A Book of the Play

The young actor who thought he saw his part in Maxwell's play had so far made his way upward on the Pacific Coast that he felt justified in taking the road with a combination of his own. He met the author at a dinner of the Papyrus Club in Boston, where they were introduced with a facile flourish of praise from the journalist who brought them together, as the very men who were looking for each other, and who ought to be able to give the American public a real American drama. The actor, who believed he had an ideal of this drama, professed an immediate interest in the kind of thing Maxwell told him he was trying to do, and asked him to come the next day, if he did not mind its being Sunday, and talk the play over with him.

A Book of the Play : Studies and Illustrations of Histrionic Story, Life, and Character

Imaginative play and story telling occupy key roles in children's psychological development and socialization. Bringing together leading contributors, this volume explores what play and story mean to young children, and how these vital aspects of development can best be supported in child care and educational settings. Vital connections are drawn between children's activities, their interpersonal relationships, and their emerging cognitive and affective capacities. Topics covered include promoting social play in the classroom, storytelling and literacy development, and the influences of early caregiving experiences on attachment and learning. Theoretical and methodological issues in these areas of research are also addressed, as well as social policy implications. The book is inspired by the work of Greta G. Fein, the pioneering teacher, researcher, and child care policymaker, who has contributed an integrative concluding chapter.

Old Story Time and Other Plays

A central assumption of narrative spirituality is that the act of retelling the story of episodes of our lives can help us better see the larger Guiding Story that God dreams for us. When I can see my Guiding Story more clearly, I am better able to handle crisis and transition and better able to see my true purpose. Story Work/Story Play lays out a four-door method of spirituality that invites participants to explore their Guiding Story through four doors that correspond to the four parts of any story—a main character, a problem to solve, the power needed to solve it, and the action taken by the main character. The chapter for each of these four “doors” provides theological, psychological, and scriptural foundations for the narrative method and includes up to ten to fifteen “story work/story play” exercises the reader can use to practice the method. Each chapter also includes profile stories of real people who have discovered layers of their own Guiding Stories. The book ends each chapter with a Guided Visualization. The book’s final chapter explains how members of a “narrative circle” can use the narrative spirituality tools of this book to discern each one’s own unique Guiding Story.

Shakespeare and Macbeth

Since the emergence of digital game studies, a number of debates have engaged scholars. The debate between ludic (play) and narrative (story) paradigms remains the one that famously "never happened." This collection of new essays critically frames that debate and urges game scholars to consider it central to the field. The essayists examine various digital games, assessing the applicability of play-versus-narrative approaches or considering the failure of each. The essays reflect the broader history while applying notions of play and story to recent games in an attempt to propel serious analysis.

The Zoo Story

Encouraging imaginative play in the classroom is an effective way to teach young children how to think creatively and interact socially - vital parts of their cognitive, social, and emotional development. This book presents engaging and practical ways to use drama which will enable young children to develop creative thinking and literacy skills while planning together, making decisions, giving and receiving feedback and working toward a common goal. The reader is guided through introducing and using dramatic play with children, how to integrate drama into everyday classroom activities, and preparing a child-centered story dramatization. There is a full color, ready-to-use children's storybook included within the book along with instructions on the multiple ways this can be used as a starting point in the classroom. This is an unbeatable resource for any teacher or trainee teacher wanting to introduce drama into the classroom in a developmentally appropriate way that will benefit all aspects of a child's intellectual and social progression.

The Play Versus Story Divide in Game Studies

Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, los tres artículos aquí presentados dan cuenta de la variedad de perspectivas posibles dentro de este apartado. No solo abarcan estos estudios diferentes géneros literarios, sino que recorren diferentes épocas históricas, desde el renacimiento hasta nuestros días. Así, destaca la recepción de la obra de Shakespeare adaptada a los principios estéticos del siglo XVIII español, la aparición de un problema tan actual como la violencia doméstica en el teatro y el cine de mediados del siglo XX o la vinculación de posicionamientos contraculturales de la generación Beat en la música de Bob Dylan. Todos estos estudios exploran, pues, la relación entre las prácticas culturales, la vida diaria y los contextos históricos en los que se producen. Como suele ser habitual, gran parte de las contribuciones presentadas en este volumen se centran en el estudio del aprendizaje del inglés como segunda lengua, una de las principales preocupaciones del sistema educativo español en estos momentos, tanto en la etapa preuniversitaria como universitaria. Es lógico, por tanto, que estos jóvenes investigadores muestren interés por un asunto que atañe a un elevado número de estudiantes en la sociedad actual. Los estudios van desde el análisis de libros de texto utilizados en la enseñanza del inglés, para comprobar si estos textos adoptan correctamente las cuatro destrezas básicas (listening, speaking, speaking, writing) al aprendizaje de la lengua desde el punto de vista de una aproximación comunicativa, hasta la relación de la prosodia y la utilización de audífonos por parte de personas sordas o la percepción que tienen los estudiantes de la pronunciación del inglés. Como se ve, problemas muy cercanos a la realidad pedagógica. Las contribuciones literarias se centran exclusivamente en autores del siglo XX (incluida una adaptación al Londres actual de una obra de Shakespeare), pero recorren todos los géneros literarios, así como el cine. En general, estos estudios se fijan en obras concretas y las analizan desde perspectivas culturales, sociológicas o psicológicas. Podemos encontrar autores consagrados, como Theodore Roethke y Ted Hughes o escritoras más localistas, como la canadiense Jeannette Armstrong, y sobresalen miradas postmodernistas, tanto en el ámbito de la novela como del cine. En definitiva, se trata de una selección de artículos altamente

