Nana, What's Cancer?

A conversation between a grandmother who has survived cancer and her concerned granddaughter helps to answer questions about the disease, including "What is cancer?" and "Can you catch cancer?"

Nana Has Cancer, But Cancer Does Not Have Nana

Bubbles, gliders, cancer, and crafts. What a combination! Mix all of these with rhyme, and this story entertains and educates. When Nana is diagnosed with breast cancer, her family has to learn how to navigate this unsettling new experience. Told by the young grandsons who share the journey, they reveal the ups, the downs, and ultimately the glider ride that symbolizes Nana's return to health. Cancer may be the topic, but love is the theme. An uplifting tale both symbolically and literally, this is a happy-ending story for children ages 4 to 9. Craft ideas included. All profits benefit a healthcare scholarship.

Sort of Forever

"The talented Warner has previously explored the themes of friendship and change, but never more powerfully or effectively than in this piercing novel. Driven almost exclusively by dialogue, her narrative focuses on the necessarily metamorphosing relationship between the often needy 12-year-old Cady and her normally independent, feisty best friend, Nana, who is dying of cancer."--"Publishers Weekly, " starred review.

What Is Cancer?

Jacob overhears his parent's talking about cancer. He is not sure what it is, but has a feeling its not a good thing. Jacob asks his Nana "What Is Cancer"? Designed to help simply and clearly explain what cancer is and how we can be of help when someone we know is diagnosed with it. Intended to help families explain to children what it is and to be included, when there is a diagnosis of cancer.

Prevention The Ultimate Guide to Breast Cancer

We've all heard the statistic: 1 in 8 women will get a breast cancer diagnosis at some point in her lifetime. But there's another just-as-relevant number that isn't as widely broadcast: 76 percent of those women will be alive 10 years later. This guide from America's most trusted health magazine helps women navigate treatment, medical costs, and lifestyle changes and emerge with their physical and mental health intact. Organized to take readers from diagnosis to survival and all the steps in between, *Prevention The Ultimate Guide to Breast Cancer* offers relevant information in technical yet accessible language, including: Supplements and recipes that stimulate appetite, ease treatment side effects, promote recovery, and help prevent a recurrence Complementary and alternative treatments and medicine that can be beneficial Real-life advice from women with breast cancer on issues such as processing the emotions that accompany a diagnosis and what to expect as a cancer survivor This guide will help any woman who has been diagnosed feel organized, informed, hopeful, reassured, and focused on becoming well, increasing her chances of landing in that healthy 76 percent.

Nana, What's Cancer

A healing conversation between grandmother and granddaughter ..In this beautifully written and illustrated book, a grandmother who has survived cancer answers the many questions of her concerned granddaughter, Tess. .

Nana and the C

Nana and the "c" is a book for all ages and all cultures as it is about family and the ability to support a loved one through the challenges of cancer. It is told from a seven-year-old's perspective as she gathers the courage to face her grandmother's illness and learns that her irritating younger sister is perhaps smarter than she seems. Together they also learn how to conquer their biggest fear and replace worry with wonder. The story is uplifting and often humorous while symbolizing hope. It will make readers of all ages laugh, cry, and remember their own childhood and the relationships and events that influenced who they have become. The goal of this story is to help children through health crises in their family. The illustrator, editor and designer donated their time to help with the project in order to make possible the donation of copies of the book to waiting rooms of cancer clinics.

Nana's Hair

The true story of a grandmother's fight with cancer and the love of family.

I Know Someone with Cancer

This book introduces readers to what cancer is, how it affects people, and what they can do to be a good friend to someone living with cancer.

Serendipity

Serendipity: Moments in time and place — A diverse blend of storytellers from around the world share their experiences with the mystery, magic, and power of serendipity.

