The Green Florilegium

This elegant book features exquisite reproductions of a rare 17th-century album of floral illustrations. Very little is known about The Green Florilegium. Neither signed nor dated, it is generally attributed to the German painter Hans Simon Holtzbecker and originates from the library at Gottorf Castle in Schleswig, on the border of Germany and Denmark. The album now resides at the Statens Museum for Kunst in Copenhagen. Recently the book was painstakingly restored, allowing the delicate illustrations to come to new life in their original colors. This beautiful and affordable volume reproduces the original work of 400 botanical illustrations in its entirety. It also includes an introductory essay and captions with basic information on each flower. This lovely book is a must-have for lovers of botanical illustration and a sublime example of the art of conservation.

The Green Florilegium

This elegant book features exquisite reproductions of a rare 17th-century album of floral illustrations. Very little is known about The Green Florilegium. Neither signed nor dated, it is generally attributed to the German painter Hans Simon Holtzbecker and originates from the library at Gottorp Castle in Schleswig, on the border of Germany and Denmark. The album now resides at the Statens Museum for Kunst in Copenhagen. Recently the book was painstakingly restored, allowing the delicate illustrations to come to new life in their original colors. This beautiful volume reproduces the original work of 178 botanical illustrations in its entirety. It also includes an introductory essay and captions with basic information on each flower. Published for the first time, this lovely book is a must-have for lovers of botanical illustration and a sublime example of the art of conservation.

Dutch and Flemish Flower Pieces (2 vols in case)

This richly illustrated book provides an overview of all known Dutch and Flemish artists up to the nineteenth century, who painted or drew flower pieces, or else made prints of them.

Besler Florilegium

Consists of plates collected together in Besler's Hortus Eystettensis, a gardening book first published in 1613. Among the botanic gardens ... that of the Bishop of Eichstätt on the Willibaldsburg was outstanding; the Bishop ordered drawings of the flowers and plants to be made. Long considered one of the most ambitious and splendid books on ornamental flowering plants. Reproductions are in full colour and in the original size. With full notes and commentary on each plant in a new English translation.

A Garden Eden. Masterpieces of Botanical Illustration

Art meets science in this far-reaching catalogue of botanical illustration. Drawn from the vaults of the National Library of Vienna, these exquisite color reproductions range from 6th-century manuscripts to 19th-century masterpieces and celebrate both the skill of botanical artists and the abundance of natural flora.

Florilegium astronomicum

Examining the resurgent interest in painting and the proliferation of new digital media in recent years, this generously illustrated book delineates painting's complex relationship with information technology. In a survey that begins in the mid-twentieth century, long before the birth of the Internet, this book traces painting's capacity to digest and transform other media, even as its own legitimacy has been questioned. Featuring the work of numerous renowned artists, from Sigmar Polke to Nicole Eisenman and from Cy Twombly to Amy Sillman, the book examines how painting has addressed digital technology as it relates to human experience and perception, and includes three in-depth essays and additional texts by influential thinkers from the field. Comprehensive and lavishly illustrated, the book presents a wide range of works that reconsider the assumed opposition of the digital and the analog, the human and the technological, arguing that painting has served as a means to represent - and even enact - new media. This book affirms the ongoing vitality of the medium of painting in the midst of a digital world.

Painting 2.0

A must-have for botanical art enthusiasts and Maria Sibylla Merian fans, this gorgeous collection of frameable reproductions is blooming with color and meticulous detail. More than three centuries after Maria Sibylla Merian established herself as a scientific trailblazer--and after more than two centuries of obscurity--the work of this pioneering naturalist and artist is being rediscovered. Merian's work, *The New Book of Flowers*, raised the artistic standards of natural history illustration. Published in 1675, the book employed impeccable botanic accuracy with artistic expression. In it, Merian moved away from traditional methods that favored single illustrations and instead composed her studies to explore the relationships between flowers and insects. This poster book draws its nearly two dozen illustrations from *The New Book of Flowers*. Exquisitely reproduced, each illustration reveals the exacting detail and luminous colors that are the hallmark of Merian's work. Perfect for close study as well as decoration, this treasury of botanical delight will help brighten any room--and inspire anyone drawn to the beautiful world of flowers.

Maria Sibylla Merian

Uses paper engineering to illustrate the daily activities and life cycle of a funny bird.

Funny Birds

Created during Alexander von Humboldt's historic expedition to the Americas and Cuba, these intricate and delicately tinted prints record his revolutionary findings as he traveled through jungles, across rivers, and over mountainous terrain.

