American Heiress

Domestic terrorism. Financial uncertainty. Troops abroad, fighting an unsuccessful and bloody war against guerrilla insurgents. A violent generation gap emerging between a discontented youth and their disapproving, angry elders. This was the early seventies in America, and it was against this backdrop that the kidnapping of nineteen-year-old Patty Hearst by the Symbionese Liberation Front - a rag-tag, cult-like group of political extremists and criminals - stole headlines across the world. Using new research and drawing on the formidable abilities that made *The Run of His Life* a global bestseller, Jeffrey Toobin uncovers the story of the kidnapping and its aftermath in vivid prose and forensic detail.

Critical Pedagogy and the Everyday Classroom

Critical Pedagogy addresses the shortcomings of mainstream educational theory and practice and promotes the humanization of teacher and student. Where Critical Pedagogy is often treated as a discourse of academics in universities, this book explores the applications of Critical Pedagogy to actual classroom situations. Written in a straight-forward, concise, and lucid form by an American high school teacher, drawing examples from literature, film, and, above all, the everyday classroom, this book is meant to provoke thought in teachers, students and education activists as we transform our classrooms into democratic sites. From grading to testing, from content area disciplines to curriculum planning and instruction, from the social construction of knowledge to embodied cognition, this book takes the theories behind Critical Pedagogy and illustrates them at work in common classroom environments.

The Black Jacobins

In 1789 the West Indian colony of San Domingo supplied two-thirds of the overseas trade of France. The entire structure of what was arguably the most profitable colony in the world rested on the labour of half a million slaves. In 1791 the waves of unrest inspired by the French Revolution reached across the Atlantic dividing the loyalties of the white population of the island. The brutally treated slaves of Saint Domingo seized at this confusion and rose up in rebellion against masters. In this classic work, CLR James chronicles the only successful slave revolt in history and provides a critical portrait of their leader, Toussaint L'Ouverture, 'one of the most remarkable men of a period rich in remarkable men'.

The Fragility of Goodness

This book is a study of ancient views about 'moral luck'. It examines the fundamental ethical problem that many of the valued constituents of a well-lived life are vulnerable to factors outside a person's control, and asks how this affects our appraisal of persons and their lives. The Greeks made a profound contribution to these questions, yet neither the problems nor the Greek views of them have received the attention they deserve. This book thus recovers a central dimension of Greek thought and addresses major issues in contemporary ethical theory. One of its most original aspects is its interrelated treatment of both literary and philosophical texts. *The Fragility of Goodness* has proven to be important reading for philosophers and classicists, and its non-technical style makes it accessible to any educated person interested in the difficult problems it tackles. This edition, first published in 2001, features a preface by Martha Nussbaum.

His Name Is Ron

This book is not about O.J. Simpson or his "Dream Team." This book is not another rehash of the "Trial of the Century." It is about Ron Golman and his blended family. Overnight and through tragedy, this quiet, closely knit family became enmeshed in one of the ugliest and most controversial crimes in recent history. The Goldmans provide a wrenching account, in their own words, of the ripple effect that occurs when a beloved family member is murdered, and the extra burdens that develop when grief becomes a public spectacle. But, more important, the family puts a name, a face, a soul, to the young man referred to in the press only as "a friend of..." or "a part-time waiter and sometime model." The Goldmans are a family with whom all of us can identify. They share memories of happier times and recount, moment by moment, learning of Ron's untimely death and the nightmare that followed. They share their reactions throughout the criminal trial up to and including the heart-stopping verdict. And they reveal the details of the civil trial that were never before allowed to be made public, due to the gag order imposed on all participants. And finally, they reveal their determination to bring much-needed reforms to the criminal justice system and to give voices to other victims of violent crimes. Much of what Ron's family has to say will surprise you... will enrage you... And most of all will break your heart.

Crime and Punishment in Contemporary Culture

Today, questions about how and why societies punish are deeply emotive and hotly contested. In *Crime and Punishment in Contemporary Culture*, Claire Valier argues that criminal justice is a key site for the negotiation of new collective identities and modes of belonging. Exploring both popular cultural forms and changes in crime policies and criminal law, Valier elaborates new forms of critical engagement with the politics of crime and punishment. In doing so, the book discusses: · Teletechnologies, punishment and new collectivities · The cultural politics of victims rights · Discourses on foreigners, crime and diaspora · Terror, the death penalty and the spectacle of violence. *Crime and Punishment in Contemporary Culture* makes a timely and important contribution to debate on the possibilities of justice in the media age.

