Redemption Ark

The Inhibitors are back and Humanity is doomed! Many, many millennia ago, the Inhibitors seeded the universe with machines designed to detect intelligent life - and then to suppress it. But after hundreds of millions of years, the machines started to fail and intelligent cultures started to emerge. Then Dr Dan Sylveste and the crew of Infinity discovered what had happened to the long-vanished Amarantin race ... and awakened the Inhibitors. On Yellowstone, where no one is quite who they appear, the Inquisitor and the planet's Most Wanted War Criminal are watching as the Inhibitors turn a small group of planets into raw materials. Whatever they are building with those materials is not going to be good for Humanity. Once again, Al Reynolds has produced a stunning, universe-spanning space opera of mind-blowing proportions. Big in size, big in concepts, REDEMPTION ARK will leave you gasping at its audacity and breathless at its conclusion. This is British SF at its absolute best.

Revelation Space Trilogy

Gathered here for the first time are Alastair Reynolds' stories and novelettes set in the universe of REVELATION SPACE, his first bestselling blockbuster.

Galactic North

Come to Chasm City and embark on a mind-bending ride through the universe of Revelation Space. Tanner Mirabel was a security specialist who never made a mistake - until the day a woman in his care was blown away by Argent Reivich, a vengeful young postmortal. Tanner's pursuit of Reivich takes him across light-years of space to Chasm City, the domed human settlement on the otherwise inhospitable planet of Yellowstone. But Chasm City is not what it was. The one time high-tech utopia has become a Gothic nightmare: a nanotechnological virus has corrupted the city's inhabitants as thoroughly as it has the buildings and machines. Before the chase is done, Tanner will have to confront truths which reach back centuries, towards deep space and an atrocity history barely remembers.

Chasm City

Take another awe-inspiring leap into the darkly imagined future of REVELATION SPACE, where it is time for Humanity to meet its Unmakers. Mankind has endured centuries of horrific plague and a particularly brutal interstellar war ... but there is still no time for peace and quiet. Stirred from aeons of sleep, the Inhibitors - ancient alien killing machines - have begun the process of ridding the galaxy of its latest emergent intelligence: mankind. As a ragtag bag of refugees fleeing the first wave of the cull head towards an apparently insignificant moon light-years away, they discover an avenging angel, a girl born in ice. She has the power to lead mankind to safety, and the ability to draw down their darkest enemy. And on a planet where vast travelling cathedrals crawl towards the treacherous fissure known as Absolution Gap, an unsettling truth becomes apparent: to beat one enemy, it may be necessary to forge an alliance with something much, much worse ...

Absolution Gap

A forgotten enemy. An old adversary. A terrible alliance. From a ruined world at the end of time, the vicious Sild make preparations to conquer the past and rewrite history. But to do it they will need to enslave an intellect greater than their own... On Earth, UNIT is called in to examine a mysterious incident on a North Sea drilling platform. They've hardly begun, though, when something even stranger takes hold: The Brigadier and others are starting to forget about UNIT's highest-profile prisoner. As the Sild invasion begins, the Doctor faces a terrible dilemma. To save the universe, he must save his arch-nemesis... The Master.

Doctor Who: Harvest of Time

Miguel de Ruyter is a man with a past. Fleeing the 'wolves' - the xenocidal alien machines known as Inhibitors - he has protected his family and community from attack for forty years, sheltering in the caves of an airless, battered world called Michaelmas. The slightest hint of human activity could draw the wolves to their home, to destroy everything ... utterly. Which is how Miguel finds himself on a one-way mission with his own destructive mandate: to eliminate a passing ship, before it can bring unwanted attention down on them. Only something goes wrong. There's a lone survivor. And she knows far more about Miguel than she's letting on . . . Ranging from the depths of space to the deeps of Pattern Juggler waters, from nervous, isolated communities to the ruins of empire, this is a stealthy space opera from an author at the top of his game. Praise for Al Reynolds' Revenger 'A swashbuckling thriller' The Guardian 'A blindingly clever imagining of our solar system in the far flung future' The Sun 'A rollicking adventure yarn with action, abduction, fights and properly scary hazards' The Daily Telegraph 'By far the most enjoyable book Reynolds has ever written' SFX