Alexander Von Humboldt and the Botanical Exploration of the Americas

"Durer's drawings and watercolours show the artist at his most accessible, revealing his techniques and the masterly use of his media. No woodcut engravers, printers or apprentices come between Durer and the viewer. This contributes to the particular fascination of such sheets as *The Large Piece of Turf* or *Hare*. The introductory essay, portraying Durer as a passionate observer of his surroundings and an exceptionally gifted artist, is followed by thirty-five, high-quality reproductions of his most popular drawings and watercolours."--Jaquette

Nature's Artist

This delightful and ingenious pop-up book traces a caterpillar's evolution from lowly cocoon to magnificent winged butterfly. Along the way we find cunning insects hidden in the grass, inchworms munching their way through a jungle of leaves, and a floral paradise where the newly hatched butterfly makes its home. Intricately constructed with the dazzling color and delicate details that have become UG's trademark, this book also tells young readers one of nature's most basic stories.

In the Butterfly Garden

A compact edition of Joseph Banks' extraordinary botanical engravings of flora discovered on Captain Cook's first voyage. Joseph Banks accompanied Captain Cook on his first voyage around the world from 1768 to 1771. A gifted and wealthy young naturalist, Banks collected exotic flora from Madeira, Brazil, Tierra del Fuego, the Society Islands, New Zealand, Australia, and Java, bringing back over 1,300 species that had never been seen or studied by Europeans. On his return, Banks commissioned over 700 engravings. Known collectively as Banks' *Florilegium*, they are some of the most precise and exquisite examples of botanical illustration ever created. The *Florilegium* was never published in Banks' lifetime, and it was not until 1990 that a complete set in color was issued under the direction of the British Museum. It is from these prints that the new compact edition of Joseph Banks' *Florilegium* is selected, as directed by David Mabberley, who has provided expert botanical commentaries. Art historian Mel Gooding sets the works in context while an afterword by Joe Studholme describes the history of modern printing. Joseph Banks' *Florilegium* is not only a great work of science, but also a major achievement in collaborative Enlightenment art and a volume of outstanding beauty.

Joseph Banks' Florilegium

An enchanting collection of flora and fauna illustrations by Germany's famous woman artist Maria Sibylla Merian.

Maria Sibylla Merian. Englische Ausgabe.

Eight-year-old Mayken works at her mothers inn, one winter day she is ice skating and finds an injured bird and nurses it back to health.

A Bird in Winter

Maria Sibylla Merian's *New Book of Flowers* represents one of the most stunning collections of floral engravings created by a fascinating and fiercely independent woman.

New Book of Flowers

Rediscover the drawings of Albrecht Dürer, one of the most prominent Renaissance artists, known as an incomparable painter and draughtsman with a keen eye for the natural world. During his lifetime, Dürer found tremendous success as a painter and printmaker, taking commissions from prominent figures such as Frederick the Wise and Holy Roman Emperor Maximilian I. His drawings and studies reveal his interest in human proportions, anatomy, and perspective. Featured in this book are Dürer's drawings from the Albertina Museum's preeminent collection including family portraits, studies of animals and plants, and studies of the human body. This book showcases more than 100 of Dürer's drawings including *Hare*, *Self Portrait at the Age of 13*, and *Melencolia I*, along with paintings and prints. Featuring scholarly essays and beautifully reproduced works, this book shows the reader not only how important Dürer's drawings are to his own oeuvre, but also how he helped drawing become an appreciated medium in its own right.

Albrecht Dürer

This stunning volume delves into the extraordinary illustrated notebooks of Alexander von Humboldt's journeys through the Americas, which reveal the graphic musings of an intrepid explorer, a writer and philosopher, and the father of the environmental movement. At the dawn of the 19th century, the Prussian explorer Alexander von Humboldt was granted permission to charter an expedition to Spain's colonies in the New World. Over the course of five years, Humboldt would travel to the Orinoco and Amazon rivers, predict the agricultural and commercial potential of Cuba, climb higher in the Andes than anyone before him, and acknowledge the achievements of the ancient indigenous American civilizations. And he recorded it all in a series of diaries. On occasion of the 250th anniversary of Humboldt's birth, the drawings from these diaries are now available in a large format, slip-cased edition. Structured thematically, the 450 illustrations have been painstakingly reproduced, complete with handwritten notes, ink stains and water spots. Humboldt drew everything he saw--Incan ruins, electric eels, the transit of Mercury, silver mines, and ocean currents. In addition to being remarkably well preserved, these drawings offer tremendous insight into Humboldt's prescient observations. Featuring commentary by a renowned expert on Humboldt's work, this breathtaking volume will bring to life one of history's most accomplished thinkers, while providing fascinating reading for anyone interested in history and nature.