Fantasy, Forgery, and the Byron Legend

Byron was -- to echo Wordsworth -- half-perceived and half-created. He would have affirmed Jean Baudrillard's observation that "to seduce is to die to reality and reconstitute oneself as illusion." But among the readers he seduced, in person and in poetry, were women possessed of vivid imaginations who collaborated with him in fashioning his legend. Accused of "treating women harshly," Byron acknowledged: "It may be so -- but I have been their martyr. My whole life has been sacrificed to them and by them." Those whom he spell bound often returned the favor in their own writings tried to remake his public image to reflect their own. Through writings both well known and generally unknown, James Soderholm examines the poet's relationship with five women: Elizabeth Pigot, Caroline Lamb, Annabella Milbanke, Teresa Guiccioli, and Marguerite Blessington. These women participated in Byron's life and literary career and the manipulation of images that is the Byron legend. Soderholm argues against the sentimental depictions of biographers who would preserve Byron's romantic aura by diminishing the contributions of these women to his social, sexual, and literary identity. By restoring the contexts in which literary works charm or bedevil particular readers, the author shows the consequences of Byron's poetic seductions during and after his life.

Talking to Strangers

THE INTERNATIONAL BESTSELLER 'Compelling, haunting, tragic stories . . . resonate long after you put the book down' James McConnachie, Sunday Times Book of the Year The routine traffic stop that ends in tragedy. Why is it so hard to detect a lie, read a face or judge a stranger's motives? I Am the Central Park Jogger

A timeless, “triumphant” (Entertainment Weekly) story of healing and recovery from the victim of a crime that shocked the nation: the Central Park Jogger. Shortly after 9:00 p.m. on April 19, 1989, a young woman jogs alone near 102nd Street in New York City's Central Park. She is attacked, raped, savagely beaten, and left for dead. Meet Trisha Meili, the Central Park Jogger. *I Am the Central Park Jogger* recounts the mesmerizing, inspiring, often wrenching story of human strength and transcendent recovery. Keeping the Wild

Is it time to embrace the so-called “Anthropocene”—the age of human dominion—and to abandon tried-and-true conservation tools such as parks and wilderness areas? Is the future of Earth to be fully domesticated, an engineered global garden managed by technocrats to serve humanity? The schism between advocates of rewilding and those who accept and even celebrate a “post-wild” world is arguably the hottest intellectual battle in contemporary conservation. In *Keeping the Wild*, a group of prominent scientists, writers, and conservation activists responds to the Anthropocene-boosters who claim that wild nature is no more (or in any case not much worth caring about), that human-caused extinction is acceptable, and that “novel ecosystems” are an adequate replacement for natural landscapes. With rhetorical fists swinging, the book's contributors argue that these “new environmentalists” embody the hubris of the managerial mindset and offer a conservation strategy that will fail to protect life in all its buzzing, blossoming diversity. With essays from Eileen Crist, David Ehrenfeld, Dave Foreman, Lisi Krall, Harvey Locke, Curt Meine, Kathleen Dean Moore, Michael Soulé, Terry Tempest Williams and other leading thinkers, *Keeping the Wild* provides an introduction to this important debate, a critique of the Anthropocene boosters' attack on traditional conservation, and unapologetic advocacy for wild nature.

Human Rights in the Age of Platforms

Scholars from across law and internet and media studies examine the human rights implications of today's platform society. Today such companies as Apple, Facebook, Google, Microsoft, and Twitter play an increasingly important role in how users form and express opinions, encounter information, debate, disagree, mobilize, and maintain their privacy. What are the human rights implications of an online domain managed by privately owned platforms? According to the Guiding Principles on Business and Human Rights, adopted by the UN Human Right Council in 2011, businesses have a responsibility to respect human rights and to carry out human rights due diligence. But this goal is dependent on the willingness of states to encode such norms into business regulations and of companies to comply. In this volume, contributors from across law and internet and media studies examine the state of human rights in today's platform society. The contributors consider the “datafication” of society, including the economic model of data extraction and the conceptualization of privacy. They examine online advertising, content moderation, corporate storytelling around human rights, and other platform practices. Finally, they discuss the relationship between human rights law and private actors, addressing such issues as private companies' human rights responsibilities and content regulation. Contributors Anja Bechmann, Fernando Bermejo, Agnès Callamard, Mikkel Flyverbom, Rikke Frank Jørgensen, Molly K. Land, Tarlach McGonagle, Jens-Erik Mai, Joris van Hoboken, Glen Whelan, Jillian C. York, Shoshana Zuboff, Ethan Zuckerman Open access edition published with generous support from Knowledge Unlatched and the Danish Council for Independent Research.

