Pendidikan Agama Islam : Akidah Akhlak Untuk Madrasah Aliyah Kelas XII

Buku ini membahas membahas tentang self-regulation dan self-regulated learning, faktor internal yang menentukan keberhasilan seseorang dalam belajar. Self-regulated learning merupakan aktivitas belajar yang berlangsung karena dorongan dalam diri, kemauan sendiri, pilihan sendiri, dan tanggungjawab sendiri yang tidak berasal dari dorongan luar. Islam menaruh perhatian penuh dalam pengembangan diri seorang muslim, khususnya dalam bidang pendidikan. Al-Quran dan hadis seringkali menekankan faktor internal dalam diri seseorang dan kemandirian belajar dalam menuntut ilmu. Buku ini juga membahas pandangan dan contoh ulama Islam dalam proses belajar sepanjang hayat (lifelong learning) yaitu Imam Al-Ghazali. Semoga buku ini memberikan wawasan bagi masyarakat, khususnya yang

berkecimpung dan tertatik dalam dunia pendidikan, psikologi dan konsep Self-Regulated Learning dalam Pendidikan Islam.

AL QUR'AN HADIS MADRASAH ALIYAH / SMA KELAS 11 KURIKULUM 2019 Buku pelajaran Al-Qur'an Hadis untuk kelas XI Madrasah Aliyah (MA) / SMA ini disusun berdasarkan kurikulum madrasah sebagaimana tercantum dalam Keputusan Menteri Agama RI No. 183 Tahun 2019, yang dalam implementasinya berpedoman kepada Keputusan Menteri Agama RI No. 184 tahun 2019. Pengembangan dari kurikulum 2013 diharapkan akan lebih mampu mempersiapkan peserta didik yang disamping taat melaksanakan kewajiban beragama, juga mampu mengekspresikan pemahaman agamanya dalam hidup bersama yang multikultural, multietnis, multifaham keagamaan dan kompleksitas kehidupan secara bertanggung jawab, toleran dan moderat dalam kerangka berbangsa dan bernegara Indonesia. Dari segi aspek penyajian, kurikulum baru ini masih tetap berbasiskan kompetensi, dengan memberikan perhatian yang seimbang terhadap tiga aspek: afektif (sikap spiritual dan sikap sosial) kognitif dan psikomotorik, yang harus diperhatikan dalam penentuan tujuan dan penilaian pembelajaran, seperti pada kurikulum 2013 yang lalu. Buku ini terdiri atas 6 bab. Setiap bab diawali dengan menyebutkan Kompetensi Dasar dan tujuan pembelajaran bab yang bersangkutan, lalu peta konsep, mengamati dan bertanya terutama dengan media gambar, kemudian materi utama yaitu uraian dari judul atau pokok bahasan Bab tersebut, beserta rangkumannya, dan diakhiri dengan latihan terkait materi pelajaran itu. Termasuk dalam latihan ini adalah pemberian tugas yang perlu dilakukan peserta didik baik secara mandiri ataupun kelompok. Latihan juga diberikan pada akhir semester ganjil dan semester genap, dan Penilaian Akhir Tahun (PAT) yang sekaligus dapat dijadikan alat penilaian terhadap prestasi peserta didik pada semester yang bersangkutan. Terakhir disajikan glosarium dan kepustakaan. Untuk mencapai kompetensi dan tujuan pembelajaran, maka digunakan pendekatan saintifik, seperti pada kurikulum lama, namun tentu dengan metode, langkah-langkah belajar serta sistem penilaian yang disesuaikan dengan karakteristik materi pelajaran agama (PAI) itu sendiri, dan di pihak lain disesuaikan pula dengan situasi dan kondisi real di madrasah, seperti masalah keterbatasan waktu dan ketersediaan sarana serta fasilitas belajar yang dibutuhkan. Memang disadari kemampuan buku pelajaran sangatlah terbatas. Sukses tidaknya pembelajaran dalam mewujudkan tujuannya banyak tergantung kepada guru yang berperan menyampaikan materi yang tertulis dalam buku pelajaran itu, dan berperan dalam mengikutsertakan peserta didik dalam proses pembelajaran, bahkan menjadikan pembelajaran justru berpusat pada peserta didik, sehingga nilai-nilai agama Islam terinternalisasi dalam diri, menjadi warna dan inspirasi dalam cara berfikir, bersikap dan bertindak, menjadikan kehidupan beragama sebagai rahmatan lil 'alamin dalam kerangka bermasyarakat, berbangsa dan bernegara Indonesia yang berdasarkan Pancasila dan UUD 1945. Terakhir, saran dan usul yang membangun terkait penyusunan buku pelajaran ini pasti disambut dengan segala senang hati.