Part SF thriller, part interstellar adventure, part noir crime, CENTURY RAIN is as astonishing bestseller from Alastair Reynolds Three hundred years in the future, Verity Auger is a specialist in the archaeological exploration of Earth, rendered uninhabitable after the technological catastrophe known as the Nanocaust. After a field-trip goes badly wrong, Verity is forced to redeem herself by participating in a dangerous mission, for which her expertise is invaluable. Using a back door into an unstable alien transit system, Auger's faction has discovered something astonishing at the far end of a wormhole: mid twentieth-century Earth, preserved like a fly in amber. Is it a window into the past, a simulation, or something else entirely? CENTURY RAIN is a jaw-droppingly good SF thriller, packed with pace, adventure, brilliant storytelling and with twists that will keep you guessing to the end.

Century Rain

This is an amazing collection of some of the best short fiction ever written in the SF genre, by an author acclaimed as 'the mastersinger of space opera' THE TIMES. With an introduction by noted SF critic Johnathan Strahan, this collection of twenty short stories, novellettes and novellas includes MINLA'S FLOWERS, SIGNAL TO NOISE, TROIKA, and seven previous uncollected stories, including TRAUMA POD, THE WATER THIEF and IN BABELSBERG. Alastair Reynolds has won the Sidewise Award and been nominated for The Hugo Awards for his short fiction. One of the most thought-provoking and accomplished short-fiction writers of our time, this collection is a delight for all SF readers

Beyond the Aquila Rift

Just when you thought it was safe to go back into interstellar space ... Alastair Reynolds burst onto the SF scene with the Arthur C. Clarke Award-shortlisted REVELATION SPACE, British Science Fiction Award-winning CHASM CITY, and REDEMPTION ARK. Now experience the phenomenal imagination and breathtaking vision of 'The most exciting space opera writer working today' (Locus) in these two tales of high adventure set in the same universe as his novels. The title story, 'Diamond Dogs', tells of a group of mercenaries trying to unravel the mystery of a particularly inhospitable alien tower on a distant world; 'Turquoise Days' is about Naqi, who has devoted her life to studying the alien Pattern Jugglers.

Diamond Dogs, Turquoise Days

Troika tells the story of men and women confronting an enigma known as the Matryoshka, a vast alien construct whose periodic appearances have generated terror, wonder, and endless debate. During its third "apparition" in a remote corner of the solar system, a trio of Russian cosmonauts approach this enigma and attempt to penetrate its mysteries. What they discover - and what they endure in the process - forms the centerpiece of an enthralling, constantly surprising narrative. Troika is at once a wholly original account of First Contact and a meditation on time, history, and the essentially fluid nature of identity itself. Suspenseful, erudite, and gracefully written, it is a significant accomplishment in its own right and a welcome addition to a remarkable body of work. -- dust jacket cover.

