The Making of Pakistan

Biography of Choudhary Rahmat Ali, 1893-1951, foreign-based political activist who was the first to propose the name 'Pa3stan', later named Pakistan, for a separate and independent homeland for the Indian Muslims.

The Making of Pakistan

Winner of the 2021 Overseas Press Club of America Cornelius Ryan Award The former New York Times Pakistan bureau chief paints an arresting, up-close portrait of a fractured country. Declan Walsh is one of the New York Times's most distinguished international correspondents. His electrifying portrait of Pakistan over a tumultuous decade captures the sweep of this strange, wondrous, and benighted country through the dramatic lives of nine fascinating individuals. On assignment as the country careened between crises, Walsh traveled from the raucous port of Karachi to the salons of Lahore, and from Baluchistan to the mountains of Waziristan. He met a diverse cast of extraordinary Pakistanis—a

chieftain readying for war at his desert fort, a retired spy skulking through the borderlands, and a crusading lawyer risking death for her beliefs, among others. Through these “nine lives” he describes a country on the brink—a place of creeping extremism and political chaos, but also personal bravery and dogged idealism that defy easy stereotypes. Unbeknownst to Walsh, however, an intelligence agent was tracking him. Written in the aftermath of Walsh’s abrupt deportation, *The Nine Lives of Pakistan* concludes with an astonishing encounter with that agent, and his revelations about Pakistan’s powerful security state. Intimate and complex, attuned to the centrifugal forces of history, identity, and faith, *The Nine Lives of Pakistan* offers an unflinching account of life in a precarious, vital country.

A History of the Idea of Pakistan

Among U.S. allies in the war against terrorism, Pakistan cannot be easily characterized as either friend or foe. Nuclear-armed Pakistan is an important center of radical Islamic ideas and groups. Since 9/11, the selective cooperation of president General Pervez Musharraf in sharing intelligence with the United States and apprehending al Qaeda members has led to the assumption that Pakistan might be ready to give up its longstanding ties with radical Islam. But Pakistan's status as an Islamic ideological state is closely linked with the Pakistani elite's worldview and the praetorian ambitions of its military. This book analyzes the origins of the relationships between Islamist groups and Pakistan's military, and explores the nation's quest for identity and security. Tracing how the military has sought U.S. support by making itself useful for concerns of the moment—while continuing to strengthen the mosque-military alliance within Pakistan—Haqqani offers an alternative view of political developments since the country's independence in 1947.

The Murder of History

In a probing biography of her native land, Ayesha Jalal provides a unique insider's assessment of how the nuclear-armed Muslim nation of Pakistan evolved into a country besieged by military domination and militant religious extremism, and explains why its dilemmas weigh so heavily on prospects for peace in the region.

A History of the Idea of Pakistan

"Lieven's eye for detail, command of subcontinental history, and old-fashioned shoe-leather reporting make this...an excellent primer on Pakistan."--"Wall Street Journal"

Rahmat Ali

Die Reihe Islamkundliche Untersuchungen wurde 1969 im Klaus Schwarz Verlag begründet und hat sich zu einem der wichtigsten Publikationsorgane der Islamwissenschaft in Deutschland entwickelt. Die über 330 Bände widmen sich der Geschichte, Kultur und den Gesellschaften Nordafrikas, des Nahen und Mittleren Ostens sowie Zentral-, Süd- und Südost-Asiens.

The Pakistani Historian

"The book is an eyewitness account of the events that led to a civil war in East Pakistan, which culminated in the creation of Bangladesh .. Rao Farman Ali brings to light the political undercurrents and aspects of the military conflict generally not known. His personal interactions with both, the Bengali and West Pakistani politicians, as well as the military commanders, gave him a unique vantage point to analyse the events and decisions taken that led to the fateful day 16 December 1971 the division of Pakistan."--Provided by publisher.

The Nine Lives of Pakistan

Among the problems facing Sindh today, ethnic militarism, sectarian extremism, and political terrorism have acquired menacing proportions. The book is an attempt to seriously and frankly analyse the current problems of Sindh.

