Earth Zero

"One of the most thrilling writers working today. Miss him at your peril." – Blake Crouch, Wayward Pines
The second book in the Next post-apocalyptic thriller series EARTH ZERO As the remnants of the human race mobilize for an attack on the mutants who have taken over the abandoned cities, a small band of survivors are caught in the middle of the conflict. Rachel Wheeler's own mutant abilities could make her a valuable resource for the new government and the army it has formed in the wake of the apocalypse. But the people who want to take back the world have a ruthless vision for the future, and a toxic planet is unleashing its rage in the form of deadly predators. Meanwhile, the mutants are evolving at an astonishing rate and establishing a social order that defies human control. When her group is drawn into the ultimate war, Rachel must decide whether to stay loyal to the ones she loves or fight for ideals she doesn't fully embrace. The top of the food chain is at stake, and the extinction of the human race may not be the worst possible outcome. ----- Look for Next #3: Radiophobia, as well as the AFTER post-apocalyptic series and the ZAPHEADS spinoff series. Understanding Physics for JEE Main and Advanced Mechanics Part 2 2020

IIT JEE Main and Advanced test the conceptual knowledge of aspirants by asking real-life application based problems on Physics, Chemistry, and Mathematics. Keeping this in mind, we have been publishing our best-selling series of books exclusively on different topics of all three subjects to enable aspirants for advanced ability to tackle any type of questions asked from them. "Understanding Physics" is one of those best-selling series written by renowned author, D.C. Pandey which carries five fully comprehensive textbooks presenting 36 essential chapters of Physics. The second book on Mechanics Volume 2 has been revised thoroughly to reinforce the foundation of Mechanics simply and coherently with 6 scoring chapters promoting in-depth discussions on each theory. The focused study material for concept building along with applications for solidifying the problem-solving skills given in this book are highly advantageous. It also provides the last 6 years' questions of JEE Main and Advanced to know the trend and patterns of questions. Enclosed with well-organized and premier set of study material to develop the substantial knowledge of Physics required for acing IIT JEE Main and Advanced, this book is the absolute best in terms of both quality and quantity.

Holy Vegan Earth

Soon The Judgment Day of the Creator will happen. Billions of corpse-eaters, evil spirits from hell who have possessed human bodies and they are killing animals and eating corpse of animals will be executed and sent back home, to Hell for punishment and education. This is an extremely painful education. Be Warned. This Judgment Day of the Creator was mentioned by me, Moses 3300 years ago and by Jesus 2000 years ago and by Mohammad 1400 years ago. Holy Vegan Earth, the last book of the Creator that updates all previous books, Quran, Bible and Torah was revealed to me, Moses

and I wrote it from 2012 to 2018. Book contains guidelines. It contains Theological, Philosophical and Scientific content related to the subjects of some educational stories. It contains a long story that started in 7000 BC and continued to my next appearance on the Earth as Moses in 1300 BC and now, again as Moses to warn people about the soon happening Judgment Day. Book contains a True Story. Fiction, it is not. Two conditions should apply then you will survive. (1) Belief in the Creator (2) Be a Vegan, that means you learned a simple lesson from Eleven Commandments that I brought for you from the Creator. Yes. 11 Commandments, not 10. The 11th Commandment is You must be Vegan. You should not kill any innocent human animal or other animals. Those who violate the law will be executed humiliatingly and burned in hell for eternity. Book contains many paintings that I created to accompany the Theological content to make it easier to digest and many Plans for Vegan Activists. We establish the Vegan Earth by Genocide. This is my wish. When the Creator will do it is out of my jurisdiction. However, you have no excuse any more. You are warned clearly. You like it or not, do not matter. This is plan of the Creator typed by Moses Messenger of the Creator in 2012-2018 from direct communication with the Creator, the Unified Field, the Unity, Creator of Universes. If you are atheist, I have included seven proofs of the existence of the Creator in this book. Some are complex Mathematical proofs and some are simple. Depends on level of your intelligence you can find a proof that you can understand. Read, learn, understand and surrender to words of the Creator and Prophet of the Creator, Moses. Go Vegan, you will live. Stay corpse-eater, you will be eradicated like bacteria and will be burned in hell. Use your brain. You will find logic and reasoning in this book. Convert to Vegan. Convert to a believer in the Creator. If you do not use your brain, in hell you will learn by pain. Evidence and Proof is the only important matter. The Unified Field is God. The Unified Field is the Creator of Universe. In this book of God, the Sixth Book of Moses, I included the evidence and proof that I am communicating with the Unified Field. It is a two-direction communication. I proved I am Moses. Belief without reasoning and proof worth zero. Vegans who are believers in the Creator will inherit the Earth. Rest of humans will be wood for fire of hell. 01 - 110 - We start with 110. There is hope. 02 - 112 - Only if the 112, God helps. And He promised to do so. 03 - 097 - Revelations in uncountable nights of determination. 04 - 094 - I am here, again, Moses has one command, Go Vegan or go to Hell. 05 - 106 - Be afraid of one who is friend of the Creator of Universes. Love for Animals. Death to Corpse-Eaters. 06 - 108 - I am grateful. We use Your resources only for Justice for Animals. 07 - 113 - We count on You. 08 - 114 - We are aware and do the best that can be done. 09 - 109 - Kill them all. 10 - 111 - Hell for them is Justice. 11 - 110 - We Own the Earth. Animal Rights, Vegan, We inherit the Earth. We count on Your Power. Second column are representative of numbers described in the book. The last seal arrived in a 97 and ended in 110. Wait for the Judgment day. Soon. I am waiting.

