Introduction to theories of crime and deviance, focusing on Stanley Cohen's work on folk devils and moral panics.

Cohen's examination of clashes between the mods and the rockers at seaside resorts in the early 1960s.

Media exaggeration creating distinct subcultures and the identification of individuals as either mods or rockers.

Cohen's research methods and comparison of different perspectives on the events.

Media generating a moral panic about the behavior of young people and the decay of morality.

Moral entrepreneurs, such as the media, government, and judiciary, aiming to reaffirm moral values and preserve the status quo.

Creation of folk devils and their vilification as media creations reinforced by government and police actions.

Deviancy amplification through increased policing, media presence, and the drawing in of more people, leading to more crime.

Application of moral panics to other events, such as rave culture, terrorism, knife crime, and music as convenient folk devils.

Criticisms of Cohen's work, including its outdated nature and the fading of moral panics over time.

Contemporary examples of moral panics, including the COVID-19 pandemic and Black Lives Matter protests.
