 Introduction
 Behind the scenes banter
 Overview of Norman's philosophy of mathematics
 The problem with the concept of "infinity" in mathematics
 Algorithmic reality and Wolfram's model
 Physics and infinity (Riemann sphere and Spinors)
 Infinity cannot be "done"
 Physics doesn't actually use infinities
 What about the wave function of half spin up / spin down?
 Learning Tip for Math / Physics: Constantly ask "what is REALLY going on here?"
 What is Rational Trigonometry and what led to it?
 What compels Norman to rethink the foundations?
 Is beauty (like in complex analysis) removed or added in the constructivist approach
 The simplicity of Norman's courses (links in the description)
 On non-standard analysis
 Why set theory has problems (even without the Axiom of Choice)
 Roger Penrose's and Ed Witten's view on real numbers
 Pure mathematicians vs physicists
 [062985593] How would Wildberger rephrase the intermediate value theorem?
 If math is currently vitally flawed, then why no inconsistencies
 How do constructionists base their foundations in physics, when physics is couched in mathematics?
 [Sam Thompson] Do you see problems with having infinite index sets?

[DivergentCauchy] Cranks and Platonism

Dealing with calumny as a creator

Introduction

Conspectus of "Master and his Emissary" (Iain's Weltanschauung)

What is meaning?

On writing a 1,000 page book, and developing your own worldview

Why is God sometimes associated with "becoming" and not "being"?

How does the mind "bring the world about" rather than observe it?

Existence needs resistance

Nietzschean story of the Emissary, and the left-brain being contemptuous of the right

Not wanting a master, speaking to oneself, and evil

On "boredom" and the realness of time ("even God cannot exist without time")

Why the "arrow of time" in physics? (some thoughts on Bergson)

On Henri Bergson and flow vs slices of time

Language is like money (the "meaning" of language)

Music / painting / the arts be made explicit in language

Metaphor is a cure by language for the ills entailed by language

Reason is related to embodiment

Is "logic" universal? Would aliens develop them in the same manner?

Fantasy vs Imagination: "Original" isn't newness, but going back to the "origin"

The more we're authentic, the more we're the same

How can something both "be" and "not be" simultaneously

Wissen vs Kennen (knowledge)

On schizophrenia

Non-rhythmic music (right brained) vs rhythmic music (left brain)

Longing vs wanting (unification vs division)

Should you engage with the world or disengage?

The meaning of having "no self"

Identifying psychological structures neurologically (ego = left hemisphere?)

Utilitarianism, objective morals, and the left-hemisphere

On Daniel Dennett's "Consciousness Explained"

Writing a book about the right-brain, using your left-brain

Mindfulness is similarly "objective" like the schizophrenic mind?

Mixing the left and the right brain (coherent but incompatible)

Does consciousness reside in the left or right hemisphere

The world is not made out of "things"

Solving the "never step in the same river twice" paradox, with "being"

Reason / rationality in their extremes demonstrate their own limitations

Measuring intelligence via inhibitory neurons, rather than encephalization

Jung and McGilchrist [Sam Ford]

"Substitution effect" and its impact to the imbalance between right / left brain in the West [Joanne Dong]

The left / right distinction is a left phenomenon? [Ciaran Dudley]

Left / right hemispheres mapping onto the left / right political spectrum?

Reason vs rationality

The right brain should be paramount, according to Jesus?

How can something be more important than reason? Isn't that self defeating?

How can we "transcend utility"? On the hierarchy of goals / needs

On Chomsky and Objective Truth [Diego J. Pinto]

On Douglas Hofstadter's analogy book "Surfaces and Essences"

Thinking of time as a resource is a destructive idea (eg. "time is wasted")

Der Illusion entkommen: Bernardo Kastrup enthüllt die Realität - Der Illusion entkommen: Bernardo Kastrup enthüllt die Realität by Theories of Everything with Curt Jaimungal 325,460 views 3 years ago 4 hours, 41 minutes - Bernardo Kastrup leitete die moderne Renaissance des metaphysischen Idealismus, der Vorstellung, dass die Realität im ...

