Speech Index

This collection shows how traditional music and dance have responded to colonial control in the past and more recently to other external forces beyond local control. It looks at musical pasts and presents as a continuum of creativity; at contemporary cultural performance as a contested domain; and at cross-cultural issues of recording and teaching music and dance as experienced by Indigenous leaders and educators and non-Indigenous researchers and scholars.

The Last Missionary is a bicycle adventure story set in remote districts in eastern Democratic Republic of the Congo. Bob Walters travels with a team of Congolese colleagues discovering the state of the villages run over by the Pan-African war that devastated the region's people through the terror of rape and the killing of millions. Along the way, Bob offers the reader a number of short tutorials and reflections on missiology, the study of mission systems. He ponders patronage and cargo cults, and asks the question, "Is Jesus the answer?" But this is not an answer book, it is a book in search of better questions. The Last Missionary is a challenge to both evangelicals and progressives in the church, missionaries and mission volunteers, and even non-religious aid workers.

For the Sake of His Children A marriage of convenience? Rachel Hewitt couldn't possibly accept. Not even for the sake of three adorable little girls who desperately want a new mother. Sheriff Tristan McCullough offers Rachel a home and family, but not the one thing she truly seeks--someone to love her for herself. Tristan McCullough hoped to find a wife on the wagon train, not a nanny. The hardworking widower wants a marriage without emotional risks. But independent Rachel intrigues him. One minute she's winning over his shy little girls, and the next she's tackling danger head-on. She might just be Tristan's unexpected second chance at happiness...if he'll risk his wary heart again. Journey West: Romance and adventure await three siblings on the Oregon Trail

The Last Missionary

The International Council on Pastoral Care and Counseling (ICPCC) met in August 2011 in Rotorua, New Zealand for its 9th International Congress. Various discussions in the field arose from actual challenges, such as the earthquake in Japan, social changes, and, mainly, deprivations all over the world. The ICPCC offers guidelines on how to cope with these situations, which also include the indigenous traditions of the Maori culture, projects on inter-religious encounter, etc. - all of which provoke a rethinking of traditional spirituality. The Congress proceedings are presented in this book as a state of discussion within this globalized network. (Series: Theologie: Forschung und Wissenschaft - Vol. 33)

Some Americans pretend that a watertight line separates the "races." But most know that millions of mixed-heritage families crossed from one "race" to another over the past four centuries. Every essay in this collection tells such a tale. Each speaks with a different style and to different interests. But taken together, the seven articles paint a portrait, unsurpassed in the literature, of migrations, challenges, and triumphs over "racial" obstacles. Stacy Webb tells of families of mixed ancestry who pioneered westward paths from the Carolinas into the colonial wilderness, paths now known as Cumberland Road, Natchez Trace, Three-Chopped Way, and others. They migrated, not in search of wealth or exploration, but to escape the injustice of America's hardening "racial" barrier. Govinda Sanyal's astonishing research uses mtDNA markers to trace a single female lineage that winds its way through prehistoric Yemen, North Africa, Moorish Spain, the Sephardic diaspora, colonial Mexico, and finally escapes the Inquisition by assimilating into a Native American tribe, ending up in South Carolina. He fleshes out the DNA thread with documented genealogy, so we get to know their names, their lives, their struggles. Cyndie Goins Hoelscher focuses on a specific family that scattered from the Carolinas. One branch fled to Texas, becoming friends with Sam Houston and participating in the founding of that state. Other bands fought in the war of 1812, or migrated to Florida or the Gulf coast. Nowadays, Goins descendants can be found in nearly every state and are of nearly every "race." Scott Withrow (the collection's editor) concentrates on the saga of one individual of mixed ancestry. Joseph Willis was born into a community of color in South Carolina. He migrated to Louisiana, was accepted as a White man, founded one of the first churches in the area, and became one of the region's best-loved and most fondly remembered Christian ministers. S. Pony Hill recounts the historic struggles of South Carolina's Cheraw tribe, in a reprint of Chapter 5 of his book, "Strangers in Their Own Land." Marvin Jones tells the history of the "Winton Triangle," a section of North Carolina populated by successful families of mixed ancestry from colonial times until the mid-20th century. They fought for the Union, founded schools, built businesses, and thrived through adversity until the civil rights movement of 1955-65 ended legal segregation. K. Paul Johnson traces the history of North Carolina's antebellum Quakers. The once-strong community dissolved as it grew morally opposed to slavery. Those who stayed true to their faith migrated north. Those who remained slaveowners left the church. The worst stress was the Nat Turner event. Its aftermath helped turn the previously permeable color line into the harsh endogamous barrier that exists today.

