Examination Reforms in Pakistan

THE WISDEN BOOK OF THE YEAR and THE CROSS SPORTS BOOK AWARDS CRICKET BOOK OF THE YEAR. 'The most complete, best researched, roses-and-thorns history of cricket in Pakistan' Independent 'As good as it's likely to get' Guardian The nation of Pakistan was born out of the trauma of Partition from India in 1947. Its cricket team evolved in the chaotic aftermath. Initially unrecognised, underfunded and weak, Pakistan's team grew to become a major force in world cricket. Since the early days of the Raj, cricket has been entwined with national identity and Pakistan's successes helped to define its status in the world. Defiant in defence, irresistible in attack, players such as A.H.Kardar, Fazal Mahmood, Wasim Akram and Imran Khan awed their contemporaries and inspired their successors. The story of Pakistan cricket is filled with triumph and tragedy. In recent years, it has been threatened by the same problems affecting Pakistan itself: fallout from the 'war on terror', sectarian violence, corruption, crises in health and education, and a shortage of effective leaders. For twenty years, Pakistan cricket has been stained by the scandalous behaviour of the players involved in match-fixing. After 2009, the fear of violence drove Pakistan's international cricket into exile. But Peter Osborne's narrative is also full of hope. For all its troubles, cricket gives all Pakistanis a chance to excel and express themselves, a sense of identity and a cause for pride in their country. Packed with first-hand recollections, and digging deep into political, social and cultural history, Wounded Tiger is a major study of sport and nationhood.

Outraged conscience, careful argument, poetry and political analysis -- gathered here is the diversity of voices, traditions, and approaches that are weaving themselves into an anti-nuclear and peace movement in India and Pakistan. In these essays, written before, during, and after the May 1998 nuclear explosions, scholars and activists from both countries attempt to understand and challenge the nuclearisation of South Asia. The essays are an act of resistance against governments that see nuclear weapons as a currency of power, as symbols of prestige, as sources of security, as moments of glory in an otherwise dismal contemporary history. The collection includes Mahatma Gandhi's response to the atomic bombing of Hiroshima, and recent writings by renowned scholars Eqbal Ahmad, Rajni Kothari, Ashis Nandy, and Amartya Sen, as well as Arundhati Roy and veteran anti-nuclear activists, academics and journalists. The volume also contains the texts of many of the historic public statements protesting the May 1998 nuclear tests which helped mobilise public opposition to the bomb in South Asia. There is a resource guide to books, films and websites on nuclear weapons, as well as information on many organisations now working on this issue.

Gulf stability is coming to play a larger role in the foreign policy calculus of many states, but the evolving role of Asian powers is largely under-represented in the International Relations literature. This volume addresses this gap with a set of empirically rich, theory driven case studies written by academics from or based in the countries in question. The underlying assumption is not that Asian powers have already become important security actors in the Gulf, but rather that they perceive the Gulf as a region of increasing strategic relevance. How will leaders in these countries adjust to an evolving regional framework? Will there be coordinated efforts to establish an Asian-centered approach to Gulf stability, or will Asian rivalries make the region a theater of competition? Will US–China tensions force alignment choices among Asian powers? Will Asian states balance, bandwagon, hedge, or adopt some other approach to their Gulf relationships? These questions become even more important as the western boundaries of Asia increasingly come to incorporate the Middle East. The book will appeal to scholars and students in the fields of International Relations, Security Studies, and International Political Economy, as well as area specialists on the Gulf and those working on foreign policy issues on each of the Asian countries included. Professionals in government and non-government agencies will also find it very useful. The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

World Development Report 1995: Workers in an Integrating World addresses labor and employment--issues that are important for South Asia. Expanding employment and increasing the remuneration of workers are essential to poverty alleviation, which is the primary objective of all countries in the region. This regional perspective examines ways in which workers in South Asia can benefit from greater integration of the global economy through improving their skills or cushioning their transition to new jobs. The paper emphasizes that governments need to develop a framework for labor policies that defines the rights of employers, workers, and labor unions and the framework for collective bargaining and settlement of disputes. Liberalization will lead to market-based development, which is the best way to raise workers' living standards--it encourages firms and workers to invest in physical capital, new technologies, and skills.
