The Dick Gibson Show

National Book Award finalist: Look who's on the "Dick Gibson Radio Show" Arnold the Memory Expert ("I've memorized the entire West Coast shoreline - except for cloud cover and fog banks"). Bernie Perk, the burning pharmacist. Henry Harper, the nine-year old orphan millionaire, terrified of being adopted. The woman whose life revolves around pierced lobes. An evil hypnotist. Swindlers. Con-men. And Dick Gibson himself. Anticipating talk radio and its crazed hosts, Stanley Elkin creates a brilliant comic world held together by American manias and maniacs in all their forms, and a character who perfectly understands what Americans want and gives it to them.

The Dick Gibson Show

A quintessential Elkin protagonist, Ellerbee is a good husband, a good employer, a good sport who cares greatly about his fellow human beings--until he is killed during a senseless liquor-store hold-up. Suddenly smote by a deity as indifferent as history, Ellerbee is off on a whirlwind tour of a distressingly familiar theme-park Heaven and inner-city Hell--to learn, along with his late coworkers and a marvelously vivid cast of characters, that much of what they've always heard about God's love, God's wrath, and the afterlife is, unfortunately, quite true.

The Living End

As he's chauffeured about in his official limousine, aging City commissioner of Streets Bobbo Druff comes to a frightening realization: he's lost force, the world has started to condescend to him. His once

fear-inspiring figure has become everyone's "little old lady." In retaliation, Druff constructs a paranoid plot, his "MacGuffin" within which he believes everyone is out to get him. With unabashed enthusiasm Druff starts an illicit affair (in order to incriminate himself), instigates fights with his employees, invents lies for his family- in short, everythingything in his power to create a world in which he is placed safely and firmly at the scandalous center.

The MacGuffin

Brewster Ashenden is a rich, overly-cultivated dandy accustomed to getting everything he wants in life. However, his perfect bride, Jane Lipton, refuses to marry anyone who is not a virgin. In his quest to reclaim his innocence, Ashenden gets in touch with his animal nature through an encounter with an amorous female bear.

Searches and Seizures

Breaking the law in a foolhardy attempt to accommodate his customers, unscrupulous department store owner Leo Feldman finds himself in jail and at the mercy of the warden, who tries to break Leo of his determination to stay bad.

The Making of Ashenden

Shouting Down the Silence presents the first complete biography of Stanley Elkin, a preeminent novelist who consistently won high marks from critics but whose complexities of style seemed destined to elude the popular acclaim he hoped to attain. From the publication of his second novel, *A Bad Man*, in 1967 to his death in 1995, Elkin was tormented by the desire for both material and artistic success. Elkin's novels were taught in colleges and universities, his fiction received high praise from critics and reviewers (two of his novels won National Book Critics Circle Awards), and his short stories were widely anthologized--and yet he was unable to achieve renown beyond the avant-garde, or to escape the stigma of being an "academic writer." He wanted to be Faulkner, but he had trouble being Elkin. Drawing on personal interviews and an intimate knowledge of Elkin's life and works, David C. Dougherty captures Elkin's early life as the son of a charismatic, intimidating, and remarkably successful Jewish immigrant from Russia, as well as his later career at Washington University in St. Louis. A frequent participant at the annual Bread Loaf Writers' conference, he was the friend--and sometime antagonist--of other important writers, particularly Saul Bellow, William Gass, Howard Nemerov, and Robert Coover. Despite failed attempts to bridge the gap from his academic post to wide popular success, Elkin continued to write essays, stories, and novels that garnered unerring praise. His was a classic dilemma of an intellectual aesthete loath to make use of the common devices of popular appeal. The book details the ambition, the success, the friction, and the foibles of a writer who won fame, but not the fame he wanted.

A Bad Man

"Elkin offers us the extraordinary Dorothy Bliss, an eighty-two-year-old widow caught in a tragicomic world, forced to find purpose in endless card games and "Good Neighbor Policy Night" at a Florida retirement community."--Back cover.

