"A probing biography of the enfant terrible of 1960s and 1970s film-making . . . exhaustive and endlessly intriguing." —Booklist Written by the film critic and historian David Weddle, this fascinating account does critical justice to an important body of cinema as it spins the tale of David Samuel Peckinpah's dramatic, overcharged life and the turbulent times through which he moved. Sam Peckinpah was born into a clan of lumberjacks, cattle ranchers, and frontier lawyers. After a hitch with the Marines, he made his way to Hollywood, where he worked on a string of low-budget features. In 1955 he began writing scripts for Gunsmoke; in less than a year he was one of the hottest writers in television, with two classic series, The Rifleman and The Westerner, to his credit. From there he went on to direct a phenomenal series of features, including Ride the High Country, Straw Dogs, The Getaway, Pat Garrett and Billy the Kid, and The Wild Bunch. Peckinpah was both a hopeless romantic and a grim nihilist, a filmmaker who defined his era as much as he was shaped by it. Rising to prominence in the social and political upheaval of the late sixties and early seventies, Peckinpah and his generation of directors—Stanley Kubrick, Arthur Penn, Robert Altman—broke with convention and turned the traditional genres of Western, science fiction, war, and detective movies inside out. No other era in Hollywood has matched it for sheer energy, audacity, and originality; no one cut a wider path through that time than Sam Peckinpah. "Groundbreaking." —Michael Sragow, The Atlantic

### You Send Me

When Sam Cooke was shot dead in a cheap motel in Hollywood, he was one of America's most successful pop stars. He left a world in which he had been born poor and had become very rich from the success of such records as "You Send Me" and "A Wonderful World"

### Sam Smith - The Biography

On the morning of 9 February 2014, when Sam Smith woke up and saw the four statuettes he'd taken home from the previous night's Grammy Awards Ceremony, it must have felt like a dream come true. At only twenty-two years old and coming just eight months after the US release of his debut album, In the Lonely Hour, calling Sam Smith's victory an 'overnight success story' seemed wholly appropriate. In fact, Sam had been working towards releasing his own music for over a decade and training his voice for even longer. After falling under the spell of Whitney Houston and Chaka Khan as a child, straining his voice to imitate them and match their incredible vocal ranges, tuition from a local jazz singer and time spent in a local theatre group and youth choir encouraged Sam to pursue singing as a career. But Sam's first attempts to become a professional singer floundered and left him disillusioned and jaded. By the time he turned eighteen, Sam had seen six different managers come and go, he'd recorded a whole album's worth of songs which were never released and he was beginning to think he'd never get his big break. Then in 2010, giving himself one more year to make it, Sam moved to London. After spending a year working full-time in a bar, a chance encounter with Elvin Smith, a fellow musician turned artist manager, changed Sam's life forever. In just over eighteen months, Sam's voice had featured on a number-one song and he was about to sign his own major label deal. The songs Sam wrote for his debut album would go on to capture the hearts of a massive international audience. Along the way there were celebrity friendships, number-one records, world tours and the inevitable press speculation about his personal life. In this revealing biography, Joe Allen charts the meteoric rise of Britain's singing sensation. With his multi-platinum debut barely scratching the surface of what we can expect from Sam in the future, the next decade is sure to be as eventful as the last.

### Remembering Sam

"Sam Galbraith, an exceptionally talented young neurosurgeon in Glasgow, was led by strong socialist values to seek a political career. Soon after election to Parliament in 1987 at 42 years old, he developed a serious lung condition that required him to undergo a lung transplant and left him with limited health. Despite this, he went on to hold Ministerial posts, first in Westminster and then in the new Scottish Parliament. In government he abolished markets in the NHS in Scotland and, by highlighting the relation between deprivation and illness, he was able to achieve his ambition to make a difference to health on a large scale. When Sam died aged 68 he was the longest living survivor of a lung transplant. His story is told by colleagues, friends and family who, with humour and honesty, communicate their admiration and affection for a unique personality."--Publisher's website.

Bronfman was an intuitive leader and manager who knew his industry inside out and set the highest standards for his products and himself. His life makes a fascinating tale of business, power, wealth, and ethnic politics. ### LIFE AND TIMES OF GEN. SAM.

This biography is the story of how a bankrupt refugee without a studio managed to produce several of the greatest films of all time: "The African Queen, On the Waterfront, The Bridge on the River Kwai, " and "Lawrence of Arabia." Film credits aside, Sam Spiegel led a flamboyant and uncompromising life, and the full story has never been told--until now. of photos.

### Sam Spiegel

One of the most influential African American singers/songwriters in the late 1950s, Sam Cooke was among the first to blend gospel music and secular themes - the early foundation of soul music. He was the opposite of Elvis: a black performer who appealed to white audiences, who wrote his own songs, who controlled his own business destiny. In Dream Boogie, bestselling author Peter Guralnick captures Sam Cooke's remarkable accomplishment and chronicles his moving and important story, from Cooke's childhood as a choirboy to an adulthood when he was anything but that.

### Dream Boogie

The story is about a young couple who is being hunted by her family to get their daughter back and by his family to get the family business and fortune that goes with it. The couple will be chased from state to state until finally they change their family name and disappear. Thereby the tale of The Life and Times of Sam Langora begins.

### Sam and the Magic Tree

The irascible son of a Jewish pioneer from Czarist Russia whose business acumen built an international company renowned for the quality of its products. Samuel Bronfman's father failed as a wheat farmer and then found success selling frozen fish, firewood, and horses. At this point young Sam observed to his father, "The bar makes more profits than we do. Instead of selling horses, we should be selling the drinks". And thus began what was to become the Seagram whiskey empire. Sam's insight and timing were right as Canada, and especially the United States, were coming under the influence of the temperance movement. While legend often places Sam in the thick of Prohibition era bootlegging and rum running, in fact he built for the long term and kept his operations within both the law and its loopholes as he supplied American bootleggers. Sam demonstrated his marketing genius by insisting on quality in a business notorious for cutting corners and thereby set the standard for the industry in the

decades to follow. Sam's success in penetrating the American market was such that after Prohibition his competitors lobbied the federal government for protection. While Samuel Bronfman is a classic rags to riches tale, it is also the story of a Jew who remained in many ways outside business and social establishments even after becoming internationally famous. Commuting every week between his Montreal and New York office, his was a private life centered on his family and their home in Montreal and summer places such as Tarrytown, New York. In the 1950s Sam, under instructions from his daughter Phyllis Lambert, commissioned Mies van der Rohe to design a new corporate headquarters, the Seagram building at 375 Park Avenue, a landmark on the New York City skyline. As a leader of the Jewish community Sam was elected president of the Canadian Jewish Congress in 1939, and went on to organize financial aid to the fledgling state of Israel, beginning decades long involvement in Jewish affairs and support for the Jewish state.

