The Book of Angels

Ray Pennington, a country preacher and pastor, spent many years studying the Word of God, spending many hours reading the writings of different authors of books about the Revelation of Jesus Christ. In 2005 God put a desire in Ray to simply read this great Revelation of Jesus Christ, the Son of God. It was during this year and in a very short period of time that God illuminated Ray's mind concerning this Great Revelation of Jesus Christ and he preached thirty-one sermons as the Holy Spirit inspired him. Through this experience of illumination given by the Holy Spirit Ray realized that we have been given a Teacher that is far above the commentaries of men. This book was not written as a commentary but God given illumination concerning The Revelation of Jesus Christ. Ray and his wife Dolly now reside in Staffordsville, Kentucky.

Bible Answers for Almost All Your Questions

If you had the opportunity to sit down in your living room with an angel, what would you want to know? If you could have heavenly advice on your most urgent questions, what would you ask? Gerry Gavin posed this prospect to fans of his first book, Messages from Margaret; on his radio show; and to leading visionaries in the mind-body-spirit world, including Mike Dooley, Kris Carr, Pam Grout, Nick Ortner, Colette Baron-Reid, Davidji, John Holland, and Meggan Watterson. They responded with questions about angels, the afterlife, and reincarnation, but also questions about animal companions, relationships, life purpose, and manifestation. In If You Could Talk to an Angel, Margaret tackles all

of these topics with her trademark humor, offering advice and breaking down even the most difficult subjects in an easy-to-understand manner.

Answers to Common Questions about Angels and Demons

There really are angels all around us. They are given to us by God for very specific purposes. Most of us lead lives far too noisy to be aware of the "ministering spirits," but they are here...among us. The more we know, the more we can recognize their presence and cooperate with them as they do the Father's will on our behalf. You will find the answers to these and many more questions: How well do you know the angels that God sends to you to reveal His love and power? Do you have a personal guardian angel? Are you earth-bound and soul-stuck? How can you partner with angels? Why does God want us to recognize the angels He sends to us? Angels in Our Lives will inspire and encourage you to know that you are never alone. Ever! Through clear biblical truth and tender but powerful personal experiences, you will enter the interactive realm of angels where you will gain faith, courage, victory, wisdom, and strength. The remarkable truth about angels, the agents of Heaven, unveiled through Scripture—from the New York Times best-selling author of *Everything You Need* “Outstanding! As one would expect from David Jeremiah, this book reflects a theologian’s concern, a pastor’s heart, and a Biblicist’s accuracy.”—Dr. Bruce Wilkinson People have long been fascinated by stories of angel sightings, yet many contemporary beliefs about angels are based on misconception and myth rather than solid, biblical truth. As he’s done so brilliantly for decades, respected Bible teacher Dr. David Jeremiah of Turning Point Ministries uses Scripture to unveil the remarkable truth about these agents of heaven and their role in our world and our lives. What are angels? What is their role in God’s plan? Are they present? Do they appear? Do they give us personal insight about our work and our worship? In this broad and thorough survey of Scripture, Dr. Jeremiah clearly and simply separates fact from fiction as it relates to angels. His enlightening findings are supported with illustrations and insights from prominent teachers, such as Billy Graham, Corrie ten Boom, C. S. Lewis, and more. Dr. Jeremiah’s down-to-earth style guides readers around the hype about angels and directly into everything you need to know about the “substance of things unseen!”

An angel comes to a woman in a dream, shaking her and rousing her from a near-fatal diabetic coma. A pair of angels delivers wood to a family snowed in by a blizzard. Are angels for real? Of course they are. George Washington was inspired and comforted by an angel who visited him as he stood by his ragged troops during a difficult winter at Valley Forge. This angel laid out for him the promise and vision of a new nation. Charles Lindbergh saw "friendly, vaporlike shapes" who guided his voyage across the Atlantic in 1927. While praying for the safety of his son, a soldier, J. R. R. Tolkien received "a vision of divine light, which connected every human soul directly to God." And George Frideric Handel, at fifty-two, with one arm paralyzed, exclaimed on finishing the "Hallelujah Chorus," "I think I did see all Heaven open before me and the great God Himself." The Big Book of Angels

