European styles. Liu traces the genesis and development of New Music throughout the twentieth century, deftly examining the cultural, social, and political forces that shaped New Music and its uses by politicians and the government.

The Semiotic Elements in Music and Language in Song of the Lark: March by Tchaikovsky

Essay from the year 2017 in the subject Musicology, language: English, abstract: Semiotics has proven to be an effective way to describe and analyse music. It can also be used as a basis for comparing the language and music of a certain culture. From a cultural or cognitive point of view, the purpose of music and language research is to find out some form of their external structure. Using the method of semiotics allows us to understand the structure of music and language on the basis of the structure, as well as how they relate to their cultural environment and their cognitive and neural basis.

Chinese Street Music

Musical community is a notion commonly evoked in situations of intensive collective activity and fervent negotiation of identities. Passion Square shows, the daily singing of Chinese pop classics in parks and on street corners in the city of Wuhan, have an ambivalent relationship with these ideas. They inspire modest outward signs of engagement and are guided by apparently individualistic concerns; singers are primarily motivated by making a living through the relationships they build with patrons, and reflection on group belonging is of lesser concern. How do these orientations help complicate the foundations of typical musical community discourses? This Element addresses community as a quality rather than as an entity to which people belong, exploring its ebbs and flows as associations between people, other bodies and the wider street music environment intersect with its various theoretical implications. A de-idealised picture of musical community better acknowledges the complexities of everyday musical experiences.

Lives in Chinese Music

Until recently, most scholarly work on Chinese music in both Chinese and Western languages has focused on genres, musical structure, and general history and concepts, rather than on the musicians themselves. This volume breaks new ground by focusing on individual musicians active in different amateur and professional music scenes in mainland China, Hong Kong, and Chinese communities in Europe. Using biography to deepen understanding of Chinese music, contributors present contextualized portraits of rural folk singers, urban opera singers, literati, and musicians on both geographic and cultural frontiers. Contributors are Nimrod Baranovitch, Rachel Harris, Frank Kouwenhoven, Tong

Soon Lee, Peter Micic, Helen Rees, Antoinet Schimmelpenninck, Shao Binsun, Jonathan P. J. Stock, and Bell Yung.

Tradition and Change in the Performance of Chinese Music

First published in 1998. As a cultural entity of over five thousand years of history, Chinese music is a multi-faced phenomenon consisting of diverse regional and transregional traditions. Two large categories of Chinese music can be distinguished: music(s) of the Han nationality and music(s) of the ethnic nationalities. The present volume brings together ten articles written largely by native scholars, with the general aim of presenting a dialogue about Chinese music from 'insider's' view-points.

The Narrative Arts of Tianjin: Between Music and Language

In studying one of the world's oldest and most enduring musical cultures, academics have consistently missed one of the richest forms of Chinese cultural expression: performed narratives. Francesca R. Sborgi Lawson explores the relationships between language and music in the performance of four narrative genres in the city of Tianjin, China, based upon original field research conducted in the People's Republic of China in the mid 1980s and in 1991. The author emphasizes the unique nature of oral performances in China: these genres are both musical and literary and yet are considered to be neither music nor literature. Lawson employs extensive examples of the complex interaction of music and language in each genre, all the while relating those analyses to broader cultural issues and to patterns of social relationships. The narrative arts known as *shuochang* (speaking-singing) are depicted as genres that constitute a unique communicative discourse—the communication of stories in song. The genres subsumed under the native conception of *shuochang* include Tianjin Popular Tunes, Beijing Drumsong, Clappertales and Comic Routines. The maximum utilization of *shuo* (speaking) and *chang* (singing) in all their varying manifestations constitutes the vitality of the traditional narrative arts in the city of Tianjin—the center for these arts in North China. The variety of narrative forms provides entertainment for audiences representing all social strata of Chinese society. The author argues that Chinese narrative traditions represent a foundation from which certain Chinese literary and operatic traditions have borrowed, such as how the novels from the Ming-Qing period draw on the performed narrative arts both in style and in content. Hence, an understanding of performed narratives is not only useful to scholars in Chinese literature and music, but also to scholars interested in broadening their understanding of China generally.

Music in China

Music in China is one of many case-study volumes that can be used along with *Thinking Musically*, the core book in the Global Music Series. *Thinking Musically* incorporates music from many diverse cultures and establishes the framework for exploring the practice of music around the world. It sets the stage for an array of case-study volumes, each of which focuses on a single area of the world. Each case study uses the contemporary musical situation as a point of departure, covering historical information and traditions as they relate to the present. Visit www.oup.com/us/globalmusic for a list of case studies in the Global Music Series. The website also includes instructional materials to accompany each study. *Music in China* offers a unique exploration of the rich, dynamic, and multifaceted Chinese musical landscape. In contrast with previous scholarship—which focused almost exclusively on the role of music in elite culture—this volume takes a balanced look at a variety of traditional and modern genres, including those performed among local and regional folk musicians, in academia, in the media, and on concert stages both inside and outside of China. Using the interrelated themes of identity, modernization, and ideology as a narrative framework, author Frederick Lau discusses the musical features of the selected genres, the processes through which they came into existence, and related socio-political issues. Lau draws on his own extensive fieldwork and performance experience in both mainland China and its diasporic communities to show how the ever-changing Chinese musical tradition takes on particular meanings in China, in overseas Chinese communities, and in diverse international settings. Enhanced by eyewitness accounts of local performances, interviews with key performers, vivid illustrations, and hands-on listening activities, *Music in China* provides an accessible and engaging introduction to Chinese music. It is packaged with an 80-minute audio CD containing examples of the music discussed in the book.