#### The Life and Times of Sam Mihara

Actor. Director. Visionary. The fascinating life of Sam Wanamaker is explored for the first time in this biography by Diana Devlin, who worked closely with Wanamaker during the last twenty years of his life. Sam Wanamaker (1909 - 1993) is best known as the man who spent the last twenty-five years of his life campaigning to reconstruct Shakespeare's Globe near its original site in London. Born in the USA, he trained as an actor in Chicago and began his career during the golden age of radio drama, before moving on to Broadway. A vocal left wing activist, Wanamaker moved to the UK during the turbulent era of the anti-Communist witch hunts. Having crossed the Atlantic, he carved a successful international career as actor, producer and director. He directed the opening production at the Sydney Opera House. With his staunch sense of purpose, he made as many enemies as friends: charismatic and persuasive, he was also stubborn and domineering. But above all, he was a man of great vision, and it was that vision that inspired many to help make his dream of Shakespeare's Globe come into being, which opened to much fanfare in 1997

#### The Life and Times of Sam Acrostic

When Sam Bailey-Merritt was just two years old, almost overnight he lost the ability to communicate or function. His mother, Jo, was at a loss as to what to do as she saw her son grow increasingly isolated and begin to suffer from uncontrollable meltdowns. Eventually, Sam was diagnosed with autism. Sam's condition continued to worsen and, just when Jo had all but given up hope of being able to help him, the family went on a day trip to a nearby miniature pig farm. Sam immediately bonded with a tiny ginger piglet called Chester, who stood sad and alone, apart from the rest of the litter. The connection between the boy and the animal was immediate and their unusual friendship blossomed from the moment the family brought Chester home. The tiny pig refused to leave Sam's side - it was as if he knew that Sam needed a friend. And, for the first time in five years, Jo saw her son really laugh. While Sam's confidence grew, Chester grew in a different way: the micro pig that was supposed to become the size of a Cocker Spaniel in fact ballooned to three times that size - with hilarious consequences for the family! Chester has turned Sam's life around. He now has the ability to communicate his feelings, make friends and is caring and kind towards others. Sam and Chester is the heart-warming story of how a teacup-sized ginger pig helped to transform the life of a boy with autism. It is the emotional story of a mother's fight to win back her son.

### Sam Wanamaker

Football fans will love this insight into the life and mind of Big Sam. With nearly 20 years as a player - plus almost 25 years as a coach and manager - under his belt, Sam Allardyce is one of the most recognisable figures in British football. 'Big Sam' has been a robust defensive general throughout the seventies and eighties, and an imposing touchline presence as a gaffer since 1994. Over the last four decades, Allardyce has seen it all. The game he so loves is radically different to that in which he made his debut back in 1973, and in telling his wonderfully colourful story for the very first time, Allardyce talks intriguingly about the changing face of players and managers. His autobiography positively crackles with characteristic insight, honesty and hard-hitting opinions.

### Sam and Chester

Rock 'n' roll was born in rural Alabama, 1923, in the form of Sam Phillips, the youngest son of a large family living in a remote colony called the Lovelace Community. His father had a gift for farming, which was brought to an end by the Depression. His mother picked guitar and showed the kind of forbearance that allowed her to name her son after the doctor who delivered him drunk and then had to be put to bed himself. And yet from these unprepossessing origins, in 1951 Phillips made what is widely considered to be the first rock 'n' roll record, Ike Turner and Jackie Brenston's 'Rocket 88'. Just two years later a shy eighteen-year-old kid with sideburns, fresh out of high school, wandered into his recording studio to make a record 'for his mother', secretly hoping that it might somehow get him noticed. His name was Elvis Presley. Elvis's success, and the subsequent triumph of rock 'n' roll, was initially propelled to an almost astonishing degree by a limited number of releases by Carl 'Blue Suede Shoes' Perkins, Johnny Cash and Jerry Lee Lewis - all from this tiny, one-man label. An engaging mix of biography and anecdote, Peter Guralnick's book brilliantly recreates one shining moment in the history of popular culture. And Sam Phillips was the man who brought it all about.

### Blindsided, the Life and Times of Sam Mihara

Dan Jenkins calls him "the greatest quarterback who ever lived, college or pro." Slingin' Sammy Baugh, who played for TCU and the Washington Redskins, single-handedly revolutionized the game of football. While the pros still wore leather helmets and played the game more like rugby, Baugh's ability to throw the ball with rifle-like accuracy made the forward pass a strategic weapon, not a desperation heave. Like Babe Ruth, who changed the very perception of how baseball is played, Slingin' Sam transformed the notion of offense in football and how much yardage can be gained through the air. As the first modern quarterback, Baugh led the Redskins to five title games and two NFL championships, while leading the league in passing six times—a record that endures to this day—and in punting four times. In 1943, the triple-threat Baugh also scored a triple crown when he led the league in passing, punting, and interceptions. Slingin' Sam is the first major biography of this legendary quarterback, one of the first inductees into the Pro Football Hall of Fame. Joe Holley traces the whole arc of Baugh's life (1914–2008), from his small-town Texas roots to his college ball success as an All-American at TCU, his brief flirtation with professional baseball, and his stellar career with the Washington Redskins (1937–1952), as well as his later career coaching the New York Titans and Houston Oilers and ranching in West Texas. Through Holley's vivid descriptions of close-fought games, Baugh comes alive both as the consummate all-around athlete who could play every minute of every game, on both offense and defense, and as an all-around good guy.

### Big Sam: My Autobiography

X Factor winner and bona fide pop star Sam Bailey tells her unique story and reveals what happens when you have the courage to follow your dreams. Born in south-east London, Sam always loved to sing and was encouraged by her mother to enter talent shows from an early age. Overcoming her shyness, Sam soon realised her true calling in life was to entertain and perform, and she slowly began taking steps along the rocky road to super-stardom. From the ups and downs of working as an entertainer at a Pontins holiday camp, to the endless grind of the cruise ship circuit, Sam always dreamed of making it to the top. Years later she began work as a prison officer and continued pursuing her singing career in fits and starts. Inspired to audition for the UK's biggest talent show, Sam stood in front of The X Factor panel and sang 'Listen' by one of her favourite artists, Beyonce. Fast forward a year later and Sam was supporting Beyonce on her world tour, having seen both her debut single and album go straight to number one.

### Sam Phillips

Sam Loxton was the 17th and last player picked on Don Bradman's 1948 tour of England. It was the greatest thrill of his life. And it set him up for a high-profile life which saw him become a noted parliamentarian and national cricket selector. His fascinating journey has been wonderfully told by author Martin Rogers in this full length hardback biography, published by Ken Piesse as part of his Nostalgia Series which also includes football titles, such as Barry Davis' Born to Play by his brother Ken Davis

### Slingin' Sam

Many Americans remember Senator Sam Ervin (1896-1985) as the affable, Bible-quoting, old country lawyer who chaired the Senate Watergate hearings in 1973. Ervin's stories from down home in North Carolina, his reciting literary passages ranging from Shakespeare to Aesop's fables, and his earnest lectures in defense of civil liberties and constitutional government contributed to the downfall of President Nixon and earned Senator Ervin a reputation as "the last of the founding fathers." Yet for most of his twenty years in the Senate, Ervin applied these same rhetorical devices to a very different purpose. Between 1954 and 1974, he was Jim Crow's most talented legal defender as the South's constitutional expert during the congressional debates on civil rights. The paradox of the senator's opposition to civil rights and defense of civil liberties lies at the heart of this biography of Sam Ervin. Drawing on newly opened archival material, Karl Campbell illuminates the character of the man and the historical forces that shaped him. The senator's distrust of centralized power, Campbell argues, helps explain his ironic reputation as a foe of civil rights and a champion of civil liberties. Campbell demonstrates that the Watergate scandal represented the culmination of an escalating series of clashes between the imperial presidency of Richard Nixon and a congressional counterattack led by Senator Ervin. The issue central to that struggle, as well as to many of the other crusades in Ervin's life, remains a key question of the American experience today--how to exercise legitimate government power while protecting essential individual freedoms.