Alexander Von Humboldt

The amazing story of the life and work of the renowned botanical artist Maria Sibylla Merian is told alongside her beautiful illustrations of butterflies in this charming and elegant book. A woman ahead of her time, Maria Sibylla Merian (1647–1717) was an intrepid explorer, naturalist, scholar, as well as a magnificent artist. This lovely, impeccably designed book tells Merian's incredible life story alongside colorful reproductions of her engravings and watercolors of the butterflies she encountered during her lifetime in Germany and the Netherlands, and her seminal trip to the Dutch colony of Surinam. The book recounts Merian's monumental expedition, her work as an advocate for the slave laborers of Surinam, and her important studies of the anatomy and life cycle of the butterfly. Author Boris Friedewald employs Merian's favorite insect as a metaphor for the artist's own pioneering evolution from budding entomologist to educator, activist, and artist. A visual treasure as well as a satisfying read, this exquisite volume is the perfect gift for anyone interested in Merian's amazing life and groundbreaking body of work.

A Butterfly Journey

Botanical Art Techniques is a beautifully illustrated and comprehensive guide to one of the most delicate art forms. From the experts at the American Society of Botanical Artists, this essential reference features how-to tutorials for all the major techniques, moving from basic to intermediate to advanced,

so the reader can build on their skills as they progress. Media covered in detail include graphite, pen and ink, watercolor on paper and vellum, and colored pencil, with further tutorials on egg tempera oil, acrylic, gouache, silverpoint, etching, and more. Additional information includes a detailed overview of the necessary materials, basic information about the principles of composition, and advice on how to develop a personal style. Filled with 900 photographs, *Botanical Art Techniques* is a must-have for creative people everywhere.

Botanical Art Techniques

Throughout his life photographer Jim Naughten has been fascinated with the natural world. As a child, he collected fossils he found near his home in Dover. Now a renowned photographer, Naughten has started to experiment with stereography and has turned to his boyhood interest, gaining access to the archives of some of the world's most prestigious natural history museums. This gorgeously produced book contains fifty images of marine life, reptiles, mammals, birds and primates photographed expressly for viewing through a stereoscope, which is included with the book. Stereoscopy was invented in 1839 to study and explain binocular vision. Having two eyes allows humans to determine distance and depth and stereoscopy shows a left- and right-eye view from a slightly different angle, as we see things in day-to-day life. Looking through the stereo viewer, readers will see the specimens as three-dimensional objects. As the images jump off the page, their incredible details become apparent—delicate bat wings, the spiraling skeleton of a python, the almost mythic form of a leafy sea dragon. A foreword by Martin Barnes of the Victoria and Albert Museum, London offers an assessment of the work while essays on the specimens themselves and the history of stereoscopy provide rich background to this photographic technology, and to Naughten's achievement in bringing to life a world that seamlessly melds the past and present.

Catalogue of Copyright Entries

In 367 exquisite plates, this treasure of botanical literature records the flowers of the palatial grounds at Eichstätt, Bavaria, once some of the most beautiful gardens in history. The illustrations are organized by season and, following the classification system used today, show plants belonging to a total of 90 families and covering 340 genera.

Animal Kingdom

Though most famous for his engravings, Albrecht Dürer (1471-1528) was also a master painter and draftsman whose work exemplifies the spirit of German art. This overview of Dürer's entire oeuvre is an ideal introduction to his work.

Basilius Besler. Florilegium. the Book of Plants

With his 1543 herb catalog, botanical pioneer Leonhart Fuchs created a masterpiece of Renaissance botany and publishing. This fresh reprint is based on Fuchs's personal, hand-colored original and features over 500 illustrations, including the first visual record of New World plant types such as maize, cactus, and tobacco.

Albrecht Dürer, 1471-1528

"Accompanying an exhibition at The New York Botanical Garden, this catalogue focuses on Georgia O'Keeffe's life and work in relation to her transformative three-month trip to Hawaii"--

Leonhart Fuchs - The New Herbal of 1543

Thirteen papers on different subjects, focussing on writings and inscriptions in medieval art, explore the faculty of writing to create and determine spaces and to generate the sacred by the display of holy scripture. The subjects range from book illumination over wall painting, mosaics, sculpture, and church interiors to inscriptions on portals and façades.

