Horror in the West

Horror in the West is a horror anthology featuring eleven stories that combine the mysticism of the Old West with demons, zombies, aliens, and blood-curdling storytelling. A man who cannot be killed by the hangman's noose, alien cattle-drives for human flesh, demon-slaying bounty hunters - all of these stories can be found here. Horror in the West will take you by the reins and drive you straight over the edge!

How the West Went to Hell

How the West Went to Hell: The Collected Horror Westerns of Eric S Brown includes not only the highly acclaimed title novella, originally published by Pill Hill Press, but also the complete and rare Bigfoot War IV: Legion as well Bigfoot War: Frontier. In addition, within its pages are eight horror western short stories both new and old from Eric S Brown's career including the unpublished stories like Lest Your Eyes Should See and The Lizards. Other tales include Weeds, a Lovecraftian horror story set during the Civil War, The Riders, a dark and emotional prequel to The Weaponer, and zombie westerns such as No Stinking Yankee, Dead Town, Cold Vengeance, and The Courier. This book is a must read for not only fans of Eric S Brown's high octane style of action but for fans of the underrated genre of Western Horror. Strap on your six guns, grab your Winchester, and prepare yourself to step into an Old West filled with demons, zombies, monsters, and hordes of hungry Sasquatch bent on the destruction of the world of man.

The 1990s Teen Horror Cycle

Many critics and fans refer to the 1990s as the decade that horror forgot, with few notable entries in the genre. Yet horror went mainstream in the '90s by speaking to the anxieties of American youth during one of the country's most prosperous eras. No longer were films made on low budgets and dependent on devotees for success. Horror found its way onto magazine covers, fashion ads and CD soundtrack covers. "Girl power" feminism and a growing distaste for consumerism defined an audience that both embraced and rejected the commercial appeal of these films. This in-depth study examines the youth subculture and politics of the era, focusing on such films as *Buffy the Vampire Slayer* (1992), *Scream* (1996), *I Know What You Did Last Summer* (1997), *Idle Hands* (1999) and *Cherry Falls* (2000).

Films of the New French Extremity

The films of the New French Extremity have been reviled by critics but adored by fans and filmmakers. Known for graphically brutal depictions of sex and violence, the subgenre emerged from the French art-house scene in the late 1990s and became a cult phenomenon, eventually merging into the horror genre where it became associated with American torture porn. Decidedly French in flavor, the films seek to reveal the dark side of French society. This book provides an in-depth study of New French Extremity, focusing on such films as *Trouble Every Day* (2001), *Irreversible* (2002), *Twentynine Palms* (2003), *High Tension* (2003) and *Martyrs* (2008). The author explores the social implications of cinematic cruelty presented not as "violent films" but as "films about violence."

Undead in the West II

This companion to *Undead in the West* (Scarecrow 2012) explores the blending of the Western genre with zombies, vampires, mummies, ghosts, and spirits in comics, graphic novels, literature, games, new media, fandom and material culture.

Webb's Weird Wild West

"In Don Webb's *'Weird Wild West'*, Henry James avenges his brother Jesse, Robert E. Howard's serpent people are a modern gang, Satan flies a Zeppelin, and hobos liberate a zebra from a stolen train. Great weird fiction set in the west! Don Webb can write straight tales or he can go out to the fringe, where the cutting edge hasn't even cut yet, [where he] plays head-churning games and word games: [he's] a full spectrum writer. Roger Zelazny"

Journals of Horror

From Wikipedia.org: Found footage is a genre of film making, especially horror, in which all or a substantial part of a film is presented as discovered film or video recordings, often left behind by missing or dead protagonists. Terry M. West and Pleasant Storm Entertainment, Inc. present a revolutionary approach to the horror fiction anthology. *JOURNALS OF HORROR: Found Fiction* is a collection of terror inspired by the mechanics of the found footage horror film. In *JOURNALS OF HORROR*, the stories presented are horrific encounters committed to paper, item or device and discovered later. Each tale is a case file that has been transcribed from some type of unearthed diary. These tales can be discovered anywhere. This anthology is filled with some of the hottest talent in the horror fiction genre: P.D. Cacek, Todd Keisling, Glenn Rolfe, Robin Dover, DS Ullery, Essel Pratt, Michael Thomas-Knight, John Ledger, Paul D. Marks, Sonja Thomas, Paula Cappa, Stuart Keane, Darryl Dawson, Crystal Leflar, Lori R. Lopez, Michael Seese, Jeff O'Brien, Matt Hayward, Joseph Ramshaw, Michael McGlade, DJ Tyrer, Wesley Thomas, Regina West, Evan Purcell, Robert McGough, Erik Gustafson, Christopher Alan Broadstone and Robert Holt.