Introduction

Bernardo's journey from materialism to idealism

Materialism vs Analytical idealism

Dissociative identity disorder (multiple personality disorder) and consciousness

Why does life has a separate consciousness and not, say, a rock?

What does it mean to "explain" without reductionism?

Why not start with "nothing"? What would a theory like that look like?

What does it mean to "exist"? Do abstractions exist?

Theories of "truth" other than correspondence

Randomness doesn't exist fundamentally

If the mind is deceptive then what do we trust?

Is "Mind At Large" God? Can you pray to it?

Morality and purpose

On disagreements with Joscha Bach

On disagreements with Daniel Dennett

On disagreements with Dawkins

On disagreements with Douglas Hofstadter

If everything is "in the mind" then why are objects independently verified and exert an influence when I'm gone?

On disagreements with Donald Hoffman and Thomas Campbell

The distinction between "in your head" and "in your mind" is crucial

On disagreements with Carl Jung

On disagreements with Roger Penrose

Why parsimony in assumptions? Why not many assumptions?

Curt says Bernardo's theory isn't better than the Flying Spaghetti Monster

On Schopenhauer

How to properly read Jung

Bernardo and Curt speak about the "new age" and "woo"

On Deepak Chopra

Does Bernardo fear death? (a story about ego death)

If this reality is a "dream", how much can we control it?

Choice, free will, and becoming a slave voluntarily

The intellect is a bouncer of the heart

The East vs the West have different answers to the suffering of life

The "self" is an illusion worth saving

Bernardo almost killed himself twice, and later found meaning in the suffering

On the pain of writing

Should you ever regret? (Buddhism vs Christianity)

If consciousness is all there is, and the self is an illusion, why did the East get that and not the West?

Can you have morality / ethics within materialism?

What's the weakest point of Bernardo's model?
Is there anything special about biological life?
Logic
What beats rationality? What's the "game of all games"?
How does Bernardo write? What's the process look like?
Bernardo gives Curt advice
Don't feel like "others have it worse." Honor your suffering.
Don't take yourself seriously but take life seriously
Disagreements with Tony Robbins and self-help
Brain as a radio tuner (Plastic Pears)
How to falsify Bernardo's theory? What predictions does his model make?
Other audience questions
The relationship between universal consciousness and the Platonic Realm (Sessaly)
These metaphysical questions are dangerous questions

Unrestrained

From USA Today Bestselling Romance Author S. E. Lund, Book 3 in the Unrestrained Series: Newly engaged, Drake and Kate start their life together in Nairobi, Kenya, where Drake is teaching and working as a surgeon to help out an old friend. Before they can even get settled in their new home, they are faced with challenges to their view of themselves and their relationship. Will their love survive? Unrestrained is the third book in the bestselling trilogy in which the intense and passionate relationship between Drake and Kate unfolds as they search for their happy ever after.

Drake Restrained

Drake Morgan, MD, Neurosurgeon, bass player, philanthropist - Dominant. He doesn't do girlfriends, he doesn't do sleepovers, and he certainly doesn't do breakfast in bed the morning after. He has his surgical slate at New York Presbyterian, he has a charitable foundation providing surgical tools to hospitals in Africa, he has his Brit Invasion cover band, Mersey, and he has his secret life as a Dominant in Manhattan's BDSM community. Into bondage, D/s and the occasional dungeon scene, Drake keeps every part of his life separate, the divisions between them neat and tidy. His weeks are filled with surgeries, music and D/s, and none of the well-planned and scheduled parts of his life intersect. That is until Kate McDermott crosses his path and screws everything up. Now, nothing is neat and tidy anymore, for Drake is smitten and things are going to get messy...