Nana's Girl

Samantha O'Connor knows life can be short. She has known that since she was eleven years old. That's when her beloved Nana died from breast cancer. And as a nurse in Denver General's busy Emergency Department she sees people get a wake up call every day. On Halloween, she gets her own wake up call when she has a horrible car accident and ends up back in the ER dressed as Goldilocks. While recovering at her parents' house, she finds an old box of presents from Nana. It has her huge old teddy bear, a charm bracelet, her blue haired Flatsy doll, and a little black patent leather purse in it. She also finds a letter from Nana written just before she died and a caricature of herself as "Nana's Girl." This reminds Sam of who she really is. Using that as her motivation, she creates a To Do List for her life. *Nana's Girl* is for all who have lost someone they loved dearly, especially those who have lost someone to breast cancer. Nana never got any treatment for her breast cancer. I can only guess how she must have suffered. She never told anyone. I am sure she didn't want anyone to worry. And I am sure she didn't want to go to the hospital. She always said she hated them. She thought people died there. I don't know if treatment would have helped Nana then. That was a different time. I do know that it does help many now. It is my hope to prevent even one more person from suffering. Although *Nana's Girl* stems from my Nana, the story, characters and places are fictional. It was too personal to tell otherwise, and

I would never have finished with any dry pages. All profits from sale of Nana's Girl will be donated to The Breast Cancer Foundation at www.bcrfcure.org in loving memory of Katherine Mahan.

The Power of Children

"The Power of Children Awards program (POCA) was established in 2005. In ten years of its existence, it has recognized fifty young people who have made enormous positive impacts on their communities and the world. The Power of Children offers profiles of these fifty young trailblazers, educators, and helpers, describing the projects that led to their awards"--Back cover.

Dirty Work - Part 1

Poisoned Pawn Harlem brothers, Kip and Kid Kane, are like night and day. While Kip is with his stick-up crew hitting ballers and shot-callers, the wheelchair-bound Kid is busy winning chess tournaments and being a genius. Kip's ex, Eshon, and her girls, Jessica and Brandy, put in work for Kip's crew as the E and J Brandy bitches. Eshon wants Kip, but Kip is always focused on the next heist--the next big come-up. When given an assignment by the quirky Egyptian kingpin, Maserati Meek, Kip jumps at the chance to level up to bigger scores. While doing Maserati Meek's Dirty Work, Kip and his crew find that doing business with crazy pays handsomely. But at what cost? Insanity leads to widespread warfare, and the last man standing will have to take down the warlord.

Cancer Party!

When Sara Olsher was diagnosed with cancer at the age of 34, her first thought was how to tell her six-year-old daughter without scaring her. Cancer Party! is the result of that conversation and experience. It is the book Sara wished she could have snuggled up on the couch and read with her child. Cancer Party! is a little bit science, a little bit silly, and a lot straightforward. Keeping it simple, Cancer Party! uses bright illustrations to show how cells divide, work, and what happens when a cell gets confused and turns into cancer. Aimed at families with kids ages 4 to 10, Cancer Party! helps families address the physical impact cancer treatment has on a patient and their child, helps kids understand what to expect, and assures them that cancer isn't their fault. "But every once in awhile, one of the cells forgets what its job is. It can't remember what to do! It's so confused. And since it doesn't know what else to do, it decides to have a PARTY." Cancer Party! is the perfect book for families that want to explain what cancer actually is, and applies to mothers, fathers, grandparents, and many types of cancer, including breast cancer, colon cancer, blood cancers such as leukemia, and bone cancers. It aims to empower kids with knowledge, which is proven to help kids through traumatic situations. Sara Olsher is the founder of Mighty + Bright, which helps families through hard things like divorce, cancer, and other major changes using visual magnetic calendars and daily charts. Based on decades of research about emotional intelligence and how to talk to kids so they actually learn, Mighty + Bright's calendars have helped hundreds of families through some of the hardest times in their lives.

Astro: The Steller Sea Lion

After Astro, an orphaned Steller sea lion, was rescued by scientists at The Marine Mammal Center in Sausalito, California, his attachment to people made him unable to be returned to the ocean and he now lives at the Mystic Aquarium in Connecticut.

Mommy Has Cancer

"Now we celebrate because Mommy doesn't have breast cancer anymore..." Corey Jr. is a nine-year-old from Saint Louis, Missouri, who has chosen to share his journey during his mother's battle with breast cancer. Corey and his mom, Anastasia, wish to share this journey with you. Key takeaways from this book are to always be kind, always show love and always be thankful for your family.

