### Best English Grammar Book Learn English Grammar in Two Week (Revised Edition)

Learn English Grammar in 2 Weeks is a peerless book for those who are interested in having a written and spoken command of the English language. The fascination of this international language is unmatched. But it is replete with pitfalls which must be carefully avoided if one does not want to become a butt of laughter either in written or spoken English. Let us quote from the book itself; eeA student of the English language ought to know the difference between 'English' and 'the Englishee This book is a treasure house of modern and current usage in English. As one flips through the pages of the book; one gains in knowledge and confidence The mystery of the English language unfolds itself in every page of this wonderful treatise. It is a single volume book that combines source grammar and practice exercises while explaining the rules of grammar and tackling seemingly contradictory rules. Since the book is for students of an Intermediary level, concise explanations are provided. It focuses on topics like grammar contrasts (whether to use 'would' or 'used to' in past tense construct) and grammar patterns for example will be going among others. What will you Learn from THE BEST BOOK OF ENGLISH

**GRAMMAR** The book also explores more than hundred units of grammar concepts and each unit is allocated two pages. While the left hand page is filled with grammar concepts with concise examples, the facing page comprises of practice exercises. This format has been followed to ensure that each point is brief but comprehensive. The book has been designed in such a way that it gives students freedom to choose what unit they want to practice. The order of the book does not need to be strictly followed as it is a revision guide and each topic is complete and self contained. Therefore, a student can just begin from the middle of the book, concentrate on the unit he or she finds difficulty in. If a student gets stuck at a certain exercise.

### A Practical Guide to Spoken English

Teaching of English in India has been traditionally grammar based. The teacher teaches a good deal of grammar; assigns exercises in class or as homework and makes a lot of corrections. Such painstaking efforts on the part of the teacher are, of course, helpful in learning the language but does not much help the student to use the language in day-to-day conversation. Leaving aside the traditional method of dealing with grammar as an isolated subject, the present book offers a specific course in spoken English that focuses on the language of interaction and social exchanges. Its main emphasis is on developing communicative ability of the learner.

### Easy Spoken English

Unique, original, long overdue method for everyone to learn quickly and easily how to speak conversational English, simply by talking about themselves in relation to everyday topics with a native English speaker. Grammar/grammatical analysis are not required in this natural speaking, quick progress course method. Lessons are 3-hour immersion sessions for maximum retention/progress. All dialogue is recorded on paper for regular review, providing accent elimination/speech perfection. The method presented can be applied to learning other languages besides English. The program presented was originally written and published by the author for extended adult education classes. His subsequent private tutoring of 100's of clients from Japan and Europe evolved the original program into what you see here. No matter what method or program you currently use, Paul's original book will be the best addition ever to your current curriculum. Your clients' progress and satisfaction will go to another level.

### English Speaking and Grammar

Cromosys Publication's English Speaking and Grammar book is an optimal quality guide to the beginners as well as advanced learners to gain the knowledge of English language. It is an unmatched unique book of its kind that guarantees your improvement. The lessons and study materials uniquely designed are based on my fifteen years of research in linguistic field. The text, audio and video are magnificently powerful to bring you into linguistic light. Since English is accepted as a global language, the people around the world have been sharpening their knowledge to be good in it. Sometimes, only working knowledge of it doesn't work, and you feel that there is a lot more to explore. The accurate and profound knowledge of this language, which was considered to be existing only in England and America in past, has influenced zillions of mind today, therefore I conceived the idea of making this book a guideline for those who want to be perfect in it. The significance of this book is that it is dynamic, systemic and blissful with abundance of pure and perfect set of rules that took a decade of time in preparation. One alone, being immaturely suggested, spend ages in reading literature, watching movies and listening to the audio which help them to imitate a little but not learn what in actual sense it is, and their never-ending process of Picasso Adventure collects some scattered information which is unworthy to knowledge enhancement, so the aspirants get lost in wilderness. Whether your intention is to travel abroad or plunge deep into your research, you have to be good in English to survive in today's world. Around eight years ago I went to the USA where I got a chance to get an exclusive training of English. I have been communicating with English-speaking people around the world while managing a team in several call centers, and in part time, I have been teaching this language globally with high exposure. So being able to understand linguistic science, I would like to assure you that the knowledge that you are going to get from this book will definitely sharpen your ability so that you can make your way of success without any hindrance.