Reading Stanley Elkin

Boswell is Stanley Elkin's first and funniest novel: the comic odyssey of a twentieth-century groupie who collects celebrities as his insurance policy against death. James Boswell - strong man, professional wrestler (his most heroic match is with the Angel of Death) - is a con man, gate crasher, and moocher of epic talent. He is also a man on the make for all the great men of his time - his logic being that if you can't be a lion, know a pride of them. Can he cheat his way out of morality?

Shouting Down the Silence

Surrounded by cemeteries in the flatlands of New Jersey, the small town of Lud is sustained by the business of death. In fact, with no synagogue and no congregation, Rabbi Jerry Goldkorn has only one true responsibility: to preside over burial services for Jews who pass away in the surrounding cities. But after the Arctic misadventures that led him to Lud, he wouldn't want to live (or die) anywhere else. As the only living child in Lud, his daughter Connie has a different opinion of this grisly city, and she

will do anything to get away from it--or at least liven it up a bit. Things get lively indeed when Connie testifies to meeting the Virgin Mary for a late-night romp through the local graveyards.

Mrs. Ted Bliss

The three novellas collected in *Van Gogh's Room at Arles* demonstrate once again Stanley Elkin's mastery of the English language, with exuberant rants on almost every page, unexpected plot twists, and jokes that leave readers torn between laughter and tears. Her *Sense of Timing* relates a destructive day in the life of a wheelchair-bound professor who is abandoned by his wife at the worst possible time, leaving him to preside -- helplessly -- over a party for his students that careens out of control. The second story in this collection tells of an unsuspecting commoner catapulted into royalty when she catches the wandering eye of Prince Larry of Wales. And in the title story, a community college professor searches for his scholarly identity in a land of academic giants while staying in Van Gogh's famous room at Arles and avoiding run-ins with the Club of the Portraits of the Descendants of the People Painted by Vincent Van Gogh.

Boswell

A satirical novel by Stanley Elkin.

Stanley Elkin

"This imagination of Elkin's sneaks up, tickles, surprises, shocks, and kills. It makes stories that are deadly funny." —The New York Times Each of the nine short stories collected here feature two types of people—the troubled and the troublemakers. In "The Guest," a homeless man gleefully takes credit for a robbery he did not commit. "In the Alley" tells the story of a terminally ill man who begrudgingly outlives his initial prognosis. And the satiric "I Look Out for Ed Wolfe" features a charismatic salesman auctioning off his life's possessions in order to determine his value in the world. Laced with wit, *Criers & Kibitzers*, *Kibitzers & Criers* is a keenly observed collection that puts Elkin's comic artistry on full display. This ebook features rare photos and never-before-seen documents from the author's estate and from the Stanley Elkin archives at Washington University in St. Louis.

The Rabbi of Lud

Considered by many to be Elkin's magnum opus, *George Mills* is, an ambitious, digressive and endlessly entertaining account of the 1,000 year history of the George Millses. From toiling as a stable boy during the crusades to working as a furniture mover, there has always been a George Mills whose lot in life is to serve important personages. But the latest in the line of true blue-collar workers may also be the last, as he obsesses about his family's history and decides to break the cycle of doomed George Millses. An inventive, unique family saga, *George Mills* is Elkin at his most manic, most comic and most poignant.