### Mr. Sam

In this wonderful and honest book, The X Factor winner and bona fide pop star Sam Bailey tells her unique story and reveals what happens when you have the courage to follow your dreams. Born in south-east London, Sam always loved to sing and was encouraged by her mother to enter talent shows from an early age. Overcoming her shyness, Sam soon realized her true calling in life was to entertain and perform, and she slowly began taking steps along the rocky road to super-stardom. From the ups and downs of working as an entertainer at a Pontins holiday camp, to the endless grind of the cruise ship circuit, Sam always dreamed of making it to the top. Years later she began work as a prison officer and continued pursuing her singing career in fits and starts. Inspired to audition for the UK's biggest talent show, Sam stood in front of The X Factor panel and sang 'Listen' by one of her favourite artists, Beyoncé. Fast forward a year later and Sam was supporting Beyoncé on her world tour, having seen both her debut single and album go straight to number one. From the grind of the amateur singing circuit and the highs and lows of The X Factor, to the pressures of juggling a music career while being

a full-time mum, *Daring to Dream* is a roller coaster ride of emotion and a wonderful story of courage and sheer determination.

#### Sam Houston

The story of an old man who left home at the age of 16 to become a mountain man and the adventure he goes through to protect his family and friends. The fight for family and friends begins when a land developing company wants to take his land that was given to him by the government in his early manhood years.

#### Sam Bailey

A comprehensive biography of the legendary creator of *The Wild Bunch*, *Straw Dogs* and *The Getaway*, taking an aptly no-holds-barred look at his life, his vision and his influence on modern cinema. Famed and reviled in equal measure for his no-frills approach to violent realism, Peckinpah refused to compromise his ideas for his producers, with the result that his films were decried for their apparent amorality as much as lauded for their groundbreaking style and savage intensity. A complete look at the life and work of a modern seer.

#### Invincible

In a collection of personal essays that are “both rip-roaringly funny and sentimental, drawing natural (and justified) comparisons to David Sedaris and David Rakoff” (*Esquire*), longtime recording artist and actor Sam Harris recounts stories of friendship, love, celebrity, and growing up and getting sober. In sixteen brilliantly observed true stories, Sam Harris emerges as a natural humorist in league with David Sedaris, Chelsea Handler, Carrie Fisher, and Steve Martin, but with a voice uniquely his own. Praised by the *Chicago Sun-Times* for his “manic, witty commentary,” and with a storytelling talent *The New York Times* calls “*New Yorker*–worthy,” he puts a comedic spin on full-disclosure episodes from his own colorful life. In “*I Feel, You Feel*” he opens for Aretha Franklin during a blizzard. “*Promises*” is a front-row account of Liza Minnelli’s infamous wedding to “the man whose name shall go unmentioned.” In “*The Zoo Story*” Harris desperately searches for a common bond with his rough-and-tumble four-year-old son. What better place to find painfully funny material than in growing up gay, gifted, and ambitious in the heart of the Bible belt? And that’s just the first cut: From partying to parenting, from Sunday school to getting sober, these slices of Ham will have you laughing and wiping away salty tears in equal measure with their universal and down-to-earth appeal. After all, there’s a little ham in all of us.

#### Daring to Dream

Admiral John Benbow was an English naval hero, a fighting sailor of ruthless methods but indomitable courage. Benbow was a man to be reckoned with. In 1702, however, when Benbow engaged a French squadron off the Spanish main, other ships in his squadron failed to support him. His leg shattered by a cannon-ball, Benbow fought on - but to no avail: the French escaped and the stricken Benbow succumbed to his wounds. When the story of his 'Last Fight' reached England, there was an outcry. Two of the captains who had abandoned him were court-martialled and shot; 'Brave Benbow' was elevated from national hero to national legend, his valour immortalized in broadsheet and folksong: ships were named after him; Tennyson later fêted him in verse; in Robert Louis Stevenson's *Treasure Island*, the tavern where Jim Hawkins and his mother live is called 'The Admiral Benbow'. For the very first time, Sam Willis tells the extraordinary story of Admiral Benbow through an age of dramatic change, from his birth under Cromwell's Commonwealth; to service under the restored Stuart monarchy; to the Glorious Revolution of 1688; to the French wars of Louis XIV; and finally to the bitter betrayal of 1702. The *Admiral Benbow* covers all aspects of seventeenth century naval life in richly vivid detail, from strategy and tactics to health and discipline. But Benbow also worked in the Royal Dockyards, lived in Samuel Evelyn's House, knew Peter the Great, helped to found the first naval hospital, and helped to build the first offshore lighthouse. The second volume in the *Hearts of Oak* trilogy, from one of Britain's most exciting young historians, *The Admiral Benbow* is a gripping and detailed account of the making of a naval legend.

#### The Life and Times of Sam Langora (2)

Music producer Sam Phillips and his landmark studio, Sun Records, hold a unique place in the history of rock 'n' roll - by many accounts, before Phillips recorded 'Rocket 88' by Jackie Brenston and his Delta Cats in 1951, rock 'n' roll as we know it didn't even exist. Phillips is simultaneously hailed as the man who discovered Elvis Presley and derided as the man who sold the same artist to RCA for a paltry \$35,000. The list of musical legends that passed through the doors of Sun Records is simply astounding, including BB King, Ike Turner, Johnny Cash, Roy Orbison, Jerry Lee Lewis and more. SUN KING strips away the glossy veneer of legend around the Phillips story - which, like his signature sound, was much the result of his own careful crafting - to reveal a man who, from a very young age, heard a musical sound that no one else heard. Complete with a full Sun Records discography, 'Sun King' is an indispensable document in the history of rock music.

### Bloody Sam

This book is a collection of stories from the life and times of Sam Gary. Sam was born into a time when the west was still wild, fun was invented - usually on the back of a horse - and kids were not entertained by a TV unless you snuck to the neighbors; it was a time when beneath the glow of the harvest moon, a radio could be tuned to the vintage sounds of Charlie Pride and Neil Diamond. Join Sam, his cousins, and folks he encounters on their many adventures, mishaps, and conquests that will undoubtedly have you bursting your buttons with laughter. Ride alongside Sam Gary as he flies his airplane across the United States. Ski alongside him down the black diamonds of the Alberta Rockies, or eagerly thrust your hands into buckets of shavings and unsavory surprises. A modern-day Huck Finn, his tales of battles fought, friends won, and strangers befriended, will surely keep you enthralled because NO ONE, my friends, can tell stories like a Son of a Seacook. Curl up, grab some Better Life Coffee, and prepare to be entertained!

