A New Witness for God is a three volume treatise by B. H. Roberts, one of the leaders in the Church of Jesus Christ of Latter-day Saints, who wrote this work as a recapitulation of 75 years of the existence of "Mormonism" and "Mormon Church." The author's purpose was to prove that the world was in need of a new God's witness, and that Joseph Smith, a great modern prophet, was that witness. Dividing the work in thesis he firstly proves that the world was in necessity of a New Witness; then moves on to the state of the Christian church and how it was destroyed and there was an apostasy from the Christian religion; third thesis deals with the Scriptures declaring that the Gospel will be restored to the Earth; final thesis suggest that Joseph Smith is the New Witness for God who re-established the Church of Jesus Christ on Earth. Following these theses is the study of the Book of Mormon.

"The Story of the Mormons, from the Date of Their Origin to the Year 1901" by William Alexander Linn is, at its simplest, a consecutive history of the Mormons from the date of their origin to 1901 written as a secular, not religious, narrative. Unlike many books on the Mormon religion, this text takes a secular but non-judgmental position on the religion. Though a relatively small religion, the Mormons have created waves across American history and even reached across the globe. This book analyzes the beginning, spread, and, at the time of its publication, modern morale and context of the Mormon church.

Church History

Covering its historic development, important individuals, and central ideas and issues, this encyclopedia offers broad historical coverage of The Church of Jesus Christ of Latter-day Saints. Mormonism: A Historical Encyclopedia helps readers explore a church that has gone from being an object of ridicule and sometimes violent persecution to a worldwide religion, counting prominent businesspeople and political leaders among its members (including former Massachusetts governor and recent presidential candidate Mitt Romney). The encyclopedia begins with an overview of The Church of Jesus Christ of Latter-day Saints—six essays cover the church's history from Joseph Smith's first vision in 1820 to its current global status. This provides a context for subsequent sections of alphabetically organized entries on key events and key figures in Mormon history. A final section looks at important issues such as the church's organization and government, its teachings on family, Mormonism and blacks, Mormonism and women, and Mormonism and Native Americans. Together, these essays and entries, along with revealing primary sources, portray the Mormon experience like no other available reference work.

The Foundations of Mormonism

You may have heard the Book of Mormon plagiarized the 1769 KJV of the Bible translation errors and all. You may have heard that Sidney Rigdon was the author of the Book of Mormon plagiarizing the Solomon Spaulding Manuscript Found. You may have even heard about the name Mormon coming from William Morgan and Thomas Monroe. You may know about Joseph having two rocks not one in a hat he used for divining the Book of Mormon. You may have heard of other books plagiarized or influenced in the Book of Mormon. You may have heard Joseph was Methodist after his later claimed First Vision where Jesus told him not to join any other Church. You may have heard of D Michael Quinn's Early Mormonism and the Magic World View about Demons causing slippery buried treasure. You may have heard of all this and more, but nothing you've heard will prepare you for the Real LDS Church History about the Book of Mormon. Everything you thought you knew will be shattered as you will be forced to form a new world view. The contents are so shocking no one, neither Mormon nor Anti-Mormon should read this book!!! Don't do it! The Church of Jesus Christ of Latter-Day Saints orders you not to read this book! You've been warned! Brigham Young won so he got to write the history; but the truth will utterly destroy Brigham's usurped Church and Kingdom to scattered ashes on this day Friday, the 13th September 2019. Revenge is sweet!

To All the World

This four volume work, which was originally created as a university course, is a whole new approach to an advanced study of the Book of Mormon. In a sense, it is a private tutoring course. If the reader will concentrate on one verse at a time, drain the essential message from it, read any background material provided in the book by W. Cleon Skousen, and then apply the verse to his or her own life, they will be richly blessed. By this means, the reader will have a chance to absorb the message far more deeply and make the Book of Mormon a vital part of daily living. These books are easy to read and have proven highly popular with seminary students and those preparing for missions. They are also used as a family home evening course of study. Volume Four covers 3 Nephi 8 to Moroni 10.
