Il cavaliere inesistente

Questo romanzo di Calvino viene ad affiancarsi a 'Il visconte dimezzato' e a 'Il barone rampante', compiendo una trilogia di emblematiche figure, quasi un albero genealogico di antenati dell'uomo contemporaneo. Stavolta Calvino si è spinto più a ritroso nei secoli e il suo romanzo si svolge tra i paladini di Carlomagno, di quel Medioevo fuori d'ogni verosimiglianza storica e geografica che è proprio dei romanzi cavallereschi.

La trilogia di Calvino

An empty suit of armor is the hero of this witty novella set in the Early Middle Ages by the acclaimed author of *If on a Winter's Night a Traveler*. As a paladin in the court of Charlemagne, Agilulf is the very embodiment of valor and dedication to duty—but he is also a gleaming white suit of armor with nothing inside it. While he has stolen the heart of the female knight Bradamante, she in turn is loved by the young adventurer Rambaldo. When a challenge to Agilulf's honor sends him on an expedition through France, England, and North Africa, Brandamante and Ramaldo follow close behind. Narrated by a nun with her own secrets to keep, this beloved novella explores the absurdities of medieval knighthood in a series of plot twists that are “executed with brilliance and brio” (Chicago Tribune).

I nostri antenati

Ogni cosmicomica trae il suo primo spunto da una frase letta in un libro scientifico, là dove un'immagine riesce a prender forma e svilupparsi e vivere d'una sua vita autonoma. In genere si tratta di libri di cosmologia, di fisica, di genetica, ma potrebbero nascere anche da lettura più astratte, di matematica o filosofia

«Nella guerra tra Austria e Turchia del 1716, il visconte Medardo di Terralba viene colpito da una cannonata turca in pieno petto e torna a casa dimezzato. Questo truculento inizio dà l'avvio a una fiaba cadenzata come un balletto, nella quale attorno al mezzo-visconte si muovono e s'affannano

sudditi più dimezzati di lui: il dottor Trelawney la cui scienza trascura gli esseri umani, il carpentiere Pietrocchiodo che costruisce mirabili ordigni cercando di non pensare che sono forche, l'astratto moralismo dei profughi ugonotti, il decadente edonismo del lazzaretto dei lebbrosi. È una fantasia paga del fuoco di fila delle sue trovate, questa di Calvino, o una pensosa allegoria della condizione dell'uomo contemporaneo sempre "alienato"

The Nonexistent Knight

Nel lontano Medioevo, tra i paladini di Carlomagno, combatte coprendosi di gloria Agilulfo, cavaliere senza corpo di cui vive solo la bianca e lucida armatura. Mosso dalla forza di volontà e dalla fede nella causa e accompagnato dallo scudiero Gurdulù - che invece c'è ma non sa di esserci -, Agilulfo si mette sulle tracce di una fanciulla salvata diversi anni prima. Seguito a distanza dall'amazzone innamorata Bradamante e dal compagno d'armi Rambaldo - un giovane entrato nell'esercito per vendicare il padre ucciso -, tra battaglie e inseguimenti, naufragi e contrattempi, i vari personaggi si perderanno, ma solo per trovare il loro posto nel mondo. Il romanzo di Calvino sulla ricerca di sé e della propria strada per la prima volta in versione graphic novel: un intreccio rocambolesco, tenuto insieme dallo stile inconfondibile di Sualzo. ***** Questo eBook è ottimizzato per la fruizione su tablet; se ne sconsiglia pertanto la lettura sui dispositivi eReader.

La memoria del mondo e altre storie cosmicomiche

Italo Calvino manifesta il suo interesse per il senso del gusto nel suo famoso racconto Sapore Sapere, ma di gusto e sapori è intrisa tutta la sua produzione letteraria. In questo libro, l'autrice ci accompagna in un viaggio tra le fiabe e i racconti del grande autore, esplorando la magia della parola e quella del cibo, spesso chiave di volta di ogni narrazione. Nuova edizione ampliata e aggiornata

Italo Calvino

Calvino's story is illustrated with the armour from the collection of Ferdinand of Hapsburg at the Kunsthistorisches Museum in Vienna. Beaufort-Spontin's essays on the collection and on medieval tournaments are included, translated into Italian from the original German.

