Jerrie S. Cheek presents a collection of Web sites pertaining to the American Revolution, appropriate for use with elementary history classes. The collection offers curriculum enrichment materials, as well as lesson plans and other activities. Topics in the collection include battles and such famous Americans as George Washington (1732-1799), Benjamin Franklin (1706-1790), Betsy Ross (1752-1836), Benedict Arnold (1741-1801), and more. The Kennesaw State University Educational Technology Center in Kennesaw, Georgia, provides the collection online.

Narrative of Jonathan Rathbun

This eBook edition of the American Revolution history has been formatted to the highest digital standards and adjusted for readability on all devices. This book on the American Revolution consists of three parts-a brief narrative history of the war, a chronology of military events, and a bibliography. Each part requires a word of explanation. The narrative consists of one chapter on the colonial background of American military history and two on the Revolution itself. Part Two is a chronology, oriented toward military events, covering the period between the signing of the Treaty of Paris ending the Seven Years War in 1763 and the ratification by the Continental Congress some twenty years later of a second Treaty of Paris confirming American independence. Part Three, the bibliography, contains listings of over a thousand titles of books, articles, and published source material on the American Revolution. The emphasis is again on the land war, but proportionately the bibliography gives more attention to the political, social and economic aspects of the Revolution and to its naval phase than do either the narrative or the chronology.

The Narrative of Jonathan Rathbun, of the Capture of Fort Griswold, the Massacre that Followed, and the Burning of New London, Conn., September 6, 1781

This third edition of Historical Dictionary of the American Revolution contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 1,000 cross-referenced entries on the politics, battles, weaponry, and major personalities of the war.

The Narrative of Jonathan Rathbun, of the Capture of Fort Griswold, the Massacre That Followed, and the Burning of New London, Conn , September 6, 178

Americans of the Early Republic devoted close attention to the question of what should be the proper relationship between church and state. Kabala examines this debate across six decades and shows that an understanding of this period is not possible without appreciating the key role religion played in the formation of the nation.

Narrative and Critical History of America

Offering a day-by-day chronology of the people and events important to the American Revolution, this title provides a look at this historic time. It covers people, battles, and other details, and includes more than 130 maps, photographs, and illustrations pair with an index, a bibliography, cross-references, and a chronology.