### Ham: Slices of a Life

From the critically acclaimed author of *This Burns My Heart* comes a “luminous mother-daughter saga” (Entertainment Weekly) about a young woman who is forced to flee 1980s Brazil for California, and in doing so unearths the hidden life of her enigmatic mother. Mara Alencar’s mother Ana is her moon, her sun, her stars. Ana, a struggling voice-over actress, is an admirably brave and recklessly impulsive woman who does everything in her power to care for her little girl in perilous 1980s Rio de Janeiro. With no other family or friends her own age, Ana eclipses Mara’s entire world. They take turns caring for each other—in ways big and small. But who is Ana, really? As she grows older, Mara slowly begins to piece together the many facets of Ana’s complicated life—a mother, a rebel, and always, an actress. When Ana becomes involved with a civilian rebel group attempting to undermine the city’s cruel Police Chief, their fragile arrangement begins to unravel. Mara is forced to flee the only home she’s ever known, for California, where she lives as an undocumented immigrant, caregiving for a dying woman. It’s here that she begins to grapple with her turbulent past and starts to uncover vital truths—about her mother, herself, and what it means to truly take care of someone. A “lovely and heartbreaking” (People) story that is “simultaneously dreamlike and visceral” (The Atlantic), *The Caregiver* is “a beautiful testament to Samuel Park’s extraordinary talents as a storyteller...that reads, in some moments, like a thriller—and, in others, like a meditation on what it means to be alive...A ferocious page-turner with deep wells of compassion for the struggles of the living—and the sins of the dead” (Kirkus Reviews, starred review).

## Can't Be Satisfied

Can't Be Satisfied is that rare thing in musical biographies: a book that maps out not just a single, extraordinary life but the cultural forces that shaped it' Sean O'Hagan, Observer Muddy Waters was the greatest blues musician ever, and the most influential. He invented electric blues, inspired the Rolling Stones and created the template for the rock 'n' roll band and its wild lifestyle. Robert Gordon's definitive biography vividly chronicles the extraordinary life and personality of the musical legend who changed the course of modern popular music.

## A Blues Bibliography

A Blues Bibliography, Second Edition is a revised and enlarged version of the definitive blues bibliography first published in 1999. Material previously omitted from the first edition has now been included, and the bibliography has been expanded to include works published since then. In addition to biographical references, this work includes entries on the history and background of the blues, instruments, record labels, reference sources, regional variations and lyric transcriptions and musical analysis. The Blues Bibliography is an invaluable guide to the enthusiastic market among libraries specializing in music and African-American culture and among individual blues scholars.

## Music in Black American Life, 1945-2020

This second volume of Music in Black American Life offers research and analysis that originally appeared in the journals American Music and Black Music Research Journal, and in two book series published by the University of Illinois Press: Music in American Life, and African American Music in Global Perspective. In this collection, a group of predominately Black scholars explores a variety of topics with works that pioneered new methodologies and modes of inquiry for hearing and studying Black music. These extracts and articles examine the World War II jazz scene; look at female artists like gospel star Shirley Caesar and jazz musician-arranger Melba Liston; illuminate the South Bronx milieu

that folded many forms of black expressive culture into rap; and explain Hamilton's massive success as part of the "tanning" of American culture that began when Black music entered the mainstream. Part sourcebook and part survey of historic music scholarship, *Music in Black American Life, 1945–2020* collects groundbreaking work that redefines our view of Black music and its place in American music history. Contributors: Nelson George, Wayne Everett Goins, Claudrena N. Harold, Eileen M. Hayes, Loren Kajikawa, Robin D. G. Kelley, Tammy L. Kernodle, Cheryl L. Keyes, Gwendolyn Pough, Bernice Johnson Reagon, Mark Tucker, and Sherrie Tucker

### The Beautiful Music All Around Us

*The Beautiful Music All Around Us* presents the extraordinarily rich backstories of thirteen performances captured on Library of Congress field recordings between 1934 and 1942 in locations reaching from Southern Appalachia to the Mississippi Delta and the Great Plains. Including the children's play song "Shortenin' Bread," the fiddle tune "Bonaparte's Retreat," the blues "Another Man Done Gone," and the spiritual "Ain't No Grave Can Hold My Body Down," these performances were recorded in kitchens and churches, on porches and in prisons, in hotel rooms and school auditoriums. Documented during the golden age of the Library of Congress recordings, they capture not only the words and tunes of traditional songs but also the sounds of life in which the performances were embedded: children laugh, neighbors comment, trucks pass by. Musician and researcher Stephen Wade sought out the performers on these recordings, their families, fellow musicians, and others who remembered them. He reconstructs the sights and sounds of the recording sessions themselves and how the music worked in all their lives. Some of these performers developed musical reputations beyond these field recordings, but for many, these tracks represent their only appearances on record: prisoners at the Arkansas State Penitentiary jumping on "the Library's recording machine" in a rendering of "Rock Island Line"; Ora Dell Graham being called away from the schoolyard to sing the jump-rope rhyme "Pullin' the Skiff"; Luther Strong shaking off a hangover night in jail and borrowing a fiddle to rip into "Glory in the Meetinghouse." Alongside loving and expert profiles of these performers and their locales and communities, Wade also untangles the histories of these iconic songs and tunes, tracing them through slave songs and spirituals, British and homegrown ballads, fiddle contests, gospel quartets, and labor laments. By exploring how these singers and instrumentalists exerted their own creativity on inherited forms, "amplifying tradition's gifts," Wade shows how a single artist can make a difference within a democracy. Reflecting decades of research and detective work, the profiles and abundant photos in *The Beautiful Music All Around Us* bring to life largely unheralded individuals--domestics, farm laborers, state prisoners, schoolchildren, cowboys, housewives and mothers, loggers and miners--whose music has become part of the wider American musical soundscape. The paperback edition does not include an accompanying CD.

