The Age of Elizabeth in the Age of Johnson

In *The Age of Elizabeth in the Age of Johnson*, Jack Lynch explores eighteenth-century British conceptions of the Renaissance, and the historical, intellectual, and cultural uses to which the past was put during the period. Scholars, editors, historians, religious thinkers, linguists and literary critics of the period all defined themselves in relation to 'the last age' or 'the age of Elizabeth'. Seventeenth- and eighteenth-century thinkers reworked older historical schemes to suit their own needs, turning to the ages of Petrarch and Poliziano, Erasmus and Scaliger, Shakespeare, Spenser, and Queen Elizabeth to define their culture in contrast to the preceding age. They derived a powerful sense of modernity from the comparison, which proved essential to the constitution of a national character. This interdisciplinary study will be of interest to cultural as well as literary historians of the eighteenth century.

No major author worked in more genres than Samuel Johnson—essays, poetry, fiction, criticism, biography, scholarly editing, lexicography, translation, sermons, journalism. His works are more extensive than those of any other canonical English writer, and no earlier writer's life was documented as thoroughly by contemporaries. Because it's so difficult to know him thoroughly, people have made do with surrogates and simplifications. But Johnson was much more complicated than the popular

image of 'Dr. Johnson' suggests: socially conservative but also one of the most radical abolitionists of his age, a firm believer in social hierarchy but an outspoken supporter of women intellectuals, an uncompromising Christian moralist but also a penetrating critic of family structures. Labels fit him poorly. In *The Oxford Handbook of Samuel Johnson*, an international team of thirty-six scholars offers the most comprehensive examination ever attempted of one of the most complex figures in English literature. The book's first section examines Johnson's life and the texts of his works; the second, organized by genre, explores all his major works and many of his minor ones; the third, organized by topic, covers the subjects that were most important to him as a writer, as a thinker, and as a moralist.

The Age of Johnson

The move to a new publisher has given *The Age of Johnson: A Scholarly Annual* the opportunity to recommit to what it does best: present to a wide readership cant-free scholarly articles and essays and searching book reviews, all featuring a wide variety of approaches, written by both seasoned scholars and relative newcomers. Volume 24 features commentary on a range of Johnsonian topics: his reaction to Milton, his relation to the Allen family, his notes in his edition of Shakespeare, his use of Oliver Goldsmith in his Dictionary, and his always fascinating *Nachleben*. The volume also includes articles on topics of strong interest to Johnson: penal reform, Charlotte Lennox's professional literary career, and the "conjectural history" of Homer in the eighteenth century. For more than two decades, *The Age of Johnson* has presented a vast corpus of Johnsonian studies "in the broadest sense," as founding editor Paul J. Korshin put it in the preface to Volume 1, and it has retained the interest of a wide readership. In thousands of pages of articles, review essays, and reviews, *The Age of Johnson* has made a permanent contribution to our understanding of the eighteenth century, and particularly of Samuel Johnson, his circle, and his interests, and has also served as an outlet for writers who are not academics but have something important to say about the eighteenth century. Syllabus of a Course of Six Lectures on the Age of Elizabeth

Samuel Johnson is often represented as primarily antagonistic or antipathetic to Milton. Yet his imaginative and intellectual engagement with Milton's life and writing extended across the entire span of his own varied writing career. As essayist, poet, lexicographer, critic and biographer - above all as reader - Johnson developed a controversial, fascinating and productive literary relationship with his powerful predecessor. To understand how Johnson creatively appropriates Milton's texts, how he critically challenges yet also confirms Milton's status, and how he constructs him as a biographical subject, is to deepen the modern reader's understanding of both writers in the context of historical continuity and change. Christine Rees's insightful study will be of interest not only to Milton and Johnson specialists, but to all scholars of early modern literary history and biography.

Dr Johnson's friendships with the leading women writers of the day was an important feature of his life and theirs. He was willing to treat women as intellectual equals and to promote their careers: something ignored by his main biographer, James Boswell. *Dr Johnson's Women* investigates the lives and writings of six leading female authors Johnson knew well: Elizabeth Carter, Charlotte Lennox, Elizabeth Montagu, Hester Thrale, Hannah More and Fanny Burney. It explores their relationships with Johnson, with each other and with the world of letters. It shows what it was like to be a woman writer in the 'Age of Johnson'. It is often assumed that women writers in the eighteenth century suffered the same restrictions and obstacles that confronted their Victorian successors. Norma Clarke shows that this was by no means the case. Highlighting the opportunities available to women of talent in the eighteenth century, *Dr Johnson's Women* makes clear just how impressive and varied their achievements were.

