The Prophet Muhammad

The Prophet Muhammad is a hero for all mankind. In his lifetime he established a new religion, Islam; a new state, the first united Arabia; and a new literary language, the classical Arabic of the Qur'an, for the Qur'an is believed to be the word of God revealed to Muhammad by the angel Gabriel. A generation after his death he would be acknowledged as the founder of a world empire and a new civilisation. Any one of these achievements would have been more than enough to permanently establish his genius. To our early twenty-first century minds, what is all the more astonishing is that he also managed to stay true to himself and retained to his last days the humility, courtesy and humanity that he had learned as an orphan shepherd boy in central Arabia. If one looks for a parallel example from Christendom, you would have to combine the Emperor Constantine with St Francis and St Paul, an awesome prospect. Barnaby Rogerson's elegant biography not only looks directly at the life of the Prophet Muhammad, but beautifully evokes for western readers the Arabian world into which he was born in 570 AD.

This work on the life history of the Prophet (S) stands out from other works in quite a few ways. First, every detail mentioned has been traced back to original sources, whose authenticity has been discussed extensively in the footnotes. Second, the events of the Prophet's life have been related to modern times and lessons drawn for the benefit of those who happen to face similar situations in their struggle to spread the Prophetic message.

Atlas Al-s+rah Al-Nabaw+yah

This book considers the Arabic biographies of Prophet Muhammad, the earliest of which dates from two centuries after his life. These biographies, prized by Muslims, have been approached in the Western study of Islam from a range of positions. Some scholars reject them entirely, seeing in them products of the Muslim community's idealisation of its history, while others accept them at face value, reasoning that, if not exact versions of events, the events could not have differed too much from their descriptions. The author revisits the debate and reconsiders several key incidents in the life of the Prophet. By compiling an extensive corpus of materials and comparing them closely, this book analyses the transmission and the contents of the accounts. It shows that by understanding clearly the interaction in early Islam between written and oral modes of transmission, and by the judicious sieving of the accounts, as well as the lines of transmission, we can sometimes reach back to that generation of Muslims who though not themselves witness to the events were younger contemporaries of those who were. Establishing a solid basis for the informed study of Muhammad's biography and adding to the ongoing debate, this book will appeal to scholars of early Islam, history and theology.

Prophet Muhammad

The Prophet Muhammad brought into the world the religion of Islam in its final form. His life continues to inspire millions and millions of people around the world. The Biography of Prophet Mohammed is the first to be written by a Muslim Woman and modern creative writer. The author wrote it in English without adding personal interpretations or comments. She wants the audience to do their own reading and find their own interpretations. Why a Muslim woman biographer of Prophet Mohammed? A simple answer is why not? Many modern Muslim women have the education and, hence, the authority to tackle such projects. But the author did not have gender in mind when she first thought of writing this biography. The idea simply came to her as it would to any writer, reflecting the current prominence of Islam on the international scene and the resulting ignorance and prejudice of islamophobia. -- from publishers.

Or did the authors purposely misled the readers to present a negative view of Islam and the Prophets (peace and blessings be upon them). If you want an accurate history of Islam, read Ibn Kathir. He wrote over 48 books and over 60,000 pages. He lived in a time when people feared Allah far more and died in a righteous state. His teachings further preserved the sanctity of animals and reinforced how people must honor and respect all of God's creation. Acclaimed worldwide as the definitive biography of the Prophet Muhammad in the English language, Martin Lings' Muhammad: His Life Based to the Earliest Sources is unlike any other. Based on Arabic sources of the eighth and ninth centuries, of which some important passages are translated here for the first time, it owes the freshness and directness of its approach to the words of men and women who heard Muhammad speak and witnessed the events of his life. Martin Lings has an unusual gift for narrative. He has adopted a style which is at once extremely readable and reflects both the simplicity and grandeur of the story. The result is a book which will be read with equal enjoyment by those already familiar with Muhammad's life and those coming to it for the first time. Biography of the Prophets

The sacred biography of Muhammad has shaped Muslims' perceptions of the place of Islam in the religious history of the world and located the Islamic founder and prophet as the last of God's messengers. As Muslims established political control over ancient Jewish and Christian communities, they also claimed hegemony over the panorama of biblical prophets and holy men. In the eighth century, the author of the first complete biography of Muhammad set out a plan for a history of the world that culminated with the advent of Muhammad and the religion of Islam. The biography not only gave the details of Muhammad's life but also retold the stories of past prophets from an Islamic perspective. *The Making of the Last Prophet* is an examination of the reshaping and retelling of the biblical past to form the image of Muhammad as the "Seal" of the prophets of God. Through a translation of the reconstructed Arabic text, the sources, the form, and uses of the eighth-century biography are examined for the ways in which attitudes toward Muhammad were shaped in early Islam. The work particularly underscores the interplay of Jewish, Christian, and other Near Eastern religious ideals in the formation of Islam's notions of prophethood.

Articles in the second section study Muhammad's prophetic experience. Muhammad

This book narrates the life of Prophet Muhammad, peace be upon him, shedding light upon segments of his life that are either neglected or glossed over in conflict-focused biographies. The narrations in this book revolve around the Prophet's various strategies of diplomacy and reconciliation to avoid conflicts. In narrating these events, the book helps the readers broaden their perspective on the life of the Messenger of God and better capture the ethos of his life. Indeed, both Muslims and non-Muslims may benefit from this understanding at a time when violent extremist groups such as ISIS are causing carnage with their brutality while dressing their totalitarian ideologies in Muslim garb. The book exposes the hypocritical and willful deception of these radical groups which cherry-pick incidents and sayings from the Prophet's life, decontextualize them, and abuse them to serve their perverted ideologies. The extensive evidence presented in this book will not only dispel many myths about the life and message of the Noble Prophet, but also show how through compassionate efforts he conquered the hearts of people around him and turned them from die-hard enemies to devoted faithful friends.