Van Gogh's Room at Arles

A shocking crime triggers a media firestorm for a controversial talk show host in this provocative novel—a story of redemption, a nostalgic portrait of New York City, and a searing indictment of our culture of spectacle. One of the *The New York Times's* "10 Books to Watch for in April" • "Jennifer duBois is a brilliant writer."—Karen Russell, author of *Vampires in the Lemon Grove* Talk show host Matthew Miller has made his fame by shining a spotlight on the most unlikely and bizarre secrets of society, exposing them on live television in front of millions of gawking viewers. However, the man behind *The Mattie M Show* remains a mystery—both to his enormous audience and to those who work alongside him every day. But when the high school students responsible for a mass shooting are found to be devoted fans, Mattie is thrust into the glare of public scrutiny, seen as the wry, detached herald of a culture going downhill and going way too far. Soon, the secrets of Mattie's past as a brilliant young politician in a crime-ridden New York City begin to push their way to the surface. In her most daring and multidimensional novel yet, Jennifer duBois vividly portrays the heyday of gay liberation in the seventies and the grip of the AIDS crisis in the eighties, alongside a backstage view of nineties television in an age of moral panic. DuBois explores an enigmatic man's downfall through the perspectives of two spectators—Cel, Mattie's skeptical publicist, and Semi, the disillusioned lover from his past. With wit, heart, and crackling intelligence, *The Spectators* examines the human capacity for reinvention—and forces us to ask ourselves what we choose to look at, and why. Praise for *The Spectators* With *The*

Spectators, duBois is staking out larger literary territory. The new novel is full of small pleasures that accumulate as proof that this writer knows her stuff. . . . DuBois's mastery of . . . details earns our trust as she expands *The Spectators* into a billowing meditation on the responsibility of public figures to contribute something worthwhile to the culture. Although her book takes place decades ago, duBois's message has a contemporary urgency as well."—The New York Times "Heart-rending and visceral . . . DuBois's language is dexterous, and her pacing impressive. . . . *The Spectators* is a treatise on the media's power and a finely wrought example of intimate pain."—USA Today

George Mills

This systemic study discusses in its historical, cultural and aesthetic context the postmodern American novel between the years of 1960 and 1980. A general overview of the various definitions of postmodernism in philosophy, cultural theory and aesthetics provides the framework for the inquiry into more specific problems, such as: the broadening of aesthetics, the relationship between aesthetics and ethics, the transformation of the artistic tradition, the interdependence between modernism and postmodernism, and the change in the aesthetics of fiction. Other topics addressed here include: situationalism, montage, the ordinary and the fantastic, the subject and the character, the imagination, comic modes, and the future of the postmodern strategies. The authors whose fiction is treated in some detail under the various aspects thematized are John Barth, Donald Barthelme, Richard Brautigan, Robert Coover, Stanley Elkin, Raymond Federman, William Gaddis, John Hawkes, Jerzy Kosinski, Thomas Pynchon, Ishmael Reed, Ronald Sukenick, and Kurt Vonnegut.

In *The Muse upon My Shoulder* an exceptionally diverse group of writers (including Evan S. Connell, Anthony Piccione, David Trinidad, William Stafford, Jean Thompson, Vance Bourjaily, E. L. Doctorow, Stanley Elkin, Jay McInerney, Beth Henley, David Hwang, Bud Schulberg, and Mary Gordon) discuss the creative process. They entertain self-revealing questions about their status as writers, their inspiration to write, and their relationship to an audience. The conversational form of the interview allows for candid answers that readers rarely hear to questions that seldom are answered. The final chapter

lets readers participate in the conflicts that surround the production of a good interview. Sylvia Skaggs McTague is a lecturer at Fairleigh Dickinson University.

American Vision

Vols. 8-10 of the 1965-1984 master cumulation constitute a title index.

Pieces of Soap

The idea for this study came to me in the course of my reading of innovative US-American! fiction of the last three decades. I observed that much of it is cast in the comic mode - or, more precisely, that there seems to be in contemporary fiction an affinity between 'innovation' and 'the comic' and that this affinity, furthermore, appears to be characteristic of postmodernism. It is obvious, at the same time, that comic has become an elusive and, more often than not, a disputable category. Frederick Karl, in his survey of *American Fictions 1940-1980*, maintains, for instance, that much comic writing consists in ridicule that lacks deeper intellectual and cultural roots. "Wit and mockery," he notes, "by themselves have little lasting value. Even in the best of such fiction, Gravity's Rainbow, one is made aware of attenuated skits stitched onto previous segments, rather than baked in by a defined point of view." (Karl: 27) Such assessments of course challenge my view that the comic is in significant ways connected with what is innovative in postmodernist US-American fiction. Yet the term comic -or related terms like humour, parody, irony and so forth- is regularly and heavily employed in discussions or reviews of contemporary fiction.