During the later eighteenth century, changes in the meaning and status of literature left popular sentimental novels stranded on the margins of literary history. While critics no longer dismiss or ignore these works, recent reassessments have emphasized their interventions in various political and cultural debates rather than their literary significance. *Sentimental Memorials*, by contrast, argues that sentimental novels gave the women who wrote them a means of clarifying, protesting, and finally memorializing the historical conditions under which they wrote. As women writers successfully navigated the professional marketplace but struggled to position their works among more lasting literary monuments, their novels reflect on what the elevation of literature would mean for women's literary reputations. Drawing together the history of the novel, women's literary history, and book history, Melissa Sodeman revisits the critical frameworks through which we have understood the history of literature. Novels by Sophia Lee, Ann Radcliffe, Charlotte Smith, and Mary Robinson, she argues, offer ways of rethinking some of the signal literary developments of this period, from emerging notions of genius and originality to the rise of an English canon. And in Sodeman's analysis, novels long seen as insufficiently literary acquire formal and self-historicizing importance.

The Age of Elizabeth (1547-1603)

Seventeen essays explore the complex relationships between literary intentions and theological concerns of authors writing in the second half of the eighteenth century. The diversity of literary forms and subjects, from Fielding and Richardson to Burke and Wollstonecraft, is matched by a diversity of theologies; to argue that the age “resisted secularism” is by no means to argue that that resistance was blindly doctrinal or rigidly uniform; the many ways secularism could be resisted is the subject of the collection

The World of Elizabeth Inchbald

“Spring 2021’s most compulsively readable biography-meets-memoir tells the story of two women, a century apart, discovering themselves and redefining beauty and success on their own terms.” In 1908, Florence Nightingale Graham moved from the suburbs of Toronto, Canada to Manhattan with dreams of becoming a self-made woman. Within two years, she opened her first beauty salon on Fifth Avenue. Adopting the same name as her company, Elizabeth Arden went on to pioneer the global beauty industry (valued at \$532 billion today). At a time when women didn’t have the right to vote, Elizabeth became one of the wealthiest self-made women in the world and the first businesswoman to grace the cover of Time magazine. By the end of the 1930s, it was said “there are only three American names known in every single corner of the globe: Singer Sewing, Coca Cola, and Elizabeth Arden.” One hundred years later, in 2008, at the age of eighteen, Louise Johnson moved from the suburbs of Toronto, Canada to Manhattan to begin her dream internship at the cosmetic giant, Elizabeth Arden. She knew nothing about the beauty industry, but was fascinated by the woman behind the brand whose inspiring legacy was at risk of falling through the cracks of history. Although they lived a century apart, Elizabeth became Louise’s invisible guide as she tried her “successful” lifestyle on for size, with a big career in a big city—but behind the glitz and the glamour, they soon struggled to recognize their true selves. Who are we really behind the makeup we put on our faces? Behind the social media highlight reels? Behind the personas we (consciously and subconsciously) present to the world? This book brings you behind the red doors of Arden, while Louise’s story serves to highlight how much (or how little) has changed a century later. What began as a desire to preserve Elizabeth’s place in history, evolved into an examination of her coming-of-age in the beauty industry and a cultural excavation on a much larger thread that connects us all. Ultimately, this book is about identity and how we learn to navigate the world to find our best self, even if it’s on a different path than we originally anticipated.