Designing Zero Carbon Buildings Using Dynamic Simulation Methods

In addition to the application of fundamental principles that lead to a structured method for zero carbon design of buildings, this considerably expanded second edition includes new advanced topics on multi-objective optimisation; reverse modelling; reduction of the simulation performance gap; predictive control; nature-inspired emergent simulation leading to sketches that become 'alive'; and an alternative economics for achieving the sustainability paradigm. The book features student design work from a Master's programme run by the author, and their design speculation for a human settlement on Mars. Tasks for simple simulation experiments are available for the majority of topics, providing the material for classroom exercise and giving the reader an easy introduction into the field. Extended new case studies of zero carbon buildings are featured in the book, including schemes from Japan, China, Germany, Denmark and the UK, and provide the reader with an enhanced design toolbox to stimulate their own design thinking.

SOFT ROBOTS (MIM*X #1) After bloody civil unrest, environmental disaster, and the Third World War, benevolent corporations have replaced governments and delivered peace, prosperity, and equality to a grateful human race. Max Carmichael is an agent in the Cryptics Bureau, whose duty is to protect the corporations that govern the world. But when he's given a secret mission to find a mysterious woman linked to acts of sabotage, he discovers she was part of a MIM*X experiment that links human brains to artificial intelligence. Evan Lord, the enigmatic and powerful CEO of the MIM*X corporation, wants to shape society into a harmonious blend of humans and robots using neural implants. Carmichael soon realizes his involvement is no accident, and he's forced to choose between duty and humanity as rogue outliers plot to take down MIM*X. And the woman he is ordered to destroy causes him to question not only his own existence, but that of the entire global society as well. Look for the next book in the series, **DARK MACHINES**.

ORIGINAL SF TRADE PAPERBACK. Humanity is not alone in the universe. Across the galaxy, a war rages between advanced alien races. And it's about to be brought to our doorstep. The year is 2065 and an accidental encounter in space leads to the discovery that we are not alone in the universe—and that our continued existence as a species may be in jeopardy. Chris Holt, working in his office at the Space Resources Corporation, discovers that one of the asteroids he is surveying for mining is actually not an asteroid at all but a derelict spaceship. The word gets out and soon the world's powers are competing to explore and claim for themselves the secrets that it holds. What they don't know is that

across the galaxy, a war has been underway for millennia. A war between alien civilizations that have very different ideas about what should be done about emerging spacefaring civilizations like our own. The artificial intelligence resident in the derelict Holt discovered has been in our solar system since before the dawn of human civilization, watching, waiting and keeping quiet lest the interstellar war return and wipe out the sentient race that now resides there—humanity. And that war might soon be again coming to our front door. The truth can only be discovered on Methone, a tiny, egg-shaped moon of the planet Saturn. Who will get there first? And will it be in time? p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Helvetica; color: #454545} At the publisher's request, this title is sold without DRM (Digital Rights Management). Not illustrated. 1888 edition. Excerpt: ...apparel and sought and obtained employment as a teamster in the quartermasters department. Her features were very large, and so coarse and masculine was her general appearance that she would readily have passed as a man, and in her case the deception was no doubt easily practiced. Next day the "she dragoon " was caught, and proved to be a rather prepossessing young woman, and though necessarily bronzed and hardened by exposure, I doubt if, even with these marks of campaigning, she could have deceived as readily as did her companion. How the two got acquainted I never learned, and though they had joined the army independently of each other, yet an intimacy had sprung up between them long before the mishaps of the foraging expedition. They both were forwarded to army headquarters, and, when provided with clothing suited to their sex, sent back to Nashville, and thence beyond our lines to Louisville. On January 9, by an order from the War Department, the Army of the Cumberland had been divided into three corps, designated the Fourteenth, Twentieth, and Twenty-first. This order did not alter the composition of the former grand divisions, nor change the commanders, but the new nomenclature was a decided improvement over the clumsy designations Right Wing, Centre, and Left Wing, which were well calculated to lead to confusion sometimes. McCooks wing became the Twentieth Corps, and my division continued of the same organization, and held the same number as formerly--the Third Division, Twentieth Corps. My first brigade was now commanded by Brigadier-General William H. Lytle, the second by Colonel Bernard Laiboldt, and the third by Colonel Luther P. Bradley. On the 4th of March I was directed to move in light marching order toward Franklin and...

