The Lost Art of Compassion

Now in paperback, this practical guide to cultivating compassion delivers Buddhist and psychological insight right where we need it most—navigating the difficulties of our daily lives. Compassion is often seen as a distant, altruistic ideal cultivated by saints, or as an unrealistic response of the naively kind-hearted. Seeing compassion in this way, we lose out on experiencing the transformative potential of one of our most neglected inner resources. Dr Lorne Ladner rescues compassion from this marginalised view, showing how its practical application in our life can be a powerful force in achieving happiness. Combining the wisdom of Tibetan Buddhism and Western psychology, Ladner presents clear, effective practices for cultivating compassion in daily living.

The Lost Art of Happiness

The key to the good life is compassion. Drawing on recent findings, Dobrin convincingly shows that compassion is built into human nature. When we act upon this inherent moral instinct, individuals find what they want most--to be happy.

The Lost Art of Healing

The real crisis in medicine today is not about economics, insurance, or managed care--it's about the loss of the fundamental human relationship between doctor and patient. In this wise and passionate book, one of our most eminent physicians reacquaints us with a classic notion often overlooked in modern medicine: health care with a human face, in which the time-honored art of healing guides doctors in their approach to patient care and their use of medical technology. Drawing on four decades of practice as a cardiologist and a vast knowledge of literature and medical history, Dr. Lown probes the heart and soul of the doctor-patient relationship. Insightful and accessible to all, The Lost Art of Healing describes how true healers use sympathetic listening and touch to hone their diagnostic skills, how language affects the perception of illness, how doctors and patients can cultivate a relationship of trust, and how patients can obtain the most complete and beneficial care through a combination of healing techniques and conventional practices. As Dr. Lown explains, the art of healing does not

mean abandoning the spectacular advances of modern science, but rather incorporating them into a sensitive, humane, enlightened approach to medical care. With its urgent message and poignant, fascinating vignettes, *The Lost Art of Healing* is a book of vital, universal importance.

Art as Compassion

Published on the occasion of exhibitions Bracha L. Ettinger: Resonance/Overlay/Interweave held June 3-July, 26, 2009 at Freud Museum, London; Bracha L. Ettinger: Fragilisation and Resistance held Aug. 21-Aug. 31, 2009 at Kuvataideakatemia (The Finnish Academy of Fine Arts), Helsinki; and Alma Matrix: Bracha L. Ettinger and Ria Verhaeghe held May 13-Aug. 1, 2010 at Fundacio Antoni Taapies, Barcelona.

Omoiyari: The Japanese Art of Compassion

'Omoiyari is a form of selfless compassion – putting yourself in the shoes of others, and from their perspective anticipating their needs, acting in a way that might make them at ease, happy or comfortable.'

Patience, Compassion, Hope, and the Christian Art of Dying Well

By mining the rich tradition of virtue ethics, Christopher Vogt uses the virtues of patience, compassion, and hope as a framework for specifying the shape of a good death, and for naming the practices Christians should develop to live well and die well. Bringing together historical, biblical, and contemporary sources in Christian ethics, Vogt provides a long-overdue theological analysis of the *ars moriendi* or "art of dying" literature of four centuries ago. Through a careful analysis of Luke's passion narrative, Vogt uses Jesus as the primary model for being patient in the face of death and for dying well.

The Lost Art

A millennium after the formidable war machines of the User cultures devoured entire civilisations and rewrote planetary geography, Earth is in the grip of a perpetual Dark Age. Scientific endeavour is strongly discouraged, while remnant technology is locked away - hidden by a Church determined to prevent a new Armageddon. This is the world to which Benzamir Michael Mahmood must return. A descendant of the tribes who fled the planet during those ages-old wars, he comes in pursuit of enemies from the far reaches of space. The technology he brings is wondrous beyond the imaginings of those he will meet, but can its potency match that of the Church's most closely guarded treasure? For centuries it has lain dormant, buried in a lead-lined tomb deep beneath the flagstones of a remote Siberian monastery. But it is about to be unearthed, and the powers that will be unleashed may be beyond anyone's capacity to control. Even a man as extraordinary as Benzamir . . .

