Human Design: Science of Differentiation - Introduction [Read by Ai] - Human Design: Science of Differentiation - Introduction [Read by Ai] by Talis WAO 412 views 2 years ago 14 minutes, 48 seconds - This video was generated via an Ai and reads **from the book**, "THE **DEFINITIVE BOOK**, OF **HUMAN DESIGN**, THE **SCIENCE**, OF ...

Chapter 1: INTRODUCTION

The Human Design System is the Science of Differentiation.

Endless possibilities for individual uniqueness lie within our genetic matrix.

It invites you to participate in a potentially life-transforming living experiment, and provides you with the practical tools and information needed to live life as yourself without this individualized - and individualizing - living experiment, Human Design is just a complex system of fascinating information to entertain the mind.

A Human Design Chart or BodyGraph is a precise map and user guide that gives you access to how we are genetically designed to engage with the world, and how our unique inner guidance system operates.

The layers and layers of conditioning slowly fall away, and the person we were meant to be, our inner essence, begins to emerge.

Your chart maps out your relationship dynamics to help you understand how the attractions, resonances and conflicts between you and others play out.

Your chart gives you your Type, Strategy, and Authority - body-centered intelligence - tools to show you the way you are designed to navigate through life and interact with the world.

GENERATORS, THE BUILDERS, represent about 70 percent of the population.

Their Strategy is to engage with life by waiting for things to come to them so that they can respond. Generators are the life-force of the planet and are designed to know themselves by observing what they respond to.

Their Strategy for engaging with life is to wait for their specific qualities to be recognized and invited into things.

Manifestors, THE INITIATORS, compose about 9 percent of the population.

to inform others of their decision before they take action in order to eliminate resistance.

REFLECTORS, THE DISCERNERS, represent approximately 1 percent of the population.

Strategy is to wait through a full cycle of the Moon before making major decisions.

Reflectors are designed to be the judges of humanity, to reflect back the injustices humanity

THE EXPERIMENT OF LIVING YOUR STRATEGY AND AUTHORITY

The heart and soul of The Human Design System lies in the potential awakening that is available to you through the actual living of your unique design.

in detail later in this book, are the doorways to living as yourself, affirming who you really are, and understanding and letting go of what you are not.

The Human Design System is the revelation of how our form works, and how it becomes the guiding source of our personal Authority.

Mental decision-making is rarely more than a salsa guess, and

the mind is not a trustworthy personal guidance system.

The Human Design System's tools for awakening are like no others.

Human Design gives you the tools and points the way, but it's up to you to use them.

Knowing yourself is the path to loving yourself

Human Design focuses on the health, stability and direction of our life contained within our bodies.

Deconditioning, as it is called in the Human Design System, is a process of letting go of what we are not.

When we re-claim our Authority, changing how we make decisions and navigate through life, we actually change the way our cells function

There is a pleasant ease that comes from living your life surrendered to your inner guidance system.

Human Design is a new kind of awakening

By fully trusting our own ability to navigate life, we become more accepting of ourselves, and able to genuinely love ourselves

This, in Human Design, is the point of personal transformation - seeing through the illusion, and moving through life awake and aware.

AWARENESS, EXPERIMENTATION, SELF-REFLECTION AND TIME.

HUMAN DESIGN SYSTEM GIVES YOU THE KEYS BUT IT'S UP TO YOU TO USE THE TOOLS IT PROVIDES.