The Six-year-old Man

This richly detailed examination of two branches of American entertainment focuses on the various ways that radio stations and air personalities have been depicted in motion pictures, from 1926's *The Radio Detective* to more recent films like 2006's *A Prairie Home Companion*. Cinematic portrayals of various aspects of radio are covered, including disc jockeys, sports broadcasts, religious programs, and the talk-radio format. Such films as *The Big Broadcast* (1932), *Reveille with Beverly* (1943), *Mister Rock and Roll* (1957), *WUSA* (1970), *Radio Days* (1987) and *Private Parts* (1997) provide fascinating insights not only into their own times, but also into the historical eras that some of these films have endeavored to recreate. A chronological filmography of more than 600 titles is included.

The Muse Upon My Shoulder

This set treats the whole of American literature, from the European discovery of America to the present, with entries in alphabetical order. Each of the 350 substantive essays is a major interpretive contribution. Well-known critics and scholars provide clear and vividly written essays that reflect the latest scholarship on a given topic, as well as original thinking on the part of the critic. The Encyclopedia is available in print and as an e-reference text from Oxford's Digital Reference Shelf. At the core of the encyclopedia lie 250 essays on poets, playwrights, essayists, and novelists. The most prominent figures (such as Whitman, Melville, Faulkner, Frost, Morrison, and so forth) are treated at considerable length (10,000 words) by top-flight critics. Less well known figures are discussed in essays ranging from 2,000 to 5,000 words.

Each essay examines the life of the author in the context of his or her times, looking in detail at key works and describing the arc of the writer's career. These essays include an assessment of the writer's current reputation with a bibliography of major works by the writer as well as a list of major critical and biographical works about the writer under discussion. A second key element of the project is the critical assessments of major American masterworks, such as *Moby-Dick*, *Song of Myself*, *Walden*, *The Great Gatsby*, *The Waste Land*, *Their Eyes Were Watching God*, *Death of a Salesman*, or *Beloved*. Each of these essays offers a close reading of the given work, placing that work in its historical context and offering a range of possibilities with regard to critical approach. These fifty essays (ranging from 2,000 to 5,000 words) are simply and clearly enough written that an intelligent high school student should easily understand them, but sophisticated enough that a college student or general reader in a public library will find the essays both informative and stimulating. The final major element of this encyclopedia consists of fifty-odd essays on literary movements, periods, or themes, pulling together a broad range of information and making interesting connections. These essays treat many of the same authors already discussed, but in a different context; they also gather into the fold authors who do not have an entire essay on their work (so that Zane Grey, for example, is discussed in an essay on Western literature but does not have an essay to himself). In this way, the project is truly "encyclopedic," in the conventional sense. These essays aim for comprehensiveness without losing anything of the narrative force that makes them good reading in their own right. In a very real fashion, the literature of the American people reflects their deepest desires, aspirations, fears, and fantasies. The Oxford Encyclopedia of American Literature gathers a wide range of information that illumines the field itself and clarifies many of its particulars.

Naipaul, Nadine Gordimer, Alice Munro, Chinua Achebe, J.M. Coetzee, and Ngũgĩ Wa Thiong'o) and their key works. The Magic Kingdom

