Included in MTV.com's "These 17 Music-Themed YA Books Could Be Your Life" A selection of the Barnes & Noble Discover Great New Writers Program. "Meno gives his proverbial coming-of-age tale a punk-rock edge, as seventeen-year-old Chicagoan Brian Oswald tries to land his first girlfriend...Meno ably explores Brian's emotional uncertainty and his poignant youthful search for meaning...His gabby, heartfelt, and utterly believable take on adolescence strikes a winning chord." --Publishers Weekly "A funny, hard-rocking first-person tale of teenage angst and discovery." --Booklist "Captures the loose, fun, recklessness of midwestern punk." --MTV.com "Captures both the sweetness and sting of adolescence with unflinching honesty." --Entertainment Weekly "Joe Meno writes with the energy, honesty, and emotional impact of the best punk rock. From the opening sentence to the very last word, *Hairstyles of the Damned* held me in his grip." --Jim DeRogatis, pop music critic, Chicago Sun-Times "The most authentic young voice since J.D. Salinger's Holden Caulfield...A darn good book." --Daily Southtown "Sensitive, well-observed, often laugh-out-loud funny...You won't regret a moment of the journey." --Chicago Tribune "Meno is a romantic at heart. Not the greeting card kind, or the Harlequin paperback version, but the type who thinks, deep down, that things matter, that art can change lives." --Elgin Courier News "Funny and charming and sad and real. The adults are sparingly yet poignantly drawn, especially the fathers, who slip through without saying much but make a profound impression." --Chicago Journal "Underneath his angst, Brian, the narrator of *Hairstyles of the Damned*, possesses a disarming sense of compassion which allows him to worm his way into the reader's heart. It is this simple contradiction that makes Meno's portrait of adolescence so convincing: He has dug up and displayed for us the secret paradox of the teenage years, the desire to belong pitted against the need for individuality--a constant clash of hate and love." --NewPages.com "Joe Meno knows Chicago's south side the way Jane Goodall knew chimps and apes--which is to say, he really knows it. He also knows about the early '90s, punk rock, and awkward adolescence. Best of all, he knows the value of entertainment. *Hairstyles of the Damned* is proof positive." --John McNally, author of *The Book of Ralph* "Filled with references to dozens of bands and mix-tape set lists, the book's heart and soul is driven by a teenager's life-changing discovery of punk's social and political message...Meno's alter ego, Brian Oswald, is a modern-day Holden Caulfield...It's a funny, sweet, and, at times, hard-hitting story with a punk vibe." --Mary Houlihan, Chicago Sun-Times "Meno's language is rhythmic and honest, expressing

things proper English never could. And you've got to hand it to the author, who pulled off a very good trick: The book is punk rock. It's not just punk rock. It's not just about punk rock; it embodies the idea of punk rock; it embodies the idea of punk--it's pissed off at authority, it won't groom itself properly, and it irritates. Yet its rebellious spirit is inspiring and right on the mark." --SF Weekly

Hairstyles of the Damned is the debut novel of our Punk Planet Books imprint, which originates from Punk Planet magazine. *Hairstyles of the Damned* is an honest, true-life depiction of growing up punk on Chicago's south side: a study in the demons of racial intolerance, Catholic school conformism, and class repression. It is the story of the riotous exploits of Brian, a high school burnout, and his best friend, Gretchen, a punk rock girl fond of brawling. Based on the actual events surrounding a Chicago high school's segregated prom, this work of fiction unflinchingly pursues the truth in discovering what it means to be your own person.

This booklet is simply a further abridge form of the book, 'Angels, Let's Talk,' which was collection of blog posts from the blog 'Dew (due) From Heaven: Light 2 U Blog.' For as asked on the back cover of that book 'Why are you angels here, where are you coming from and do you give a 'damn' where you are going!?' So those who believe give a damn and would declare 'I Give A Damn.' Or, I believe, I care, I as an angel want to be saved. How? Where? Why? I believe and I want to receive. That sincere rhetoric of an angel is coined in this verses, "I believe; help thou mine unbelief" (Mark 9:24). This booklet intends to identify those key areas of that book and those posts, but that book is also a must read for development. Thanks and God bless.

THE MINORITY REPORT- PRELUDE TO THE STATE OF THE WORLD This book contains an explosive cocktail of life altering information. The author assists his readers by helping to "remove the scales from their eyes". This book analyzes the hopelessness, despair, physical and spiritual death present in the minority community, and shows the connection to the assassinations of black leaders during the 60's and the dismanteling of groups like the Panthers to the problems we see today. Kijani explains how the crack epidemic was spawned in the minority community and how the war on drugs began to erode our liberties. He also explains how hip-hop has played a role in glamorizing dope dealing and the senseless murder of our own people. He follows this by explaining that since the events of 9/11 how the state of the world has changed, and developements we see such as the push for globalization, RFID chips being implanted in humans, and a cashless society is being orchestrated by a secret society or global elite rooted in the occult paving the way for the antichrist. Truly not recommended for the faint of heart. Kijani implores his readers to WAKE UP!!!!!!!