Culture, Music Education, and the Chinese Dream in Mainland China

This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics, transformed authority relations, and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society, and how these factors have influenced the renewal of values-based education and practices in school music education in China.

Listening to China's Cultural Revolution

The Chinese Zheng Zither

The zheng zither is one of the most popular instruments in contemporary China. It is commonly regarded as a solo instrument with a continuous tradition dating back to ancient times. But in fact, much of its contemporary solo repertory is derived from different regional folk ensemble repertoires of the mid-twentieth century. Through a series of case studies, this book explores how the transformation of the Chinese zheng has constantly responded to its changing social context, critiquing the long-standing arguments concerning 'authenticity' in the development of tradition. This book is accompanied by a DVD which contains audio visual materials relating to the author's fieldwork and zheng performances by different musicians.

A Critical History of New Music in China

By the end of the nineteenth century, Chinese culture had fallen into a stasis, and intellectuals began to go abroad for new ideas. What emerged was an exciting musical genre that C. C. Liu terms "new music." With no direct ties to traditional Chinese music, "new music" reflects the compositional techniques and musical idioms of eighteenth- and nineteenth-century European styles. Liu traces the genesis and development of "new music" throughout the twentieth century, deftly examining the social and political forces that shaped "new music" and its uses by political activists and the government.

Power, Beauty and Meaning

Un'indagine centrata sulla ricostruzione del significato dell'esperienza musicale in Cina sia in ambito teorico che applicativo. Abbandonato il dubbio tentativo di sistematizzare le sfaccettature di una esperienza tanto complessa all'interno di una meta-teoria musicale, si è privilegiata l'individuazione di specifici "itinerari di senso" che testimoniano la varietà delle risposte cinesi agli interrogativi sul "significato" della musica.

A Contemporary History of the Chinese Zheng

A Contemporary History of the Chinese Zheng traces the twentieth- and twenty-first-century development of an important Chinese musical instrument in greater China. The zheng was transformed over the course of the twentieth century, becoming a solo instrument with virtuosic capacity. In the past, the zheng had appeared in small instrumental ensembles and supplied improvised accompaniments to song. Zheng music became a means of nation-building and was eventually promoted as a marker of Chinese identity in Hong Kong. Ann L. Silverberg uses evidence from the greater China area to show how the narrative history of the zheng created on the mainland did not represent zheng music as it had been in the past. Silverberg ultimately argues that the zheng's older repertory was poorly represented by efforts to collect and promote zheng music in the twentieth century. This book contends that the restored "traditional Chinese music" created and promulgated from the 1920s forward—and solo zheng music in particular—is a hybrid of "Chinese essence, Western means" that essentially obscures rather than reveals tradition. "Ann Silverberg's book provides a history of the Chinese zheng zither, with a focus on the rise of solo music since the mid-twentieth century across the three sites of mainland China, Hong Kong, and Taiwan. Existing English-language studies mostly omit consideration of Hong Kong and Taiwan, so this account enriches current perspectives on the multiplicities of Chinese musical history and identity." —Jonathan Stock, University College Cork, Ireland "Professor Ann Silverberg's insights and approach are long awaited in the studies of Chinese music. I am particularly impressed by her coverage of the situation in Hong Kong and Taiwan. This book is a wonderful contribution to zheng music. It also inspires and enhances the studies of other Chinese musical instruments and Chinese traditional music." —Yu Siu Wah, independent scholar

China

This book will examine the recent development of school music education in Mainland China, Hong Kong, and Taiwan to illustrate how national policies for music in the school curriculum integrate music cultures and non-musical values in the relationship between national cultural identity and globalization. It will examine the ways in which policies for national identity formation and globalization interact to complement and contradict each other in the content of music education in these three Chinese territories. Meanwhile, tensions posed by the complex relationship between cultural diversity and political change have also led to a crisis of national identity in these three localities. The research methods of this book involve an analysis of official approved music textbooks, a survey questionnaire distributed to students attending music education programmes as well as primary and secondary school music teachers, and in-depth interviews with student teachers and schoolteachers in the three territories.

Anthology of Chinese Instrumental Ensemble Music

This work examines the multiple and conflicting interpretations created around the life and music of the blind folk musician Abing (1893-1950). Abing is a household name in China, but despite the central place he holds in Chinese music, he is little known, and his music rarely heard, abroad. This detailed study of Abing, and the accompanying CD compilation of his most well-known works, reveal much both about this unjustly neglected composer, and about the recreation of traditional music in contemporary China. Particular attention is given to the problematic category of the musical 'work' in a tradition which relies heavily on improvisation and creative reworking of material; Abing's music has also taken strikingly different shapes since his death, notably in arrangements, some involving Western instruments, which have adapted his music to changing tastes and ideological trends, both in mainland

China, and in Taiwan and overseas. Dr. Jonathan P.J. Stock is Lecturer in Music at the University of Durham. Contains audio CD

"This manuscript seeks to write China back into the narrative about the explosion of new forms of popular music globally in the 1960s. In the context of China and Taiwan, new aesthetic forms of music emerged and circulated via circuits of exchange between urban and rural, from the radio circuits that linked major urban centers to the West to the "closed circuits" of socialist media across rural China"--
