Collaborative Leadership

. This book explains the specific leadership strategies crucial to effective collaboration. It shows how citizens and civic leaders can set up collaborative initiatives for success, create a constituency for change, promote and sustain collaboration and get results by working together. Collaborative Leadership tells how citizens and civic leaders can make a difference in addressing the most pressing public challenges in their communities.

Leadership Resources

This guide provides over 300 pages of resources suggested by leadership educators in surveys, Center for Creative Leadership staff, and search of library resources. This eighth edition is half-new, including web sites and listserv discussion groups, and it places a stronger focus on meeting the needs of human resources professionals and corporate trainers. An annotated bibliography groups leadership materials in several broad categories: overview; in context; history, biography and literature; competencies; research, theories, and models; training and development; social, global, and diversity issues; team leadership; and organizational leadership (180 pages). Includes annotated lists of: journals and newsletters (9 pages); instruments (21 pages); exercises (41 pages); instrument and exercise vendors (5 pages); videos (29 pages); video distributors (4 pages); web sites (6 pages); organizations (21 pages); and conferences (9 pages). (Contains a 66-page index of all resources.) (TEJ)

The Humanitarian Leader in Each of Us

Social problems in our global community are complex and seem intractable. Most of us would like to help, but don't feel that as individuals we can make a difference. But a particular type of person confronts such problems head on—a person that best-selling authors Frank LaFasto and Carl Larson call the humanitarian leader. Based on their groundbreaking research, LaFasto and Larson trace an

inner path of seven critical choices. The path begins with connecting deeply and personally with the needs of others and culminates in leading the way for others to get involved. Their first seven chapters describe these choices. The final three chapters explore the impact of 31 remarkable people on the world's problems, the relationship between helping and personal happiness, and practical advice for getting started in a helping effort.

When Teams Work Best

Based on 20 years of research, this dynamic book combines the study of teamwork and the latest applications.

For the Common Good

In *For the Common Good* authors David D. Chrislip and Ed O'Malley share their belief that civic leadership needs to become more purposeful, provocative and engaging in order to cope with today's civic challenges. They use the real-life dilemmas of five leaders to bring these ideas to life. *For the Common Good* has been honored with a 2014 Next Generation Indie Book Award and has been named a finalist for the Foreword Reviews book of the year award in social science.

Exploring Leadership

This is the thoroughly revised and updated second edition of the best-selling book *Exploring Leadership*. The book is designed to help college students understand that they are capable of being effective leaders and to guide them in developing their leadership potential. *Exploring Leadership* incorporates new insights and material developed in the course of the authors' work in the field. The second edition contains expanded and new chapters and also includes the relational leadership model, uses a more global context and examples that relate to a wide variety of disciplines, contains a new section which emphasizes ways to work to accomplish change, and concludes with concrete strategies for activism.

Teamwork

What are the secrets of successful teams? Why do some teams achieve remarkable success while others fail or are consigned to mediocrity? To find the answers, Carl E. Larson and Frank M.J. LaFasto conducted a three-year study of teams and team achievement. Interviewing a wide range of teams, including the space shuttle Challenger investigation team, executive management teams and a championship football team, Larson and LaFasto discovered a surprising consistency in the characteristics of effective teams. In *Teamwork*, they explore the eight properties of successful teams: a clear, elevating goal; a results-driven structure; competent team members; unified commitment; collaborative climate; standards of excellence; external support and recognition; and principled leadership. A final chapter examines the priority of the steps that lead to the building of a high performance team. The authors strive to make the concepts concrete, coupling solid theory with straightforward, practical advice on how to apply it and with lively, fascinating anecdotes. The volume will appeal to practitioners, scholars, and advanced students in the areas of organization studies and management, as well as interpersonal communication.