Georgia O'Keeffe

One of our greatest writers about the sea has written an engrossing story of one of history's most legendary maritime explorers. Patrick O'Brian's biography of naturalist, explorer and co-founder of Australia, Joseph Banks, is narrative history at its finest. Published to rave reviews, it reveals Banks

to be a man of enduring importance, and establishes itself as a classic of exploration. "It is in his description of that arduous three-year voyage [on the ship Endeavor] that Mr. O'Brian is at his most brilliant. . . . He makes us understand what life within this wooden world was like, with its 94 male souls, two dogs, a cat and a goat."—Linda Colley, *New York Times* "An absorbing, finely written overview, meant for the general reader, of a major figure in the history of natural science."—Frank Stewart, *Los Angeles Times* "[This book is] the definitive biography of an extraordinary subject."—Robert Taylor, *Boston Globe* "His skill at narrative and his extensive knowledge of the maritime history . . . give him a definite leg up in telling this . . . story."—Tom Clark, *San Francisco Chronicle*

Ferdinand Hodler

This volume explores the various facets of planaria as a biomedical model system and discusses techniques used to study the fascinating biology of these animals. The chapters in this book are divided into two parts: Part One looks at the biodiversity of planarian species, the molecular orchestration of regeneration, ecology of planarians in their natural habitats and their history as lab models. Part Two talks about experimental protocols for studying planarians, ranging from the establishment of a planarian research colony, to RNA and DNA extraction techniques, all the way to single stem cell transplantations or metabolomics analysis. Written in the highly successful *Methods in Molecular Biology* series format, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. Comprehensive and cutting-edge, *Planarian Regeneration: Methods and Protocols* is a valuable resource for both newcomers to the field and experts within established planarian laboratories.

Sacred Scripture / Sacred Space

Taking the houseplant trend to the next level, this book offers--in addition to growing tips for over twenty varieties--rich inspiration for home decoration, crafting, and DIY natural health and beauty projects using nature. Leafy green houseplants, hardy succulents and cacti, and flowering perennials add as much to your daily sense of well-being as to the beauty of your home once you convert it into a plant paradise. Opening her book with all the essentials you need to cultivate twenty home varieties--from calathea to monstera to pilea peperomioides--with practical tips for repotting, watering, and sunlight recommendations, Elle Décor Idée co-editor Camille Soulayrol takes the houseplant trend to the next level by offering a broad program of gorgeous DIY projects. She shares step-by-step inspiration for creating terrariums and aquatic plant habitats, decorative tips for showcasing plants at home with wreathes or geometric frames that allow vines to thrive, and nature-inspired table setting ideas incorporating leaves and dried herbs. Tips on how to frame blossoms and leaves and how to create herbal dyes for textiles, round out a rich palette of home decorating projects. Learn to leverage the benefits of specific plants through recipes for natural cosmetics, essential oils, and herbal infusions sourced from your houseplant haven. Urban dwellers have finally caught on to the beauty, joy, and mindful benefits of bringing nature into the home, and this innovative book is essential reading to succeed in reinvigorating your interior using the diverse bounties of nature.

Joseph Banks

Based on the intricate illustrations of Ernst Haeckel, one of the world's most celebrated naturalists and artists, this coloring book provides hours of absorbing and soothing entertainment. Ernst Haeckel's series of incredibly detailed prints have influenced designers and artists for over a century. Collected in books such as the perennial bestsellers *Art Forms in Nature* and *Art Forms from the Ocean*, they now form the basis of a beautiful coloring book that is suitable for any age. Each page contains boldly outlined designs based on Haeckel's original illustrations of Radiolaria, Foraminifera, and other forms of microscopic life; jellyfishes, starfishes, corals, and other sea life; mosses, lichens, orchids, and other plants. With nearly 100 pages to choose from, the variety of designs presented in the book is breathtaking. With coloring books quickly becoming a remedy for daily stress, this collection is certain to be a popular source for those seeking a relaxing pastime that is both artistic and satisfying.

Paths of Knowledge

"Drip drop, drip drop ... slowly rain begins to fall. But robots don't like water at all. Too late! He's starting to rust"--Accompanying material.

Planarian Regeneration

This book is the first in-depth study of eighteenth-century botanical illustrations. Its findings offer a completely new insight into the working practices of the botanists and scientific draughtsmen of this period. The author describes the different production stages of these illustrations. For the first time, the author presents a convincing description of how botanical illustrations developed, ascertaining the criteria that drove this process.

Plantopia

This book presents a theoretical approach for enhancing consumer processing and memory of marketing communication.