### High-Speed Advanced English

"Grammar" can often be seen as a dull and complicated art, with all sorts of dusty and quirky rules that are hard to understand and even harder to explain. This Descriptive Grammar of English - by example - shakes off the dust to present the essential principles of modern English grammar as clearly as possible, showing the simple rules that determine the standard practices of modern English, both in writing and in speech, and illustrating their use through hundreds of simple examples and familiar expressions. Most native speakers generally follow the essential rules of English grammar as if by intuition; in many cases they will be quite unaware of what the rules are... even that they exist. But rules or principles or guidelines do exist, and without them it would be very difficult to communicate properly and coherently. Grammar is the highway code of any language, and people need either to learn it, or to absorb it subconsciously, in order to speak or write proficiently. Children master the rudiments of grammar in their native language by hearing, remembering, repeating and experimenting; and up to a point this is sufficient for everyday communication. However beyond a certain level, and more importantly when learning a second or foreign language, some awareness of the rules and principles of grammar becomes useful, and in many situations, vital. Some understanding of grammar is indeed essential for anyone wanting to teach English whether it be to native speakers or as a foreign language. By highlighting (literally) hundreds of short sentences and expressions, this Descriptive Grammar of English clearly illustrates and succinctly explains the rules that govern acceptable usage of the English language today. Where necessary, it uses colour coding to show up pertinent points and to contrast different structures or functions. This is not a grammar book for grammarians; it's a grammar book for anyone, and no prior knowledge of linguistics is required. As befits any discussion

of grammar, it uses the expressions or jargon that are required to explain grammar, but also explains them by including a glossary of grammatical terms which will be of value to most readers. Originally conceived for the benefit of non-native speakers of English, particularly advanced EFL and ESL students and teachers of English as a foreign or second language, it is also very much suited for school and home use in English-speaking countries. In short it is for anyone who is looking for clear and example-based explanations of how English works and is written and spoken. It covers all the main points of English grammar in a way that is understandable to any student. As well as explaining the essential aspects of English grammar, such as verbs and nouns and adjectives, it includes succinct and clearly illustrated sections on such important points as style word order and punctuation. It distinguishes where appropriate between the usages of written and spoken English, and between British English and American English. All the points covered in this grammar are copiously illustrated with examples from everyday English, including memorable and familiar expressions that are hard to forget. Children are not the only ones who learn their grammar by example.

### A Grammar of Spoken English

Today English has almost become indispensable in India and abroad, as it is considered to be a standard, international language of communication across the globe. Hence, learning this language has become a necessity, irrespective of one's age, sex, colour or race. English Grammar And Usage is an altogether different and unique book for understanding and learning the language easily and quickly by writing and speaking innumerable readymade sentences given in the book on each topic of Grammar, without actually studying English Grammar in detail and without the help of one's own mother tongue. There are different types of Sentence Structures available in the book in the easiest possible forms that make it very user-friendly and interesting for readers of all age groups, especially the student section, who wish to know the language correctly and thoroughly. The book is a result of insistent and practical research of around 18 years by the author, when he was in the Solomon Public School accompanied by a number of teachers at various levels, and compiled together as one comprehensive book. ### A Descriptive Grammar of English

Written by a team led by a world authority in English grammar, English Grammar for Today has established itself as a rich educational experience for both native- and non-native-speaking students. This engaging and stimulating coursebook enables students to learn grammar not just for its own sake, but also for the pleasure of exploring, appreciating and understanding the way language communicates in written text and spoken discourse. Throughout, the emphasis is on using grammar in present-day English. After an introduction placing grammar in its educational and cultural context, the authors present a 'toolkit' for analysing sentences. The second part of the book demonstrates how to apply this toolkit to spoken and written language, using a wide range of real textual materials. Each chapter ends with a set of carefully-designed exercises and tasks to aid understanding, with answers provided at the end of the volume. Now thoroughly revised and updated to meet the needs of today's students, this new edition features: - a new Foreword by the English Association - an additional introductory chapter, 'Getting Started with Grammar', which introduces the subject for those with no prior knowledge - improved and extended diagrams, exercises and answers - up-to-date textual passages and examples. Lively and approachable, this indispensable guide is ideal for both students and teachers who are looking for their first serious engagement with - or wishing to rediscover - English grammar.

### English

This is an unconventional English Grammar book. Its purpose is to make you understand the mechanism of the English grammar rules so you'll never have to learn them by heart. It is written for NON-Mother Tongues concentrating on the typical mistakes of those who speak English as a second language. It's entirely based on visual memory and logic, techniques that help us remember the rules easier and longer. It's a book written with a simple language, without all those frills and difficult language typical of traditional grammar books. It's perfect for students that like schemes and tricks and want to understand and learn without spending hours and hours studying (usually students learn all the English Grammar in about 30 hours). If you are in high school and you don't understand much during classes, or at work you must write or speak English, (maybe you know the technical language very well but you have some problems putting it all together) and you don't have time to attend an English course, or maybe you just want to travel or study abroad, whatever the reason, this is the fastest and easiest way to learn the grammar rules.
