[#Arctic climate change](#) [#Ragnar Axelsson photography](#) [#Environmental impact Arctic](#) [#Last Days of the Arctic](#) [#Documentary photography Iceland](#)

Explore the profound and urgent photographic series 'Last Days of the Arctic' by acclaimed Icelandic photographer Ragnar Axelsson. This compelling work vividly documents the dramatic effects of climate change on the Arctic's pristine landscapes, its diminishing ice, and the resilient communities dependent on it. Axelsson's powerful imagery serves as a poignant visual elegy and a critical call to action, capturing both the breathtaking beauty and the fragile vulnerability of a region undergoing irreversible transformation.
