Brooks's fans will be thrilled to have a new series to savor."—Publishers Weekly At nineteen, Auris Afton Grieg has led an . . . unusual life. Since the age of fourteen, she has been trapped in a Goblin prison. Why? She does not know. She has no memories of her past beyond the vaguest of impressions. All she knows is that she is about to age out of the children's prison, and rumors say that the adult version is far, far worse. So she and some friends stage a desperate escape into the surrounding wastelands. And it is here that Auris's journey of discovery begins, for she is rescued by a handsome yet alien stranger. Harrow claims to be Fae—a member of a magical race that Auris had thought to be no more than legend. Odder still, he seems to think that she is Fae as well, although the two look nothing alike. But strangest of all, when he brings her to his wondrous homeland, she begins to suspect that he is right. Yet how could a woman who looks entirely Human be a magical being herself? Told with a fresh, energetic voice, this fantasy puzzle box is Terry Brooks as you have never seen him before, as one young woman slowly unlocks truths about herself and her world—and, in doing so, begins to heal both.

A Child of Light

The first and definitive biography of one of the great American novelists of the postwar era, the author of *Dog Soldiers* and *A Flag for Sunrise*, and a penetrating critic of American power, innocence, and corruption Robert Stone (1937-2015), probably the only postwar American writer to draw favorable

comparisons to Ernest Hemingway, Graham Greene, and Joseph Conrad, lived a life rich in adventure, achievement, and inner turmoil. He grew up rough on the streets of New York, the son of a mentally troubled single mother. After his Navy service in the fifties, which brought him to such locales as pre-Castro Havana, the Suez Crisis, and Antarctica, he studied writing at Stanford, where he met Ken Kesey and became a core member of the gang of Merry Pranksters. The publication of his superb New Orleans novel, *Hall of Mirrors* (1967), initiated a succession of dark-humored novels that investigated the American experience in Vietnam (*Dog Soldiers*, 1974, which won the National Book Award), Central America (*A Flag for Sunrise*, 1981), and Jerusalem on the eve of the millennium (*Damascus Gate*, 1998). An acclaimed novelist himself, Madison Smartt Bell was a close friend and longtime admirer of Robert Stone. His authorized and deeply researched biography is both intimate and objective, a rich and unsparing portrait of a complicated, charismatic, and haunted man and a sympathetic reading of his work that will help to secure Stone's place in the pantheon of major American writers.

Child of light

The *Children of Light and the Children of Darkness*, first published in 1944, is considered one of the most profound and relevant works by the influential theologian Reinhold Niebuhr, and certainly the fullest statement of his political philosophy. Written and first read during the prolonged, tragic world war between totalitarian and democratic forces, Niebuhr's book took up the timely question of how democracy as a political system could best be defended. Most proponents of democracy, Niebuhr claimed, were "children of light," who had optimistic but naïve ideas about how society could be rid of evil and governed by enlightened reason. They needed, he believed, to absorb some of the wisdom and strength of the "children of darkness," whose ruthless cynicism and corrupt, anti-democratic politics should otherwise be repudiated. He argued for a prudent, liberal understanding of human society that took the measure of every group's self-interest and was chastened by a realistic understanding of the limits of power. It is in the foreword to this book that he wrote, "Man's capacity for justice makes democracy possible; but man's inclination to injustice makes democracy necessary." This edition includes a new introduction by the theologian and Niebuhr scholar Gary Dorrien in which he elucidates the work's significance and places it firmly into the arc of Niebuhr's career.

If the Christmas season has become more of a chaotic consumer ritual rather than a nurturing spiritual time, you need this brilliant "Advent survival guide"! If you set aside just 10 minutes per day, *Child of the Light* will help you find your quiet center amid the stressful flurry of the November/December busyness. As you read the book's brief readings inspired by the season's carols and hymns, your spirit will be lifted, and your thoughts will be redirected to the purpose of the season: preparing for the coming of Christ. "Take time for God: that's exactly the challenge God gives us during this season of preparation," writes Richardson. "Personally and culturally, this time of year already seems to race out of control toward a Christmas finish line. In Advent, we are invited to take time out...[In] doing so, we nurture our spiritual self, that sometimes fragile part of us who longs for a connection with God." The reflections extend past Christmas to Epiphany, January 6, encouraging you to live into the joy of Christmas beyond traditional seasonal celebrations. A 5-week study guide is included at the back of the book, offering a simple structure for meetings: centering, reflecting, reading scripture, going deeper, and closing. The use of hymns and carols will engage even the most nonmusical among us to fully appreciate the lyrical richness of the season. Do you long for a more sacred and measured observance this year? Be joyfully carried through the pre- and post-Christmas pandemonium as a child of the light!

Our biblical God biblically and actually put into my heart to write for Him simultaneously two books""yes, two books. God heartily provided me with the title of our next books, titled *From A Child of Darkness To A Child of Light: The Miranda Story*. Why the title? Simply because in essence, the book is an autobiography (testimony) of myself and loved ones of my first twenty-eight years of being Catholic, only having religion, being a puppet of Satan like all earthlings when born naturally, spiritually dead, separated from the biblical God simply because the book is Christ and biblically centered up to the year 1975 when I did biblical profession and receiving Jesus into my heart and thus becoming a newborn biblical earthly Christian all for his honor and glory and for those nonbiblical unsaved, nonbelieving earthlings.

The Rime of the Ancient Mariner

A personal exploration of the conjunction between ancient Mesoamerican prophesy and New Age higher consciousness. • Selected by the Independent Publisher's Book Awards as one of the top two New Age books of the year. • Explores ancient prophesies and their relevance in the contemporary world. The Incan and Mayan cultures saw themselves as "children of light"--descended from celestial realms--and their prophecies foretell a time of great spiritual awakening. They prophesied a time when the gateways to higher consciousness would open once again. That time is now. Award-winning author Judith Bluestone Polich draws on her extensive research in quantum physics, archaeoastronomy, holography, cosmology, and pioneering studies of human consciousness to show how science and contemporary thought are consistent with this ancient knowledge. As the ancients predicted, the human god-seed is beginning to awaken, and modern civilization is finally beginning to perceive human

potential in ways that the ancient cultures accepted as truth. Polich introduces techniques for awakening our own human potential through dreaming, meditations, and the power of sacred sites.

Shortlisted for the Royal Society Winton Prize 2013 and the 2013 Best Book of Ideas Prize. Memory is an essential part of who we are. But what are memories, and how are they created? A new consensus is emerging among cognitive scientists: rather than possessing a particular memory from our past, like a snapshot, we construct it anew each time we are called upon to remember. Remembering is an act of

narrative as much as it is the product of a neurological process. *Pieces of Light* illuminates this theory through a collection of human stories, each illustrating a facet of memory's complex synergy of cognitive and neurological functions. Drawing on case studies, personal experience and the latest research, Charles Fernyhough delves into the memories of the very young and very old, and explores how amnesia and trauma can affect how we view the past. Exquisitely written and meticulously researched, *Pieces of Light* blends science and literature, the ordinary and the extraordinary, to illuminate the way we remember and forget.