prometedora, que supone un claro desafío al futuro de los Estudios Ingleses. Por todo ello, hay que felicitar a todos los participantes y, sobre todo, a los editores de este volumen, que han demostrado una enorme capacidad de trabajo y entusiasmo.

Make-Believe Play and Story-Based Drama in Early Childhood

At the heart of this volume is the recognition that children's engagement with play and story are intrinsically and intricately linked. The contributing authors share a passionate interest in the development and well-being of children, in particular through their use of imagination and adaptation of the everyday into play and stories. Following these principles, the volume explores the connections between play, story, and pretense with regard to many cultural and contextual factors that influence the way these elements vary in children's lives. In a departure from earlier collections on play and story, the authors take a particular focus on normative as compared with atypical development. This collection begins with an approach to understanding the developmental relationship between play and story, which recognizes their similarities while acknowledging their differences. Much of the collection addresses pretend play and story in children with autism spectrum disorder, an understudied but important group for consideration, as these dimensions of their lives and development have often been considered problematic. The volume also includes sections on play and story in classroom settings and play and story across cultures, including non-English-speaking environments such as Israel, Romania, China, and Mexico. It concludes with a discussion of how play differs across sociocultural and economic contexts, making a unifying claim for the importance of play in children's lives but also calling for an understanding of what play means to very different groups of children.

A Book of the Play

For the first time in over 75 years, three of the 'lost' plays presented by the famed Group Theatre are now back in print. A huge part of American Theatrical History is now available to the public! The book features '1931-' by Claire and Paul Sifton, and 'Success Story' and 'Gentlewoman' by John Howard Lawson. Foreword by the legendary Estelle Parsons, with additional material by George Bartenieff, Jonathan Chambers, Jeffrey Lawson and Allie Mulholland. '1931-' by Claire & Paul Sifton is the story of Adam, who is fired from his warehouse job at the start of the play. Proud and determined, he sets out to find another job, only to find hundreds of other men in the same situation. Without a paycheck, Adam soon realizes how much he has to lose; health, dignity, hope, and possibly even the young shop girl he loves. Alternately, it is the story of all the men, young and old in Adam's situation. These are the men who sleep in the parks, beg for coins and even turn to crime when there seems to be no other option. When their story and Adam's comes to a head at the gripping finale, there is only one way left to turn: revolution. One of the preeminent playwrights of the early 20th century, John Howard Lawson was the first playwright to have 2 plays presented by the Group Theatre. SUCCESS STORY is a classic tale of ambition, the American Dream and what actually constitutes "success." Set in the New York advertising agency, we follow the rise of Sol Ginsburg and his struggles for contentment, before and after, the 1929 stockmarket crash. In 1934, The Group presented Mr. Lawson's GENTLEWOMAN. It is the story of socialite, Mrs. Gwyn Ballantine, who falls for the "inspired Bohemian" Rudy Flannigan. After it is discovered her husband has been committing scandalous business deals, Gwyn is tempted to pursue her passions for the poet Flannigan, despite their conflicting social standing. Can she turn her back on her privileged status and extravagant tastes in the name of love?

Burn

Edward Dutton Cook (30 January 1829 - 11 September 1883) was an English dramatic critic and author. From 1867 to October 1875 he was dramatic critic to the Pall Mall Gazette, and from that date to his death to the World newspaper. He was the writer of numerous articles on art topics in various reviews, newspapers, and periodicals, and the author of many works of fiction. Of the latter, Paul Foster's Daughter, his first work, served to establish his reputation, and the production of The Trials of the Tredgolds in the following year (1862) in Temple Bar was a great literary success.