I opened it, surprised to see that the email had been sent to a mailbox and email address I hadn't used for ages. To: Lexi911@yahoo.com Reply-To: mrbigshot69@gmail.com Re: Emergency Hey, is this Sexy Lexi? I got your email from John. I have a 9-1-1, and need your services. Big family dinner on Saturday at the ballroom, Cipriani Wall Street, and will be surrounded by family and business associates. John said you were really high class and brainy. In other words, not your usual escort. If you're available, wear something amazing but conservative. John showed me the menu. I'll take a standard date with no add-ons. The usual conditions apply. Cheers, MBS "Oh, my God..." "What?" Candace, my BFF, my partner in crime and the one person who could talk me into almost anything, glanced over my shoulder and read the email on the screen. "He thinks you're an escort and wants you to attend a family dinner? What kind of jerk invites an escort to a family dinner?" "A big one." I chewed a nail and considered. "Should I write him back?" She smiled, an evil gleam in her eyes. How many times had the girl got me in trouble? Luckily, I emerged from my teenage

years alive, relatively unscathed, and without a criminal record, but only just barely. So, I should have known to trust my own gut. But I didn't... Now, I have to give the performance of my life and play an escort to one of Manhattan's hottest young billionaires so I can tell the story to my girlfriends at brunch on Sunday. When the performance starts to feel too real, will I get out with my heart intact? Will I want to?

The Future Is Now: An Introduction to Prefigurative Politics

The gloomy prospect of climate change and ecosystems' collapse calls for an urgent rethinking of all aspects of our life: how we work, produce, eat, spend, take care of each other, relate to nature, and organize our societies. Prefigurative initiatives are attracting a growing amount of attention from scholars and activists precisely because they are envisioning alternative futures by embodying radically different ways of living in the present. Thanks to the contribution of leading researchers, 'The Future is Now' represents the go-to book for anyone seeking a comprehensive, state-of-the-art, and thought-provoking introduction to the thriving field of prefigurative politics.

Thought Forms

A classic of the Theosophical tradition, this treatise explores the concept of what thoughts "look" like. Written by a pair of prominent Theosophists, it provides a way to visualize the invisible realms within and around us. These simple, clearly expressed, and well-illustrated discussions address the meaning of color, thought forms built by music, the nature of helpful thoughts, and related subjects.

Winner of the Booker Prize A historical novel set in the eighteenth century, Sacred Hunger is a stunning, engrossing exploration of power, domination, and greed in the British Empire as it entered fully into the slave trade and spread it throughout its colonies. Barry Unsworth follows the failing fortunes of William Kemp, a merchant pinning his last chance to a slave ship; his son who needs a fortune because he is in love with an upper-class woman; and his nephew who sails on the ship as its doctor because he has lost all he has loved. The voyage meets its demise when disease spreads among the slaves and the captain's drastic response provokes a mutiny. Joining together, the sailors and the slaves set up a secret, utopian society in the wilderness of Florida, only to await the vengeance of the single-minded, young Kemp.

This book develops the idea that since decolonisation, regional patterns of security have become more prominent in international politics. The authors combine an operational theory of regional security with an empirical application across the whole of the international system. Individual chapters cover Africa, the Balkans, CIS Europe, East Asia, EU Europe, the Middle East, North America, South America, and South Asia. The main focus is on the post-Cold War period, but the history of each regional security complex is traced back to its beginnings. By relating the regional dynamics of security to current debates about the global power structure, the authors unfold a distinctive interpretation of post-Cold War international security, avoiding both the extreme oversimplifications of the unipolar view, and the extreme deterritorialisations of many globalist visions of a new world disorder. Their framework brings out the radical diversity of security dynamics in different parts of the world.