Postmodernist literature embraces a wide range of forms and perspectives, including texts that are primarily self-reflexive; texts that use pastiche, burlesque, parody, intertextuality and hybrid forms to create textual realities that either run in opposition to or in parallel with an external reality; fabulations that develop both of these strategies; texts that ironize their relationship to reality; works that use the aspects already noted to more fully engage with political or cultural realities; texts that deal with history as a fiction; and texts that elude categorization even within the variety already explored. For example, in fiction, a postmodernist novel might tell a story about a writer struggling with writing (only, perhaps, to find that he is a character in a book by another writer struggling to write a book). The A to Z of Postmodernist Literature and Theater examines the different areas of postmodernist literature and the variety of forms that have been produced. This is accomplished through a chronology, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries on individual postmodernist writers, the important postmodernist aesthetic practices, significant texts produced throughout the history of postmodernist writing, and important movements and ideas that have created a variety of literary approaches within the form. By placing these concerns within the historical, philosophical, and cultural contexts of postmodernism, this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty-first century operates.

The Living End

This second edition of Historical Dictionary of Postmodernist Literature and Theater contains a chronology, an introduction, and a bibliography. The dictionary section has over 400 cross-referenced entries on postmodernist writers, the important postmodernist aesthetic practices.

The Golden Age of Roman Literature - Ancient History Picture Books | Children's Ancient History

Utopia Antiqua is a fresh look at narratives of the Golden Age and decline in ancient Roman literature of the late Republic and imperial period. Through the lens of utopian theory, Rhiannon Evans looks at the ways that Roman authors, such as Virgil, Ovid and Tacitus, use and reinvent Greek myths of the ages, considering them in their historical and artistic context. This book explores the meanings of the 'Iron Age' and dystopia for Roman authors, as well as the reasons they give for this decline, and the possibilities for a renewed Age of Gold. Using case studies, it considers the cultural effects of importing luxury goods and the way that it gives rise to a rhetoric of Roman decline. It also looks at the idealisation of farmers, soldiers and even primitive barbarians as parallels to the Golden Race and role models for now-extravagant Romans.

Little Arthur's History of Rome - From the Golden Age to Constantine

Proceedings from the conference 'AUGUSTUS. 23 September 63 BC – 19 August 14 AD – 2000 years of divinity' held in Kakow, 2014. Papers deal with a variety of topics ranging from architecture, urban issues and painting to fine art represented by glyptics and numismatics.

The Rise and Decline of the Roman Empire

The age of Augustus, commonly dated to 30 BC – AD 14, was a pivotal period in world history. A time of tremendous change in Rome, Italy, and throughout the Mediterranean world, many developments were underway when Augustus took charge and a recurring theme is the role that he played in shaping their direction. The Cambridge Companion to the Age of Augustus captures the dynamics and richness of this era by examining important aspects of political and social history, religion, literature, and art and architecture. The sixteen essays, written by distinguished specialists from the United States and Europe, explore the multi-faceted character of the period and the interconnections between social, religious, political, literary, and artistic developments. Introducing the reader to many of the central issues of the Age of Augustus, the essays also break new ground and will stimulate further research and discussion.

Incorporates literary, archaeological, and legal sources to provide a vivid narrative of Augustus' brutal rise to power Written by one of the world's leading experts on the Roman empire Traces the history of the Roman revolution and Rome's transformation from a republic to an

empire Includes a new chapter on legislation, further information on the monuments of the Augustan period, more maps and illustrations, and a stemma of Augustus' family Thorough, straightforward, and organized chronologically, this is an ideal resource for anyone approaching the subject for the first time

The Cambridge Companion to the Age of Augustus

A new historical survey that recasts the 'fall of the Roman Republic' as part of the rise of a uniquely successful world state.

Apocalypse and Golden Age

"Constantine was the first Roman emperor to convert to Christianity. The book explores the emperor's image as conveyed through literature, art, and architecture, and shows how Constantine reconciled the tradition of imperial divinity with his monotheistic faith. It demonstrates how the traditional themes and imagery of kingship were exploited to portray the emperor as the saviour of his people and to assimilate him to Christ. This is the first book to study simultaneously both archaeological and historical information to build a picture of the emperor's image and propaganda. It is extensively illustrated" --Provided by publisher.