A Progressively Edulcorated Vision of Masculinity in The Philadelphia Story: Play, Classical Comedy, and Musica

You are learning Chinese and wondering how you could improve your language skills in a fun way while boosting your Chinese to a sky-high level? Or you are interested in what is one of the most popular Chinese indigenous instruments? This book can help you not only to improve your Chinese language skills in a playful way via the Chinese bamboo clappers Kuaiban. It can also teach you how to play the instrument and can give you valuable information about the art scene from an industry insider. Living and working in Beijing, China for more than ten years Rene Bernard is a performer of Chinese Kuaiban: In this popular Chinese oral story-telling art form a rhythm is created by bamboo clappers. On that rhythm the performer tells the story in rhymes. Based on his story as the thread, Rene's book gives an introduction of the instrument, its playing technique and the show business industry in China. Another focus is the related Chinese-foreign exchange via Kuaiban as well as its advantages for learning Chinese. In this context the work is a mixture of a monograph, a textbook and a non-fiction book. As his target groups are foreigners and Chinese alike, the book is written in English and Chinese, includes a lot of pictures and graphics with a total of 330 A5 pages. After his first contact with Kuaiban in 2007 and after graduating with a major in Chinese Studies Rene has lived in China since 2011 and constantly developed his Kuaiban performing skills. He regularly plays Kuaiban on stage in different theaters all over China and on TV including state television CCTV. Aside from being featured in numerous articles (for instance in the renowned "Quyi magazine" and "China Contact" magazine), he is an honorary member of the China Quyi Artists Association.

This Is A New Release Of The Original 1911 Edition.

The story of Burnt Njal: From the Icelandic of the Njals Saga

The Njáls Saga (in Icelandic Saga Brennu-Njáls) is one of the most famous and important of the Sagas of Icelanders. The work was written in the thirteenth century prose in Old Norse language, by an anonymous Icelandic author of considerable erudition, as inferred by the richness and depth of the topics covered in the text. The saga is a series of bloody conflicts and vendettas among members of distinguished families in Icelandic tenth and eleventh centuries, these conflicts that give rise to complicated criminal cases that are resolved in the Althing, a kind of council of notables who met each year. One of the most important characters of the saga is Njáll Thorgeirsson, whose home is attacked and burned, causing his death, from which derives the title of the work.

The Story of Burnt Njal

Considered to be one of the finest of the Icelandic sagas, "Njal's Saga" (or "The Story of Burnt Njal") was written sometime in the thirteenth century by an unknown author and is the longest and most developed of the sagas. The source material for the saga was historical but probably drawn largely from oral tradition. The story relates events that took place between 960 and 1020, involving blood feuds in the Icelandic Commonwealth. It features memorable characters like the noble warrior Gunnar of Hlidarendi, the lawyer Njáll Þorgeirsson, and the mildly villainous Mord Valgardsson, whose motivations and passions are familiar to people of every age and locale. The saga is divided into three parts, which describe the friendship between Gunnar and Njal, the tragic consequences of revenge, and finally the retribution of Flosi and Kari. Themes of loyalty, marriage, family honor and vengeance permeate this beautifully written and timeless epic.

The Story of Burnt Njal

"The Story of Burnt Njal: The Great Icelandic Tribune, Jurist, and Counsellor," also known as "Njals Saga" is an Icelandic saga. Translated here by George Webbe Dasent, this republication by Forgotten Books makes this classic work accessible to modern readers. As is the case with many of the Icelandic sagas, the author of "The Story of Burnt Njal" is unknown. It is thought to have been written in the 13th century, and covers events that took place between 960 CE and 1020 CE. Considered by many to be the ultimate Icelandic saga, it contains many elements common to other sagas: a focus on genealogical and familiar history, detailed accounts of battle, and a window into the life of everyday Icelanders. The historical accuracy of "The Story of Burnt Njal" remains a subject of debate, however it is thought to fairly accurately depict the major historical events detailed, even if other components of the work are entirely fictional. The Sagas of Icelanders, of which "The Story of Burnt Njal" is part, are the best examples of Icelandic literature and provide the reader with some of the greatest accounts of Viking life. For serious scholars and students of Norse history, "The Story of Burnt Njal" is an absolute must read. It is a frequently violent tale of life in the Viking Age, focused particularly on the process of blood feuds. For those willing to invest the energy into properly examining this text, Dasent's translation is a fascinating and illuminating read. The Story of Burnt Njal

"There was a man named Mord whose surname was Fiddle; he was the son of Sigvat the Red, and he dwelt at the "Vale" in the Rangrivers. He was a mighty chief, and a great taker up of suits, and so great a lawyer that no judgments were thought lawful unless he had a hand in them. He had an only daughter, named Unna. She was a fair, courteous, and gifted woman, and that was thought the best match in all the Rangrivers. "