The legendary space opera that kicked off the ground-breaking, universe-spanning series. Nine hundred thousand years ago, something wiped out the Amarantin. For the human colonists now settling the Amarantin homeworld Resurgam, it's of little more than academic interest, even after the discovery of a long-hidden, almost perfect Amarantin city and a colossal statue of a winged Amarantin. For brilliant but ruthless scientist Dan Sylveste, it's more than merely intellectual curiosity - and he will stop at nothing to get at the truth. Even if the truth costs him everything. But the Amarantin were wiped out for a reason, and that danger is closer and greater than even Sylveste imagines ... REVELATION SPACE: a huge, magnificent space opera that ranges across the known and unknown universe ... towards the most terrifying of destinations. Readers are hooked on Revelation Space: 'An amazing blend of space opera, hard SF, and gothic horror that reads like a cross between Frank Herbert's "Dune" and Ridley Scott's film "Alien"' Goodreads reviewer, **★★★★** 'Marvellous hard space opera. Slowly built, with three story lines which at some point merge together, it depicts a very dark universe, full of technological wonders, both human and alien' Goodreads reviewer, **★★★★** 'Revelation Space series is one of the favourite favourites . . . Reynolds held me in thrall with his vision' Goodreads reviewer, **★★★★** 'The setting is a gritty, desolate, and unforgiving universe in which humanity finds itself in imminent danger of extinction . . . You know about Noah, but what about the animals? Thimblerig is a little groundhog with big problems. He's a loner con-artist who's losing his mojo; the wild dogs who run the forest harass him at every turn; he's started having vivid nightmares of apocalyptic floods; and worst of all - he believes he sees unicorns when everyone knows unicorns are only the stuff of legend. But what one animal calls problems, Thimblerig calls opportunity. His problems inspire him to come up with the ultimate con: convincing a group of gullible animals that a world-ending flood is coming, that the fabled unicorns have told him where the only safe place will be, and that only he can lead them to safety. And all for a reasonable price, of course. But when the flood really does come, Thimblerig has a choice to make: either he really does save the ones who have trusted him, or he loses everything. And he discovers that his problems have only just begun.

Thimblerig's Ark

Previously published as THE PREFECT. A rollercoaster ride through the dark and turbulent universe of REVELATION SPACE: an interstellar thriller where nothing - and no one - is what they seem ... Tom Dreyfus is a Prefect, a policeman of sorts, and one of the best. His force is Panoply, and his beat is the multi-faceted utopian society of the Glitter Band, that vast swirl of space habitats orbiting the

planet Yellowstone. These days, his job is his life. A murderous attack against a Glitter Band habitat is nasty, but it looks to be an open-and-shut case - until Dreyfus starts looking under some stones that some very powerful people would really rather stayed unturned. What he uncovers is far more serious than mere gruesome murder: a covert takeover bid by a shadowy figure, Aurora (who may once have been human but certainly isn't now), who believes the people of the Glitter Band should no longer be in charge of their own destiny. Dreyfus discovers that to save something precious, you may have to destroy part of it. 'An adroit and fast-paced blend of space opera and police procedural, original and exciting' George R. R. Martin

Aurora Rising

BLUE REMEMBERED EARTH is the first volume in a monumental trilogy tracing the Akinya family across more than ten thousand years of future history ... out beyond the solar system, into interstellar space and the dawn of galactic society. One hundred and fifty years from now, in a world where Africa is the dominant technological and economic power, and where crime, war, disease and poverty have been banished to history, Geoffrey Akinya wants only one thing: to be left in peace, so that he can continue his studies into the elephants of the Amboseli basin. But Geoffrey's family, the vast Akinya business empire, has other plans. After the death of Eunice, Geoffrey's grandmother, erstwhile space explorer and entrepreneur, something awkward has come to light on the Moon, and Geoffrey is tasked - well, blackmailed, really - to go up there and make sure the family's name stays suitably unblemished. But little does Geoffrey realise - or anyone else in the family, for that matter - what he's about to unravel. Eunice's ashes have already have been scattered in sight of Kilimanjaro. But the secrets she died with are about to come back out into the open, and they could change everything. Or shatter this near-utopia into shards ...

Blue Remembered Earth

Elysium Fire is a smoldering tale of murderers, secret cultists, tampered memories, and unthinkable power, of bottomless corruption and overpowering idealism from the king of modern space opera. Ten thousand city-state habitats orbit the planet Yellowstone, forming a near-perfect democratic human paradise. But even utopia needs a police force. For the citizens of the Glitter Band that organization is Panoply, and the prefects are its operatives. Prefect Tom Dreyfus has a new emergency on his hands. Across the habitats and their hundred million citizens, people are dying suddenly and randomly, victims of a bizarre and unprecedented malfunction of their neural implants. And these "melters" leave no clues behind as to the cause of their deaths. . . As panic rises in the populace, a charismatic figure is sowing insurrection, convincing a small but growing number of habitats to break away from the Glitter Band and form their own independent colonies.