Il visconte dimezzato

In questo libro né si parla del tema del viaggio in letteratura, né del genere «letteratura di viaggio»; ma si esamina il comune carattere di «spaesamento» che alle due esperienze, quella che nasce dalla lettura e quella che nasce dal viaggio, è comune. L'affascinante vocazione del testo letterario a farsi esso stesso viaggio, trasporto che accomuna autore e lettore in «picciola barca», è esplorata dall'Autore in un suggestivo percorso da Omero a Dante a Boccaccio, Ariosto, Sterne, Goethe, Manzoni, sino alla curva moderna di Beaudelaire e Conrad, e alle rivisitazioni novecentesche di D'Annunzio, Gozzano, Calvino.

Il cavaliere inesistente. Ediz. speciale

A young orphan who joins the Italian Resistance against the occupying forces from Germany during World War II discovers some spiders nests in which he hides a gun that he steals from a German soldier.

Il peso dell'imponderabile

A posthumously published collection of short stories that span the breadth of Italo Calvino's career.

Il cavaliere inesistente. Il romanzo a fumetti

Viscount Medardo is bisected by a Turkish cannonball on the plains of Bohemia; Baron Cosimo, at the age of twelve, retires to the trees for the rest of his days; Charlemagne's knight, Agiluf, is an empty suit of armour. These three vivid images are the points of departure for Calvino's classic triptych of moral

tales, now published in one volume and all displaying the exuberant talent of a master storyteller. 'The most magically ingenious of the contemporary Italian novelists' The Times

Letture

Published for the first time in English, a final collection of essays by the renowned fabulist writer tours the visual world through explorations of subjects ranging from cuneiform and antique maps to Mexican temples and Japanese gardens. Original.

Italo Calvino: il sapore del racconto

Now in fantastic new big book size - perfect for shared reading lessons. Small said, "I'm a grim and grumpy little Small and nobody loves me at all." "Oh Small," said Large. "Grumpy or not, I'll always love you no matter what." When Small is in a big bad mood, it's up to Large to help. But what if Small were a grizzly bear, or a scary crocodile - would Large still love him? Of course! A heartfelt story about the unconditional love each parent feels for their child, beautifully told by Kate Greenaway-nominated Debi Gliori and repackaged for a new generation to enjoy.

'An indispensable writer ... Calvino, possesses the power of seeing into the deepest recesses of human minds and then bringing their dreams to life' Salman Rushdie The difference between life and literature; the good intentions of holiday reading; the avante-garde; the fate of the novel; the fantastical; the art of translation: these are just some of the ideas in The Written World and the Unwritten World. A collection of essays, articles, interviews, correspondence, notes and other occasional pieces on writing, reading and interpreting books, this work gives us new insight into Italo Calvino's expansive, curious and generous mind. Letteratura e viaggio

Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86, but they were left unfinished at his death. The surviving drafts explore the concepts of Lightness, Quickness, Multiplicity, Exactitude and Visibility (Constancy was to be the sixth) in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale. With his customary imagination and grace, he sought to define the virtues of the great literature of the past in order to shape the values of the future. This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed. Italo Calvino, one of Italy's finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and

raised in San Remo, Italy; he fought for the Italian Resistance from 1943-45. His major works include *Cosmicomics* (1968), *Invisible Cities* (1972), and *If on a winter's night a traveler* (1979). He died in Siena in 1985, of a brain hemorrhage.

Bibliografia generale della lingua e della letteratura italiana

One of the New York Times's Ten Best Books of the Year: These traditional stories of Italy, retold by a literary master, are "a treasure" (Los Angeles Times). Filled with kings and peasants, saints and ogres—as well as some quite extraordinary plants and animals—these two hundred tales bring to life Italy's folklore, sometimes with earthy humor, sometimes with noble mystery, and sometimes with the playfulness of sheer nonsense. Selected and retold by one of the country's greatest literary icons, "this collection stands with the finest folktale collections anywhere" (The New York Times Book Review). "For readers of any age . . . A masterwork." —The Wall Street Journal "A magic book, and a classic to boot." —Time

The Path to the Nest of Spiders

A couple on an epicurean journey across Mexico are excited by the idea of a particular ingredient, suggested by ancient rituals of human sacrifice. Precariously balanced on his throne, a king is able only to listen to the sounds around him - sure that any deviation from their normal progression would mean the uprising of the conspirators that surround him. And three different men search desperately for the beguiling scents of lost women, from a Count visiting Madame Odile's perfumery, to a London drummer stepping over spent, naked bodies.

