Why did you write a book about human nature?

How do we reverse a lack of self-awareness?

How to get rid of qualities we don't like about ourselves

Where does our dark side come from?

How to pursue that thing you've always wanted to do

The unseen importance of creating a sense of urgency

How to know if you're following a false purpose

Should a young person just be saying yes to everything?

How to manage other people that get in the way of what we want to do

Do we have to lie to be successful?

How to read someone's body language

A smile says loads about how someone feels about you

People's personalities are contagious

Frenemies, what they mean and how to spot one

What's the most controversial point from your book?

Does equality exist when we all strive for power?

Becoming the best, what it really means

Is death a motivator for you?

The importance of relationships

How to deal with dark thoughts

Advice for people going through self-doubt & hard moments

Why did you write this book, The Sublime?

What would be your parting message to the world?

How can we rise above our emotional reactions?

How has your research influenced how you view politics?

Business Law

"We wrote this book because our primary sense of who we are as professionals is that we are teachers. We play various roles in our careers, but we are especially dedicated to our students. We want them to listen, read, create, and evaluate more effectively as a result of their experience in a business law class. Above all, we want them to sense the importance and excitement of the law. We want them to be aware that business resides in an atmosphere of legal rights and responsibilities. The more they have an understanding of relevant law, the more their business activities will flourish. We tried to construct a book that contains the basics of business law but does not get bogged down in the kind of details that would be more appropriate in an upper-level law class. This sixth edition continues and advances the pedagogical strengths of earlier editions. As difficult as it is to recall what it is like to know almost nothing about business law, we tried repeatedly to force ourselves to remember that the text is for students, not for us to reveal our previous training. Toward that end, we have simplified and clarified as often as we could"--