Elysium Fire

Mwalgi pirates, parasitic aliens who consume human spinal fluid, are boarding the Noble Ark. When Larkin Trovgar, a half-human member of the attacking alien ship, turns on his own people, saving Aline Taylor's life, she feels duty-bound to watch over the impossible monstrosity. Despite his easy-going charms and virile physique, she's determined to see him as she would any Mwalgi-nothing better than an animal. As Larkin's presence brings out the best and worst in the human crew, and the Noble Ark is harassed by more Mwalgi ships, will Aline look past Larkin's alien heritage to find love, or will mistrust cost her everything?

"I've known the author, Audrey Levy, since college, and this is truly her story." --Jay Leno Jimmy Splendor was an atheist. When he woke up in Heaven, he didn't believe he was dead, and he certainly didn't believe he was in Heaven. Greeted by his father, whom he hated on Earth, Jimmy took off running for seven years Earth time (only a few minutes in Heaven). He finally met an angel named Oleo, who encouraged him to help his former wife, Noelle, who was still having severe nightmares years after Jimmy's passing. Jimmy and Oleo visit Noelle in her dreams, and stimulate her to write a book about her life in order to purge her emotional baggage. Through the innovative method of written conversations with the angels of her loved ones, including her parents, this compelling work of autobiographical fiction is deeply felt and personal. It is also particularly inspirational, in that it describes how one can use the process of writing to loved ones, who have passed, as a means of examining and dealing with the most painful episodes of one's life. Noelle's Ark is a powerfully cathartic and spiritual experience-one you will never forget.

The Ark (The Ark Trilogy, Book 1)

In 2020 an anonymous narrator, seemingly faced with the end of the world, is given the task of writing the tale of an unknown teenage girl from the remote Lake District town of Egremont. Using diary extracts, newspaper articles, personal interviews, military reports, journalist notebooks, and other more unconventional sources, the narrator lays down the foundations of a story that will grow to challenge what we see, what we feel, and what we believe about our past, our present, and our future. Continue the journey with Undon, book 2 in the series and follow Molly as she slowly surfaces from the drug induced coma forced upon her by those who kidnapped the three girls. As she opens her eyes in a new place, best friend Bethany isn't dealing well with their change in circumstance whilst the beautiful Hannah, recently restored to the land of the living, seems to be adjusting a little too well. The big city, though, is full of dangers, especially for three teenagers with no friends, no money, and no clue as to what is actually going on. As Cumbria's finest ride on the raucous roller coaster that is life beneath the

palaces and parks, each girl will have to dig deep in order to protect both themselves and each other. Just how will they survive the underside of London? How did they escape those who took them from their home? Who is it that seems to want them so badly they will kill in order to possess them, and why? Carrying on directly from *End of a Girl*, *Undon* will burrow beneath the foundations of one of the great capital cities of the world. Questions will be answered but many more will be asked. Just who are the Vox? What is the purpose of UTRUL? How can a number haunt a young woman? And how does it all relate to a dying world ten years in the future? Read the book and find out!