Art Forms in Nature

Visit over forty of Ireland's most beautiful gardens without moving from your armchair with this stunning book, ranging from the grand old demesnes of the Anglo-Irish ascendancy to the intensely personal creations of passionate plantsmen and garden makers. Visitors to Ireland are often surprised at the 'palm trees' that make so many gardens look as if they belong in a holiday postcard. How can such exotics survive on an island that is as far north as the prairies of Canada and the pine forests of Siberia? The answer lies in the tail of the Gulf Stream - the North Atlantic Drift - which wraps around this green land on the western edge of Europe. Its warm and watery embrace bestows the renowned 'soft' climate that allows those palm trees (in fact, New Zealand cordylines) to make their homes here - along with tree ferns from Australia and bananas from Japan. Plants from colder regions, including rhododendrons, primulas and all manner of alpine, are equally happy. So, with a range of plants that runs from the subtropical to the subarctic, and a landscape that varies from gently pastoral to savagely rugged, the aptly named Emerald Isle has some of the most romantic and interesting gardens in the world. The result of a lifetime visiting, considering and writing about gardens in Ireland, and several years of dedicated photography, this is a truly comprehensive exploration of a fascinating subject.

The Druids - The Druids by The Histocrat 6,394,224 views 3 years ago 2 hours, 3 minutes - In this video we dive into the accounts of the Druids of Gaul and Britain, and try to see if there is any archaeological evidence for ...

It Was amongst the Backdrop of this Escalating Conflict That Caesar Wrote a Series of Commentaries on His Military Campaigns in Gaul Hoping To Bypass the Senate and Secure Popular Support for His Actions at some Point in this Drafting Process He Chose To Include a Survey of the Local Customs of the Regions He Had Conquered and It Was within this Survey that He Provided a Description of the Religious Class of Gaul That Would Become Iconic in Describing this Class He Deliberately Avoided Using the Term He Had Used in Previous Sections for Priests Instead He Used a Gaelic Word Druid or Druidi this Same Name Was Used by Authors both before and after Caesar but It Was His Account of this Class That Would Endure Long past this Group's

The First of these the Writings of Greek Explorers Active in Western Europe during the Third and

the Fourth Centuries bc these Accounts Are by Far the Most Obscure Existing Mostly as Excerpts and Quotations in the Works of Later Authors the Second School of Writers Consists of Accounts of the Druids Beginning with the Initial Roman Expansion into Gaul Continuing until Their Apparent Disappearance during the Second Century Ad of All the Classical Accounts these Are Easily the Most Expensive Being Somewhat Contemporary in both Time and Proximity to the Societies of the Ported Druids of Gaul and Britain Finally We Have the Least Well-Examined Accounts of the Druids those Are the Christian Writers the Cities of Alexandria and Antioch in the Third and the Fourth Centuries Ad

This Theory Is Certainly an Interesting One but It Should Be Noted that There Are Significant Concerns with the Accuracy of the Account It Draws upon the Most Egregious of these Is that the Claimed Location of Hyperborea Varies Wildly between Different Ancient Authors with Successive Authors Placing Its Location Further and Further North as Understanding of European Geography Improved in the Pseudo-Historical Accounts of Hesiod and Homer Hyperboria Is Located North of Frays in Areas of Water Now Romania and Bulgaria Hecateus of Militis Also Places It along the Coast of the Black Sea an Area Whose Geography Was More Widely Understood by the Time Hecateus of Abdurah Relocated the Hyperboreans to an Island off the Coast of Gaul by the Time of the Second Century Ad Author Tommy Who Composed His Maps When Accounts of Britain Were More Widely Known the Location of the Hyperboreans Had Changed Again this Time to a Location in the North Sea above Ireland this Repeated Change in Location Has Led Many Authors To Consider the Hyperboreans More Mythical than Historical

As It Is Here that He Claims Druidic Thought Originated of Their Religious Beliefs He Writes that the Druid's Cardinal Teaching Was that the Soul Did Not Perish upon Death but Instead Passed to another Body a Teaching That Aided Them in Encouraging Fearlessness amongst Their Warriors Caesar Also Writes that Their Disciples Were Educated on an Extensive Range of Topics Including Astronomy the Order of the Natural World and the Power of the Immortal Gods However They Also Placed a Prescription on Writing Down these Teachings Firstly To Prevent Transition of Their Secrets and Second To Improve Their Skills of Memorization Most Interestingly He Also Describes the Druids of Gaul as Serving a Single Leader Who Was Elected by His Fellows though His Position Could Also Be Claimed by Armed Conflict if the Succession Was Contested Caesar Goes On To State that the Druids Would Gather Annually in the Lands of the Khanus