The Bad Boy Series Collection

A Source Book for Mediaeval History : Selected Documents illustrating the History of Europe in the Middle Age It will be observed that we have made use chiefly of documents, quoting from chronicles only when it seemed absolutely necessary. An exception to this general principle is found in section I, where a larger use of chronicles was rendered necessary by the lack of documentary sources for much of the period covered; but it is perhaps unnecessary to apologize for presenting selections from the important histories of Tacitus, Gregory, Einhard, and Widukind. In the matter of form (translation, omissions, arrangements, notes, etc.), we were guided by considerations of the purpose of the book. The style of most of the documents in the original is involved, obscure, bombastic, and repetitious. A faithful rendition into English would often be quite unintelligible. We have endeavored to make a clear and readable translation, but always to give the correct meaning. If we have failed in the latter it is not for want of constant effort. We have not hesitated to omit phrases and clauses, often of a parenthetical nature, the presence of which in the translation would only render the passage obscure and obstruct the thought. As a rule we have given the full text of the body of the document, but we have generally omitted the first and last paragraphs, the former containing usually titles and pious generalities, and the latter being composed of lists of witnesses, etc. We have given a sufficient number of the documents in full to illustrate these features of mediæval diplomatics. All but the most trivial omissions in the text (which are matters rather of form of translation) are indicated thus: ... Insertions in the text to explain the meaning of phrases are inclosed in brackets []. Quotations from the Bible are regularly given in the words of the Authorized Version, but where the Latin (taken from the Vulgate) differs in any essential manner, we have sometimes translated the passage literally. Within each section the documents are arranged in chronological order, except in a few cases where the topical arrangement seemed necessary. We believe that the explanatory notes in the form of introductions and foot-notes will be found of service; they are by no means exhaustive, but are intended to explain the setting and importance of the document and the difficult or obscure passages it may contain. The reference to the work or the collection in which the original is found is given after the title of practically every document; the meaning of the references will be plain from the accompanying bibliography. The original of nearly all the documents is in Latin; some few are in Greek, Old French, or German, and in such cases the language of the original is indicated. It is impossible, of course, to give explicit directions as to the use of the book, other than the very obvious methods of requiring the student to read and analyze the documents assigned in connection with the lesson in the text-book, and of making clear to him the relation of the document to the event. It may be possible also for the teacher to give the student some notion of the meaning of "historical method"; e.g., the necessity of making allowance for the ignorance or the bias of the author in chronicles, or the way in which a knowledge of institutions is deduced from incidental references in documents. Suggestions of both sorts will be found in the introduction and notes. The teacher should insist on the use of such helps as are found in the book: notes, cross-references, glossary, etc. Groups of documents can be used to advantage in topical work: assigned topics worked up from authorities can be illustrated by documents selected from the book; e.g., imperial elections, papal elections, the Normans in Sicily, history of the Austrian dominions, Germans and Slavs on the eastern frontier, relations of the emperors and the popes before the investiture strife, etc.

Dunning and Lundan offer powerful insights into the societal effects of MNEs and the role of business government relations in the IB context. *Journal of International Business Studies* This wonderful book offers the definitive synthesis of the modern literature on the economic aspects of international business. It is encyclopedic yet full of incisive insights. It is a creative masterpiece which unbundles the DNA of the multinational enterprise and shows how it is the cornerstone of the field of international business. Alan M. Rugman, University of Reading, UK The rise of the multinational enterprise, and the consequent globalisation of the world economy, was arguably the single most important phenomenon of the second half of the twentieth century. This magisterial book, written by two leading authorities, examines this phenomenon in depth. It explains how foreign investment by multinationals diffused advanced technologies and novel management methods, driving productivity growth in Europe, Asia and North America; however, economic inequalities were reinforced as rich countries attracted more foreign investment than poor ones. This new edition of a classic work is not only an authoritative guide to contemporary multinational business, but a major historical resource for the future. Mark Casson, University of Reading, UK This thoroughly updated and revised edition of a widely acclaimed, classic text will be required reading for academics, policymakers and advanced students of international business worldwide. Employing a distinctive and unified framework, this book draws together research across a range of academic fields to offer a synthesis of the determinants of MNE activity, and its effects on the economic and social well-being of developed and developing countries. Unique to the new edition is its focus on the institutional underpinnings of the resources and capabilities of MNEs, and the role of MNE activity in transmitting and facilitating institutional change. Since the initial publication of this book more than a decade ago, the economic, managerial and social implications of globalisation and technological advancement have become even more varied and prominent. Accompanying these developments, there has been a rise in scholarly interest in interdisciplinary research addressing the important challenges of an ever-changing physical and human environment. Drawing on articles and books from international business and economics, as well as economic geography, political economy and strategic management, a systematic overview of the developments in scholarly thinking is prese

#1 New York Times bestselling author Sheri Reynolds continues to captivate in this masterful tale of redemption and finding a place to truly belong. Kenny Lugo has grown up in a family that's not really hers. Her mother died of cancer when Kenny was very young, and Aunt Glo—who is, in fact, her daddy's girlfriend—took her in when her father was sent to jail for drug trafficking. Now, as Kenny approaches her eighteenth birthday and the end of the government checks Glo has been receiving looms, she is desperate to prove that this house and these people really do belong to her. But when a senseless murder occurs next door in their small coastal town, Kenny can't get it out of her mind. She has always been consumed by the ways in which she is different—and inherently unworthy—so the unjust death of a young woman with everything to live for becomes an obsession. In the end, hers is a story of an unforgettable young woman whose redemption comes from a source she never would have imagined.