What is Cancer? Kids Book About Cancer

What is the Big C and why is everyone is afraid of it? This educational resource will explain what cancer is and what it is not. The information may not be as comprehensive as doctors would explain it, but it includes all the essential and interesting facts about the disease. The addition of images will only make this book a much more interesting read. Grab a copy now.

The Praeger Handbook on Women's Cancers

Written by experts in psycho-oncology, this book synthesizes the findings of the latest research on women's cancers to empower women to make informed choices about treatment options. Each year, hundreds of thousands of women are diagnosed with cancer in the United States alone. The total number affected is larger still, comprising siblings, parents, partners, and children of these women. In this single-volume work, an international team of experts address the physical, medical, and psychological matters that are triggered by a diagnosis of having a form of "women's cancer"—breast, cervical, endometrial, gestational, ovarian, uterine, vaginal, and vulvar being some of the more common. The handbook examines and explains each type of women's cancer, covering the specifics of incidence, diagnosis, treatment options, and more, providing an up-to-date guide for women and their families to assist in making informed choices about their treatment options. The book includes personal accounts from women who survived cancers and beat their emotional challenges, addresses myths versus realities regarding women's cancers, and covers relevant, related topics such as race, sexual orientation, religion, and cancer coping. Special attention is given to the impact of women's cancers on relationships, intimacy, and body image, as well as psychological factors such as anxiety, depression, and fear.

Jake Bailey: What cancer taught me

'None of us get out of life alive, so be gallant, be great, be gracious, and be grateful for the opportunities you have.' Jake Bailey's inspirational end-of-year speech as head boy at Christchurch Boys' High School was delivered from a wheelchair just one week after he was diagnosed with the most aggressive of cancers. As he lay in hospital fighting to stay alive, his speech grabbed headlines around the world. Jake's cancer, and that speech, became the start of a bigger journey that continues today. In this remarkably honest account of his illness, treatment and recovery, Jake shares all that the experience has taught him. His book is an uplifting call to action for people of all ages.

It's Cancer. Now What?

Provides information on cancer, including risk factors, strategies for coping with the disease, and treatment options.

Grandma Kathy Has Cancer

Cancer is a very frightening and mysterious disease from which children are often sheltered because parents are uncertain as to how to deal with it. This book draws upon real life episodes between a grandmother and her granddaughter to help children better understand what happens when family members are afflicted with cancer. The message it conveys is one of hope, love, and caring. Colleen Buckley resides in New Jersey with her husband. She has two married children and two grandchildren; she has been a nurse for over 25 years. Cancer is no stranger to Colleen, who has lost her father, her grandmother, and two of her sister-in-laws to this disease. Her husband, mother, and another sister-in-law are cancer survivors. Colleen's inspiration for this book has been her sister, Kathy's, ongoing fight with ovarian cancer. Colleen is currently working on a second children's book about cancer. Kim Sponaule has illustrated "The Adventures of Beatrice" books and the "Anna Banana" and "Corey's Story" series for young readers. She resides in Salem County, NJ with her husband Jerry, son Josh and feisty little westie, Casey.

101 Healing Stories for Kids and Teens

A comprehensive guide to understanding and using storytelling in therapy with kids and teens "George Burns is a highly experienced clinician with the remarkable ability to create, discover, and tell engaging stories that can teach us all the most important lessons in life. With 101 Healing Stories for Kids and Teens, he strives especially to help kids and teens learn these life lessons early on, providing them opportunities for getting help and even learning to think preventively." -Michael D. Yapko, PhD | Author of Breaking the Patterns of Depression and Hand-Me-Down Blues "George Burns takes the reader on a wonderful journey, balancing metaphor, good therapeutic technique, and empirical foundations during the trip. Given that Burns utilizes all three aspects of the Confucian story referred to in the book-teaching, showing, and involving-readers should increase their understanding of how stories can be used therapeutically." -Richard G. Whiteside, MSW | Author of The Art of Using and Losing Control and Working with Difficult Clients: A Practical Guide to Better Therapy "A treasure trove for parents and for professionals in the child-development fields." -Jeffrey K. Zeig, PhD | Director, The Milton