The Power of Images in the Age of Augustus

Augustus and the Destruction of History explores the intense controversies over the meaning and profile of the past that accompanied the violent transformation of the Roman Republic into the Augustan principate. The ten case studies collected here analyse how different authors and agents (individual and collective) developed specific conceptions of history and articulated them in a wide variety of textual and visual media to position themselves within the emergent (and evolving) new Augustan normal. The chapters consider both hegemonic and subaltern endeavours to reconfigure Roman memoria and pay special attention to power and polemics, chaos, crisis and contingency - not least to challenge some long-standing habits of thought about Augustus and his principate and its representation in historiographical discourse, ancient and modern. Some of the most iconic texts and monuments from ancient Rome receive fresh discussion here, including the Forum Romanum and the Forum of Augustus, Virgil's Aeneid and the Fasti Capitolini.

The Cambridge Companion to the Age of Augustus

With a broad chronological sweep, this book provides an historical account of Roman law and legal institutions which explains how they were created and modified in relation to political developments and changes in power relations. It underlines the constant tension between two central aspects of Roman politics: the aristocratic nature of the system of government, and the drive for increased popular participation in decision-making and the exercise of power. The traditional balance of power underwent a radical transformation under Augustus, with new processes of integration and social mobility brought into play. Professor Capogrossi Colognesi brings into sharp relief the deeply political nature of the role of Roman juridical science as an expression of aristocratic politics and discusses the imperial jurists' fundamental contribution to the production of an outline theory of sovereignty and legality which would constitute, together with Justinian's gathering of Roman legal knowledge, the most substantial legacy of Rome.

The Age of Augustus

Aeneas appears in The Illiad in vague snatches and starts as a traveling warrior of great piety who was loosely connected to the foundation of Rome. Virgil weaves these fragments into a powerful myth about the founding of Rome in The Aeneid. Aeneas travels from his native Troy to Italy then wages victorious war upon the Latins.

Law and Power in the Making of the Roman Commonwealth

THE INSTANT SUNDAY TIMES BESTSELLER 'Holland, who co-hosts the podcast *The Rest Is History*, is at his best when having fun with Rome's bloody history' *The Times* 'A book for lovers of traditional, grand sweep narrative history' *Sunday Times* The definitive history of Rome's golden age - antiquity's ultimate superpower at the pinnacle of its greatness The Pax Romana has long been revered as a golden age. At its peak, the Roman Empire stretched from Scotland to Arabia, and contained perhaps a quarter of humanity. It was the wealthiest and most formidable state the world had yet seen. Beginning in 69AD, a year that saw four Caesars in succession rule the empire, and ending some seven decades later with the death of Hadrian, Pax presents a dazzling history of Rome at the height of its power. From the gilded capital to realms beyond the frontier, historian Tom Holland portrays the Roman Empire in all its predatory glory. Vivid scene follows vivid scene: the destruction of Jerusalem and Pompeii, the building of the Colosseum and Hadrian's Wall, the conquests of Trajan. Vividly sketching the lives of Romans both ordinary and spectacular, from slaves to emperors, Holland demonstrates how Roman peace was the fruit of unprecedented military violence. A stunning portrait of Rome's glory days, this is the epic history of the pax Romana.