"And behold, with the clouds of heaven there came one like a son of man, and he came to the Ancient of Days and was presented before him. And to him was given dominion and glory and a kingdom." (Daniel 7:13-14 ESV). Perceiving a hole in evangelical biblical theology that should be filled with a robust treatment of the book of Daniel, James Hamilton takes this chance to delve into the book's rich contribution to the Bible's unfolding redemptive-historical storyline. By setting Daniel in the broader context of biblical theology, this canonical study helps move us toward a clearer understanding of how we should live today in response to its message. First, Hamilton shows how the book's literary structure contributes to its meaning, and then addresses key questions and issues, concluding by examining typological patterns. This *New Studies in Biblical Theology* volume argues that the four kingdoms

prophesied by Daniel are both historical and symbolic—that the "one like a son of man" seen by Daniel is identified with and distinguished from the Ancient of Days in a way that would be mysterious until Jesus came as both the son of David and God incarnate. He elaborates that the interpretations of Daniel in early Jewish literature attest to strategies similar to those employed by New Testament authors and exposes that those authors provide a Spirit-inspired interpretation of Daniel that was learned from Jesus. He also highlights how the book of Revelation uses Daniel's language, imitates his structure, points to the fulfillment of his prophecies and clarifies the meaning of his "seventieth week." Addressing key issues in biblical theology, the works comprising *New Studies in Biblical Theology* are creative attempts to help Christians better understand their Bibles. The NSBT series is edited by D. A. Carson, aiming to simultaneously instruct and to edify, to interact with current scholarship and to point the way ahead.

The Royal Naval Patrol Service, or Harry Tate's Navy as it was commonly known, was a unique service with its own rules and regulations. The officers and seamen were mainly ex-fishermen who had manned trawlers in Icelandic waters. The service was armed mostly with obsolete weaponry and suffered heavy casualties in the early stages of the war. The service was not confined to the seas around Britain and their small trawlers, drifters, paddle steamers, yachts and tugs saw service as far away as the Mediterranean and Newfoundland coast. Their main tasks included convoy escort duties, mine sweeping and anti-submarine work. Many awards for bravery were won including a VC.

This volume presents a comprehensive exposition of both the prehistory and medieval history of the whole of Scandinavia. The first part of the volume surveys the prehistoric and historic Scandinavian landscape and its natural resources, and tells how man took possession of this landscape, adapting culturally to changing natural conditions and developing various types of community throughout the Stone, Bronze and Iron Ages. The rest - and most substantial part of the volume - deals with the history of Scandinavia from the Viking Age to the end of the Scandinavian Middle Ages (c. 1520). The external Viking expansion opened Scandinavia to European influence to a hitherto unknown degree. A Christian church organisation was established, the first towns came into being, and the unification of the three medieval kingdoms of Scandinavia began, coinciding with the formation of the unique Icelandic 'Free State'.

Pastor John MacArthur will take you through the two short letters to Timothy, passage by passage, so that you can better understand Paul's instructions to church leaders and the cultural context that makes these letters so relevant today. Timothy was a close associate of Paul who was facing problems within the church that he was leading in Ephesus. In these personal letters, Paul gives practical pastoral instruction to his protégé, highlighting godliness and holy living to help Timothy fulfill his calling and effectively carry out his important tasks in the church. Paul's gentle encouragement in these letters challenges Timothy to persevere in his faith—a faith that might have been weakening under the pressure of the church and the persecution of the world. Paul's godly counsel was helpful not only to Timothy, a first-century Christian leader, but is also helpful to each of us as believers today. —ABOUT THE SERIES— The MacArthur Bible Study series is designed to help you study the Word of God with guidance from widely respected pastor and author John MacArthur.