Rencana pelaksanaan pembelajaran (RPP) SMK/MAK: Kelas XII (3), semester I & II (per-mata pelajaran)

Buku ini berupaya membahas pemikiran Syaikh Muhammad Amin Al-Kurdi dalam kitab Tanwîrul Qulûb. Kitab tersebut berisi tentang ajaran sufisme yang dipengaruhi oleh para guru mursyid tariqah. Ajarannya menekankan pada pentingnya pembersihan hati (tashfiyatul qalb) dan perilaku terpuji (al-akhlaq al-mahmudah). Pendidikan sufistik yang berupaya membentuk perilaku terpuji ini sejalan dengan konsep pendidikan karakter yang sedang digalakkan oleh Pemerintah Indonesia. Syaikh Muhammad Amin Al-Kurdi lahir pada abad ke-13 di Irbil, Irak. Ia sebagai seorang ulama besar, pemuka dalam Thariqat Al-Qadiriyyah, sebuah thariqat yang dirintis Syaikh Abdul Qadir Al-Jaelani. Ia juga diangkat sebagai Syaikh Besar pada Thariqat Al-Khalidiyyah dan Naqsyabandiyyah di Mesir. Kemasyhuran menyinari seluruh Mesir sebagai ulama ahli fiqh madzhab Syafi'i dan Syaikh Besar Thariqat Naqsyabandi. Di samping sebagai ulama, ia juga sebagai cendekiawan muslim banyak menghasilkan karya, di antaranya adalah Kitab Tanwîrul Qulûb. Kitab tersebut mengajarkan tentang sufisme dan akhlak. Paling tidak, ada sekitar 34 nilai-nilai sufistik dalam Kitab Tanwîrul Qulûb yang diimplementasikan dalam proses belajar mengajar di MA Matholi'ul Huda Bugel Jepara. Nilai-nilai sufistik tersebut selaras dengan pendidikan karakter yang digalakkan oleh Pemerintah melalui Peraturan Pemerintah Nomor 19 Tahun 2017.

Pendidikan Agama Islam : Akidah Akhlak Untuk Madrasah Aliyah Kelas X

Buku ini merupakan penjabaran dari Standar Isi Kurikulum 2013 yang menitikberatkan pada aspek sikap spiritual (Kompetensi Inti 1) dan sikap sosial (Kompetensi Inti 2). Namun demikian, agar KI-1 dan KI-2 dapat terimplementasi dengan benar, dijabarkan pula aspek pengetahuan dan keterampilan. Diharapkan buku ini mampu menggugah kepekaan peserta didik terhadap isu-isu aktual, kemudian bisa menyelesaikan masalah-masalah tersebut dengan baik. Memang, dalam buku ini tidak semua pengetahuan dan keterampilan dijabarkan secara luas. Hal ini sengaja dilakukan agar peserta didik mau mencari informasi lain sebagai pendalaman dan perluasan materi. Hal ini sesuai dengan prinsip pengembangan kurikulum 2013, bahwa peserta didik harus mencari tahu, bukan diberi tahu. Sudah barang tentu dalam penyusunan buku ini masih banyak kekurangan dan kekhilafan. Oleh karena itu, penulis dengan sangat ikhlas menerima kritik dan saran dari seluruh pembaca, demi kesempurnaan penyusunan buku ini pada saat mendatang.