The Art of Compassion

His Holiness the Dalai Lama is loved and respected world-wide as a man of peace. As spiritual leader of the Tibetan people, he has consistently advocated policies of non-violence, even in the face of great aggression -an approach that in 1989 won him the coveted Nobel Peace Prize. In lectures and tours around the world he has touched people's hearts, transcending religious, national and political barriers by the simplicity, profundity and great-heartedness of his message – that of universal responsibility and great compassion. In this small booklet he explains with utter clarity and reasoning why compassion is so inseparable from our human nature and how at any moment we can tap into and develop this birthright.

Compassion and the Individual

Loving the Unloved of Society "I realize that God brought me into this world, blessed with skills and talents. The only thing that makes sense to me is to use them in the service of the poor. It is at their feet that I find myself." For almost ten years, Gary Smith, S.J., lived and worked among the poor of Portland, Oregon. With this memoir, he invites us to walk with him and meet some of the abandoned, over-looked, and forgotten members of our society with whom he has shared his life. Just as Smith found a deeper, truer understanding of himself and of the heart of God through his work, these people and their stories stand to transform us. "Although its subject matter is bleak, the book is not. Smith has found love amid the despair. His book is touching, at times hopeful, and the kind of book that is hard to put down, that fascinates, horrifies, and rivets one's attention." —Booklist "Smith takes us where we would rather not

go, the heart of the poor, the lonely, and the abandoned. In true Ignatian fashion, he finds God there. An unforgettable experience for those who have the courage to walk with him.” —Michael L. Cook, S.J. Professor of theology Gonzaga University “Smith performs modern-day miracles of compassion, and his book sets a new standard for writing about the rich faith of those who are materially poor. His stirring prose and utter honesty will change the hearts and minds of many readers.” —Gerald T. Cobb, S.J. Chair, department of English Seattle University

Radical Compassion

Presenting an outline of the four necessary steps for meeting suffering with compassion, this insightful book shows how to build a capacity for compassion into the structures and practices of an organization.

--

Awakening Compassion at Work

A Columbia University physician comes across a popular medieval text on dying well written after the horror of the Black Plague and discovers ancient wisdom for rethinking death and gaining insight today on how we can learn the lost art of dying well in this wise, clear-eyed book that is as compelling and soulful as *Being Mortal*, *When Breath Becomes Air*, and *Smoke Gets in Your Eyes*. As a specialist in both medical ethics and the treatment of older patients, Dr. L. S. Dugdale knows a great deal about the end of life. Far too many of us die poorly, she argues. Our culture has overly medicalized death: dying is often institutional and sterile, prolonged by unnecessary resuscitations and other intrusive interventions. We are not going gently into that good night—our reliance on modern medicine can actually prolong suffering and strip us of our dignity. Yet our lives do not have to end this way. Centuries ago, in the wake of the Black Plague, a text was published offering advice to help the living prepare for a good death. Written during the late Middle Ages, *ars moriendi*—*The Art of Dying*—made clear that to die well, one first had to live well and described what practices best help us prepare. When Dugdale discovered this Medieval book, it was a revelation. Inspired by its holistic approach to the final stage we must all one day face, she draws from this forgotten work, combining its wisdom with the knowledge she has gleaned from her long medical career. *The Lost Art of Dying* is a twenty-first century *ars moriendi*, filled with much-needed insight and thoughtful guidance that will change our perceptions. By recovering our sense of finitude, confronting our fears, accepting how our bodies age, developing meaningful rituals, and involving our communities in end-of-life care, we can discover what it means to both live and die well. And like the original *ars moriendi*, *The Lost Art of Dying* includes nine black-and-white drawings from artist Michael W. Dugger. Dr. Dugdale offers a hopeful perspective on death and dying as she shows us how to adapt the wisdom from the past to our lives today. *The Lost Art of Dying* is a vital, affecting book that reconsiders death, death culture, and how we can transform how we live each day, including our last.

The Lost Art of Dying

The Wheel of Great Compassion is the first book to provide Western readers with a complete understanding of the prayer wheel—an ancient and mystical practice that has long been popular with Buddhists throughout Tibet and Mongolia for its ability to bless the environment, promote healing, increase compassion, and assist practitioners on their journeys to enlightenment. This book offers a clear description of prayer wheel practice, its meaning and benefits, and its role as an essential ritual and symbol of Tibetan Buddhism. It contains a general introduction to the prayer wheel, photographs and illustrations, six commentaries by Tibetan lamas (including Lama Zopa Rinpoche), and instructions for both prayer wheel construction and proper use.