When Joss Whedon's television show *Firefly* (2002-2003) was cancelled, devoted fans cried foul and demanded more--which led to the 2005 feature film *Serenity*. Both the series and the film were celebrated for their melding of science fiction and western iconography, dystopian settings, underdog storylines, and clever fast-paced dialogue. *Firefly* has garnered a great deal of scholarly attention--less so, *Serenity*. This collection of new essays, the first focusing exclusively on the film, examines its depictions of race, ableism, social engineering and systems of power, and its status as a crime film, among other topics.

Justice is blind. Justine isn't. Book two in the Saturn's Daughter series, in which Tina Clancy is gifted with the power to dispense justice...for good or evil. **YOU DON'T NEED A LAW DEGREE TO DISPENSE STREET JUSTICE.** Tina Clancy hardly has a chance to celebrate passing the bar exam when an explosion at Acme Chemical sends a noxious pink and green cloud billowing over Baltimore's radioactive Zone. It is not as if the place was normal to begin with, but as the poisonous fumes overtake

the sky, her neighbors start falling comatose—and Acme is plucking them off the streets faster than Tina and her friends can save them. Just because Tina's a lawyer now doesn't mean she's going to miraculously morph into a respectable, law-abiding citizen. She once accidentally damned her own boyfriend to hell, for heaven's sake. Now that Max is back—in the body of his evil cousin, a U.S. senator with family ties to Acme—she needs him more than ever. And what does it mean to be one of Saturn's daughters? Tina knows she's obligated to use her powers to save the Zone, no matter the cost, but there's a real possibility that victory will happen over her dead body.

This book explores the relationship of human bodies with natural and cultural environments, arguing that these categories are linked and intertwined. It argues for an environmentally sustainable and healthy relationship between the body and the earth.

What do we call a pro-military dogma, wrapped in patriotism? Warocracy. According to George Fouke, Ph.D., retired professor of political studies, Warocracy is a post World War II mindset about power—Who has it? Who wants it? How will it be used? *Damn the Warocracy!* explores this new ideology about the rise of misplaced power. It does not foster Democratic, Republican, Independent or any other political party. It focuses on a democratic society with the expectation of voter privilege and responsibility. *Damn the Warocracy!* asks the big question. What to live for and what to die for? The political and historical trends that have shaped the Great Generation are now taking form for the New Generation to restore the positive use of political power. Fouke, using humor and skill, informs and educates the reader about the mistakes of the past, their continuing impact, and future alternatives. He addresses the moral and political crossroads faced by the New Generation with an intensity born from his early life experiences of diversity in religion, culture, values, and political views. Professor Fouke believes in America and challenges the next generation to think independently and become morally proactive in the political arena.

Book explores guilt, sacrifice By Lise Hausrath Simmons-The Reston Times Newspaper "A mother's guilt and the ultimate sacrifice of her youngest son on the killing fields of Belgium during World War II are explored in a simple yet touching book by Wade Gilley, a Reston resident." Review by Wytheville Enterprise-Wytheville, Virginia Al Jennings of Wytheville, VA grew up in Fries with Russell Gilley. They were friends. "He was an outgoing, happy person. He liked to joke and was very laid back. He never got excited," recalled Jennings. He noted that young draftees had no choice in the branch of the military they were to serve during World War II. If they volunteered, Jennings said, they could choose. "I got my dad to sign for me and went into the Navy. Russ' mother signed for him and he went into the Army.

I never saw him again," Jennings said Review By Heather Froeschl of www.Quilddipper.com Russ's nephew, author Wade Gilley, shares the tale of just one of America's heroes. This heart touching true story will leave the reader with a little deeper insight into what it means to be a soldier, an American son and a "hillbilly" from Virginia.

Catherine Dook, one of the west coast's most entertaining writers, is back with a second collection of stories about liveaboard life. Nicknamed "the Dooks of Hazard" by their neighbours along the wharves, Catherine and her husband, John, have called the 44-foot sailboat, Inuksuk, home for four years now - and life isn't getting any calmer. One trip, the Dooks unwittingly sailed through a torpedo-testing range; later, their propeller shaft came apart as they approached a new wharf. Catherine gives more detail on the lives of her fellow dock dwellers, including Older-Than-Dirt Don, Ed the Bald and Stafford the Respectable, and gleefully describes the local pastimes such as interpreting the bird droppings on the decks. Just as warm and witty as her first collection of stories, "Darling Call the Coast Guard, We're on Fire Again!"