The Encyclopedia of British Literature, 3 Volume Set

The seventeenth and eighteenth centuries in Britain saw the proposal of so many endeavors called “projects”—a catchphrase for the daring, sometimes dangerous practice of shaping the future—that

Daniel Defoe dubbed his era a "Projecting Age." These ideas spanned a wide variety of scientific, technological, and intellectual interventions intended for the betterment of England. But for all the fanfare surrounding them, few such schemes actually materialized, leaving scores of defunct visions, from Defoe's own attempt to farm cats for perfume, to Mary Astell's proposal to charter a college for women, to countless ventures for improving land, streamlining government, and inventing new consumer goods. Taken together, these failed plans form a compelling alternative history of a Britain that might have been. *The Wreckage of Intentions* offers a comprehensive and critical account of projects, exploring the historical memory surrounding these concrete yet incomplete efforts to advance British society during a period defined by revolutions in finance and agriculture, the rise of experimental science, and the establishment of constitutional monarchy. Using methods of literary analysis, David Alff shows how projects began as written proposals, circulated as print objects, spurred physical undertakings, and provoked responses in the realms of poetry, fiction, and drama. Mapping this process discloses the ways in which eighteenth-century authors applied their faculties of imagination to achieve finite goals and, in so doing, devised new ways of seeing the world through its future potential. Approaching old projects through the language, landscapes, data, and personas they left behind, Alff contends this vision was, and remains, vital to the functions of statecraft, commerce, science, religion, and literature.

Behind the Red Door

Comparatively little is known about Shakespeare's first audiences. This study argues that the Elizabethan audience is an essential part of Shakespeare as a site of cultural meaning, and that the way criticism thinks of early modern theatregoers is directly related to the way it thinks of, and uses, the Bard himself.

The Wreckage of Intentions

Contains essays and studies by critics and cultural historians from both hemispheres as well as substantial reviews of books and essays dealing with medieval and early modern English drama before 1642. This volume addresses the conditions of theatrical ownership and dramatic competition to those exploring stage movement and theatrical space.

The World Displayed

In the most comprehensive and up-to-date overview of the poetry published in Britain between the Restoration and the end of the eighteenth century, forty-four authorities from six countries survey the poetry of the age in all its richness and diversity—serious and satirical, public and private, by men and women, nobles and peasants, whether published in deluxe editions or sung on the streets. The contributors discuss poems in social contexts, poetic identities, poetic subjects, poetic form, poetic genres, poetic devices, and criticism. Even experts in eighteenth-century poetry will see familiar poems from new angles, and all readers will encounter poems they've never read before. The book is not a chronologically organized literary history, nor an encyclopaedia, nor a collection of thematically related essays; rather it is an attempt to provide a systematic overview of these poetic works, and to restore it to a position of centrality in modern criticism.

Imagining Shakespeare's Original Audience, 1660-2000

'A Baedeker of the past, absorbing and revealing in equal measure' Peter Ackroyd 'Brings the age's tortuous splendours and profound murkiness vividly to life' Observer When Dr Johnson published his great Dictionary in 1755, London was the biggest city in Europe. The opulence of the rich and the comfort of the 'middling' sort contrasted sharply with the back-breaking labour and pitiful wages of the poor. Executions were rated one of the best amusements, but there was bullock-hunting and cock-fighting too. Crime, from pickpockets to highwaymen, was rife, prisons were poisonous and law-enforcement rudimentary. Dr Johnson's London is the result of the author's passionate interest in the practical details of the everyday life of our ancestors: the streets, houses and gardens; cooking, housework, laundry and shopping; clothes and cosmetics; medicine, sex, hobbies, education and etiquette. The book spans the years 1740 to 1770, starting when the gin craze was gaining ground and ending when the east coast of America was still British. While brilliantly recording the strangeness and individuality of the past, Dr Johnson's London continually reminds us of parallels with the present day.

Medieval and Renaissance Drama in England

This book is the first to assess Johnson's diverse insights into friendship—that is to say, his profound as well as widely ranging appreciation of it—over the course of his long literary career. It examines his engagements with ancient philosophies of friendship and with subsequent reformulations of or departures from that diverse inheritance. The volume explores and illuminates Johnson's understanding of friendship in the private and public spheres—in particular, friendship's therapeutic amelioration of personal experience and transformative impact upon civil life. Doing so, it considers both his portrayals of interaction with his friends and his more overtly fictional representations of friendship across the many genres in which he wrote. It presents at once an original re-assessment of Johnson's writings and new interpretations of friendship as an element of civility in mid-eighteenth-century British culture.