Undead in the West

Undead in the West is a collection of essays that explore the many tropes and themes through which undead Westerns make the genre's inner plagues and demons visible, and lay siege to a frontier tied to myths of strength, ingenuity, freedom, and independence. Featuring several illustrations and a filmography, the volume is divided into three sections: "Reanimating Classic Western Tropes" examines traditional Western characters, symbolism, and plot devices and how they are given new life in undead Westerns; "The Moral Order Under Siege" explores the ways in which the undead confront classic values and morality tales embodied in Western films; and "And Hell Followed with Him" looks at justice, retribution, and retaliation at the hands of undead angels and avengers.

Blood Roses

An all-new novella from the author of *Burner and Inner Demons*! Time is like a salve...just covers up the wounds and leaves scar tissue behind. Two of Claudia's girls were found dead, rope burns on their wrists and neck. Soiled doves is what they called them-girls from the brothel, Chateau d' Roses. But Claudia recognizes the wounds from her own scarred past. Those women made it quite a distance. Tryin' to escape whoever it was 'at had 'em in ropes. Whoever...whatever, was puttin' them through hell. There are things in the town of Thurmont with appetites on the dark side. They're hungry for more, and Sheriff Stockton is caught up right in the middle of it. The buzz-that angry beehive inside Henry's head-was so very loud. The ice along his spine gave way to heat, hot as a wildfire. Henry Rockwell is the youngest of the family, but his cravings are as dark as the rest. He's kept it secret for as long as he could, but the temptation is too great. Sometimes the only real way to heal is through blood. The town of Thurmont is the crossroads for revenge-from both the living and the dead. One thing's for certain... blood will be spilled. Book 1 of the *Welcome To The West* series

Deadtown and Other Tales of Horror Set in the Old West

Deadtown and Other Tales of Horror Set in the Old West contains 13 tales of bloody, gritty horror that includes werewolves, mummies, cannibals, zombies, ghosts, vampires, aliens, skinwalkers, and things that slither underground. A perfect reading experience for fans of authentic western action and gruesome horror.

Scream

Wes Craven's *Scream* (1996) emerged at the point where the early eighties American slasher cycle had effectively morphed into the post-*Fatal Attraction* trend for Hollywood thrillers that incorporated key slasher movie tropes. *Scream* emerged as a spiritual successor to Wes Craven's unpopular but critically praised previous film *New Nightmare* (1994), which evolved from his frustration at having lost creative control over his most popular creation, Freddy Krueger, and rebirthed the character in a postmodern context. *Scream* appropriates many of the concepts, conceits, and in-jokes inherent in *New Nightmare*, albeit in a much more commercial context that did not alienate teenage audiences who were not around to see the movies that were being referenced. This *Devil's Advocate* offers a full exploration of *Scream*, including its structure, its many reference points (such as the prominent use of *Halloween* as a kind of sacred text), its marketing ("the new thriller from Wes Craven" – not a horror film), and legacy for horror cinema in the new millennium.

Horror and Religion is an edited collection of essays offering structured discussions of spiritual and theological conflicts in Horror fiction from the late-sixteenth to the twenty-first century. Contributors explore the various ways that horror and religion have interacted over themes of race and sexuality; the texts under discussion chart the way in which the religious imagination has been deployed over the course of Horror fiction's development, from a Gothic mode based in theological polemics to a more distinct genre in the twenty-first century that explores the afterlife of religion. Horror and Religion focuses on the Horror genre and its characteristics of the body, sexuality, trauma and race, and the essays explore how Horror fiction has shifted emphasis from anti-Catholicism and anti-Semitism to incorporate less understood historical and theological issues, such as the 'Death of God' and the spiritual destabilisation of the secular. By confronting spiritual conflicts in Horror fiction, this volume offers new perspectives on what we traditionally perceive as horrifying.

The films of the New French Extremity have been reviled by critics but adored by fans and filmmakers. Known for graphically brutal depictions of sex and violence, the subgenre emerged from the French art-house scene in the late 1990s and became a cult phenomenon, eventually merging into the horror genre where it became associated with American torture porn. Decidedly French in flavor, the films seek to reveal the dark side of French society. This book provides an in-depth study of New French Extremity, focusing on such films as *Trouble Every Day* (2001), *Irreversible* (2002), *Twentynine Palms* (2003), *High Tension* (2003) and *Martyrs* (2008). The author explores the social implications of cinematic cruelty presented not as "violent films" but as "films about violence."