Damn Right It Hurts!

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's *Book of the Damned* was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

Damn the Torpedoes!

Soon after the United States entered World War II, American ground and air forces were on their way to the European theater of operations. Among that offensive buildup was the 15th Air Force, consisting of four-engine heavy bombers—the B-17 and B-24—as well as twin-engine medium bombers and several types of fighter aircraft. The 15th was first stationed in North Africa and then in southern Italy, where pilots could strike at any military target within a 700 mile radius. After ferrying a B-17 to England with the 8th Air Force, Lt. Edward Logan was transferred to the 15th Air Force, Fifth Wing, 483rd Bomb Group, 817th Bomb Squadron in Italy. Logan and members of his unit were assigned to use American air power to destroy the German military's manufacturing and petroleum complexes as well as its intricate transportation system. This gripping memoir gives a detailed account of Logan's experiences throughout his Army Air Corps career. It outlines the progression of a determined would-be pilot through two years of training, his 1944 journey to the war's theater and advent into actual combat. While other missions are summarized, the work's main focus is the author's thirty-fourth combat mission, which took place in March 1945. During this operation, his B-17 bomber sustained damage so severe that he and nine crewmen were forced to bail out over enemy territory. Aided by Slovenian partisans, Logan and his crew evaded the German troops who were searching for them and returned safely to their base. This firsthand account includes insider details, technical specifications of the B-17 bomber and previously classified information. An epilogue provides additional information on the partisans and the composition of the 15th Air Force.

The Book of the Damned

The captivating story of an influential journalist demonstrates the value of a free press to democratic society. In the decades between the Great Depression and the advent of cable television, when daily newspapers set the conversational agenda in the United States, the best reporter in the business was a rumpled, hard-drinking figure named Homer Bigart. Despite two Pulitzers and a host of other prizes, he quickly faded from public view after retirement. Few today know the extent to which he was esteemed by his peers. *Get the Damn Story* is the first comprehensive biography to encompass all of Bigart's journalism, including both his war reporting and coverage of domestic events. Writing for the New York

Herald Tribune and the New York Times, Bigart brought to life many events that defined the era—the wars in Europe, the Pacific, Korea, and Vietnam; the civil rights movement; the creation of Israel; the end of colonialism in Africa; and the Cuban Revolution. The news media's collective credibility may have diminished in the age of Twitter, but Bigart's career demonstrates the value to a democratic society of a relentless, inquiring mind examining its institutions and the people who run them. The principle remains the same today: the truth matters. Historians and journalists alike will find Bigart's story well worth reading.

"Jump, Damn It, Jump!"

"Damn Great Empires! offers a new perspective on the works of William James by placing his encounter with American imperialism at the center of his philosophical vision. Treating James's speeches, essays, notes, and correspondence on the United States' annexation of the Philippines as keys for unlocking the political significance of his celebrated writings on psychology, religion, and philosophy, this book reconstructs his overlooked political thought. It shows how James located a craving for authority at the heart of empire, a craving he diagnosed and unsettled through his insistence of a modern world without ultimate foundations.

Hugg Badfinger cannot resist the temptation to discover what's inside, so he takes the man down and sends his kid to claim the man's effects. Not long after, father and son burst out of the town on horseback as though they have the devil at their heels. What did they find?

Here's Another Damn Book That No One Will Read

"A riveting, unsparing, gritty, first-hand account of life in a great airborne unit that engaged in some of the toughest fighting in Afghanistan."—General David Petraeus, former Commander of the Surge in Iraq, US Central Command, former Commander of NATO/US Forces in Afghanistan and former Director of the CIA. "DAMN THE VALLEY" was a phrase regularly uttered by the men that spent any amount of time in the Arghandab River Valley during the deployment of 2 Fury to Afghanistan in 2009–2010. The valley has claimed bodies from the troops of Alexander the Great, the British Empire, and more recently, the Russian Army. Operating in the valley was like nothing the men could have envisaged, they called it the "meat grinder." It was a deployment that the media didn't talk about, and the government doesn't acknowledge. Three of the company were KIA, more than a dozen suffered life-changing injuries, and half the company had Purple Hearts—not many modern-day deployments have a 52% casualty rate. At one point, the entire prosthetics ward at Walter Reed was full of the men who patrolled that deadly area of the world. Since their return, many of the survivors have struggled to move on with their lives, and the unit has been declared at "extraordinary risk" by the Department of Veteran Affairs. No one who entered that region was left unscathed. This book shares the perspective of the men that were on the ground for that deployment during the fighting season of 2010.