Mission To Methone

Walter finds a tunnel which leads from rural Appalachia to a city deep within the crust of the earth. Many unsolved mysteries of the universe are revealed to Walter as he explores a vast territory which, to us, is new and uncharted. The highlight of his subterranean travel culminates with a visit to a series of immense illuminated caverns which are inhabited by descendants of the ancient Incas of South America. Inside the Earth, colonies are established for a righteous purpose. Worthy men, women, and children from all countries on earth are offered sanctuary from the impending holocaust of Armageddon. Witness a modern miracle as Noah's Ark is masterfully re-created in a setting deep within the earth, and animals are gathered anew from all over the world. Join Walter on a guided tour of the Interworld; a semi-tropical paradise where the sun always shines. Develop a deeper awareness of the commonalities which connect all members of the Plant and Animal Kingdoms. Discover the living truth about extinction.

The Sun, Energy, and Climate Change conveys one central idea – that we can utilize energy without continuing to harm the planet by increasing our reliance on energy from the sun. This accessible guide stresses the sun's importance as our ultimate energy source by focusing on climate change from an energy perspective and explains the naturally balanced energy transfer from the sun to the earth and society's consumption of this energy. This book is for anyone worried about environmental damage from our reliance on fossil fuels and the global fight against climate change. The key message being we do not have to accept the inevitable and can work to prevent the worst.

This is volume 3 of 3 (black and white) of ""College Physics,"" originally published under a CC-BY license by Openstax College, a unit of Rice University. Links to the free PDF's of all three volumes and the full volume are at <http://textbookequity.org> This text is intended for one-year introductory courses requiring algebra and some trigonometry, but no calculus. College Physics is organized such that topics are introduced conceptually with a steady progression to precise definitions and analytical applications. The analytical aspect (problem solving) is tied back to the conceptual before moving on to another topic. Each introductory chapter, for example, opens with an engaging photograph relevant to the subject of the chapter and interesting applications that are easy for most students to visualize.

Earth's Evolving Systems

Melody has an answer, now, but to a question she never asked—a question she never imagined asking. And the whole world has seen what she has seen. Uncovering the truth is not the same as victory, though. She and her boyfriend remain on the run, in hiding from assassins and government conspirators, while the world comes to terms with its new reality. People and governments pick sides, and war begins to spread. Meanwhile, the mystery of the great AI remains. Melody and her allies refocus their efforts and restart the project to uncover the AI's secrets. They try their best to keep the new operation hidden as the world crumbles, but their enemy is too powerful, its resources too great. When the attack comes, Melody learns the true cost of her convictions. Then she learns that she is able to pay it, and keep fighting. She is changing, now, becoming something new, a person she does not recognize. The few relationships she still has are fragmenting as she gives everything to the mission. Gone are her old comforts, replaced by the comfort of a gun, and the need to be stronger—physically stronger than she has ever been, especially when she finds herself trapped behind enemy lines. Nor is Melody the only one paying a price for conviction. Casualties are beginning to mount, the enemy is strong, and a key ally may be dying. Despite all the loss, though, the attacks and setbacks, Melody's team is making progress, with the aid of the world's coders and hackers. What is the purpose of the mysterious AI embedded in the global Internet? What is it doing? What is it looking for? Just a little more time is all they need, to deploy their new software on the most powerful supercomputers around the world, in hopes that they will be able to unlock the secrets of the AI. Their last hope is that if they

can learn about the AI, they may learn something that will help them in the fight against an otherwise invincible enemy, before it's too late.