H. Erickson Foundation Stories can play an important and potent role in therapy with children and adolescents—helping them develop the skills to cope with and survive a myriad of life situations. In many cases, stories provide the most effective means of communicating what kids and teens might not want to discuss directly. *101 Healing Stories for Kids and Teens* provides straightforward advice on using storytelling and metaphors in a variety of therapeutic settings. Ideal for all who work with young people, this unique resource can be combined with other inventive and evidence-based techniques such as play, art, music, and drama therapies as well as solution focused, hypnotic, and cognitive-behavioral approaches. Offering guidance for new clinicians and seasoned professionals, George Burns's latest work delivers a unique combination—information on incorporating storytelling in therapy, dozens of ready-made stories, and tips for creating original therapeutic stories. Innovative chapters include: * Guidance for effective storytelling * Using metaphors effectively * Where to get ideas for healing stories * Planning and presenting healing stories * Teaching parents to use healing stories In addition, *101 Healing Stories for Kids and Teens* includes dozens of story ideas designed to address a variety of issues, such as: * Enriching learning * Teaching self-care * Changing patterns of behavior * Managing relationships, emotions, and life challenges * Creating helpful thoughts * Developing life skills and problem-solving techniques

The Great Katie Kate Tackles Questions about Cancer

Follows a superhero figure (the Great Katie Kate) as she explains to a young girl what's happening after she's diagnosed with cancer.

My Sister Has Breast Cancer

To hear the word 'cancer' connected to your daughter, sister, or mother can be very frightening. Christine Morgan's family had always experienced excellent health and led an active lifestyle. Suddenly, the diagnosis of breast cancer threw her family into unfamiliar territory. A family accustomed to doing things together, they had no experience to face the throes of breast cancer and didn't know how to cope or help one another through the battle. Now, several years later, Author Morgan wants to help other families find the courage and strength to get through their own breast cancer battle, or any other type of cancer. She chronicles the fears of the realities and the unknowns, the shift from a happy-go-lucky family to a family with many tears, the family's disagreements for medical care, the various medical options available and finally she shares the family's plan to work together as a team to help her sister through this battle. *My Sister Has Breast Cancer!* is a heartfelt, touching and informative compilation of Author Morgan's journal entries, which she maintained through her family's own battle with breast cancer. Christine Morgan's book will inspire and comfort the reader through any crisis. Christine is a busy woman with a large and close-knit family, who works in many different arenas to help others. Her main interest is in women's health issues. She teaches prenatal health classes, childbirth preparation classes, and, most recently she has begun helping women attain good health through an exercise program. Christine has ministered as a pastor's wife for over thirty-five years. She enjoys leading small groups, teaching Bible studies and speaking at women's events. Christine and her husband, Eddie, reside in Clovis, California where they enjoy spending time with their three married children and seven grandchildren. While the author's earlier publications include journal articles related to childbirth, *My Sister Has Breast Cancer!* is Christine's first book.

Broken Doors

Broken Doors is the first novel for new author, J.E. Hewitt. This is a story of birth, death, love and redemption. Real-life power couple, Soleste and Cyrus experience a dynamic love that demonstrates support, passion and affections toward music and real estate. Set in Minneapolis, the beauty of the surroundings in the home are made to feel realistic and desired. Trouble shows up on numerous occasions leading to some losses and some unbelievable triumphs. The journey taken by this couple proves as an example that all circumstances can be overcome with a tenacious drive to greatness; until there are no longer any logical answers.

A Disease-based Comparison of Health Systems What is Best and at what Cost?

This book combines a collection of essays by leading experts from several OECD countries with papers discussing the results of the OECD Ageing-Related Diseases study.

What's Cancer?

This book provides a detailed explanation of what cancer is. The information is written for children, and presented in a child-friendly way. This ensures that children of elementary ages will grasp the concept of cancer.

Grandma, What Is Cancer?