The Only Resource of Its Kind Is Now Two Bestsellers in One! Tragically, churches have not always been safe places for children or youth or vulnerable adults. With this in mind, attorney, pastor, and author Melton outlines a process for developing policies and procedures to recognize and reduce the risk of abuse in the church. Safe Sanctuaries combines and expands information from two of her earlier

groundbreaking books, which focused, separately, on children and teens. "Safe Sanctuaries is the most helpful resource I have found dealing with this troubling topic," says one minister. "Straightforward yet non-threatening, the information is helpful for all denominations and congregations of faith." Practical guidance is provided in developing and implementing a substantive, holistic action plan of abuse prevention: recruiting, screening and working with volunteers training models for all who work with children, youth, and vulnerable adults suggestions for congregational response to unthinkable allegations of abuse order of worship celebrating the adoption of "Safe Sanctuaries" policies Melton's transformative, relevant, and foundational resource will train leaders in what they need to know to stay safe and keep the vulnerable in their care safe. This revised edition now features updated and timely information about protecting young people from online predators.

The Missionary Herald

The book is a fiction; it deals with Legal, political, economic and social ills plaguing most developing countries that are still grappling with various developmental challenges. The book highlights and satirizes all these ills and challenges facing these countries and proffer solutions to some of them. There are some developing countries especially in Africa where there is failure of leadership. This fuels ethnic, religious and social upheavals which lead to political instability and even wars. In some of these countries, there is corruption of monumental proportion which slows down economic development and this may eventually lead to other social problems such as poverty, chaos, anarchy etc. The book politely and humorously point out these problems and the way forward. Corruption is a global problem but the book also propounds a theory that corruption in large scale by a political leadership in any country may lead to economic problem that could cause extermination of the poor masses gradually through hunger, preventable and curable diseases and that such corruption should be treated as massocide and as crime against humanity by the UNO. The book also highlights the problem of unsuitability of some political arrangement of some developing countries that is also responsible for the political, social and economic problems plaguing them; and the need to have national dialogue to arrive at the best political arrangement which is indeed the foundation to build on. The outcome of such national dialogue should be implemented and use to draft a new constitution. The book humorously highlights the flight of integrity from some of these developing countries due to the bad example from leadership. When corruption is the order of the day and there is impunity in that no one is punished even when caught, it makes many people to join the bandwagon and hell is then let loose on the society. Some lawyers when well paid by corrupt officials; they would do all within their powers and explore legal loopholes and processes to either ensure that such cases drag to eternity in law courts or are never heard. Due to the legal procedure that presume an accused person innocent until convicted in law courts, the corrupt official going through trial in court would be free to pursue his/her political ambition, get elected into any political office and acquire more money to frustrate his/her trial in law court. This book highlights the foregoing too. The book highlights the social ills plaguing many developing countries which reduce most human beings to subsistence level and in such situation; higher human ideals are sacrificed on altar of expediency to survive. Even the zeal to work hard and excel wane in many people as the economic climate favours those with political powers and their cohorts; in such a situation everyone struggles to get to political power through any means. It becomes a do or die affair. The book will appeal to the public at large especially those who are interested in finding solutions to the problems affecting the developing countries.

