raise one exponent to another exponent

solving linear equations

write the answer in interval notation

write the answer from 3 to infinity in interval notation

begin by dividing both sides by negative 3

graph linear equations in slope intercept form slope intercept

plot the y-intercept

use the intercept method

begin by finding the x intercept

plot the x and y intercepts

start with the absolute value of x

reflect over the x-axis

shift three units to the right

change the parent function into a quadratic function

solve quadratic equations

set each factor equal to 0

get the answer using the quadratic equation

get these two answers using the quadratic equation

use the quadratic equation

set each factor equal to zero

you can use the quadratic formula

solving systems of equations

use the elimination method

replace x with 1 in the first equation

find the value of x

find the value of f of g

find the points of an inverse function

start with f of g