Wheel of Great Compassion

A digital-culture expert who writes for *The New York Times Magazine* discusses the logic, aesthetics, cultural potential and societal impact of the Internet, a medium that favors speed, accuracy, wit, prolificacy and versatility."

Magic and Loss

THE SUNDAY TIMES BESTSELLER: an uplifting account of hope and healing by GP Gavin Francis 'I cannot think of anybody - patient or doctor - who will not be helped by reading this short and profound book' - Henry Marsh 'Such a wise, gentle, quietly hopeful book. Exactly what I needed' - Rachel Clarke

'A lovely little book' - Michael Rosen When it comes to illness, sometimes the end is just the beginning. Recovery and convalescence are words that exist at the periphery of our lives - until we are forced to contend with what they really mean. Here, GP and writer Gavin Francis explores how - and why - we get better, revealing the many shapes recovery takes, its shifting history and the frequent failure of our modern lives to make adequate space for it. Characterised by Francis's beautiful prose and his view of medicine as 'the alliance of science and kindness', Recovery is a book about a journey that most of us never intend to make. Along the way, he unfolds a story of hope, transformation, and the everyday miracle of healing.

The Lost Art Of Happiness

Pastor Tracy Wilde reflects on the absence of empathy in today's world and shares how Christians can renew their compassion to help unify not only the church, but society as well, in this timely and refreshing guide. Achieving meaningful relationships and cultivating lasting connections with others are often some of the most valuable experiences of our lives. So why can it sometimes feel so difficult to relate to the people around us if we all share the same human desire to bond? In Finding the Lost Art of Empathy, Tracy Wilde addresses the reasons why we struggle with showing empathy toward others and explains why we ultimately avoid it—and even avoid contact with others altogether. She explores the different facets that have promoted isolation instead of community and provides the antidote for a more unified, loving, and empathetic society. Inspirational and encouraging, Wilde inspires us to self-reflect and remove whatever obstacles from our lives that may be blocking our way to true fulfillment in our relationships—and living life the way God intends us to.

Recovery

Cutting through all the white noise, chatter, and superficiality our cell phones and social media cause, one of Tibet's highest and most respected spiritual leaders offers simple and practical advice to help us increase our attentions spans, become better listeners, and strive to appreciate the people around us. In a world of iPhones and connectivity to social media and email, we are all in constant connection with one another. Then why are so many people feeling burned out, distant from colleagues, and abandoned by family and friends? In this new book from the bestselling author of Running with the Mind of Meditation, the Sakyong uses the basic principles of the Shambhala tradition--meditation and a sincere belief in the inherent wisdom, compassion, and courage of all beings--to help readers to listen and speak more mindfully with loved ones, co-workers, strangers, and even ourselves. In this easy to understand and helpful book, Sakyong Mipham provides inspiring ideas and practical tips on how to be more present in your day-to-day life, helping us to communicate in ways that elevates the dignity of everyone involved. Great for families, employees and employers and everyone who spend too much time on Facebook, Instagram, and feel "disconnected" in our "connected" world, Good Conversation is a journey back to basics.

Finding the Lost Art of Empathy

Kristin Neff PhD, is a professor in human development whose 10 years' of research forms the basis of her timely and highly readable book. Self Compassion offers a powerful solution for combating the current malaise of depression, anxiety and self criticism that comes with living in a pressured and competitive culture. Through tried and tested exercises and audio downloads, readers learn the 3 core components that will help replace negative and destructive measures of self worth and success with a kinder and non judgemental approach in order to bring about profound life change and deeper happiness. Self Compassion recognises that we all have weaknesses and limitations, but in accepting this we can discover new ways to achieve improved self confidence, contentment and reach our highest potential. Simply, easily and compassionately. Kristin Neff's expert and practical advice offers a completely new set of personal development tools that will benefit everyone. 'A portable friend to all readers ... who need to learn that the Golden Rule works only if it's reversible: We must learn to treat ourselves as well as we wish to treat others.' Gloria Steinem 'A beautiful book that helps us all see the way to cure the world - one person at a time - starting with yourself. Read it and start the journey.' Rosie O'Donnell

The Lost Art of Good Conversation

In a forgotten nook of Cambridge a little shop stands where thousands of sheets of beautiful paper and hundreds of exquisite pens wait for the next person who, with Clara Cohen's help, will express the love,

despair and desire they feel to correspondents alive, estranged or dead. Clara knows better than most the power a letter can have to turn a person's life around, so when she discovers a cache of wartime love letters, she follows them on the start of on a profound journey of her own.