In a Passage of His Work on Divination He Informs Us that He Can Attest to the Presence of Such Practices amongst the Druids Having Met One Himself in Rome this Druid Who Was Known as Divisiakas Is Described as Using Augury a Practice Wherein the Movement of Birds Was Interpreted To Predict the Future along with all Other Forms of Natural Phenomena this Same Division Would Appear in Caesar's Account this Time Listed Not as a Druid but as a Leading Aristocrat and Ally of Rome if this Is Correct Then Cicero's Account Jars with Caesar's Description of the Druids as a Class That Held Aloof from Warfare

He Then Adds a Detail Not Mentioned by Caesar Stating that the Gallic Teaching That Souls Pass to another Body upon Death Is Derived from that of Pythagoras a Greek Philosopher That Founded a School in Southern Italy Sometime in the Late 6th Century Bc So Much Did this Belief Prevail amongst the Gauls that According to Dioderas They Would Cast Letters onto the Pires of Their Deceased Kinsmen so that the Dead Would Be Able To Read these Letters this Identification of Druidic Teachings with that of Pythagoras Has Posed Difficulties for Modern Scholars Almost all Contemporary Accounts of His Life and Teachings Are Now Lost and What Accounts Do Remain Are Largely Satirical in Nature

It Also Seems that the Druids Retained Their Importance during Warfare as both Authors Claim that They Had the Power To Prevent any Conflict Going As Far as To Step between Two Armies as They Approached for Battle Finally both Diodorus and Strabo Agree with Caesar on the Existence of Human Sacrifice amongst the Druids though They Also Introduced New Ways in Which the Goals Supposedly Disposed of Their Victims in Addition to the Wooden Effigies Described by Caesar both Outline a Process Wherein Captives and Convicted Criminals Would Be Executed by Being Impaled on Long Poles within Their Temples Followed Once More by Ritual Burning

Harvesting of Mistletoe

Caligula

Gaelic Priestesses

The Alexandrian Authors

Carnac Stones

Religious Practices

Known Iron Age Religious Sites

Finally It Should Be Kept in Mind That Lucan Only Mentions these Figures When Discussing the Grove Encountered Outside Macelotes and that as a Result It Is Unlikely To Preserve Native Gallis Ritual Behaviors So Aside from a Handful of Facts Such as the Name of Free Gods Presence of Wooded Sanctuaries and the Existence of Ritual Deposits There Seems To Be a Little in Common between the Archaeological Record and the Accounts of Roman Authors Certainly the Ubiquitous Priesthood of Caesar Strabo and Diodorus Seems To Be Absent from any Known Inscriptions The Second Class of Items We Can Point to Are a Set of Bronze Spoons or Scoops That Have Been Found in Areas of Britain and Ireland with a Solitary Pair Also Being Unearthed in Eastern France Only Around 15 of these Items Are Known To Exist but Most of Them Being Found in Pairs Almost all of these Spoons Seem To Have Been Deliberately Deposited within Graves or Hordes and Their Exact Age Remains Uncertain Going by Their Decoration Styles these Spoons May Range in Date from the 5th Century Bc to the 2nd Century Bc and Seem To Have no Roman Associations these Spoons Take the Form of Small Shallow Bowls Which Are Large Enough To Sit Comfortably within an Adult's

It Consists of the Fragmentary Remains of a Large Bronze Tablet That Was Unearthed in the Late 19th Century in the French Commune of Coligny Engraved on this Tablet Was an Elaborate Calendar Outlining both the Sole Year and Lunar Months along with a System of Notations Listing both Auspicious and Inauspicious Dates this Calendar Dates from between the First and the Second Century's Ad and Was Written Using the Latin Alphabet though the Language It Was Composed in Is Gaulish whilst Only a Small Part of this Calendar Has Survived It Contains a Full Five-Year Cycle and this Repetition Allows Us To Reconstruct It with some Confidence by all Indications the Calendar Outlined in this Tablet May Be the Original Celtic Lunisolar Calendar Support for this Comes from Its Counting of Time Not by Days but by Nights Practice of the Goals Claimed by both Caesar and Pliny Attempts Have Also Been Made To Link this Calendar with the 30-Year Lunar Cycle of the Druids Outlined in Pliny's Account although the Presence of Large Numbers of Notations and Abbreviations Make the Exact Length of any Longer Cycle Open to Individual Interpretation So Did the Druids Create this Calendar the Answer Might Very Well Be Yes Given that It Was Constructed during a Period When Roman Authors Were Still Reporting the Presence of Druids in Gaul and that It Bears a Passing Similarity to Other Elements of Their Accounts However It Could Have Just As Easily Been Drawn Up by Romanised Officials Who Retained a Knowledge of Local Customs Indeed Similar Intercalary