### Nobody Knows Where the Blues Come From

Musicians and music scholars rightly focus on the sounds of the blues and the colorful life stories of blues performers. Equally important and, until now, inadequately studied are the lyrics. The international contributors to *Nobody Knows Where the Blues Come From* explore this aspect of the blues and establish the significance of African American popular song as a neglected form of oral history. "High Water Everywhere: Blues and Gospel Commentary on the 1927 Mississippi River Flood," by David Evans, is the definitive study of songs about one of the greatest natural disasters in the history of the United States. In "Death by Fire: African American Popular Music on the Natchez Rhythm Club Fire," Luigi Monge analyzes a continuum of songs about exclusively African American tragedy. "Lookin'

for the Bully: An Enquiry into a Song and Its Story,” by Paul Oliver traces the origins and the many avatars of the Bully song. In “That Dry Creek Eaton Clan: A North Mississippi Murder Ballad of the 1930s,” Tom Freeland and Chris Smith study a ballad recorded in 1939 by a black convict at Parchman prison farm. “Coolidge’s Blues: African American Blues from the Roaring Twenties” is Guido van Rijn’s survey of blues of that decade. Robert Springer’s “On the Electronic Trail of Blues Formulas” presents a number of conclusions about the spread of patterns in blues narratives. In “West Indies Blues: An Historical Overview 1920s-1950s,” John Cowley turns his attention to West Indian songs produced on the American mainland. Finally, in “Ethel Waters: ‘Long, Lean, Lanky Mama,’” Randall Cherry reappraises the early career of this blues and vaudeville singer

### Issues in African American Music

Issues in African American Music: Power, Gender, Race, Representation is a collection of twenty-one essays by leading scholars, surveying vital themes in the history of African American music. Bringing together the viewpoints of ethnomusicologists, historians, and performers, these essays cover topics including the music industry, women and gender, and music as resistance, and explore the stories of music creators and their communities. Revised and expanded to reflect the latest scholarship, with six all-new essays, this book both complements the previously published volume African American Music: An Introduction and stands on its own. Each chapter features a discography of recommended listening for further study. From the antebellum period to the present, and from classical music to hip hop, this wide-ranging volume provides a nuanced introduction for students and anyone seeking to understand the history, social context, and cultural impact of African American music.

### Crossing Traditions

In Crossing Traditions: American Popular Music in Local and Global Contexts, a wide range of scholarly contributions on the local and global significance of American popular music examines the connections between selected American blues, rock and roll, and hip-hop music and their equivalents from Senegal, Nigeria, England, India, and Mexico. Contributors show how American popular music promotes local and global awareness of such key issues as economic inequality and social marginalization while inspiring cross-cultural and interethnic influences among regional and transnational communities.

### Dewey and Elvis

Beginning in 1949, while Elvis Presley and Sun Records were still virtually unknown--and two full years before Alan Freed famously "discovered" rock 'n' roll--Dewey Phillips brought the budding new music to the Memphis airwaves by playing Howlin' Wolf, B. B. King, and Muddy Waters on his nightly radio show Red, Hot and Blue. The mid-South's most popular white deejay, "Daddy-O-Dewey" soon became part of rock 'n' roll history for being the first major disc jockey to play Elvis Presley and, subsequently, to conduct the first live, on-air interview with the singer. Louis Cantor illuminates Phillips's role in turning a huge white audience on to previously forbidden race music. Phillips's zeal for rhythm and blues legitimized

the sound and set the stage for both Elvis's subsequent success and the rock 'n' roll revolution of the 1950s. Using personal interviews, documentary sources, and oral history collections, Cantor presents a personal view of the disc jockey while restoring Phillips's place as an essential figure in rock 'n' roll history.

### I'm Feeling the Blues Right Now

In *I'm Feeling the Blues Right Now: Blues Tourism and the Mississippi Delta*, Stephen A. King reveals the strategies used by blues promoters and organizers in Mississippi, both African American and white, local and state, to attract the attention of tourists. In the process, he reveals how promotional materials portray the Delta's blues culture and its musicians. Those involved in selling the blues in Mississippi work to promote the music while often conveniently forgetting the state's historical record of racial and economic injustice. King's research includes numerous interviews with blues musicians and promoters, chambers of commerce, local and regional tourism entities, and members of the Mississippi Blues Commission. This book is the first critical account of Mississippi's blues tourism industry. From the late 1970s until 2000, Mississippi's blues tourism industry was fragmented, decentralized, and localized, as each community competed for tourist dollars. By 2003–2004, with the creation of the Mississippi Blues Commission, the promotion of the blues became more centralized as state government played an increasing role in promoting Mississippi's blues heritage. Blues tourism has the potential to generate new revenue in one of the poorest states in the country, repair the state's public image, and serve as a vehicle for racial reconciliation.

### Say No to the Devil

Despite almost universal renown among his contemporaries, Davis lives today not so much in his own work but through covers of his songs by Dylan, Jackson Browne, and many others, as well as in the untold number of students whose lives he influenced--many of whom continue to teach his techniques today. The first biography of Davis, *Say No to the Devil* restores the Rev's remarkable story. Drawing on extensive research and interviews with many of Davis's former students and others who knew him well, music journalist Ian Zack takes readers through Davis's difficult beginning as the blind son of sharecroppers in the Jim Crow South to his decision to become an ordained Baptist minister and his move to New York in the early 1940s, where he scraped out a living singing and preaching on street corners and in storefront churches in Harlem. There, he gained entry into a circle of musicians that included, among many others, Lead Belly, Woody Guthrie, and Dave Van Ronk.

### French Louisiana Music and Its Patrons

French Louisiana music emerged from the bayous and prairies of Southwest Louisiana in the late nineteenth and early twentieth centuries. Pioneered by impoverished Acadian and Afro-Caribbean settlers, the sound is marked by a high-pitched fiddle playing loud and fast above the bellow of a diatonic accordion. With lyrics about disaster and heartache sung cheerfully in a French dialect, the effect is dissonant and haunting. French Louisiana music was largely ignored in mainstream music culture, except by a handful of collectors, scholars, and commercial promoters who sought to popularize it. From the first recordings in the 1920s to the transformation of the genre by the 1970s, the spread of this regional sound was driven by local, national, and international elites who saw the music's traditions and performers in the context of larger social, political, and cultural developments, including the folk revival and the civil rights and ethnic revival movements. Patricia Peknik illuminates how the music's history and meaning were interpreted by a variety of actors who brought the genre onto a national and global stage, revealing the many interests at work in the popularization of a regional music.

## Lynchings in Mississippi

Lynching occurred more in Mississippi than in any other state. During the 100 years after the Civil War, almost one in every ten lynchings in the United States took place in Mississippi. As in other Southern states, these brutal murders were carried out primarily by white mobs against black victims. The complicity of communities and courts ensured that few of the more than 500 lynchings in Mississippi resulted in criminal convictions. This book studies lynching in Mississippi from the Civil War through the civil rights movement. It examines how the crime unfolded in the state and assesses the large number of deaths, the reasons, the distribution by counties, cities and rural locations, and public responses to these crimes. The final chapter covers lynching's legacy in the decades since 1965; an appendix offers a chronology.