The Oxford Handbook of British Poetry, 1660-1800

In the first collection devoted to mentoring relationships in British literature and culture, the editor and contributors offer a fresh lens through which to observe familiar and lesser known authors and texts. Employing a variety of critical and methodological approaches, which reflect the diversity of the mentoring experiences under consideration, the collection highlights in particular the importance of mentoring in expanding print culture. Topics include John Wilmot the Earl of Rochester's relationships to a range of role models, John Dryden's mentoring of women writers, Alexander Pope's problematic attempts at mentoring, the vexed nature of Jonathan Swift's cross-gender and cross-class mentoring relationships, Samuel Richardson's largely unsuccessful efforts to influence Urania Hill Johnson, and an examination of Elizabeth Carter and Samuel Johnson's as co-mentors of one another's work. Taken together, the essays further the case for mentoring as a globally operative critical concept, not only in the eighteenth century, but in other literary periods as well.

The Graveyards of Boston

Dead Masters examines the dual issues of mentoring and intertextuality as an integrated phenomenon. Through a series of fresh and novel readings of Johnsonian and Boswellian texts, the book further advances our awareness of the formal complexities of Johnson's writings and the psychological substratum from which they issue.

Dr Johnson's London

This book looks broadly at how the contentious relationships between the media and US President Lyndon B. Johnson affected the national consciousness during the turbulent period of his leadership. Johnson had to deal with a particularly difficult and divisive period in American history and his relationship with the press undoubtedly contributed to an atmosphere of friction within the United States. A more specific purpose of this research monograph is ultimately to shine a light on the trials and tribulations that Johnson faced as a president dealing with new forms of communication in the 1960s. It aims to show the difficulties that he had in adapting a very personal style of leadership – which had served him well in the Senate – in the role he undertook as leader of a nation. Further to this, it builds on this foundation to argue that Johnson developed a reactive, passive stance to dealing with the media, one that ultimately contributed to a loss in popularity and status as leader – a blow he never recovered from during his time in office.

Samuel Johnson and the Powers of Friendship

The Merchant Of Venice Bases Its Dramatic Logic On The New Testament Premise That You Get What You Give, And The Play S Consistent Enactment Of This Looking-Glass Logic Creates A World In Which Mirroring Is A Major Internal Principle Of Order. The Indian Philosophy, Distilled In Our Vedas, Puranas And Epics, Speaks In Almost The Same Vein. Shylock Is Cunning, Cruel And Implacable. For Centuries, The Shylocks Of India, In Various Garbs, Have Tried And Succeeded Partially, To Get Their Pounds Of Flesh From Their Victims. Usury Was Condemned In The Elizabethan Period But We, In India, Still Nourish It. Secondly, Shylock S Sense Of Jessica Is Anti-Human As Well As Anti-Social. He Is Aware Of Her As Of An Item Of Inventory, As Many Father, In India, Do With Their Daughters. Bassanio Must Have Learnt From Shylock S Example: A Wrong, Even A Small One, Is Always A Wrong And Calls Forth Its Own Punishment Automatically, For, As We Shall See, In Dr. Agarwalla S Interpretation Of The Play, The Law Sleeps Only Until Unoffended, When It Reacts By Reflecting The Offence In Kind. The Law Has No Power To Make Anyone Choose To Do Right, It Can Only Punish Those Who Do Wrong. The Prince Of Morocco, Like Any Prince Of Yester-Years, In India, Is Chivalrous, Amorous, Gracious And Sexually Virile. It Was Unkind Of Portia To Say Uncomplimentary Words For Him But She, Like White-Skinned Ladies, Have Always Done So In The Past And Are Doing It, At Present. Thus The Merchant Of Venice Is As Much Relevant To Indians As It Was And Is To The English And To The World, In General. Dr. Shyam S. Agarwalla Gives A New Approach, A New Presentation And A New Direction To The Reading And Critical Analysis Of The Play. At Times, His Critical Examination Of The Play Is Unconventional, Provocative But Nonetheless Educative. That Marks Him Off From Other Indian Editors Of The Merchant.

The Salon and English Letters

Using Britannia as a central figure, this book explores the neglected relationship between women, church, and nation. Drawing on a wealth of manuscript, printed, and graphic material, Emma Major argues that Britannia became established as an emblem of nation from 1688 and gained in importance over the following century.