The Missionary Herald at Home and Abroad

THE PRODIGAL FATHER COMES HOME.... Summoned home for a family emergency, engineer Quinn Forrester could no longer ignore a painful past. And though he didn't plan on staying long, it seemed his precocious daughter had been praying to God a lot lately...and decided He wanted her daddy to marry Sunday school teacher Ellie Wayne. Drawn to the handsome widower, Ellie yearned to ease his burden with everything in her heart. But she feared that her most closely guarded secret could drive Quinn away. Now she sought a miracle. For if God truly meant for them to become a family, He'd somehow show Quinn where he belonged....

Wagon Train Proposal

To sail around the world on Rivendel II, our 43-ft sloop, my husband and I set course for Australia in 1998. Providence landed us in Vanuatu, formerly the New Hebrides, independent since 1980. Rural island villages had lost electric power and communication, as well as transportation, education and healthcare services. Thus we started Project MARC, providing assistance for 10 years supported by many dozens of volunteers, vessels and sponsors. This is a story of adventure, failures and triumphs, as well as our own spiritual journey through these magical islands.

The Diary of John Sung

Real Family is a fictional story with many complex issues interlocked throughout the journey. The foundation of the story deals with relationships. It may be father to son, sister to brother, teacher to student, friends to family, friends to acquaintances, lovers to partners and rivals, colleagues to boss. It also could be relationships lost, missed, or by chance. Everyone needs someone to rely on for unconditional love and support. People may learn the hard way that those people are our Real Family. Stop and reflect on the relationships in your life and who has been there for you regardless of time. It is a curious thing to see how people relate to one another and the circumstances that if a bit different may have a different outcome. But life does not allow us to change a decision made. We may be able to continually affect the circumstance but it can never be undone. Lessons in life are what define who we are as a person. It is never the soul individual who is responsible for who they are, people that we don't control may affect who we become.

Encounter in Pastoral Care and Spiritual Healing

Art as Politics explores the intersection of art, identity politics, and tourism in Sulawesi, Indonesia. Based on long-term ethnographic research from the 1980s to the present, the book offers a nuanced portrayal of the Sa'dan Toraja, a predominantly Christian minority group in the world's most populous Muslim country. Celebrated in anthropological and tourism literatures for their spectacular traditional houses, sculpted effigies of the dead, and pageantry-filled funeral rituals, the Toraja have entered an era of accelerated engagement with the global economy marked by on-going struggles over identity, religion, and social relations. In her engaging account, Kathleen Adams chronicles how various Toraja individuals and groups have drawn upon artistically-embellished "traditional" objects—as well as monumental displays, museums, UNESCO ideas about "word heritage," and the World Wide Web—to shore up or realign aspects of a cultural heritage perceived to be under threat. She also considers how outsiders—be they tourists, art collectors, members of rival ethnic groups, or government officials—have appropriated and reframed Toraja art objects for their own purposes. Her account illustrates how art can serve as a catalyst in identity politics, especially in the context of tourism and social upheaval. Ultimately, this insightful work prompts readers to rethink persistent and pernicious popular assumptions—that tourism invariably brings a loss of agency to local communities or that tourist art is a compromised form of expression. Art as Politics promises to be a favorite with students and scholars of anthropology, sociology, cultural studies, ethnic relations, art, and Asian studies.

Reflection: Rulers And Preys stars a student politician Comrade Oluwatimileyin Turner, Chief Whip, a cynical, manipulative politician determined to become President. He is willing to use every secret he knows, every pressure point he can find, and every dirty trick in the book to secure his own rise to power—and in the process confirms just about every dark and terrible thing you thought you knew about politics. The author, Ajagbe Ayodeji drew on his extensive real-life experience in student politics for the book, and the result is an electrifying vision of how exceedingly violent governing can be behind closed doors.