Nella galassia è in corso un conflitto spietato e i pianeti Resurgam e Yellowstone sono al centro dell'azione. Nostalgia dell'Infinito, l'astronave che somiglia a un'Arca spaziale, contiene un carico di armi perfezionatissime appartenenti alla cosiddetta hell class che vanno recuperate a tutti i costi. Bisogna arginare la guerra, superando gli odi delle opposte fazioni, o vincerla con una mossa fulminea. Ed ecco emergere dallo sfondo la figura di Nevil Clavain, un essere umano modificato che può controllare il suo corpo e trasmettere il pensiero, al quale spetta il compito di guidare suo malgrado la fazione degli Ultra. Sono questi gli spunti da cui parte *Redemption Ark*, il nuovo, massiccio affresco di Alastair Reynolds ambientato nell'universo coerente della Rivelazione, già conosciuto dai nostri lettori in *Rivelazione 1 e 2*. ALASTAIR REYNOLDS Nato a Barry (Galles) nel 1966, ha esordito presso il pubblico italiano con *Rivelazione 1 e 2* (*Revelation Space*, 2000), suddiviso in due parti in "Urania" nn. 1550 e 1553. Un capolavoro della nuova space opera britannica che ha già avuto diversi e acclamati successori: *Chasm City*, un romanzo del 2001 ambientato nello stesso universo; il presente *Redemption Ark* (2002), *Absolution Gap* (2003) e *The Prefect* (2007).

A fresh new look for the best-selling series from America's number-one inspirational novelist, Karen Kingsbury. Fans will enjoy a personal note from Karen and Gary Smalley as well as discussion questions for book group use. Revisit the Baxter family in all their life-changing events, or share the series with someone who hasn't discovered it yet. The *Redemption* series won Christian Retailing's 2005 Retailer's Choice Award for Best Series When Kari Baxter Jacobs finds out that her husband is involved in an adulterous relationship and wants a divorce, she decides she will love him and remain faithful to her marriage at all costs. This book shows how God can redeem seemingly hopeless relationships, and it illustrates one of Gary Smalley's key messages: Love is a decision. *Redemption* is the first book in the five-book *Redemption* series about the Baxter family--their fears and desires, their strengths and weaknesses, their losses and victories. Each book explores key relationship themes as well as the larger theme of redemption, both in characters' spiritual lives and in their relationships.

A sequel to Sir Arthur C. Clarke's Nebula Award-winning novella "A Meeting with Medusa," this novel continues the thrilling adventure of astronaut Howard Falcon, humanity's first explorer of Jupiter from two modern science fiction masters. Howard Falcon almost lost his life in an accident as the first human astronaut to explore the atmosphere of Jupiter—and a combination of human ingenuity and technical expertise brought him back. But he is no longer himself. Instead, he has been changed into an augmented human: part man, part machine, and exceptionally capable. With permission from the Clarke Estate, Stephen Baxter and Alastair Reynolds continue this beloved writer's enduring vision and have created a fresh story for new readers. The *Medusa Chronicles* charts Falcon's journey through the centuries granted by his new body, but always back to mysteries of Jupiter and the changing interaction between humanity and the universe. A compelling read full of incredible action right from the beginning, this is a modern classic in the spirit of 2001 and *The Martian*.

For many of us, the Ace Double Novels of the '50s and '60s have long been a source both of pleasure and nostalgia. This new double volume from Subterranean Press stands squarely in that distinguished tradition, offering a pair of colorful, fast-paced stories from the reigning master of the intergalactic space opera: Alastair Reynolds. *Thousandth Night*, the genesis for the epic novel *House of Suns*, is quintessential Reynolds. A visionary account of intrigue, ambition, and technological marvels set within a beautifully realized far-future milieu, it combines world-class storytelling with a provocative meditation on the mystery, grandeur, and inconceivable immensity of the universe. The masterful novella *Minla's*

Flowers features Merlin, a familiar figure to Reynolds's readers. Diverted by technical difficulties to a planet known as Lecythus, Merlin finds himself forced to play a part in the moral and military dilemmas of a world on the verge of extinction.

Thousandth Night

The prequel to *A Fire Upon The Deep*, this is the story of Pham Nuwen, a small cog in the interstellar trading fleet of the Queng Ho. The Queng Ho and the Emergents are orbiting the dormant planet Arachna, which is about to wake up to technology, but the Emergents' plans are sinister.