Self-Compassion

Named a Best Business Book of 2021 by Soundview Magazine Reclaim the power of genuine human connection Networking is often considered a necessary evil for all working professionals. With social media platforms like LinkedIn, Twitter, Instagram, and Facebook at our disposal, reaching potential investors or employers is much easier. Yet, these connections often feel transactional, agenda-driven, and dehumanizing, leaving professionals feeling burnt out and stressed out. Instead, we should connect on a human level and build authentic relationships beyond securing a new job or a new investor for your next big idea. To build real and meaningful networking contacts, we need to go back to basics, remembering that technology is a tool and more than just a means to an end. We need to tap into our humanity and learn to be more intentional and authentic. As a "serial connector" and communications expert, Susan McPherson has a lifetime of experience building genuine connections in and out of work. Her methodology is broken down into three simple steps: Gather: Instead of waiting for the perfect networking opportunity to come to you, think outside the box and create your own opportunity. Host your own dinner party, join a local meet-up group, or volunteer at your neighborhood food pantry. Ask: Instead of leading with our own rehearsed elevator pitches asking for help, ask to help, opening the door to share resources, experience, contacts, and perspectives that add diversity to your own vision. Do: Turn new connections into meaningful relationships by taking these newly formed relationships deeper. Follow through on the promises you made and keep in touch. Woven together with helpful tips and useful advice on making the most out of every step, this book draws on McPherson's own experience as a renowned "serial connector," as well as the real life success stories of friends and clients. Filled with humor, humility, and wisdom, *The Lost Art of Connecting* is the handbook we all need to foster personal and professional relationships that blur the lines between work and play—and enrich our lives in every way.

The Lost Art of Letter Writing

25th Anniversary Edition Over 3 Million Copies Sold 'I couldn't give this book a higher recommendation' BILLY CONNOLLY Written by the Buddhist meditation master and popular international speaker Sogyal Rinpoche, this highly acclaimed book clarifies the majestic vision of life and death that underlies the Tibetan Buddhist tradition. It includes not only a lucid, inspiring and complete introduction to the practice of meditation, but also advice on how to care for the dying with love and compassion, and how to bring them help of a spiritual kind. But there is much more besides in this classic work, which was written to inspire all who read it to begin the journey to enlightenment and so become 'servants of peace'.

The Lost Art of Connecting: The Gather, Ask, Do Method for Building Meaningful Business Relationships

"The Art And Science Of Compassion. A Primer is designed as a short, "all-in-one"

The Tibetan Book Of Living And Dying

"Arts teacher Andria Zafirakou was always a rule-breaker. At her inner-city London school where more than eighty languages are spoken, she would sense urgent needs; mending uniforms, calling social services, shielding vulnerable teens from gangs. And she would tailor each class to its pupils, fiercely believing in the power of art to unlock trauma, or give a mute child the confidence to speak. Time and again, she would be proved right. So in 2018, when Andria won the million-dollar Global Teacher Prize, she knew exactly where the money would go: back into arts education for all. Because today, the UK government's cuts and curriculum changes are destroying the arts, while their refusal to tackle the most dangerous threats faced by children - cyber-bullying, gang violence, hunger and deprivation - puts teachers on the safeguarding frontline. Andria's story is a rallying wake-up call that shows what life is really like for schoolchildren today, and a moving insight into the extraordinary people shaping the next generation"--Publisher's description.

The Art and Science of Compassion, a Primer

Father Boyle started Homeboy Industries nearly 20 years ago, which has served members of more than half of the gangs in Los Angeles. This collection presents parables about kinship and the sacredness of life drawn from Boyle's years of working with gangs.

Those Who Can, Teach

In *The Lost Art of Caring*, Leighton E. Cluff, M.D., and Robert H. Binstock, Ph.D., bring together experts to address the importance of caring, the reasons why it has eroded, and measures that can strengthen caring as provided by health professionals, families, communities, and society.

Tattoos on the Heart

Dr. Bernard Lown offers a new paradigm--medicine with a human face, in which the art of healing is as important as the mastery of medical techniques. This is his passionate call for a renewal in the social contract of doctoring. Dr. Lown is professor emeritus of cardiology at Harvard Medical School and senior physician at Brigham and Women's Hospital in Boston. He is co-founder of Physicians Against Nuclear War and accepted the Nobel Peace Prize on behalf of that organization in 1985.