Our world now and throughout history has had conflicting accounts of the nature of God and man's relationship to this cosmic deity. These conflicts have wrecked havoc within the societies of humanity to dangerous levels. Mankind has relied upon his sacred and canonized scriptures to provide doctrinal absolutes for his religions, but these absolutes differ and therefore cannot possibly all be correct, at least in specific contexts. However, there exist a very mysterious book circulating worldwide that does have specific, detailed, and consistent answers to all of our questions. The origin of this book is steeped in mystery and no human author has claimed ownership to its teachings which cover 2097 pages of intensive reading and exhaustive information. This book is known as the Urantia Book and has been placed in the public domain. The Urantia Book takes us from the conceptual locations within our segregated religious heritage and correctively re-calibrates our various belief systems which have been unavoidably limited and distorted by our world-views throughout human history. After its conceptual enhancements and adjustments, the Urantia Book enlarges such informational details into an elevation of more exact universal levels of perception as an advancement of cosmic truth. "Consider What the Angels Say" takes this expansive and intricately complicated book and presents a timesaving presentation of its teachings and gently correlates it with Christian doctrines and other religions as well as human philosophy and knowledge. In this book, the following questions will be answered. What exactly is God and how does this phenomenon relate to infinite reality, the time and space cosmos, other spiritual beings, and our world? Exactly what is the Godhead Trinity and why is it a necessary foundation for the existence of universal reality? What are angels and spiritual principalities? What are their levels and types, and how do they interface and interact between supernatural and human situations? How does the historical Jesus Christ fit into the spiritual dimensions of reality. How is he related to the one eternal God and how is Jesus an integral part of our soul salvation? How was man physically created and what accounts for the variances in human biological races and how does this correlate with the theory of evolution? What is the nature of the human soul and how is it translated into the eternal spiritual realities and how does it exist beyond death and what is its destiny? How did mankind come to develop and organize his cultures and what part did supernatural spiritual beings play in the formulations of man's religious doctrines? Why has there been so much tragedy, hardship, war, disease, and social discord throughout our history? What is the nature of sin and why does evil even exist. Something is not right, what went wrong? In all of the versions of religious theologies and doctrines worldwide, no one book explains the details of these universal mysteries as completely and systematically as the Urantia Book, it is truly a gift from the angels. Consider What the Angels Say is a concentrated effort forged from the heartfelt love and concern for humanity to introduce this majestic angelic book to all who are able to receive and benefit from its supernatural information.

The Book of Angels

Both collectively and individually we have a deep and abiding fascination with angels. This book explores depictions of angels in the visual arts and in scripture and associated apocryphal and mystical writings, specifically in the Hebrew and Christian Bibles and Islamic, Zoroastrian and other ancient and latter-day accounts. It examines the visual clues, artistic conventions and attributes that have been set

down to help us to recognise angels in their particular roles and functions. Certain writings have had a particularly influential bearing on our understanding of angels. This text focuses on the hierarchies and orders proposed by the likes of Pseudo-Dionysius, St. Thomas Aquinas and others. In a new age of fascination with the metaphysical and supernatural (in film, television, popular mythology and literature), are we cementing or losing our connection with the authentic meaning and purpose that such vibrant and energised beings bring to our table? This book contains more than 30 illustrations in a central colour plates section. It also includes a useful glossary of terms and will prove a rich and enduring reference resource for libraries, as well as a stimulating go-to source for those interested in the world of angels and how human sensibilities and imaginative reasoning have enriched the subject, as a starting point for interreligious dialogue.

I'm the real author of 3 DAYS IN ROME and I'm dead. Gee, I hope that thought doesn't scare you too much. I'm not like a bogey ghost or anything (Actually ghosts aren't really that big a deal, it's usually just us dead when we have nothing better to do). I'm just a normal dead person and I've written my autobiography. Most of the dead up here in Heaven have written an autobiography. Of course, I've decided to do mine differently than the others... Funny thing is, Scott told me not to bring this up. He believes that if I come out here and state all these facts about Heaven he would be in big trouble since his name is on the novel... But the book is about more than the truths of Heaven! It's also about the great love affair I had while alive. And we had one Hell of an amazing romance! We were wanted by the authorities and the Mafia and all we could think of was each other. Those were the greatest days of my... whatever. 3 DAYS IN ROME is an unpredictable and comic love story about life, death, the Afterlife and everything in between.