The Beginning of Guidance

Anak adalah harta yang paling berharga bagi orangtua. Tak ada dari mereka yang menginginkan keburukan maupun kegagalan menghinggapinya sang buah hati pelengkap jiwa. Tentu saja, segala daya dan upaya sangatlah diusahakan untuk kebajikannya. Begitu pula terkait pendidikan mereka. Pendidikan era ini yang perlu mendapat sorotan khusus adalah pendidikan finansial atau yang lebih dikenal dengan pendidikan keuangan. Mengapa sedemikian penting? Membahas masalah finansial terkadang memang rawan, jika tak hati-hati bisa saja menimbulkan dampak yang berkepanjangan. Untuk itulah pendidikan finansial digalakkan, terlebih dalam dekapan orangtua. Finansial keluarga menjadi sangat penting untuk menumbuhkan wawasan anak terkait bagaimana pengaturan kebutuhan finansial untuk dirinya. Anak tidak hanya tahu menghabiskan uang yang mereka peroleh dari kedua orangtua, tapi mereka pula hendaknya mengetahui bagaimana cara mengatur dan mengelola dengan baik, tentu yang sesuai dengan teladan kita, Nabi Muhammad saw. Ingatlah, anak yang bijak tumbuh dari orangtua yang bijak pula. Satu pengajaran yang dilakukan orangtua pastilah akan berdampak pada mereka dan itu bisa mengakar sampai kelak ia menua. Selamat membaca.

TASAWUF DAN PENDIDIKAN KARAKTER

Over 1,100 delegates from a hundred countries attended the 9th World Conference on Tobacco and Health. After five days of debate, several important resolutions were adopted unanimously and will be landmarks in the fight against tobacco. This great success is due to three facts which emerged from the discussions: 1. It appears clearly now that the risks associated with tobacco are much greater than previously assumed. Out of two regular smokers, one will die from a tobacco related disease. 2. Reducing tobacco consumption can be achieved but the data collected in several countries show that it requires a global strategy. This strategy was much debated during the conference. The resolutions adopted emphasize the agreement of the delegates on the main points. Action to fight the growing epidemic of tobacco-attributable disease and death involves convincing the general public, the medical community and decision-makers of the need to act for tobacco control. The most efficient tools for helping individuals never to start or successfully to stop using tobacco should be developed; effective tobacco control endeavors are required to counteract the actions of the powerful and influential tobacco manufacturers. With the help and under the aegis of WHO, DICC, IUATLD, ISFC, IOCD, and IUHPE, an international alliance for health and against tobacco should unite all those who are engaged in this fight.

"I seek Allah's refuge from the knowledge which is of no benefit". This disciple of Imam Ghazali (RA) kept thinking along these lines for a few days and then wrote a letter to Imam Ghazali (RA) with the view of getting an answer to his dilemma along with some other questions. Furthermore, he asked in his letter to Imam Ghazali (RA) for some advice and to teach him a supplication that he could always recite. He wrote in his letter that although Imam Ghazali (RA) has written numerous books on this issue, this weak individual is in need of something that he could always study and always act upon its injunctions. In reply to his letter, Imam Ghazali (RA) sent him the following advices.

A RESEARCH PROJECT & A DOCUMENTARY BOOK ON SCIENCE & WORLD RELIGIONS & COMPARATIVE INTERFAITH DISCUSSIONS (The Qur'an & Modern Science: Compatible or Incompatible?) Ever since

the dawn of human life on this planet, Man has always sought to understand Nature, his own place in the scheme of Creation and the purpose of Life itself. In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. Al-Qur'an, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains Divine guidance for all humankind. Since the message of the Qur'an is believed to be for all times, it should be relevant to every age. Does the Qur'an pass this test? In this booklet, I intend to give an objective analysis of the Muslim belief regarding the Divine origin of the Qur'an, in the light of established scientific discoveries. There was a time, in the history of world civilization, when "miracles", or what was perceived to be a miracle, took precedence over human reason and logic. But how do we define the term "miracle"? A miracle is anything that takes place out of the normal course of life and for which humankind has no explanation. However, we must be careful before we accept something as a miracle. An article in `The Times of India`, Mumbai, in 1993 reported that "a saint" by the name "Baba Pilot" claimed to have stayed continuously submerged under water in a tank for three consecutive days and nights. However, when reporters wanted to examine the base of the tank of water where he claimed to have performed this "miraculous" feat, he refused to let them do so. He argued by asking as to how one could examine the womb of a mother that gives birth to a child. The `Baba" was hiding something. It as a gimmick simply to gain publicity.(THE TRUTH ABOUT MUHAMMAD AND JESUS)Top 10 information you can learn in this book & why this is a must read book for all