The Lost Art of Caring

The best-selling author of *Radical Amazement* articulates a transforming vision of spirituality that examines the intricate connectedness of the physical and spiritual worlds, a phenomenon she calls the "field of compassion." In the tradition of Teilhard de Chardin and Thomas Berry, Judy Cannato invites spiritual seekers to embrace the way in which an understanding of religion and the spiritual path is informed and illumined by cutting-edge science. Cannato's newest book is a must-read for those interested in how the new cosmology and the Christian story can be understood in harmony with one another. She shows how modern scientific discoveries demonstrate that at the most fundamental of levels all life is connected and that humankind participates in the unfolding of the universe. This book's compelling and radical call to transformation will inspire readers to choose collaboration and peace over competition and conflict.

The Lost Art of Healing

First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

Field of Compassion

For the first time ever, Nobel Peace Prize Laureate His Holiness the Dalai Lama addresses children directly, sharing lessons of peace and compassion, told through stories of his own childhood. One of today's most inspiring world leaders was once an ordinary child named Lhamo Thondup. In a small village in Tibet, his mother was his first great teacher of compassion. In everyday moments from his childhood, young readers begin to see that important lessons are all around us, and that they, too, can grow to truly understand them. With simple, powerful text, the Dalai Lama shares the universalist teachings of treating one another with compassion, which Bao Luu illustrates beautifully in vibrant color. In an increasingly confusing world, *The Seed of Compassion* offers guidance and encouragement on how we all might bring more kindness to it.

Compassion Fatigue

A prominent Zen teacher offers a "direct, penetrating, and powerful" perspective on a popular mind training practice of Tibetan Buddhism (Rick Hanson, author of *Buddha's Brain*) Lojong is the Tibetan Buddhist practice of working with short phrases (called "slogans") to generate bodhichitta, the heart and mind of enlightened compassion. With roots tracing back to the 900 A.D., the practice has gained more Western adherents over the past two decades, partly due to the influence of American Buddhist teachers like Pema Chödrön. Its effectiveness and accessibility have moved the practice out of its Buddhist context and into the lives of non-Buddhists across the world. It's in this spirit that Norman Fischer offers his unique, Zen-based commentary on the Lojong. Though traditionally a practice of Tibetan Buddhism, the power of the Lojong extends to other Buddhist traditions—and even to other spiritual traditions as well. As Fischer explores the 59 slogans through a Zen lens, he shows how people from a range of faiths and backgrounds can use Lojong to generate the insight, resilience, and compassion they seek.

The Seed of Compassion

The secret to happiness is to acknowledge and transform suffering, not to run away from it. Here, Thich Nhat Hanh offers practices and inspiration transforming suffering and finding true joy. Thich Nhat Hanh acknowledges that because suffering can feel so bad, we try to run away from it or cover it up by consuming. We find something to eat or turn on the television. But unless we're able to face our suffering, we can't be present and available to life, and happiness will continue to elude us. Nhat Hanh shares how the practices of stopping, mindful breathing, and deep concentration can generate the energy of mindfulness within our daily lives. With that energy, we can embrace pain and calm it down, instantly bringing a measure of freedom and a clearer mind. No Mud, No Lotus introduces ways to be in touch with suffering without being overwhelmed by it. "When we know how to suffer," Nhat Hanh says, "we suffer much, much less." With his signature clarity and sense of joy, Thich Nhat Hanh helps us recognize the wonders inside us and around us that we tend to take for granted and teaches us the art of happiness.

Training in Compassion

Despite all of our best intentions, communication is still a challenge for most of us. How do we say what we mean in a way that the other person can really hear? How can we learn to listen with compassion and understanding? Why do people communicate so differently and how can we reach across our differences to strengthen our relationships? Using examples from his own experience working with couples, families, workplace colleagues, and international conflicts, celebrated spiritual leader Thich Nhat Hanh reveals five steps to truly mindful communication.

No Mud, No Lotus

This full-color picture book written for school age children shows the famous Upledger Technique's 'Healing Hands' program at work with children. Conducted at schools around the country, the program teaches children—at a young age—the importance of compassion and caring for others. Children have shown remarkable behavioral improvements after participating in this recognized worldwide program.