Carolina Genesis

Are you ready to abuse-proof your congregation? If one child or adult is spared the confusing ordeal of unwanted touch, it will be worth your time to read this book. In this comprehensive resource, Methodist pastor and pastoral psychologist Karen McClintock demonstrates that sexual abuse in congregations is preventable and gives clergy and lay leaders the tools they need to prevent it. This book shows congregations how to protect children and vulnerable adults, prevent sexual harassment either by clergy or of clergy, and strengthen clergy families by raising awareness of the occupational and

emotional risks inherent in pastoral ministry. When you have finished this book, you will be familiar with the conditions in parishes and in the mental health of the individuals within them that lead to risky behaviors. You will be equipped to recognize and set sexual boundaries for yourself and to open dialogue about these issues in your congregation. You will have laughed at, celebrated, and honored human sexual power, pleasure, and vulnerability. You will have gained the knowledge you need, and perhaps the courage, to communicate these ideas within your congregation so that children and vulnerable adults are protected.

Safe Sanctuaries

A number of books have been written on the various roles of the pastor, and many of these works focus on one particular aspect of the pastoral ministry only, or just a few of them. The Multidimensional Pastor is an attempt to bring together and discuss in a single volume these various elements of the pastoral ministry with a goal of looking at principles from the Scripture to guide the pastors as they fulfill these various roles. The purpose of this work is to provide a balanced perspective and a bigger picture of the pastors' functions, while acknowledging their personal limitations. In this way, readers can develop a more realistic set of expectations from a pastor and celebrate the variety of expressions of the ministry.

The Epworth Herald

When a newly called pastor enters a congregation, the first weeks and months are times of careful navigation and many hidden land mines. This veteran pastor shares his stories and insights with others who begin this ministerial journey. A delightful book, this volume is a must read for seminarians and all pastors who enter a new call. The reader will find helpful hints and wonderful appendices to help a pastor through such a perilous time. Issues around entry set the tone for one's tenure. This is a book for clergy gatherings, conferences, peer groups, and workshops with helpful questions for reflection after each chapter.

There's No Such Thing as Public Speaking

Two top public-speaking coaches offer fresh advice on giving effective speeches and presentations with the immediacy of a conversation. The best speeches don't sound like speeches, and the best speakers make listeners feel as though they are being addressed directly. The trick is to make every presentation as natural and direct as a one-on-one conversation. This expert but accessible guide reveals: - The six truths behind every conversation-and how to use them at the podium - The three steps to inspiring any audience - The seven secrets for using voice and body language - The seven tools every speaker uses or misuses Whether addressing a few colleagues or a packed auditorium, readers will find practical and simple techniques for inspiring every listener.

Persuade on Purpose:

By combining all his research and ideas on what makes an effective presentation, Eric Fitzpatrick has compiled the 'Presentation Scorecard', which itemises all the things that a speaker needs to consider when making a presentation. He has summed up the key points with the acronym 'TRUE': the presentation should make your audience THINK, should be easy to REMEMBER and UNDERSTAND and should ENGAGE the audience. He outlines all the traps and pitfalls of making a presentation and how to avoid them, and details the tricks and techniques that will attract your audience's attention and convince them of your message. In straightforward chapters he addresses preparation, the structure of your presentation, the use of stories and humour, delivering the presentation, how to use slides and – more importantly – how not to. While the ideas in the book are focused on presentations, they are equally effective when giving speeches, pitching ideas, for one-to-one meetings and communicating in general.

Powers of Expression, Expressions of Power

Can a speaker's words ever be faithfully reported? History, philosophy, ethnography, political theory, linguistics, and literary criticism all involve debates about discourse and representation. By drawing

from Plato's theory of discourse, the lively analysis of speech presentation in this book provides a coherent and original contribution to these debates, and highlights the problems involved when speech becomes both the object and the medium of narrative representation. The opening chapters offer fresh insights on ideology, intertextuality, literary language, and historiography, and reveal important connections between them. These insights are then applied in specific critical treatments of - Virgil's Aeneid, of Petronius' Satyricon, and of scenes involving messengers and angels in classical and European epic. Throughout this study, ancient texts are discussed in conjunction with examples from later traditions. Overall, this book uses Latin literature to demonstrate the theoretical and ideological importance of speech presentation for a number of contemporary disciplines.