Gratitude, like other positive emotions, has inspired many theological and philosophical writings, but it has inspired very little vigorous, empirical research. In an effort to remedy this oversight, this volume brings together prominent scientists from various disciplines to examine what has become known as the most-neglected emotion. The volume begins with the historical, philosophical, and theoretical foundations of gratitude, then presents the current research perspectives from social, personality, and developmental psychology, as well as from primatology, anthropology, and biology. The volume also includes a comprehensive, annotated bibliography of research on gratitude. This work contributes a great deal to the growing positive psychology initiative and to the scientific investigation of positive human emotions. It will be an invaluable resource for researchers and students in social, personality, and developmental, clinical, and health psychology, as well as to sociologists and cultural anthropologists.

There is widespread agreement that schools should contribute to the moral development and character formation of their students. In fact, 80% of US states currently have mandates regarding character education. However, the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods. The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive, research-oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future. Now in its second edition, this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings, and much more.

In *THE LIFE OF MUHAMMAD*, Haykal achieves two objectives admirably: first, a biography which reveals the career of Prophet Muhammad (peace be upon him) in the full light of historic reality; second, bringing out the essence of Islam, as exemplified in the life of the greatest Muslim. It includes complete coverage of the Prophet's life, a detailed analysis of pre-Islamic Arabia, the situational context of revelation, and a comparative study of the basics of Islamic and western civilizations. It is based upon a scholarly examination of all of the extant Sirah and Hadith literature (the Prophet's life, his sayings and narrations of his teachings by his contemporaries) with the eye of an objective, scientific and critical scholar who is well-versed in modern historical critical methodology. *THE LIFE OF MUHAMMAD* is an essential book for all English-speaking Muslims, as well as non-Muslims. This English version has been approved by the Supreme Council for Islamic Affairs, Cairo.

Finally, a book of insightful and practical advice for the millions of people suffering from low-grade depression, also known as dysthymia or chronic discontent. Frustrated. Stressed. Irritable. Discouraged. Cynical. Fed up. These are among the feelings experienced by millions of people. Whether they realize it or not, their feelings are not caused by a negative attitude, a lack of gratitude, or laziness. Rather, these feelings are among the symptoms of a condition called dysthymia, also known as chronic discontent or low-grade depression. It blocks feelings of happiness, contentment, and passion, leaving emptiness, a lack of meaning, and despair. This powerful and practical book explains how this condition takes hold—and presents simple yet profound ways to overcome it once and for all. Using anecdotes from his private practice as well as insightful questions and exercises, psychotherapist Alan Downs, Ph.D., shines light into the dark corners of this isolating and debilitating condition and includes a five-week program to help you feel good again. Not a superficial, magic-bullet approach, *The Half-Empty Heart* is a probing, honest book that offers a path to meaningful change. The path begins here.

Dear Beloved Son - Ayyuhal Walad

Chomsky proposes a reformulation of the theory of transformational generative grammar that takes recent developments in the descriptive analysis of particular languages into account. Beginning in the mid-fifties and emanating largely from MIT, an approach was developed to linguistic theory and to the study of the structure of particular languages that diverges in many respects from modern linguistics. Although this approach is connected to the traditional study of languages, it differs enough in its specific conclusions about the structure and in its specific conclusions about the structure of language to warrant a name, "generative grammar." Various deficiencies have been discovered in the first attempts to formulate a theory of transformational generative grammar and in the descriptive analysis of particular languages that motivated these formulations. At the same time, it has become apparent that these formulations can be extended and deepened. The major purpose of this book is to review these developments and to propose a reformulation of the theory of transformational generative grammar that takes them into account. The emphasis in this study is syntax; semantic and phonological aspects of the language structure are discussed only insofar as they bear on syntactic theory.