Numbers in the Dark

A collection of stories about time, space, and the evolution of the universe in which the author blends mathematics with poetic imagination. "Calvino does what very few writers can do: he describes imaginary worlds with the most extraordinary precision and beauty" (Gore Vidal, New York Review of Books). Translated by William Weaver. A Helen and Kurt Wolff Book

Our Ancestors

Un bilancio letterario, ma anche politico-morale, del Novecento italiano vieta la neutralità. E infatti Cesare Segre, in questo libro, segue con reattiva attenzione critica conquiste e sconfitte dell'attività letteraria; i raggiungimenti come l'attuale, progressivo, declino. Il suo giudizio viene portato, in un ampio, esauriente capitolo iniziale (forse il più efficace sinora proposto), sulle trasformazioni del panorama letterario del secolo scorso, e poi concentrato su una lunga serie di autori (anche delle ultime leve), con limpide monografie che completano i suoi precedenti contributi. E avverte con amarezza la scarsa continuità dell'onda di rinnovamento prodotta dalla caduta della dittatura, il crescente vuoto morale, pubblico e privato, che promuove ora il degrado della democrazia. Il giudizio di Segre fa riferimento, anche nei saggi più letterari, a valutazioni di etica sociale che l'autore considera ormai imprescindibili. È significativo che un capitolo centrale del libro discuta i rapporti fra etica e letteratura, capovolgendo l'assioma crociano dell'autonomia dell'arte, e auspicando un nuovo impegno degli scrittori, anche come difesa dei valori culturali che essi esprimono, o credono di esprimere, e che sono sempre più vilipesi. Se poi è vero che la Shoah ha segnato il punto più basso nel diagramma dei valori etici operanti nella storia degli uomini, additando un bivio non evitabile, si capisce perché il libro dedichi nella seconda parte tante analisi agli scrittori, anche stranieri, della Shoah, e chiuda con un capitolo di partecipe riflessione sulla letteratura dei Lager.

How to develop a strategy that wins in competitive markets | Roger Martin - How to develop a strategy that wins in competitive markets | Roger Martin by Growth Manifesto Podcast 168,042 views 2 years ago 1 hour, 20 minutes - This episode is with Roger Martin, writer, **strategy**, advisor and in 2017 was named the #1 **management**, thinker in the world, he is ...

Roger Martin's introduction to the Growth Manifesto Podcast

How do you define strategy?

Strategy does not always assume that there is a competitive landscape or that you have a competitor

How do you define your "where to play" in your strategy?

Roger unpacks the confusion between "strategy" and "planning"

How the military definition of strategy relates to the business definition of strategy

What do you need to create a winning strategy?

Roger explains the "How might we?" questions in strategy

How many possibilities should a strategy session come up with?

Should companies try to win in just one area with their strategy or can they play across many different areas?

According to Roger, you need to pick a "where" in which you aspire to be number 1 in share for a successful strategy

In strategy, you need to have a winning aspiration that helps you pick a "where to play" and a "how to win"

How Roger sees good business strategy as a positive force for humanity

How do we choose the one idea that has the best likelihood of success amongst all the possibilities in our strategy?

How long does the process of choosing the best idea in our strategy usually take?

Roger talks about how clever entrepreneurs can enable the world to "de-risk" from whatever it is that they're doing or selling

Strategy is an exercise in shortening your odds

Roger explains why it's a tricky time for big companies these days in terms of taking risks due to smaller companies trying to disrupt industries

Roger and Alex talk about some of the measures big companies can take to protect themselves from the small disruptors

Once you've established what to do or which direction to take your strategy, how do you actually win?

When you find out that your strategy doesn't fit, do you simply adjust the strategy or go through the whole process again?

How can management systems help with your strategy?

Roger talks about how management systems are the hardest and most boring part to work on to ensure your strategy succeeds

According to Roger, when you're the market leader in your industry, you always have to be on the lookout for different kinds of competitors

How do you measure strategy?

Roger believes that companies that are trying to make the world a better place by being good to the

rest of humanity are more likely to create shareholder value

What's the one thing you'd want our listeners to do?