## 100 Books Every Blues Fan Should Own

Search the Internet for the 100 best songs or best albums. Dozens of lists will appear from aficionados to major music personalities. But what if you not only love listening to the blues or country music or jazz or rock, you love reading about it, too. How do you separate what matters from what doesn't among the hundreds—sometimes thousands—of books on the music you so love? In the Best Music Books series, readers finally have a quick-and-ready list of the most important works published on modern major music genres by leading experts. In *100 Books Every Blues Fan Should Own*, Edward Komara, former Blues Archivist of the University of Mississippi, and his successor Greg Johnson select those histories, biographies, surveys, transcriptions and studies from the many hundreds of works that have been published about this vital American musical genre. Komara and Johnson provide a short description of the contents and the achievement of each title selected for their "Blues 100." Entries include full bibliographic citations, prices of copies in print, and even descriptions of specific editions for book collectors. *100 Books Every Blues Fan Should Own* also includes suggested blues recordings to accompany each recommended work, as well as a concluding section on key reference titles—or as Komara and Johnson phrase it: "The Books behind the Blues 100." *100 Books Every Blues Fan Should Own* serves as a guide for any blues fan looking for a road map through the history of—and even history of the scholarship on—the blues. Here Komara and Johnson answer the question of not only what is a "blues" book, but which ones are worth owning.

## Before Elvis

An essential work for rock fans and scholars, *Before Elvis: The Prehistory of Rock 'n' Roll* surveys the origins of rock 'n' roll from the minstrel era to the emergence of Bill Haley and Elvis Presley. Unlike other histories of rock, *Before Elvis* offers a far broader and deeper analysis of the influences on rock music. Dispelling common misconceptions, it examines rock's origins in hokum songs and big-band boogies as well as Delta blues, detailing the embrace by white artists of African-American styles long before rock 'n' roll appeared. This unique study ranges far and wide, highlighting not only the contributions of obscure but key precursors like Hardrock Gunter and Sam Theard but also the influence of celebrity performers like Gene Autry and Ella Fitzgerald. Too often, rock historians treat the genesis of rock 'n' roll as a bolt from the blue, an overnight revolution provoked by the bland pop music that immediately preceded it and created through the white appropriation of music till then played only by and for black audiences. In *Before Elvis*, Birnbaum daringly argues a more complicated history of rock's evolution from a heady mix of ragtime, boogie-woogie, swing, country music, mainstream pop, and rhythm-and-blues—a melange that influenced one another along the way, from the absorption of blues and boogies into jazz and pop to the integration of country and Caribbean music into rhythm-and-blues. Written in an easy style, *Before Elvis* presents a bold argument about rock's origins and required reading for fans and scholars of rock 'n' roll history.

## Blues All Day Long

A member of Muddy Waters' legendary late 1940s-1950s band, Jimmy Rogers pioneered a blues guitar style that made him one of the most revered sidemen of all time. Rogers also had a significant if star-crossed career as a singer and solo artist for Chess Records, releasing the classic singles "That's

All Right" and "Walking By Myself." In *Blues All Day Long*, Wayne Everett Goins mines seventy-five hours of interviews with Rogers' family, collaborators, and peers to follow a life spent in the blues. Goins' account takes Rogers from recording Chess classics and barnstorming across the South to a late-in-life renaissance that included new music, entry into the Blues Hall of Fame, and high profile tours with Eric Clapton and the Rolling Stones. Informed and definitive, *Blues All Day Long* fills a gap in twentieth century music history with the story of one of the blues' eminent figures and one of the genre's seminal bands.

### Lost Delta Found

Blues Hall of Fame Inductee—Named a "Classic of Blues Literature" by the Blues Foundation, 2019 This remarkable book recovers three invaluable perspectives, long thought to have been lost, on the culture and music of the Mississippi Delta. In 1941 and '42 African American scholars from Fisk University—among them the noted composer and musicologist John W. Work III, sociologist Lewis Wade Jones, and graduate student Samuel C. Adams Jr.—joined folklorist Alan Lomax of the Library of Congress on research trips to Coahoma County, Mississippi. Their mission was "to document adequately the cultural and social backgrounds for music in the community." Among the fruits of the project were the earliest recordings by the legendary blues singer and guitar-ist Muddy Waters. The hallmark of the study was to have been a joint publication of its findings by Fisk and the Library of Congress. While this publication was never completed, *Lost Delta Found* is composed of the writings, interviews, notes, and musical transcriptions produced by Work, Jones, and Adams in the Coahoma County study. Their work captures, with compelling immediacy, a place, a people, a way of life, and a set of rich musical traditions as they existed in the 1940s. Illustrated with photos and more than 160 musical transcrip

### Moanin' at Midnight

Howlin' Wolf was a musical giant in every way. He stood six foot three, weighed almost three hundred pounds, wore size sixteen shoes, and poured out his darkest sorrows onstage in a voice like a raging chainsaw. Half a century after his first hits, his sound still terrifies and inspires. Born Chester Burnett in 1910, the Wolf survived a grim childhood and hardscrabble youth as a sharecropper in Mississippi. He began his career playing and singing with the first Delta blues stars for two decades in perilous juke joints. He was present at the birth of rock 'n' roll in Memphis, where Sam Phillips—who also discovered Elvis Presley, Johnny Cash, and Jerry Lee Lewis—called Wolf his "greatest discovery." He helped develop the sound of electric blues and vied with rival Muddy Waters for the title of king of Chicago blues. He ended his career performing and recording with the world's most famous rock stars. His passion for music kept him performing—despite devastating physical problems—right up to his death in 1976. There's never been a comprehensive biography of the Wolf until now. *Moanin' at Midnight* is full of startling information about his mysterious early years, surprising and entertaining stories about his decades at the top, and never-before-seen photographs. It strips away all the myths to reveal—at long last—the real-life triumphs and tragedies of this blues titan.

### Arkansas Review

Association for Recorded Sound Collections Certificate of Merit for the Best Historical Research in Recorded Roots or World Music, 2019 *A&R Pioneers* offers the first comprehensive account of the diverse group of men and women who pioneered artists-and-repertoire (A&R) work in the early US recording industry. In the process, they helped create much of what we now think of as American roots music. Resourceful, innovative, and, at times, shockingly unscrupulous, they scouted and signed many of the singers and musicians who came to define American roots music between the two world wars. They also shaped the repertoires and musical styles of their discoveries, supervised recording sessions, and then devised marketing campaigns to sell the resulting records. By World War II, they had helped redefine the canons of American popular music and established the basic structure and practices of the modern recording industry. Moreover, though their musical interests, talents, and sensibilities varied enormously, these A&R pioneers created the template for the job that would subsequently become known as "record producer." Without Ralph Peer, Art Satherley, Frank Walker, Polk C. Brockman, Eli Oberstein, Don Law, Lester Melrose, J. Mayo Williams, John Hammond, Helen Oakley Dance, and a whole army of lesser known but often hugely influential A&R representatives, the music of Bessie Smith and Bob Wills, of the Carter Family and Count Basie, of Robert Johnson and Jimmie Rodgers may never have found its way onto commercial records and into the heart of America's musical heritage. This is their story.