There Is Significant Uncertainty over What Exactly these Mass Displays of Body Parts Represent Most Scholars Agree that the Bodies Found at Rivermont Are the Victims of a Single Large Iron Age Battle Which the Shrine May Originally Have Been Built To Commemorate some of the Heads Displayed at Rock Patios Similarly Seem To Have Come from the Bodies of Men Slain in Battle as Shown by a Piece of Javelin Found Still Embedded in One of the Skulls as a Result Earlier Scholars Hypothesized that One of the Functions of these Sites Was To Ensure the Ritual Humiliation of Their Fallen Opponents Where Their Bodies Would Be Displayed as Trophies or Otherwise Destroyed As a Result Earlier Scholars Hypothesized that One of the Functions of these Sites Was To Ensure the Ritual Humiliation of Their Fallen Opponents Where Their Bodies Would Be Displayed as Trophies or Otherwise Destroyed whilst this May Well Be True of the Skulls Displayed at Rock Parties It Is Now Thought that the Headless Warriors Found in the Mass Grave outside the River Mount Enclosure Are the Foes of the Sanctuary's Builders Given Their Decapitation and Careless Burial by Comparison the Several Hundred Bodies Found within the Enclosure Seemed To Have Been Subjected to a Complicated Ritual Treatment First They Seemed To Have Been Displayed in the Open Air Where They Were Allowed To Decay until Only the Bones and Ligaments Remained

First They Seemed To Have Been Displayed in the Open Air Where They Were Allowed To Decay until Only the Bones and Ligaments Remained some of these Bones Were Then Used To Construct the Ossuaries whilst Others Were Carefully Destroyed by Being Crushed and Then Cremated the Purpose of these Destructions Is Unknown Perhaps It Simply Marked an Unusual Form of Ritual Treatment for the Locals Departed Comrades the Most Prestigious of Whom Had Their Bones Selected for Inclusion amongst the Ossuaries Other Authors Have Taken the Opportunity To Suggest that these Are Not Fallen Warriors At All but the Bodies Are Sacrificial Victims whilst the Evidence for this at Rivermont

The Purpose of these Destructions Is Unknown Perhaps It Simply Marked an Unusual Form of Ritual Treatment for the Locals Departed Comrades the Most Prestigious of Whom Had Their Bones Selected for Inclusion amongst the Ossuaries Other Authors Have Taken the Opportunity To Suggest that these Are Not Fallen Warriors At All but the Bodies Are Sacrificial Victims whilst the Evidence for this at Rivermont and Other Sites in Northern Gaul Remains Unclear this May Well Be True of the

Remains Found at Lindow Where Bones Have Been Unearthed Carrying Clear Signs of Butchery so There May Well Be some Slim Evidence for Human Sacrifice

This May Well Be True of the Remains Found at Lindow Where Bones Have Been Unearthed Carrying Clear Signs of Butchery so There May Well Be some Slim Evidence for Human Sacrifice in Parts of Iron Age Gales but Can We Say the Same for across the Channel Well Let Us Start by Examining the Key Piece of Evidence that Many Authors Cite as Proof of Ritual Druidic Sacrifice in Britain It Consists of the Body of a 25 Year Old Man an Earth from a Bog in Lindow in Cheshire Dating from Somewhere between the First and the Second Century's AD due to the Oxygen-Free Conditions of His Environment Large Portions of His Torso Remained Well Preserved

It Consists of the Body of a 25 Year Old Man an Earth from a Bog in Lindow in Cheshire Dating from Somewhere between the First and the Second Century's AD due to the Oxygen-Free Conditions of His Environment Large Portions of His Torso Remained Well Preserved Enough so that We Can Reconstruct a Picture of How He Would Have Lived and Died as Best We Can Tell Lindowman Seems To Have Been a Member of the Social Elite by all Signs His Body Was Well Nourished Bearing Few Signs of Hard Physical Labor According to Pathologist Ian West Who Performed the Initial Forensic Analysis at London Hospital He Was Subjected to a Free Fall Death First He Was Stunned by Two Blows to the Head

