Politics of Piety

An analysis of Islamist cultural politics through the ethnography of a thriving, grassroots women's piety movement in the mosques of Cairo, Egypt. Unlike those organized Islamist activities that seek to seize or transform the state, this is a moral reform movement whose orthodox practices are commonly viewed as inconsequential to Egypt's political landscape. The author's exposition of these practices challenges this assumption by showing how the ethical and the political are linked within the context of such movements.

The Assassination of Fred Hampton

Read the story behind the award-winning film Judas and the Black Messiah On December 4, 1969, attorney Jeff Haas was in a police lockup in Chicago, interviewing Fred Hampton's fiancée. Deborah Johnson described how the police pulled her from the room as Fred lay unconscious on their bed. She heard one officer say, "He's still alive." She then heard two shots. A second officer said, "He's good and dead now." She looked at Jeff and asked, "What can you do?" The Assassination of Fred Hampton remains Haas's personal account of how he and People's Law Office partner Flint Taylor pursued

Hampton's assassins, ultimately prevailing over unlimited government resources and FBI conspiracy. Fifty years later, Haas writes that there is still an urgent need for the revolutionary systemic changes Hampton was organizing to accomplish. Not only a story of justice delivered, this book spotlights Hampton as a dynamic community leader and an inspiration for those in the ongoing fight against injustice and police brutality.

Stanley even gets to be in a reenactment of American Colonist Paul Revere's famous midnight ride. But Stanley has a problem. The Lambchops' friend, Dr. Dan, is in town, too, and he's giving a speech about his cure for flatness. And he wants Stanley to talk about being flat! But does Stanley want to change and be a regular kid, or would it be better to stay flat after all?

Proud to be Flesh

A Taste of Power

"A stunning picture of a black woman's coming of age in America. Put it on the shelf beside The Autobiography of Malcolm X." —Kirkus Reviews Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: "I have all the guns and all the money. I can

withstand challenge from without and from within. Am I right, Comrade?" It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The Washington Post

Journey of the Sea Glass

What happens to glass between the time it falls into the sea and it washes up on the beach years later? This wordless story flows along one possible course of events, following a soda bottle dropped overboard from a ship early in the twentieth century, only to have a fragment of it discovered on a beach by a young girl decades later. Over time, the bottle has been influenced by waves, currents, the sea floor, and sea creatures, all pictured in lush full-color renderings by artist Nicole Fazio. Fully immersed in the art, children and adults alike can trace the passage of time through the Journey of the Sea Glass.

Dream Machines

Investigating Iwo

"Investigating Iwo encourages us to explore the connection between American visual culture and World War II, particularly how the image inspired Marines, servicemembers, and civilians to carry on with the war and to remember those who made the ultimate sacrifice to ensure victory over the Axis Powers. Chapters shed light on the processes through which history becomes memory and gains meaning over time. The contributors ask only that we be willing to take a closer look, to remain open to new perspectives that can deepen our understanding of familiar topics related to the flag raising, including Rosenthal's famous picture, that continue to mean so much to us today"--

The Early Reader in Children's Literature and Culture

This is the first volume to consider the popular literary category of Early Readers – books written and designed for children who are just beginning to read independently. It argues that Early Readers deserve more scholarly attention and careful thought because they are, for many younger readers, their first opportunity to engage with a work of literature on their own, to feel a sense of mastery over a text, and to experience pleasure from the act of reading independently. Using interdisciplinary approaches that draw upon and synthesize research being done in education, child psychology, sociology, cultural studies, and children's literature, the volume visits Early Readers from a variety of angles: as teaching tools; as cultural artifacts that shape cultural and individual subjectivity; as mass produced products sold to a niche market of parents, educators, and young children; and as aesthetic objects, works of literature and art with specific conventions. Examining the reasons such books are so popular with young readers, as well as the reasons that some adults challenge and censor them, the volume considers the ways Early Readers contribute to the construction of younger children as readers, thinkers, consumers, and as gendered, raced, classed subjects. It also addresses children's texts that have been translated and sold around the globe, examining them as part of an increasingly transnational children's media culture that may add to or supplant regional, ethnic, and national children's literatures and cultures. While this collection focuses mostly on books written in English and often aimed at children living in the US, it is important to acknowledge that these Early Readers are a major US cultural export, influencing the reading habits and development of children across the globe.

For him, his family's dog is just a great pal. And protector. Jack cannot know that Redburn, a "leash-licking" Irish setter, is McKinley's rival for the job of head dog. Come join us, we who need you to replenish our diminishing wolf pack in the wild. But imagine how a good dog, loyal to his human pup, would hear Lupin's call! McKinley's thrilling story tells itself, as first he and the boy together encounter Lupin in a canyon perfect for an old-time ambush, and later as they try to save her from both Redburn and a neighbor, a vicious man armed with a gun and a grudge. The Good Dog

This study is concerned with how readers are positioned to interpret the past in historical fiction for children and young adults. Looking at literature published within the last thirty to forty years, Wilson identifies and explores a prevalent trend for re-visioning and rewriting the past according to modern social and political ideological assumptions. Fiction within this genre, while concerned with the past at the level of content, is additionally concerned with present views of that historical past because of the future to which it is moving. Specific areas of discussion include the identification of a new sub-genre: Living history fiction, stories of Joan of Arc, historical fiction featuring agentic females, the very popular Scholastic Press historical journal series, fictions of war, and historical fiction featuring multicultural discourses. Wilson observes specific traits in historical fiction written for children — most notably how the notion of positive progress into the future is nuanced differently in this literature in which the concept of progress from the past is inextricably linked to the protagonist's potential for agency and the realization of subjectivity. The genre consistently manifests a concern with identity construction that in turn informs and influences how a metanarrative of positive progress is played out. This book engages in a discussion of the functionality of the past within the genre and offers an interpretative frame for the sifting out of the present from the past in historical fiction for young readers.
