### Never a Good Time

The phone call was unexpected as it was unwelcome. But was it just a crank call? Or is there a crime? The city police commissioner Aftab has to decide whether to pursue it or not. As the mystery unravels, Aftab has to face an ugly episode from his past, and the consequences of past actions. Can he pacify the ghosts from his past or will their revenge destroy him?

### Freezing the Social Security Tax Rate at 1 Percent for 1944

In the process of writing two short collections of light hearted material, (one published and one yet to be published), the author became acutely aware that he could not continue forward without addressing what he considered to be the most important issues of human existence. All of us have asked ourselves the questions, "What is the meaning of life" and "Why am I here"? Some have rejected the idea of an eternal soul, some are undecided, while others are largely unconcerned, but the author has chosen to embrace the concept and run with it. He believes there is a single overriding mission for every individual alive today. The sole purpose of this life is to prepare for the next one, and every person has been given the ability to control his own destiny. When compared to eternity, our lives are like a single knot in a rope that stretches around the world. From the foundation of the earth, a plan has been in place to allow humanity to share the wonders of eternity with the Creator of all things. Those who follow that plan will be rewarded accordingly, while those who prefer to separate themselves from the influence of a Higher Power, will be granted their wish in eternity. If this book convinces one person to follow the plan that leads to redemption, then it will have been well worth the effort.

## The Return of the Circuit Rider

How Donald Trump laid waste to American politics, culture, and social order After Donald Trump's rise to power, after the 2020 presidential election, after January 6, is American politics past the point of no return? New York Times columnist and political reporter Thomas Byrne Edsall fears that the country may be headed over a cliff, arguing that the election of Donald Trump was the most serious threat to the American political system since the Civil War. In this compelling and illuminating book, Edsall documents how the Trump years ravaged the nation's politics, culture, and social order. He explains the demographic shifts that helped make Trump's election possible, and describes the racial and ethnic conflict, culture wars, rural/urban divide, diverging economies of red and blue states, and the transformation of both the Republican and Democratic parties that have left our politics in a state of permanent hostility. *The Point of No Return* brings together a series of Edsall's columns, bookended by a new introduction and conclusion, which show how we got to this dangerous point. These dispatches from our new political landscape chronicle the emergence of what Edsall calls "the not-so-silent white majority" and show how Trump deployed fears about race and immigration to appeal to voters. Edsall examines Trump's construction of an alternate reality, discusses why we don't always vote according to our own self-interest, and explores the Democrats' calibrated response. Considering the 2020 election and its violent aftermath, Edsall looks at the Capitol insurrection and warns that American democracy is under siege. The forces behind Trump's election, and the "stop the steal" true believers, have pushed the nation to the brink.

Our future depends on changing the way we change. But because technology has forever altered our relationship with what's coming next, the tomorrow we envisioned is too often totally different by the time it arrives—there is no linear path from where we are to where we are going. How can leaders manage disruption when disruption never stops coming? *No Point B* is a paradigm-shifting look at transforming change into something we do, not for some vague brighter future, but as a practice for making a better world right now. Drawing upon his vast experience in business leadership and social activism, author Caleb Gardner shows how the simple idea of embracing constant change as a core competency for living in a complex world could revolutionize our relationship with modernity and transform our approach to effective leadership. Through stories from his career advising everyone from Fortune 100 CEOs to politicians and political leaders, and advice from experts in sociology, psychology, and management, *No Point B* proposes nine principles for mobilizing the next generation of effective change leaders, including: focusing on effective communications to navigate our reality-distorting media, building adaptive capability and tackling cross-disciplinary problems, and never resting on our assumptions about how to best navigate the world. The only way we'll make significant progress on building a better world is by recognizing better is a process of constant adaptation, not an end point. *No Point B* is the ultimate playbook for a new generation of leaders striving to dig in and give their companies and communities a better future, today.

A Book of the Year for The Economist and the Observer Our world seems to be collapsing. The daily news cycle reports the deterioration: divisive politics across the Western world, racism, poverty, war, inequality, hunger. While politicians, journalists and activists from all sides talk about the damage done, Johan Norberg offers an illuminating and heartening analysis of just how far we have come in tackling the greatest problems facing humanity. In the face of fear-mongering, darkness and division, the facts are unequivocal: the golden age is now.

## No Point B

Throughout history, women have struggled to change the workplace, change government, change society. So what's next? It's time for women to change the world! Whether on the job, in politics, or in their community, there has never been a better time for women to make a difference in the world, contends author, mentor, and corporate pioneer Susan Bulkeley Butler in Women Count: A Guide to Changing the World. Through her experience as the first female partner of a major consulting firm and founder

of the Susan Bulkeley Butler Institute for the Development of Women Leaders, Butler's unique insights have changed the lives of countless women. In *Women Count*, she shows readers how to change the world through a series of inspiring case studies that chronicle how she and other pioneering women in a range of fields have done so in years past. Women represent half of the country's population, half of the country's college graduates, and around 50 percent of the country's workforce. Butler envisions a day when they will also make up their fair share of elected and appointed positions, including in corporate boardrooms. Amid financial meltdowns, wars, and societal struggles, never before has the world so greatly needed the unique abilities of women to lead the way. But as history has shown, to make change, women must step into their power and become "women who count," Butler contends. Then and only then, she argues, can women truly change the world.