Outlook for Space

Janson Bush and Sandra Beaufort are battling to escape Earth Zero to a new life on one of the alternate Earths. They're not alone. Aided by Janson's old friend and ally K-Bess and her mech companion Beau-1000, the odds have shifted in their favour. They're well on their way, having tunnelled their way out of Tech Central and navigated their way through the perils of the Revivalist Underground. Now, all they have to do is find a way to overcome the remaining obstacles which stand in their way of reaching Launch Site K-Kilo. Set on a blighted Earth in a not too distant future, Zero Escape tells the story of a motley crew of rebels fighting against a world in which people are enslaved to the AIs and their muscle the Thals. Outside of the enclosed Tech Domes, they make new alliances and encounter strange and sinister enemies. K-Bess has been reunited with her lover but he is being chased by gangsters for a debt he will struggle to repay. Janson and Sandra are being hunted by the AIs and must make it through the Divided City if they are to escape. Genie the hyper-intelligent robot might be able to help them but some of the problems they face might prove too tough for even his mighty brain...

Learn the basics of Java 9, including basic programming concepts and the object-oriented fundamentals necessary at all levels of Java development. Author Kishori Sharan walks you through writing your first Java program step-by-step. Armed with that practical experience, you'll be ready

to learn the core of the Java language. Beginning Java 9 Fundamentals provides over 90 diagrams and 240 complete programs to help you learn the topics faster. The book continues with a series of foundation topics, including using data types, working with operators, and writing statements in Java. These basics lead onto the heart of the Java language: object-oriented programming. By learning topics such as classes, objects, interfaces, and inheritance you'll have a good understanding of Java's object-oriented model. The final collection of topics takes what you've learned and turns you into a real Java programmer. You'll see how to take the power of object-oriented programming and write programs that can handle errors and exceptions, process strings and dates, format data, and work with arrays to manipulate data. This book is a companion to two other books also by Sharan focusing on APIs and advanced Java topics. What You'll Learn Write your first Java programs with an emphasis on learning object-oriented programming in Java Work with data types, operators, statements, classes and objects Handle exceptions, assertions, strings and dates, and object formatting Use regular expressions Work with arrays, interfaces, enums, and inheritance Take advantage of the new JShell REPL tool Who This Book Is For Those who are new to Java programming, who may have some or even no prior programming experience.

CTET Success Master Social Science/Studies Paper-2 for Class 6 to 8 2020

Earth Our Country by Al Andreoli Our World's political fragmentation is turning obsolete. The countries anarchy prevents us to continue to flourish and ultimately succeed to build a truly liberal, sustainable and humanistic society, while the ecologic wall stands in front of us. Our civilization is now in the middle of a bridge, hesitant of which way to go, back to the nations and protectionism, or straight toward the unknown of Universalism? Earth Our Country takes us through the journey of building a truly holistic universal society: The United Democratic States. It calls for Barack Obama to run for first global president and Hillary Clinton to lead his global think tank - their program is included. The realization of the unity of Mankind in the making is a journey and most will start this discovery with a condescending roll of their eyes. Join us with no taboo and switch on your curiosity. We propose a way to pass the great wall of the complete and sustainable globalization, so that we become the first generation of the Homo Sapiens Universalis. Al Andreoli is a veteran international technology executive. He has traveled, worked and lived in a number of countries around the World, leading American, Asian and European organizations. He is a liberal who praises global capitalism as a tool to serve Mankind's progress. However, he is convinced that pure global market economy needs the mirror of a global and democratic political governance to resist protectionism.

Planet Zero

This self-contained monograph gives a thorough introduction to the theory of gravity which is used as the basis for developing applications in exploration and geodesy. In addition, a survey of gravity instrumentation is given, with emphasis on the theory of underlying these instruments. The book finishes with an exposition of forward modeling and inversion, again emphasizing fundamental principles. *Surveys gravity instrumentation with emphasis on the theory of why certain instrumentation is used *Presents thorough developments of the theory of gravity to aid in creating applications in exploration and geodesy *Emphasizes the fundamental principles of forward modeling and inversion in the gravitational method

Zero Escape

This book presents basic information on material science (geochemistry, geophysics, geology, mineralogy, etc.), interaction between subsystem consisting earth system (atmosphere, hydrosphere, litho (geo) sphere, biosphere, humans) and in earth-planet system and evolution of earth-planetary system. The nature-humans interactions are described and new view on earth, planets and humans (integration of anthropocentrism and naturecentrism) are presented.
