In early America, most children had only a few toys and parents received advice from family and friends on the best ways to make and use toys. By the early 1900s the Industrial Revolution was producing a new world of toys and giving more parents the wealth to buy them. Mass media also sang the praises of these new factory-made, store-bought toys, but that began to change as early as the mid-1900s when the mass media was used to inform parents of the many dangers of children's toys. Many encourage violence, sexism, racism, and some are actually unsafe and unhealthy. The development of children's toys from early America to the present time and the shifting opinions of them expressed by parents and the mass media throughout this time are the main subjects of this book. The first section discusses the many problems with toys, while the second puts these problems in historical perspective. How have these problems changed, and are still changing today? Might today's toys be about to enter a time when they will be better than ever? The third section argues that many media toy watchers are biased toward the negative, giving toys more of a black eye than they deserve, and considers the challenges that face today's parents as they try to choose the best toys for their children.

A modern classic that no child should miss. Since it was first published in 1939, Mike Mulligan and His Steam Shovel has delighted generations of children. Mike and his trusty steam shovel, Mary Anne, dig deep canals for boats to travel through, cut mountain passes for trains, and hollow out cellars for city skyscrapers -- the very symbol of industrial America. But with progress come new machines, and soon

the inseparable duo are out of work. Mike believes that Mary Anne can dig as much in a day as one hundred men can dig in a week, and the two have one last chance to prove it and save Mary Anne from the scrap heap. What happens next in the small town of Popperville is a testament to their friendship, and to old-fashioned hard work and ingenuity.

Now "the prettiest tree that you ever did see" is a lovely acacia tree, where a baby starling is just about to hatch. Rachel Isadora gives children a fun, easy way to follow along with the cumulative lyrics by using rebus icons for the repeated words, as she did with 12 Days of Christmas. Brolga (aka Chris Barns) is the 6ft 7in strong but sensitive Aussie star of the extraordinary BBC series Kangaroo Dundee. Brolga lives in a simple tin shed in the outback where he raises orphaned baby kangaroos. It is a sad fact of life that kangaroo mothers are at the mercy of speeding cars in this part of the world - killed on the road, their young still tucked up in their pouches. These young joeys holding on to life, have been given a second chance thanks to the kindness and dedication of Brolga, who carefully retrieves them and nurses them back to health. Brolga has been rescuing these special creatures for years, slowly and painstakingly creating a kangaroo sanctuary for the many kangaroos

he has saved, reared and loved. He has dedicated his life to observing how kangaroo mums care for their babies and does everything he can to replicate this. The baby kangaroos, traumatised by losing their mother so early, are tucked up into pillow cases and kept warm and comforted next to Brolga at night. We see him getting up at 4am to bottle feed them, washing them in a little tub, taking them to the supermarket and generally mothering them with heart breaking tenderness. Charting Brolga's life with the joeys and honing in on his relationship with one or two in particular, Kangaroo Dundee tells the heart-warming, sometimes funny, sometimes poignant story of one man's unique relationship with a group of extraordinary animals.
