Workbook for Hartman's Nursing Assistant Care

A comprehensive nursing assistant training textbook which includes information on long-term care, multiple chapters on home health care, and material on subacute and acute care. In addition it includes in-depth information on resident and client rights with sidebars that teach ways to promote independence and prevent abuse and neglect; a discussion of culture change; infection prevention; anatomy and physiology with an emphasis on normal changes of aging; updated nutrition information on MyPyramid, special diets, and feeding techniques; current information on legal issues, such as HIPAA and the Patient Self-Determination Act; 7 chapters on home health care, including information on medications, safety, infection prevention, mothers & newborns, and meal planning and preparation; a chapter containing subacute and acute care information, including pre- and post-operative care, as well as mechanical ventilation, chest tubes, and artificial airways.

Instructor's Guide for Hartman's Nursing Assistant Care

The workbook is designed to help students review what they have learned from reading the textbook, and it is organized around learning objectives, which work like a built-in study guide. Multiple choice questions, true/false statements, critical thinking scenarios, and other activities test the student's

knowledge of each chapter. A skills checklist and practice certification exam are located at the end of the workbook.

Instructor's Guide to Hartman's Nursing Assistant Care

The purpose of restorative care nursing is to take an active role in helping older adults maintain their highest level of function, thus preventing excess disability. This book was written to help formal and informal caregivers and administrators at all levels to understand the basic philosophy of restorative care, and be able to develop and implement successful restorative care programs. The book provides a complete 6-week education program in restorative care for caregivers, many suggestions for suitable activities, and practical strategies for motivating both older adults and caregivers to engage in restorative care. In addition, the book provides an overview of the requirements for restorative care across all settings, the necessary documentation, and ways in which to complete that documentation.

Instructor's Guide for Hartman's Nursing Assistant Care

An easy-to-understand, up-to-date guide on the highly publicized drug, DMSO. DMSO—dimethyl sulfoxide—is a simple by-product of wood and has been called a “miracle” drug, capable of relieving pain, diminishing swelling, reducing inflammation, encouraging healing, and restoring normal function.

In this groundbreaking work, award-winning health science writer Dr. Morton Walker examines the powerful and compelling case for the use of DMSO in the treatment of many debilitating disease and health-related problems. In *DMSO: Nature's Healer*, Dr. Walker cites documented cases of its astounding use in healing and prevention of a host of health disorders, including arthritis, stroke, cancer, mental retardation, and sports and auto injuries. He also recounts the dramatic story of the long struggle to gain FDA approval of DMSO.

Instructor's Guide to Hartman's Nursing Assistant Care

Evidence-Based Practice: An Implementation Guide for Healthcare Organizations was created to assist the increasing number of hospitals that are attempting to implement evidence-based practice in their facilities with little or no guidance. This manual serves as a guide for the design and implementation of evidence-based practice systems and provides practice advice, worksheets, and resources for providers. It also shows institutions how to achieve Magnet status without the major investment in consultants and external resources.

Nursing Assistant Care

"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths-authenticity, persistence, kindness, gratitude, hope, humor, and so on--each of which exists in degrees. Character Strengths and Virtues classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement, causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested in psychology and what it can teach about the good life.

There have been a string of armed robberies near a park over the past few weeks. Police believe most of them are the work of the same person. Here are suspect descriptions from the victim in each mugging. Which one of the robberies most likely wasn't committed by the same person?

ANSWER D: While no two of the descriptions are exactly the same, the first three are similar enough that it's very likely they're describing the same person.

ANSWER C: You should stop and deal with the situation and notify dispatch about the unplanned stop. It looks as if a fight is about to break out, and preventing violence takes priority over investigating a car break-in that already happened.