Strategic Imaginations

Imaginations of female rule and the imaginative strategies of women rulers What is the gender of political power ? What happens to the history of sovereignty when we reconsider it from a gender

perspective ? Political sovereignty has been a major theme in European thought from the very beginning of intellectual reflection on community. Philosophy and political theory, historiography, theology, and literature and the arts have, often in dialogue with one another, sought to represent or recalibrate notions of rule. Yet whatever covenant was imagined, sovereign rule has consistently been figured as a male prerogative. While in-depth studies of historical women rulers have proliferated in the past decades, these have not systematically explored how all women rulers throughout the entirety of European culture have had to operate in a context that could not think power as female – except in grotesque terms. *Strategic Imaginations* demonstrates that this constitutive tension can only be brought out by studying women's political rule in a comparative and *longue durée* manner. The book offers a collection of essays that brings together studies of female sovereignty from the Polish-Lithuanian to the British Commonwealth, and from the Middle Ages to the genesis of modern democracy. It addresses historical figures and takes stock of the rich yet unsettling imagination of female rule in philosophy, literature and art history. For all the variety of geographical, social, and historical contexts it engages, the book reveals surprising resonances between the strategies women rulers used and the images and practices they adopted in the context of an all-pervasive skepticism toward female rule.

Murder in Brentwood

For audiences of the popular FX television series *The People v. O.J. Simpson: American Crime Story*, based on Jeffrey Toobin's *The Run of His Life* and starring Cuba Gooding, Jr., John Travolta, David Schwimmer, and Courtney B. Vance. Named on *Vogue Magazine's* "American Crime Story Reading List" as one of the "eight definitive books on the trial of the century." Twenty years ago, America was captivated by the awful drama of the O.J. Simpson trial. The Simpson "Dream Team" legal defense had a seemingly impossible task: convincing a jury that their client was innocent of the murders of Nicole Brown Simpson and Ron Goldman. In order for O.J. Simpson to get away with murder, the defense attorneys had to destroy the reputation of Mark Fuhrman, a brilliant Los Angeles detective who was the lead on the murder scene and had collected overwhelming physical evidence against Simpson. Now Fuhrman tells his side of the story in the #1 *New York Times* bestseller *Murder in Brentwood*, a damning exposé that reveals why and how Simpson's prosecution was bungled. Fuhrman offers a sincere mea culpa for allowing his personal mistakes to become a focal point of the defense's strategy but also stands by the evidence he collected, writing: "One thing I will not apologize for is my policework on the O.J. Simpson case." With Fuhrman's own hand-drawn maps of the crime scene, his reconstruction of the murders, and interrogation transcripts, *Murder in Brentwood* is the book that sets the record straight about what really happened on June 12, 1994—and reveals why the O.J. Simpson trial was such a catastrophe.

Marihuana

Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (*Cannabis sativa*). Throughout the ages, marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow transformed into blissful ecstasy by the fumes that filled the air. Marihuana has been known by many names: hemp,

hashish, dagga, bhang, loco weed, grass-the list is endless. Formally christened *Cannabis sativa* in 1753 by Carl Linnaeus, marihuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing tranquil Brahms lullabies to coax it to grow. It is as vigorous as a weed. It is ubiquitous. It flourishes under nearly every possible climatic condition.

The Psychology of Genocide, Massacres, and Extreme Violence

Chronicling horrific events that brought the 20th century to witness the largest number of systematic slaughters of human beings in any century across history, this work goes beyond historic details and examines contemporary psychological means that leaders use to convince individuals to commit horrific acts in the name of a political or military cause. Massacres in Nanking, Rwanda, El Salvador, Vietnam, and other countries are reviewed in chilling detail. But the core issue is what psychological forces are behind large-scale killing; what psychology can be used to indoctrinate normal people with a Groupthink that moves individuals to mass murder brutally and without regret, even when the victims are innocent children. Dutton shows us how individuals are convinced to commit such sadistic acts, often preceded by torture, after being indoctrinated with beliefs that the target victims are unjust, inhuman or viral, like a virus that must be destroyed or it will destroy society.

A Basket of Deplorables

As seen on Newsmax TV! Featured in the New York Post and FoxNews.com! A compelling insider's look at a political marriage that tore apart the nation and almost destroyed a presidency—from the woman who saw it all happen. In this brilliantly written behind-the-scenes account, Linda Tripp along with her co-author, Dennis Carstens, shares her side of the Clinton White House sex scandals for the first time—detailing the behavior of two very flawed people who fooled a nation: Bill Clinton, a sexual predator, and his wife, Hillary, who was his primary enabler. In this exposé, Tripp outlines what the public was not allowed to see: the lengths Clintons' protectors would go to lie, deceive, and coverup for them; some of the many women Bill Clinton used his position, privilege, and power as president to sexually abuse; how the former president got away with it thanks to his morally bankrupt, unscrupulous wife and cabal of protectors; and finally, the role party politics played when he was called to task and was almost the first president to be removed from office for perjury and corruption.

Their in-depth analysis of over sixty films, from *The Matrix* and *Iron Man* to *Pirates of the Caribbean* and *The Lord of the Rings*, shows that movies, far from being mere entertainment, respond directly to today's social and political realities, from consumerism to "family values" to the War on Terror.

If I Did It
