Recovering from Heart Valve Surgery - Recovering from Heart Valve Surgery by Jefferson Health

- Einstein 6,619 views 3 years ago 1 minute, 42 seconds - Leaving the hospital after **heart valve surgery**, is based on reaching certain milestones. Dr. Alexandra Tuluca, Associate Chief of ...

Most patients who have heart surgery spend around four to five days in the hospital.

The expectation when you go home is that you can perform your independent daily activities

Patients who have small incision surgery are allowed to drive

about two weeks after surgery and a slow return to their normal activities including work.

Patients who undergo open heart surgery, as may be the case, can return to driving

Most patients see an improvement almost immediately.

The most common thing I hear from my patients is, doctor, I really didn't know how bad I felt.

I can truly breathe so much better and I can walk farther.

the expectation is that you will be at 100 percent.

A big component of recovery after heart surgery is cardiac rehab.

And we try to encourage all of our patients to go to outpatient rehab
