## Revenge

Jake Bryant, a disgraced Chicago PD detective, rushes home after he learns of his best friend's murder. But when the murderer is identified and slips through the fingers of the court system, Jake is faced with the ultimate moral dilemma. Does he let the man get away with the crime or exact his own kind of vigilante justice?

## Regret

When Jake Bryant learns his daughter, Sam, has been caught abusing prescription drugs, he quickly fails not once, but twice to protect her - first from her all-star quarterback boyfriend who's set to take the fall for selling her drugs, and then from his former father-in-law who will do anything to cut Sam out of Jake's life. But as the situation escalates from a kidnapping to a murder plot, Jake finds himself in a race against time to discover which of his enemies has the most to gain by killing his daughter. Because if he guesses wrong, his daughter won't be the only one paying the price.

#### Aspects of Apuleius' Golden Ass: Cupid and Psyche

This volume examines Apuleius' comic donkey novel, *The Golden Ass*, within the context of the popular beliefs and Jewish and Christian writings that were part of the intellectual culture of his own day in 2nd century C.E. North Africa, a culture which can also be glimpsed in some early Arabic writings. The novel was written against a cultural and religious background in which the donkey had various connotations, both positive and negative, but tended to be admired in Jewish, Christian, and later, in Muslim writings. Smith explores the influence of such popular opinions on *The Golden Ass* and how Apuleius presented Isis and Osiris as desirable alternatives to the claims of both Christianity and magic, offering hope of spiritual renewal partly modelled on contemporary religious apocalyptic literature. Complemented by images of contemporary art, including amulets and terra cotta figures, this volume gives readers a better understanding of how Apuleius, ostensibly a Platonist and member of the Roman establishment, could maintain an intellectual independence in a North African milieu while still drawing on hope in the salvation of the gods. *Religion and Apuleius' Golden Ass* provides a fascinating new approach to this much disputed novel, of interest not only to students and scholars of Apuleius and Roman literature, but also scholars interested in Christian and Jewish literature and beliefs of the early centuries of the first millennium C.E.

Tapestries--the art form of kings--were a principal tool used by powerful Renaissance rulers to convey their wealth and might. From 1460 to 1560, courts and churches lavished vast sums on costly weavings in silk and gold thread from designs by leading artists. In this lavishly illustrated book, the first major survey of tapestry production of this period, contributors analyze some of these & beautiful tapestries, examine the stylistic and technical development of tapestry production in the Low Countries, France, and Italy during the Renaissance, and discuss the contribution that the medium made to art, liturgy, and propaganda of the day.

#### Catch Your Death

First published in 1988, this book is a study of all Blake's work in illuminated printing. It traces in particular, the development of his ideas on politics, religion, sexuality, and the imagination. There are substantial sections on some of Blake's best-known works, including the Marriage of Heaven and Hell, and the Songs of Innocence and Experience, and full critical essays on the Four Zoas and Jerusalem. The book describes the historical contexts of Blake's work, and sets it in relation to the political controversies of his age as these are reflected in the writings of Burke, Paine and Mary Wollstonecraft. It discusses the relationships of text and design in Blake, the characteristic verbal textures and rhythms of his longer poems, some influences on his thought, and developing structure of his personal myth and its relationship to other mythologies. The opening chapter discusses areas of fundamental disagreement with some of the main approaches to Blake whilst the final chapter discusses literary theory and the practice of criticism, arguing for an open and explicit involvement of personal experience and values and a more creative use of form in critical writing.

#### Aspects of Apuleius' Golden Ass

This collection reclaims a vast body of long-neglected Latin texts from the Middle Ages and the Renaissance and examines how they represent the feminine and the female body. The authors explore the ideological values explicitly encoded by the feminine in these texts, other, less articulated values implied by the feminine, and the role of the classical tradition in communicating those values. The examination of women both as subjects and as rhetorical constructions in Medieval and Renaissance Latin literature sheds light on the larger dialogue about feminism occurring throughout the humanities. In addition, the inclusion of a new body of texts and the rescue of others from their present isolation will expand the reach of classical and humanist scholarship. Traditional studies of Latin literature end around the beginning of the fifth century C.E. despite the fact that Latin continued to be the dominant literary and intellectual language until at least the latter half of the sixteenth century. Thus most classicists ignore over one thousand years of the Latin literary tradition. Few non-classicists read Latin comfortably and fewer still have a detailed understanding of the history of classical Latin literature. Nevertheless, a knowledge of this history was assumed by most Neo-Latin writers as well as their contemporaries who wrote in the vernacular. This collection supplies tools to examine more completely

the construction and application of gender in both Latin and vernacular texts of the Middle Ages and the Renaissance.

Motion Picture Almanac

Thom Gunn served as a mouthpiece for his time, illustrating the social, cultural, and historical transformations that have characterized western civilization from World War II until today. Starting with theoretical premises drawn from philosophy, anthropology, and sociology, this work examines Thom Gunn's entire poetic career. In Gunn's early poetry, the author argues, the predominant theme is the desire for freedom from the painful prison of the intellect and from the masks that the individual feels compelled to wear even in his sexual relationships. In Gunn's later poetry, the author notes a gradual opening to human relationships and to Nature, which is also Gunn's vindication and reevaluation of his own nature and the liberation of his long repressed and hidden homosexuality.