### A&R Pioneers

A contemporary of blues greats Blind Blake, Tampa Red, and Papa Charlie Jackson, Chicago blues artist William "Big Bill" Broonzy influenced an array of postwar musicians, including Muddy Waters, Memphis Slim, and J. B. Lenoir. In *Blue Smoke*, Roger House tells the extraordinary story of "Big Bill," a working-class bluesman whose circumstances offer a window into the dramatic social transformations faced by African Americans during the first half of the twentieth century. One in a family of twenty-one children and reared by sharecropper parents in Mississippi, Broonzy seemed destined to stay on the land. He moved to Arkansas to work as a sharecropper, preacher, and fiddle player, but the army drafted him during World War I. After his service abroad, Broonzy, like thousands of other black soldiers, returned to the racism and bleak economic prospects of the Jim Crow South and chose to move North to seek new opportunities. After learning to play the guitar, he performed at neighborhood parties in Chicago and in 1927 attracted the attention of Paramount Records, which released his first single, "House Rent Stomp," backed by "Big Bill's Blues." Over the following decades, Broonzy toured the United States and Europe. He released dozens of records but was never quite successful enough to give up working as a manual laborer. Many of his songs reflect this experience as a blue-collar worker, articulating the struggles, determination, and optimism of the urban black working class. Before his death in 1958, Broonzy finally achieved crossover success as a key player in the folk revival movement led by Pete Seeger and Alan Lomax, and as a blues ambassador to British musicians such as Lonnie Donegan and Eric Clapton. Weaving Broonzy's recordings, writings, and interviews into a compelling narrative of his life, *Blue Smoke* offers a comprehensive portrait of an artist recognized today as one of the most prolific and influential working-class blues musicians of the era.

### The Real Story

This book presents a collection of essays on the debates about origins, authenticity, and identity in folk and blues music. The essays had their origins in an international conference on the Transatlantic routes of American roots music, out of which emerged common themes and questions of origins and authenticity in folk music, black and white, American and British. The central theme is musical influences, but issues of identity—national, local, and racial—are also recurring subjects. The extent to which these identities were invented, imagined, or constructed by the performers, or by those who recorded their work for posterity, is also a prominent concern and questions of racial identity are particularly central. The book features a new essay on the blues by Paul Oliver alongside an essay on Oliver's seminal blues scholarship. There are also several essays on British blues and the links between performers and styles in the United States and Britain and new essays on critical figures such as Alan Lomax and Woody Guthrie. This volume uniquely offers perspectives from both sides of the Atlantic on the connections and interplay of influences in roots music and the debates about these subjects drawing on the work of eminent established scholars and emerging young academics who are already making a contribution to the field. Throughout, the contributors offer the most recent scholarship available on key issues.

### Media Review Digest

"Shay's stunning photos and Gellman's historical narrative pack a one-two punch . . . an exhilarating lens through which to view one city's struggle for justice." —Alex Kotlowitz, author of *An Ameri-*

can Summer What does democracy look like? And when should we cause trouble to pursue it? Troublemakers fuses photography and history to demonstrate how racial and economic inequality gave rise to a decades-long struggle for justice in one American city. In dialogue with 275 of Art Shay's photographs—many not previously published—Erik S. Gellman takes a new look at major developments in postwar US history: the Second Great Migration, “white flight,” and neighborhood and street conflicts, as well as shifting party politics and the growth of the carceral state. The result is a visual and written history that complicates—and even upends—the morality tales and popular memory of postwar freedom struggles. Shay himself was a “troublemaker,” seeking to unsettle society by illuminating truths that many middle-class, white, media, political, and businesspeople pretended did not exist. Shay served as a navigator in the US Army Air Forces during World War II, then took a position as a writer for Life magazine. But soon after his 1948 move to Chicago, he decided to become a freelance photographer. Shay wandered the city photographing whatever caught his eye—and much did. His lens captured everything from private moments of rebellion to era-defining public movements, as he sought to understand the creative and destructive energies that propelled freedom struggles in the Windy City. Shay illuminated the pain and ecstasy that sprung up from the streets of Chicago, while Gellman reveals their collective impact on the urban fabric and on our national narrative. This collaboration offers a fresh and timely look at how social conflict can shape a city—and may even inspire us to make trouble today. “Fascinating.” —Chicago Tribune

La storia della cultura di massa del Novecento è un campo sterminato. Fare di esso un unico racconto – attraversato dalle musiche, dal cinema, dalla televisione, dalla letteratura e dalle tendenze giovanili – e orientarlo leggendone le linee di tendenza fondamentali, è l'impresa colossale di Alberto Mario Banti. Saverio Esposito, "Alias - il manifesto" Wonderland, la cultura mainstream, non è una realtà immaginaria; al contrario, è una realtà corporea e immensa nella quale viviamo. Un fine storico della cultura ci aiuta a esplorarla negli Stati Uniti, il paese dove gode da quasi un secolo di un'inesauribile e lussureggiante vitalità. Emilio Gentile, "Il Sole 24 Ore" Cos'è Wonderland? È la cultura di massa americana: dal tre porcellini di Walt Disney a Via col vento, da Tarzan ai supereroi, da Frank Sinatra a John Wayne. Ma è anche la controcultura di massa, animata soprattutto dalla musica rock, Bob Dylan, i Beatles, i Pink Floyd, e poi il 'nuovo cinema' di Hollywood, da Easy Rider a Il laureato, fino alla nuova produzione teatrale di Broadway. La sua storia ci consente di comprendere le eredità che solcano ancora l'immaginario dell'Occidente contemporaneo.

### Preachin' the Blues

“The essential history of this distinctly American genre.”—Atlanta Journal-Constitution In this “expertly researched, elegantly written, dispassionate yet thoughtful history” (Gary Giddins), award-winning author Ted Gioia gives us “the rare combination of a tome that is both deeply informative and enjoyable to read” (Publishers Weekly, starred review). From the field hollers of nineteenth-century plantations to Muddy Waters and B.B. King, Delta Blues delves into the uneasy mix of race and money at the point where traditional music became commercial and bluesmen found new audiences of thousands. Combining extensive fieldwork, archival research, interviews with living musicians, and first-person accounts with “his own calm, argument-closing incantations to draw a line through a century of Delta blues” (New York Times), this engrossing narrative is flavored with insightful and vivid musical descriptions that ensure “an understanding of not only the musicians, but the music itself” (Boston Sunday Globe). Rooted in the thick-as-tar Delta soil, Delta Blues is already “a contemporary classic in its field” (Jazz Review).

### Troublemakers

Tony Bolden presents an innovative history of funk music focused on the performers, regarding them as intellectuals who fashioned a new aesthetic. Utilizing musicology, literary studies, performance studies, and African American intellectual history, Bolden explores what it means for music, or any cultural artifact, to be funky. Multitudes of African American musicians and dancers created aesthetic frameworks with artistic principles and cultural politics that proved transformative. Bolden approaches the study of funk and black musicians by examining aesthetics, poetics, cultural history, and intellectual history. The study traces the concept of funk from early blues culture to a metamorphosis into a full-fledged artistic framework and a named musical genre in the 1970s, and thereby Bolden presents an alternative reading of the blues tradition. In part one of this two-part book, Bolden undertakes a

theoretical examination of the development of funk and the historical conditions in which black artists reimagined their music. In part two, he provides historical and biographical studies of key funk artists, all of whom transfigured elements of blues tradition into new styles and visions. Funk artists, like their blues relatives, tended to contest and contextualize racialized notions of blackness, sexualized notions of gender, and bourgeois notions of artistic value. Funk artists displayed contempt for the status quo and conveyed alternative stylistic concepts and social perspectives through multimedia expression. Bolden argues that on this road to cultural recognition, funk accentuated many of the qualities of black expression that had been stigmatized throughout much of American history.