The Art of Communicating

The on-trend notion of self-compassion, in book form: an interactive book packed with thoughtful reading, beautiful illustration, and paper goodies throughout to help readers slow down and be kind to themselves, from the experts at Flow.

I Can Show You I Care

There is good and increasing evidence that cultivating compassion for one's self and others can have a profound impact on our physiological, psychological and social processes. In contrast, concerns with inferiority, shame and self-criticism can have very negative impacts on these processes and are associated with poorer physical and mental health. The Compassionate Mind Workbook is for anyone who is interested in how compassion - in the form of ideas and practices derived from Compassion Focused Therapy (CFT) and other approaches - may help us to engage with, understand and ultimately, try to alleviate suffering. CFT utilises both Buddhist practices and Western psychological science. It draws on neuroscience, insights into emotion regulation and identity formation, interpersonal psychology and a range of psychotherapeutic models. CFT-based interventions can help people with a range of mental health problems develop compassion for themselves, be open to the compassion of others and develop compassion for others. This workbook is a step-by-step guide to CFT, in which the chapters build your understanding of yourself, the skills that give rise to a compassionate mind, and ways to work with whatever difficulties you're struggling with in life. The exercises, prompts and case stories in this book provide an understandable and practical way to develop compassion.

The lost art of happiness

DAILY MAIL, GUARDIAN AND OBSERVER BOOKS OF THE YEAR 2017 Winner of the 2018 PEN/E.O. Wilson Prize for Literary Science Writing Shortlisted for the 2018 Wellcome Book Prize and the 2018 Wolfson History Prize The story of a visionary British surgeon whose quest to unite science and medicine delivered us into the modern world - the safest time to be alive in human history In *The Butchering Art*, historian Lindsey Fitzharris recreates a critical turning point in the history of medicine, when Joseph Lister transformed surgery from a brutal, harrowing practice to the safe,

vaunted profession we know today. Victorian operating theatres were known as 'gateways of death', Fitzharris reminds us, since half of those who underwent surgery didn't survive the experience. This was an era when a broken leg could lead to amputation, when surgeons often lacked university degrees, and were still known to ransack cemeteries to find cadavers. While the discovery of anaesthesia somewhat lessened the misery for patients, ironically it led to more deaths, as surgeons took greater risks. In squalid, overcrowded hospitals, doctors remained baffled by the persistent infections that kept mortality rates stubbornly high. At a time when surgery couldn't have been more dangerous, an unlikely figure stepped forward: Joseph Lister, a young, melancholy Quaker surgeon. By making the audacious claim that germs were the source of all infection - and could be treated with antiseptics - he changed the history of medicine forever. With a novelist's eye for detail, Fitzharris brilliantly conjures up the grisly world of Victorian surgery, revealing how one of Britain's greatest medical minds finally brought centuries of savagery, sawing and gangrene to an end. 'A brilliant and gripping account of the almost unimaginable horrors of surgery and post-operative infection before Joseph Lister transformed it all' Henry Marsh, author of *Do No Harm*

A Book That Loves You

How do we define compassion? Is it an emotional state, a motivation, a dispositional trait, or a cultivated attitude? How does it compare to altruism and empathy? Chapters in this Handbook present critical scientific evidence about compassion in numerous conceptions. All of these approaches to thinking about compassion are valid and contribute importantly to understanding how we respond to others who are suffering. Covering multiple levels of our lives and self-concept, from the individual, to the group, to the organization and culture, *The Oxford Handbook of Compassion Science* gathers evidence and models of compassion that treat the subject of compassion science with careful scientific scrutiny and concern. It explores the motivators of compassion, the effect on physiology, the co-occurrence of wellbeing, and compassion training interventions. Sectioned by thematic approaches, it pulls together basic and clinical research ranging across neurobiological, developmental, evolutionary, social, clinical, and applied areas in psychology such as business and education. In this sense, it comprises one of the first multidisciplinary and systematic approaches to examining compassion from multiple perspectives and frames of reference. With contributions from well-established scholars as well as young rising stars in the field, this Handbook bridges a wide variety of diverse perspectives, research methodologies, and theory, and provides a foundation for this new and rapidly growing field. It should be of great value to the new generation of basic and applied researchers examining compassion, and serve as a catalyst for academic researchers and students to support and develop the modern world.

The Compassionate Mind Workbook

The Butchering Art
