Creating detailed lesson plans can become a box- ticking exercise and create unnecessary workload for teachers, taking time away from the real business of planning, whilst offering false comfort of purpose Lesson

Learning or following a 'static' lesson plan? Learning pays no attention to a static lesson plan A quality lesson does not translate as a detailed lesson plan. Static lesson plans are approved and may not be changed BUT

What do we mean by Success Criteria? Success criteria are the desired outcomes of learning May be expressed in stages or steps Are designed to be visible and shared Should always form the basis for feedback and assessment In Cambridge they are CAN DO statements

Unless the result of the assessment is used to change something in the teaching or learning there is nothing formative taking place