When industrialization swept through American society in the nineteenth century, it brought with it turmoil for skilled artisans. Changes in technology and work offered unprecedented opportunity for some, but the deskilling of craft and the rise of factory work meant dislocation for others. *Journeyman for Jesus* explores how the artisan community in one city, Baltimore, responded to these life-changing developments during the years of the early republic. Baltimore in the Jacksonian years (1820s and 1830s) was America's third largest city. Its unions rivaled those of New York and Philadelphia in organization and militancy, and it was also a stronghold of evangelical Methodism. These circumstances created a powerful mix at a time when workers were confronting the negative effects of industrialism. Many of them found within Methodism and its populist spirituality an empowering force that inspired their refusal to accept dependency and second-class citizenship. Historians often portray evangelical Protestantism as either a top-down means of social control or as a bottom-up process that created passive workers. Sutton, however, reveals a populist evangelicalism that undergirded the producer tradition dominant among those supportive of trade union goals. Producers were not socialists or social democrats, but they were anticapitalist and reform-minded. In populist evangelicalism they discovered a potent language and ethic for their discontent. *Journeyman for Jesus* presents a rich and unromanticized portrait of artisan culture in early America. In the process, it adds to our understanding of the class tensions present in Jacksonian America.

This book begins the comparative study of U.S. urban development during the first half of the 19th century. Breathtaking in its comprehensiveness, its survey and comparisons of early urban politics is without parallel. This group of cities—the fifteen largest in 1850—provides a

good mix of northern and southern, eastern and western, old and new, and fast- and slow-growing urban centers. This volume deals with the city as a corporate entity and contains chapters on urban governmental structures, government finance, politics and elections, urban political leadership, the city plan and city planning, intergovernmental relations, and urban mercantilism.

Eighteenth-century Baltimore was a traditional society--aristocratic, personal, and private. New social groups appeared with new ideas, values, institutions, and social controls, and the community adapted in various ways. The industrial revolution standardized social processes and made them a matter of public concern, providing the basis for the new, nineteenth-century public society--one that was more democratic, less personal, and functionally modern. Excerpt from The Life and Times of Henry Clay, Vol. 2 of 2 IN the introduction of this work, the author announced as one of his rules in its composition, that he had confined himself to the life and career of Mr. Clay, and that he does not profess to give history any further than Mr. Clay has been connected with it. He also suggested, that he has not been able to use all the materials found within these limits. It will be obvious, therefore, that wide as has been his range, and comprehensive as has been the view of public affairs which he has been obliged to take, the history contained in these volumes is rather personal than general. #### The Life and Times of Henry Clay, Vol. 1 of 2 (Classic Reprint)

Excerpt from The Life and Times of Henry Clay, Vol. 1 of 2 The first thing to be encountered as a subject of criticism, in the publication of this work, is the writing of a man's biography before he has passed from the stage. This is easily disposed of by the fact, that Mr. Clay's life has already been written more times than any man living can tell. It is also answered by the consideration, that having spent his life

in the public service, Mr. Clay's history is public property. His character, his principles, his policy, his measures, and all his acts, as an American statesman, are identified with the history of the country, and with the public and private interests of the people. Occupying this position, it is obvious, that they can not be too soon, or too well, or too generally known. To say that they are known, is not strictly true, for all the practical purposes required. His history, as a public man, is scattered over a boundless field, which no one person, not expressly devoted to the task, will ever survey. Its entireness is not available for use, except as it is brought together and concentrated. The author has considered there was a demand for this, and this belief was the motive of his undertaking. He has never asked Mr. Clay's leave, but only announced his purpose. It is due to Mr. Clay, to say, that so far from inviting the task, or affording any encouragement, except that of politeness, he has from the beginning and at all times, discouraged an early publication. ## The Life and Times of Henry Clay

The biography of the Kentucky statesman who served in both the Senate and the House of Representatives, as Speaker of the House. A skilled orator, lawyer, and politician, Clay served as Secretary of State under John Quincy Adams and founded the Whig Party. "The Great Compromiser" brokered important agreements on slavery during the lead up to the Civil War. As part of the "Great Triumvirate" with colleagues Daniel Webster and John C. Calhoun, he was instrumental in the Missouri Compromise of 1820, the Compromise Tariff of 1833, and the Compromise of 1850.

## The Life and Times of Henry Clay

He was the Great Compromiser, a canny and colorful legislator whose life mirrors the story of America from its founding until the eve of the Civil War. Speaker of the House, senator, secretary of state, five-time presidential candidate, and idol to the young Abraham Lincoln, Henry Clay is captured in full at last in this rich and sweeping biography. David S. Heidler and Jeanne T. Heidler present Clay in his early years as a precocious, witty, and optimistic Virginia farm boy who at the age of twenty transformed himself into an attorney. The authors reveal Clay's tumultuous career in Washington, including his participation in the deadlocked election of 1824 that haunted him for the rest of his career, and shine new light on Clay's marriage to plain, wealthy Lucretia Hart, a union that lasted fifty-three years and produced eleven children. Featuring an inimitable supporting cast including Thomas Jefferson, James Madison, and Abraham Lincoln, Henry Clay is beautifully written and replete with fresh anecdotes and insights. Horse trader and risk taker, arm twister and joke teller, Henry Clay was the consummate politician who gave ground, made deals, and changed the lives of millions.

## LIFE & TIMES OF HENRY CLAY VOL

That record of the career of these individuals is most complete, which combines together such a proportion of both these kinds of achievement, as will reproduce most successfully the peculiar individuality of the man. ## LIFE & TIMES OF HENRY CLAY

Excerpt from The Life, Correspondence, and Speeches of Henry Clay, Vol. 3 of 6: Life and Times Mr. Stevenson's contribution stands by itself, and speaks for itself. It was offered under the assurance that it would be published elsewhere, if not here and it was accepted to occupy this place as his

own compilation, and on his own sole responsibility. Knowing that he sustained very intimate and confidential relations with Mr. Clay, and that Mr. Clay requested him to have an eye on this portion of history, the author could do no less than welcome his contribution. It will be seen to be an entirely new chapter. This volume, as will be seen, naturally occupies the third place in the author's works on Mr. Clay, and the Private Correspondence the fourth, although the latter was previously published - embracing, as a whole, The Life and Correspondence of Henry Clay. The author proposes to edit Mr. Clay's speeches, in two volumes, with an historical introduction at the head of each speech, which will make a work of six volumes, uniform, and which, when complete, will comprise the Life, Correspondence, and Speeches of Henry Clay. This volume is entitled the last Seven Years of Mr. Clay's life, as being appropriate to that distinct and important period of his career.