The Book of Talisman

Arthur's Descent into the Underworld

Battle of Monsbadon

Eight Battles at the Fortress of Gwynon

Twelfth Battle

Annals Cambrie

King Lear

Arthur Is Unambiguously King of the Britons

And Journeys to God whilst He's Sailing He Has a Dream of a Bear and a Great Dragon That Do Battle in the Heavens above Their Ships and the Dragon Wins So Arthur's Companions Interpret this Dragon as Symbolizing Himself and Prophesizing His Victory Arthur Himself Is Less Certain about this He Doesn't Outright Say No I Doom and Gloom I'M Actually the Bear but He Does Say that He's Uncertain Now There Is a Big Big Digression in the Account Here Where They Go Off to Spain and Kill a Giant the Niece of a Duke

I Would Like To Read these to You in Length but They'Re both Very Very Long so the Best I Can Manage Here Unfortunately Is a Summary of the Two Poems so the Story of Lancelot in the Car this Is as I Say It's Basically a Love Story between Lancelot and Gwynevere Arthur's Why So How It Opens Is that Guinevere Has Been Abducted by a Villain by the Name of Melee Malagant Uh Yes li Have the Same Name Written Down for Later on Yeah Malayant I Think so We'Re Almost Meeting in the Middle Here Basically Who Is the King of the Nearby Kingdom of Gore and the Whole Story Just Is a Deep Examination of Lanzarote's Trial like Trials in Rescuing Gwynevere

So the Theme I Find and that Many Other Authors Have Commented on Running through this Is Arthur Goes from Being like this Powerful Warrior and the Tales Are All about Him to Very Much Being a Background Character the Focus Moves to His Knight and His Court around Him and There's this Common Element That Comes in of Arthur Being Presented as a Cuckold Where You Know Particularly Lancelot It's Clear that His Wife Is in Love with another Man and in Various Versions this Is Consummated in some Versions He Finds Out about It and Reacts Very Weakly There's like Stories Where He's at a Feast and He Gets Tired and Has To Go to Bed Early so Arthur Becomes a Much More Frail Figure in these in this Romance

So It Consists of Four or Five Major Parts First of these Appears To Be Completely New and Unique to the Cycle Which Is the History of the Holy Grail and this Basically Tells the Simple Story of Uh Joseph of Arimathea and His Son Josephus We Bring the Holy Grail It's Connected to Christ They Bring It that's How It's Brought to Britain and It's Actually Uh Derived from a Different Poem by Robert De Beron Who's the Merlin Poem Author Called Joseph and this Is Really Where We See the Religious Elements of this Cycle Ramped Up the Next Version Is Basically Just a Conversion of Robert Duran's Poem of Merlin into What's Called the Prose Merlin Which Again Includes those Arms We Met Before And this Is Really Where We See the Religious Elements of this Cycle Ramped Up the Next Version Is Basically Just a Conversion of Robert Duran's Poem of Merlin into What's Called the Prose Merlin Which Again Includes those Arms We Met before We Then Gets Called the Merlin Proper Afterwards So this Brings Merlin In from the Kind of Earlier Poem and Adds Him into Much More of Arthur's Early Deeds and Associates Him Much More Gawain so You Know When We Went through Geoffrey Obama's Account Merwin Just Kind Of Disappears after Arthur's Birth this Explicitly Puts Him Back In as Part of Their Struggle against Saxons

And I Think the Reason Why these Elements Were Changed Is because It Was Actually Written By like a Group Um Known as the Cistercian Order and They Were an Order That Basically Condemned Anything That Was Not the Spiritual Life so You Can See You Know Lancelot Now It's a Courtly Love Story Rather than the Adulterous Love Story Um It Kind Of like Sprinkles in Other Elements and Expands over It Brings In like Parts of the Prose Tristan so Tristan and He Sold Which in Turn Influenced Lance the Landslide Grail So Yeah You Can See There's a Whole Bunch of Complicated Threats Being Pulled Together So Yeah so that's Kind of a Summary of Developments within the Romantic Era of the Arthurian

It Be It by Giving a Self-Fulfilling Prophecy or by Actively Manipulating Events in Order To Make Sure that They They Play Out as He's Seen It or Just Withholding the Full Prophecy so Merlin's Poor Advice or Advice Making the Future Play Out in that Way Obviously Starts with When He Tells Luther To Give Up Arthur and Cause All these Events Which Cause One the Succession To Be Questioned When Obviously if Arthur Had Just Been Left To Be Raised by Uther no One Would Have Questioned It and Then Which Causes a War As Well over It and So after the End of this War in Fact Um Jew Kurians Does Actually Call Out Merlin for this Calling Him a Witch and Saying that It Is Entirely His Fault that the War Is Entirely His Fault the Argument Been like if You Didn't Give this Prophecy Which Had To Be Absolutely Fulfilled in that Way