A Literary History of Rome from the Origins to the Close of the Golden Age

The Pax Romana is famous for having provided a remarkable period of peace and stability, rarely seen before or since. Yet the Romans were first and foremost conquerors, imperialists who took by force a vast empire stretching from the Euphrates in the east to the Atlantic coast in the west. Their peace meant Roman victory and was brought about by strength and dominance rather than co-existence with neighbours. The Romans were aggressive and ruthless, and during the creation of their empire millions died or were enslaved. But the Pax Romana was real, not merely the boast of emperors, and some of the regions in the Empire have never again lived for so many generations free from major wars. So what exactly was the Pax Romana and what did it mean for the people who found themselves brought under Roman rule? Acclaimed historian Adrian Goldsworthy tells the story of the creation of the Empire, revealing how and why the Romans came to control so much of the world and asking whether the favourable image of the Roman peace is a true one. He chronicles the many rebellions by the conquered, and describes why these broke out and why most failed. At the same time, he explains that hostility was only one reaction to the arrival of Rome, and from the start there was alliance, collaboration and even enthusiasm for joining the invaders, all of which increased as resistance movements faded away. A ground-breaking and comprehensive history of the Roman Peace, Pax Romana takes the reader on a journey from the bloody conquests of an aggressive Republic through the age of Caesar and Augustus to the golden age of peace and prosperity under diligent emperors like Marcus Aurelius, offering a balanced and nuanced reappraisal of life in the Roman Empire.

The Aeneid

The focus of this book is the unique socio-political and socio-cultural community of the Grand Duchy of Lithuania in the golden age of the late fifteenth to early seventeenth century. This study analyses the cultural and political impact of the values disseminated in the newly created state, such as the concept of the state itself, its governance, representation, laws, and other elements of the socio-political system. Through theoretical and factographic arguments, this book demonstrates that the Grand Duchy of Lithuania was a social, political, and cultural link between geopolitical and geo-cultural spaces of the Roman West and the Byzantine East. Located at the cultural crossroads of Europe, Lithuania was an ethnically diverse, multilingual, multi-faith, multicultural national space. Nurtured by international contacts, its political system developed rapidly, influencing the formation of geopolitical and geo-cultural mentality of the whole Central Eastern European region.

Augustus

The book covers the period of more than 200 years from the time of Julius Caesar until the end of Marcus Aurelius' reign. Through the 30 chapters of this book, readers will gain a complete insight into the political history of the golden age of the Roman Empire. Golden Verses

Written by Andrew Wallace-Hadrill, one of the world's foremost scholars on Roman social and cultural history, this introduction to Rome in the Age of Augustus provides a fascinating insight into the social and physical contexts of Augustan politics and poetry, exploring in detail the impact of the new regime of government on society. Taking an interpretative approach, the ideas and environment manipulated by Augustus are explored, along with reactions to that manipulation. Emphasizing the role and impact of art and architecture of the time, and on Roman attitudes and values, Augustan Rome explains how the victory of Octavian at Actium transformed Rome and Roman life. The second edition features a new introductory section on literary figures under Augustus, a final chapter on the reception of Augustus in later periods, updated references to recent scholarship, new figures and an expanded list of further reading. This thought-provoking yet concise volume sets political changes in the context of their impact on Roman values, on the imaginative world of poetry, on the visual world of art, and on the fabric of the city of Rome.

Weaving analysis and narrative throughout an illustrated text, the author provides an account of the major ideas of the Augustan age, and offers an interpretation of the creative tensions and contradictions that made for its vitality and influence.

A Literary History of Rome: From the origins to the close of the Golden Age

Analyses of Rancière's philosophy and its potential for understanding the conversation between contemporary politics and art cinema.

The Golden Age of Augustus

THE GOLDEN AGE is the final, eponymous novel that brings to an end what Gabriel García Márquez has called 'Gore Vidal's magnificent series of historical novels or novelised histories', NARRATIVES OF EMPIRE. Like a latter day Anthony Trollope, Vidal masterfully balances the personal with the political, the invented with the historical fact. His heroine from Hollywood, Caroline Sanford, reappears in Washington as President Roosevelt schemes to get the USA into the war by provoking the Japanese. In the novel's ten year span America is master of the globe, with Japan and Europe as colony and dependency under her empire. Against this backdrop there is a glittering explosion in the arts (we see the likes of Lowell, Bernstein and Tennessee Williams and witness the opening night of A STREETCAR NAMED DESIRE). But by 1950 and the coming of the Korean War, the Golden Age is over. For the reader who wants to be informed as well as vastly entertained about the last two hundred years of American history there could be no better place to start than with Vidal's NARRATIVES.