How to Say It Persuasive Presentations

Banish presentation anxiety with tips and techniques that work. Making a powerful presentation requires more than preparing the right materials and rehearsing a speech. This book will turn any anxious reader into a dynamic speaker who engages and inspires listeners. Not only for businesspeople, it can also prove a lifesaver to students and anyone else who must speak in public.

Power Presentation

Communication is the key to opening every door in life, from one-on-one conversations to speaking to a vast roomful of people. This book intends to help you discover just how effective you can be, and how good it will make you feel, both in your professional and your personal life.

Rock Your Presentation

This book will protect your audiences from the following disorders: - Death by PowerPoint - Tedium - Compulsive fidgeting - Losing-the-Will-to-Live Syndrome Nearly all of us have to pitch or present our ideas, whether in a formal setting like a theatre, at a company conference, in a classroom or even selling a concept one-to-one to our boss. In Rock your Presentation, Nigel Barlow, a professional keynote speaker and creative coach to many of the world's most famous organisations, gives you inspiring insights and practical techniques to 'rock up' your presentation or speech. Many of these tips come from exploring what makes great music so moving and impactful, and are easy to apply to make your own talks more dynamic and memorable. Try changing your key for different emotional impact; come up with a stronger chorus and an exciting climax; create your speaker's rider; be a protest singer to unleash your passion; and learn when and how to go unplugged to touch your audience. Whether you want to create a whole new presentation or tune up a tired old one, Rock Your Presentation will give you plenty of fresh ideas.

Public Speaking

Many public speaking texts take students through a number of chapters of theory and advice before getting to the different types of speeches (e.g., informative, persuasive, special occasion, and small group presentations) that they will give. This innovative new book provides students with the tools they need to speak confidently earlier in the course. Based on her many years of teaching experience, Sherry Devereaux Ferguson outlines an additive approach to public speaking, providing a foundational overview at the beginning of the book. Each subsequent chapter presents the information and skills necessary to fulfill that chapter's assignment. This organization allows students to master skills incrementally and--in the process--to begin speaking earlier. With a goal of building competency in stages, Ferguson's sure-footed method leads to more confident and effective speakers. Paying special attention to audience analysis and rhetorical criticism, this distinctive text also offers a strong ethical foundation for the act of public speaking. Features

- * Assignment-based: Organizes content around speech assignments rather than topics, allowing professors to introduce practical work early in the course
- * Additive in approach: Allows the student to apply principles learned earlier in the course and also to acquire additional knowledge and skills with each new assignment
- * Innovative: Incorporates a number of unique features such as the critical communication model, which offers an ethical component; chapters on professional speechwriting and rhetorical analysis; a discussion of PowerPoint presentations; and novel assignments such as a speech of welcome, a coffee shop discussion on ethics, and a team presentation based on theories of multiple intelligence

Providing an abundance of examples, tips from professionals, sample student speeches, and visuals, *Public Speaking: Building Competency in Stages* helps students to overcome their fears by equipping them with the tools they need to speak confidently in any context.

This book will show you incredibly creative ways to add humor to your: Employee Meeting--Keynote Speech--PowerPoint Presentation--Sales Pitch--TED Talk--Congratulatory Toast--Project Report--Campaign Speech--Product Launch--Tribute--Acceptance Speech--Opening Argument--Eulogy (well, not your eulogy)--and any other occasion where you are in front of an audience

When you stand in front of an audience, you only have one chance to make an impression on them. One chance to make that presentation memorable and powerful and significant. And no matter how good your presentation and preparation might be, if that message doesn't have some entertainment value to it, it will likely

get lost in the multitude of distractions you're up against. And even if you do have the audience's undivided attention, if your talk doesn't have some entertainment value, your impact--at best--will be non-existent. And--at worst--it will mark you with the reputation as a really boring speaker. The easiest, most efficient, and most effective way to add entertainment value to any presentation is with humor. And that is exactly why the book "Speaking Of Funny" was written. With (actually more than) 77 Ways To Add Humor To Any Presentation, you will never have a shortage of strategies to get any audience laughing, anytime, anywhere. This innovative book details many easy ways to add customized and relevant and appropriate humor into your next presentation--humor that will not only have your audience laughing, but also listening and learning.