Carolyn Wilkins grew up defending her racial identity. Because of her light complexion and wavy hair, she spent years struggling to convince others that she was black. Her family's prominence set Carolyn's experiences even further apart from those of the average African American. Her father and uncle were well-known lawyers who had graduated from Harvard Law School. Another uncle had been a child prodigy and protégé of Albert Einstein. And her grandfather had been America's first black assistant secretary of labor. Carolyn's parents insisted she follow the color-conscious rituals of Chicago's elite black bourgeoisie—experiences Carolyn recalls as some of the most miserable of her entire life. Only in the company of her mischievous Aunt Marjory, a woman who refused to let the conventions of “proper” black society limit her, does Carolyn feel a true connection to her family's African American heritage. When Aunt Marjory passes away, Carolyn inherits ten bulging scrapbooks filled with family history and memories. What she finds in these photo albums inspires her to discover the truth about her ancestors—a quest that will eventually involve years of research, thousands of miles of travel, and much soul-searching. Carolyn learns that her great-grandfather John Bird Wilkins was born into slavery and went on to become a teacher, inventor, newspaperman, renegade Baptist minister, and a bigamist who abandoned five children. And when she discovers that her grandfather J. Ernest Wilkins may have been forced to resign from his labor department post by members of the Eisenhower administration, Carolyn must confront the bittersweet fruits of her family's generations-long quest for status and approval. *Damn Near White* is an insider's portrait of an unusual American family. Readers will be drawn into Carolyn's journey as she struggles to redefine herself in light of the long-buried secrets she uncovers. Tackling issues of class, color, and caste, Wilkins reflects on the changes of African American life in U.S. history through her dedicated search to discover her family's powerful story.

Even in the most civilized countries, there is still a reluctance to accept strangers into small communities. "Another Damn Newcomer" tells the story of a couple moving to a tiny town where the wife is eventually elected as mayor, but is despised by the other governing body members. One would think that being the mayor of a small town would enable you to make changes that would benefit both the town and the residents. Not so if the village councilors don't like you. During this time, the county had to contend with the environmental issues of the spotted owl and reintroduction of the wolf. Despite the problems encountered, the book is full of laughter and the delight of living. Enjoy the funny story of a middle-aged couple moving to an isolated New Mexico village where they find friends, love, opportunities and challenges-but never, ever total acceptance. Audrie Clifford was born in California, grew up in Colorado, spent several years in Arizona but loves New Mexico most of all. "We are the state without pretense," she says. "Many of our beautiful homes and buildings are actually made of mud. We eat a lot of beans and chili, and delight in our gorgeous blue sky. How much more real can it get?"

British Columbia is at the forefront of a secularizing movement in the English-speaking world. Nearly half its residents claim no religious affiliation, and the province has the highest rate of unbelief or religious indifference in Canada. Infidels and the Damn Churches explores the historical roots of this phenomenon. Lynne Marks reveals that class and racial tensions fuelled irreligion in frontier BC, a world populated by embattled ministers, militant atheists, turn-of-the-century New Agers, rough-living miners, Asian immigrants, and church-going settlers. This nuanced study of mobility, masculinity, and family in settler BC offers new insights into the beginnings of what has become an increasingly dominant secular worldview across Canada.

Shoot the Damn Dog blasts the stigma of depression as a character flaw and confronts the illness Winston Churchill called 'the black dog', a condition that humiliates, punishes and isolates its sufferers. It is a personal account of a journey through severe depression as well as being a practical book, suggesting ideas about what might help. With its raw, understated eloquence, it will speak volumes to anyone whose life has been haunted by depression, as well as offering help and understanding to those whose loved ones suffer from this difficult illness. This Is My Damn Adventure

I have been involved in the music business in various roles since 1961. I was bought my first guitar when I was 12 years old, on which I slogged away for a year. In 1962, I joined my first band, the Phantoms. Then the Sparticans came for me in 1963, then in 1965, I was invited to join the Nomads, who were local pop stars! This began a life in which I would meet many of the good and great in the music industry, including a Beatle, with whom we made a record. In 1979, with my friend, old bandmate and future business partner, keyboard player John DaCosta, I decided to open a music shop – the first of many we would open in the coming years. After an epic roller coaster ride of ambition and excess, it all came crashing down for me in 1994 and I was forced to rethink my life. Today I live a complicated but thoroughly enjoyable life in Thailand, still playing the guitar and writing songs, but no longer trying to run music shops...