Little Susie is sad. Something is most definitely wrong. Her mommy is sick and she doesn't know why. She overhears someone say her mommy has cancer. Desperate to find answers, she asks her grandma, "What is cancer?" Grandma helps Susie understand what's wrong with Mommy and how cancer will affect not only Mommy's life but the entire family.

Cancer Changes Some Things, But Not Everything

When someone has cancer, it can change a lot of things about that person. Cancer can change the way someone looks and feels; it can even change some of the things someone does. But there is one thing that cancer can never change: cancer can never change love. Gaining insight from her own mother's battle with cancer, author Dana Romanello-Flynn shows what day-to-day life can be like for the child of a parent with cancer. That struggle can be one of the most unsettling things a child can face, and in that situation it is important to focus on hope and life. *Cancer Changes Some Things, But Not Everything* is told from the perspective of a daughter whose mother has cancer. Embedded within her story are little things that can be helpful and inspire hope in children as they support their parents on their own cancer journeys. A portion of the proceeds from the sale of this book will be donated to support the research efforts of the Lustgarten Foundation to find a cure for pancreatic cancer. Visit them online at www.lustgarten.org

Lia and The Peas - Or What is Cancer?

Lia's mother has been diagnosed with cancer. But what is cancer exactly, and what does this mean for Lia and her family? We accompany Lia through the stations of her new life in 15 short chapters. A children's book that deals with a parent's struggle with cancer. Suitable for affected families, but also for parents and teachers who would like to discuss the topic of cancer with children. On the following website this story can be adapted to your personal situation and ordered as a print-on-demand publication. You can further choose between three different styles of illustration and from various languages. www.liastories.ch

My Mum's Got Cancer

One quarter of the people diagnosed with cancer each year have children under 18. Upon diagnosis these parents always ask 'what will I tell my children?' This book is the essential resource for parents, the family, the child, the teacher and the school community to help normalize the treatment of cancer.

Journal of the National Cancer Institute

Little bunny Ally is feeling sick. Her mommy and daddy take her to see Doctor Maggie. Doctor Maggie is very nice. She helps lots of children feel better. She tells Ally that she has Cancer. But what is cancer? Doctor Maggie explains what cancer is. She has a plan to help Ally feel better.

Doctor, what is Cancer?

Provides basic information to explain what cancer is, and discusses treatments such as radiation and chemotherapy.

What is Cancer Anyway?

Susie's Mommy gets cancer. Susie asks "Grandma, What is Cancer?" Grandma, What Is Cancer explains what cancer is in a light-hearted approach. This book also has illustrations that will help young children to get a better grasp at cancer when sometimes words just seem too overwhelming. If you have ever experienced such a devastating illness than you know first hand how beneficial this book will be to young children. Written so that children can understand.

Consensus Development Conference on the Treatment of Early-Stage Breast Cancer

Let's go cursive! Cursive is reported to be much more beneficial compared to printing because how you create the letters is more complex and the task is more demanding. The visual recognition requirements are larger and the letters are not as stereotypical as printing. Learning cursive requires lots of practice. Use this book to better your cursive

Grandma, What Is Cancer?

Primary Care E-Book

JOURNEYS OF MASTER WIZARD FARANGU (III)

Bile duct cancer, also known as cholangiocarcinoma, starts in a bile duct. To understand this cancer, it helps to know about the bile ducts and what they normally do. The bile ducts are a series of thin tubes that go from the liver to the small intestine. Their main job is to allow a fluid called bile to go from the liver and gallbladder into the small intestine, where it helps digest the fats in food. Different parts of the bile duct system have different names. In the liver it begins as many tiny tubes (called ductules). The ductules come together to form small tubes called ducts. These merge into larger ducts and then into the left and right hepatic ducts. All of these ducts within the liver are called intrahepatic bile ducts. The left and right hepatic ducts exit the liver and join to form the common hepatic duct in an area called the hilum. Lower down, the gallbladder (a small organ that stores bile) is joined to the common hepatic duct by a small duct called the cystic duct. This combined duct is called the common bile duct. The common bile duct passes through part of the pancreas before it joins with the pancreatic duct and empties into the first part of the small intestine (the duodenum) at the ampulla of Vater.