The Struggle for Pakistan

A reappraisal of the tumultuous Partition and how it ignited long-standing animosities between India and Pakistan This new edition of Yasmin Khan's reappraisal of the tumultuous India-Pakistan Partition features an introduction reflecting on the latest research and on ways in which commemoration of the Partition has changed, and considers the Partition in light of the current refugee crisis. Reviews of the first edition: "A riveting book on this terrible story."—Economist "Unsparing. . . . Provocative and painful."—Times (London) "Many histories of Partition focus solely on the elite policy makers. Yasmin Khan's empathetic account gives a great insight into the hopes, dreams, and fears of the millions affected by it."—Owen Bennett Jones, BBC

The Coffee House of Lahore, a Memoir 1942-57

This book examines the rise of religious extremism in Pakistan, particularly since 1947, and analyzes its connections to the Pakistani army's corporate interests and U.S.-Pakistan relations. It includes profiles of leading Pakistani militant groups with details of their origins, development, and capabilities. The author begins with an historical overview of the introduction of Islam to the Indian sub-continent in 712 AD, and brings the story up to the present by describing President Musharraf's handling of the war on terror. He provides a detailed account of the political developments in Pakistan since 1947 with a focus on the influence of religious and military forces. He also discusses regional politics, Pakistan's attempt to gain nuclear power status, and U.S.-Pakistan relations, and offers predictions for Pakistan's domestic and regional prospects.

Pakistan: a Hard Country

Moving from the elegant drawing rooms of Lahore to the mud villages of rural Multan, a powerful collection of short stories about feudal Pakistan. An impoverished young woman becomes a wealthy relative's mistress; an electrician on the make confronts his desperate assailant to protect his most prized possession; a farm manager rises far in the world—but his family discovers after his death the transience of power; a maid, who advances herself through sexual favours, unexpectedly falls in love. In these linked stories about the family and household staff of the ageing KK Harouni, we meet masters and servants, landlords and supplicants, politicians and electricians, village women, and Karachi housewives. Part Chekhov, part RK Narayan, these stories are dark and light, complex and humane; at heart about the relationship between the powerful and powerless, bound together in life—and in death. Together they make up a vivid portrait of a feudal world rarely brought alive in the English language. Sensuous, graceful, melancholy, *In Other Rooms, Other Wonders* gives you Pakistan as you have never seen it. It marks the debut of an amazing new talent.

Studies in history and politics

This book traces the economic history of the Muslims from the fall of the Mughal Empire to Independence. It shows how, with the coming of the British, a new economic structure emerged in the Indian subcontinent under which the Muslims lost not only their political power but also their economic standing, and then shows how fear of continued economic deprivation fueled the demand for Partition.

Party Politics in Pakistan, 1947-1958

This comprehensive one-volume history of Pakistan covers contemporary crises in the perspective of the subcontinent's ancient and medieval history to explain how Muslim nationalism emerged and how the community interacted with the other communities in the region. The author breaches the confines of political history to depict the intellectual, economic, diplomatic, and cultural history of Pakistan.

Religion, Land and Politics in Pakistan

"Discusses the fundamental assumptions regarding the foundations of Pakistani nationalism as well as our current understanding of the roots of its postcolonial identity crisis"--

Britain and Muslim India

Pakistan's transformation from supposed model of Muslim enlightenment to a state now threatened by an Islamist takeover has been remarkable. Many account for the change by pointing to Pakistan's controversial partnership with the United States since 9/11; others see it as a consequence of Pakistan's long history of authoritarian rule, which has marginalized liberal opinion and allowed the rise of a religious right. Farzana Shaikh argues the country's decline is rooted primarily in uncertainty about

the meaning of Pakistan and the significance of 'being Pakistani'. This has pre-empted a consensus on the role of Islam in the public sphere and encouraged the spread of political Islam. It has also widened the gap between personal piety and public morality, corrupting the country's economic foundations and tearing apart its social fabric. More ominously still, it has given rise to a new and dangerous symbiosis between the country's powerful armed forces and Muslim extremists. Shaikh demonstrates how the ideology that constrained Indo-Muslim politics in the years leading to Partition in 1947 has left its mark, skillfully deploying insights from history to better understand Pakistan's troubled present.

The Murder of History

Every generation needs to reinterpret its great men of the past. Akbar Ahmed, by revealing Jinnah's human face alongside his heroic achievement, both makes this statesman accessible to the current age and renders his greatness even clearer than before. Four men shaped the end of British rule in India: Nehru, Gandhi, Mountbatten and Jinnah. We know a great deal about the first three, but Mohammed Ali Jinnah, the founder of Pakistan, has mostly either been ignored or, in the case of Richard Attenborough's hugely successful film about Gandhi, portrayed as a cold megalomaniac, bent on the bloody partition of India. Akbar Ahmed's major study redresses the balance. Drawing on history, semiotics and cultural anthropology as well as more conventional biographical techniques, Akbar S. Ahmad presents a rounded picture of the man and shows his relevance as contemporary Islam debates alternative forms of political leadership in a world dominated (at least in the Western media) by figures like Colonel Gadaffi and Saddam Hussein.

Sir Sayyid Ahmad Khan and the Muslim Cause in British India

"A Pocket History of the United States" traces the history of the nation that is, today, the oldest constitutional democracy in the world. Written by distinguished American historians, it has more than 2,000,000 copies in print worldwide and is one of the classic works in its field.
