The Last Human Spring

A ground-breaking work on nature and humanity. This book deepens the spirit of Silent Spring, and of Walden into human conservation and healing. It reveals the stunning breakthrough into Nurturome. It breaks open, then completes our view of evolution; it reveals the Second Missing Link. It redefines and redirects the Environmental Movement the nature-human debate. It dispels the issue of nature vs. culture, and other key myths of 'civilization', Modernism, and Postmodernism. It reveals the Origin and Emergence of Alien Being Alienism. It presents the Revelation of Selflifeworld. It reveals the Origins of Ego-self that comes to displace whole self and whole mind. Over one hundred-fifty subheadings mark more surprises on the journey! A vast pot-pourri for laymen, professionals, and students! From The Critics Midwest Book Review The Last Human Spring provides a philosophy of the nature-human world and its interactions, from concepts of evolution and astronomical history to reflections on concepts of aliens, human alliances with and struggles over nature, and visions of how humanity interacts with the environment. An intriguing survey of human life and meaning. Journal of Environmental Education - Richard R. Jurin The author, L. S. Heatherly, has done an admirable job of orchestrating a mind-expanding series of short essays ...convincing and thought-provoking ideas ...that show the reader how ...and why[our] separation from nature began ...and continues to exist. In an account similar to Daniel Quinn's Ishmael ideas,...he convincingly debunks many of the great myths that drive our modern human thinking ...and shows how ...only through civilization have [humans] achieved a disconnect [from nature] ...highly readable ...adult readers can [opt to] read in short sections ...suited to a high school or college audience with a good teacher or instructor ...[a] wonderful and uplifting [treatise] of a new spiritual redemption to be used in general environmental education studies [despite] a negative vision of the future ... What People Are Saying It is an amazing book, truly ground-breaking,...I respect and acknowledge [the] vision,...I hope [the] book is widely read. Pulitzer Prize-winning Author, Human Rights Leader, Ecoleader, and Poet Laureate of the Environmental Movement Correct - Gary Snyder I commend [the Author] on the diligence of [his] investigation ...engaged in what Thomas Berry calls the 'great work' of restoring harmony between humans and the rest of nature. Author of Simple in Means, Rich in Ends: Practicing Deep Ecology - Bill Devall June 15, 2009: I continue to be amazed at the clarity with which L.S. Heatherly presents what was, for me, incomprehensible human relationships and foibles. I've come to rely upon "The Last Human Spring" as my guide to life. The book exudes enlightenment. The prose is eminently readable and, in the best philosophical manner, the reader is guided along the path while being encouraged to think independently. -EnlightenedRaconteur "THE LAST HUMAN SPRING is an absorbing, enlightening, and fascinating work. The ideas are as important

as any I've ever read or studied. This is an amazing philosopher. I dare say that his work may become as important as any by Darwin or B. F. Skinner. This book has had a profound influence on my interpretation of the human condition; and I am committed to getting it into the minds and hands of the world. Bless Heatherly's soul for forming these ideas and publishing them." -- Darryl House, Magalia California, USA

Are Mexican Immigrant and Mexican American Female Victims of Intimate Partner Violence Being Served in Memphis, Tennessee?

Domestic violence against women is an oppressive condition that extends across race, class, and gender. This work examines intimate partner violence against women in Memphis, Tennessee, focusing on Mexican immigrant and Mexican American female survivors of domestic violence. Author M. Helena Vanderlei Collins interviewed ten Mexican immigrant women and seven Mexican American women to investigate factors that influence helpseeking behavior. Collins focused on the perceptions of Mexican immigrant and Mexican American women regarding the social services available to them and explored how their help-seeking behavior is affected by their degree of acculturation and the incidence of intimate partner violence. Collins employed a combination of quantitative and qualitative methods to answer seven key research questions. The quantitative instruments included ARSMA-II, the Inventory of Abusive Behavior, and a customized demographic questionnaire. The qualitative data was drawn from the semi-structured interviews with the domestic violence survivors. Collins concluded her study by describing the challenges women of Hispanic origin face when seeking help from social service providers and by offering recommendations on how to improve the quality of services these women receive.