Have you ever admired someone and wished that if you could speak like him/her? If you are like most people, speaking in public sends shivers down your spine. Many of you would like to avoid this problem entirely by finding some excuses, but this is hard to do in today's competitive world. Whether we study or work, eventually, we will need to speak in public to get certain tasks accomplished or make our ideas heard. It could be your project presentation in the class room, or doing a welcome speech at the School Annual day functions, or doing a short presentation at your office, or it could be attending an interview, eventually you will have to face the public. It's also difficult to get very far, either professionally or socially, without being able to speak well in public. 'Speak With Confidence' is a book for all levels of public speaking competency: beginner, intermediate and advanced. Written using several examples and powerful narration, this book is a wholesome learning material for public speaking. This book begins with the most essential component of public speaking - Confidence. The author explains the various ways in which readers can improve their confidence so that once they go on stage, they have no fear. Whether you want to improve your performance in sales, leadership, interpersonal skills, communications, presentations or customer service, you'll find resources here that perfectly work for you. Public speaking can be a scary thing the first few times you try it, but people who speak often have a few tricks that help improve their performance. In this book you will learn how to prepare a winning speech, deliver it with maximum impact, and leave a lasting impression on the audience. More than what you speak, what is crucial is how you speak and hence delivery is the most important factor in public speaking. "Speak with Confidence" could answer many of your queries, anxieties and doubts about public speaking. The chapter on 'Writing and Delivering a speech' will help you to write and deliver a powerful speech. There are chapters on delivering impromptu speeches which will provide you tools, tips and strategies to speak at short notice anywhere. There are speeches for various occasions; you could use some of the strategies when you emcee or organize events at your work place, neighborhood or school. Public speaking is an art that will always remain important and relevant to you, any time anywhere. The author shares his personal story of joining a Toastmasters club in Singapore to learn to speak to strangers on topics other than his professional subjects. Be amazed at how you can unleash your true potential and be able to enthrall, entertain, engage and enlighten any audience.

Develop Your Presentation Skills

Excerpt from *Ready-Made Speeches* In presenting them to the public it seems proper to preface them with a few simple suggestions as to their most efficient use. First, in the matter of length they have been regulated by the requirements of their various themes, as those themes appealed to the author. He has, however, kept in sight the probability that in many instances the speaker may desire to say many things not in the original speech, and yet may wish to profit by the formally prepared address. Having respect for this very laudable impulse, the author has endeavored so to adjust the several parts of the speeches that the speaker, after availing himself of the carefully prepared opening, may give full expression to his own personal opinions and suggestions, and return at the close to the conclusion as herein given. This may, perhaps, be better explained by an illustration. Take, for example, the first address in the book that upon the Presentation of a flag to a Military Organization. How To Become A Successful Orator

This book discusses and demonstrates the types of English discourse used at academic conferences and offers guidance to prospective conference participants from multiple perspectives. It is a combination of research taken from numerous academic conferences attended and observations made by the author, based on well-established research methods in applied linguistics, as well as a guidebook aimed at students, ESP teachers, and young academics and professionals wishing to upgrade their skills to participate fruitfully in, and contribute to, academic conferences. It offers academic novices and non-native speakers of English in particular much that is new and practical, far beyond the realm of simple 'presentation tips'. It addresses various topics, such as chairing discussions, poster management, discussion sessions, the TED phenomenon, workshops, and the emerging field of English as a lingua franca. The style alternates between the accessible and practical, and the analysis of the linguistic categories underpinning the discourse: genre analysis, the nature of the specialist discourse community, features of academic spoken discourse, and the presentation as multimodal narrative are all explored. The book includes authentic samples of model speech discourse throughout, along with questions and exercises for deliberation or practice in each chapter.