Welcome to the 3 Books To Know series, our idea is to help readers learn about fascinating topics through three essential and relevant books. These carefully selected works can be fiction, non-fiction, historical documents or even biographies. We will always select for you three great works to instigate your mind, this time the topic is: Weird West. - *The Mound* - H. P. Lovecraft - *The Horror from the Mound* by Robert E. Howard - *The Dead Remember* by Robert E. Howard
Weird West is a subgenre that combines elements of the Western with another genre, usually horror, occult, fantasy, or science fiction. When supernatural menaces of horror fiction are injected into a Western setting, it creates the horror Western. Writer G.W. Thomas has described how the two combine: "Unlike many other cross-genre tales, the weird Western uses both elements but with very little loss of distinction. The Western setting is decidedly 'Western' and the horror elements are obviously 'horror.'" This is one of many books in the series 3 Books To Know. If you liked this book, look for the other titles in the series, we are sure you will like some of the topics.

"Herbert West—Reanimator" is a story by American horror fiction writer H. P. Lovecraft. The story is the first to mention Lovecraft's fictional Miskatonic University. It is also notable as one of the first depictions of zombies as scientifically reanimated corpses, with animalistic and uncontrollable temperament. The narrator is a doctor who went to medical school with the titular character. Informing the reader that Herbert West has recently disappeared. The narrator goes on to explain how he met West when they were both young men in medical school, and the narrator became fascinated by West's theories, which postulated that the human body is simply a complex, organic machine, which could be "restarted." West initially tries to prove this hypothesis, but is unsuccessful. West realizes he must experiment on human subjects. The two men spirit away numerous supplies from the medical school and set up shop in an abandoned farmhouse. At first, they pay a group of men to rob graves for them, but none of the experiments are successful. West and the narrator go into grave robbing for themselves. One night, West and the narrator steal a corpse of a construction worker who died just that morning in an accident. They take it back to the farmhouse and inject it with West's solution, but nothing happens. Later an inhuman scream is heard from within the room containing the corpse which forces the two students to instinctively flee into the night. West accidentally tips over a lantern and the farmhouse catches fire. West and the narrator escape. The next day, however, the newspaper reads that a grave in potter's field had been molested violently the night before, as with the claws of a beast.

Yog-Sothoth, known as the Key and the Gate and a host of other names, is H.P. Lovecraft's most enduring creation after the Necronomicon and Great Cthulhu itself. An eldritch god that occupies all time and space, Yog-Sothoth is most known for his role as the antagonist in The Dunwich Horror but has played a role in many other Cthulhu Mythos stories. Sometimes as a being invoked for spells, others as a monster trying to enter reality, and a few places as a giver of hidden wisdom. TALES OF YOG-SOTHOTH features several stories centered around the creepy deity and its monstrous intelligence. Featuring the work of several Neo-Mythos authors who have already dabbled in the world of cosmic horror. C.T. Phipps (Cthulhu Armageddon), David Niall Wilson (The Call of Distant Shores), David Hambling (Harry Stubbs), Matthew Davenport (Andrew Doran), and David J. West (Let Sleeping Gods Lie). Whether pulpy heroes punching evil cultists, robed assassins hunting unnatural monsters, or rednecks dealing with monsters in their back yard, you won't be disappointed with the results. This book is a follow-up to TALES OF THE AL-AZIF.

The Necronomicon was not the first book by H.P. Lovecraft to terrify readers with tales of dark and twisted horrors from beyond. No, the Al-Azif, or Book of the Insect, is the first work that told mankind of Cthulhu, Azathoth, and other terrors. Indeed, it was the book that inspired "The Mad Arab" Abdul Al-Hazred to write its more famous successor. Join us for a collection of novellas written by some of the best Neo-Lovecraftian authors today: Matthew Davenport (Andrew Doran, The Trials of Obed Marsh), David Hambling (Harry Stubbs, The Dulwich Horror), David J. West (Porter Rockwell, Redneck Eldritch), David Niall Wilson (The Call of Distant Shores), and C.T. Phipps (Cthulhu Armageddon) in telling stories of this mysterious book. Find out where the nightmares began!

Tales of Yog-Sothoth

Few scary stories begin with a disclaimer that they are fictional. Instead, they claim to be true even when they are not. Such stories blur the line between fiction and reality, pushing audiences to consider where fiction ends and reality begins. These kinds of horror stories comprise the understudied subgenre of liminal horror. As the first book on this subject, this volume surveys a variety of liminal horror films. It discusses the different variations within liminal horror's sub-genres and considers why horror films are obsessed with the natures of, and borders between, fiction and reality. After first laying out the basic traits of the horror genre in the context of liminality, this book then dives into film more specifically

and how the medium is uniquely situated to explore the movement between the fictional and the real. Through lenses such as dreaming, memory, and perception, the following chapters explore the role liminal horror plays in the the human psyche's subconscious/unconscious, and the various functions of the human mind in perceiving, or misperceiving, reality.

Herbert West-Reanimator