The Collaborative Leadership Fieldbook

When the landmark book *Collaborative Leadership* was first published in 1994, it described the premise, principles, and leadership characteristics of successful collaboration. The book outlined an innovative way of building partnerships to solve the civic problems too big for anyone to solve alone as well as a new type of leadership that brings together diverse stakeholders to solve a community's problems. While that book provides a much-needed framework for working together, *The Collaborative Leadership Fieldbook* offers nonprofit practitioners, community leaders, and public officials a practical, hands-on resource. It presents the tools needed for applying the lessons learned, powerful approaches that get results, and guidance for solving complex community problems. In clear and concise terms, the Fieldbook * Presents a wide range of tools and concepts that can be readily applied * Provides a comprehensive guide to collaboration from conception to implementation * Describes how to establish effective civic leadership development programs to support collaborative efforts * Contains stories and examples that clearly illustrate the book's concepts and tools * Helps readers find quickly and easily what they need for their specific situations

Mastering Public Health

Mastering Public Health will enable you to improve your performance and productivity within your organization and with the people and the communities you serve. Designed for new and seasoned public health workers alike, this user-friendly guide focuses on the day-to-day practical skills and competencies that are often not taught in educational or training programs. It is a how-to book with tools, techniques, tips, checklists, and other resources that will assist you in developing your competencies in the areas of communication, administration and management, and leadership. Using this book will enable you to be more effective in many areas of your work, including: - Communicating with the public - Advocating for programs and policies - Speaking and writing - Being culturally competent - Planning, budgeting, and obtaining funding - Recruiting and developing employees - Improving quality, and initiating and sustaining change - Creating a vision and inspiring others The 60 contributors to this book are experts in public health as well as in the fields of education and organizational management. They have worked in federal, state, and local government agencies as well as non-governmental organizations, academic and research institutions, and consulting organizations. In their chapters, commentaries, and textboxes, they share their expertise and experience and describe best practices. Their personal stories illustrate real-world challenges they faced and successes they achieved.

Breakthrough Community Change

Discover a powerful methodology for bringing communities together to uncover hidden assets and transform deep-rooted challenges. Veteran community organizer Paul Born's work has contributed to lowering cancer rates in Maine, improving mental health for young people in Florida, and reducing poverty rates in Canada by 20 percent. In this much-needed new book, he shares stories of how he was able to catalyze local communities and guide them to make significant progress on seemingly intractable community problems. Born has found that the secret to success is to organize and unite around a common agenda. This is not a list of topics, like a meeting agenda, nor a strategic plan. He offers a process for bringing leaders from businesses, human service organizations, and governments together with people who have a lived experience of a specific community problem. A common agenda is a statement of shared aspirations, a map of the assets in the community, and a road map for how to work together to make those aspirations a reality. Part I of this book describes how to identify your community's readiness for change; form leadership, action, and strategy teams; create a common agenda; and establish plans for community engagement. Part II presents the approaches and skill sets needed to do the work described in part I. Remarkably, enormous systemic problems such as climate change, poverty, disease, racism, housing, and many more issues can be best addressed at the local level. Communities can develop solutions tailored to their unique circumstances and can collaborate at a magnitude that can result in a truly transformative impact. This book shows how to make change happen.

Collaborative Leadership in Action

If you've ever led meetings that turned out to be a wasteful drain on everyone's time and energy, then this book is for you. Collaborative Leadership in Action provides leaders, consultants, trainers, HR personnel and others with a step-by-step approach to generating passion, participation and results in meetings.

Transforming Public Leadership for the 21st Century

The forces of globalization are shifting our world, including the public sector, away from hierarchy and command and control toward one of collaboration and networks. The way public leadership is thought about and practiced must be, and is being, transformed. This volume in the "Transformational Trends in Governance & Democracy" series explores what the shift looks like and also offers guidance on what it should look like. Specifically, the book focuses on the role of "career leaders" - those in public service - who are agents of change not only in their own organizations, but also in their communities and policy domains. These leaders work in network settings, making connections and collaborating to create public value and advance the common good. Featuring the insights of an authoritative group of contributors, the volume offers a mix of scholarship, from philosophical discussions to conceptual models to empirical studies that, taken together, will help inform the transformation of public leadership that is already underway.

New Leadership for Today's Health Care Professionals

New Leadership for Today's Health Care Professionals: Cases and Concepts, Second Edition explores various components of the health care system and how leaders should respond in these arenas. The Second Edition is a thorough revision that offers a comprehensive view of the leadership competencies necessary to be successful in today's healthcare industry. Each chapter is written by a leader in the healthcare industry under the guidance of the editors who have many years' experience in academia.

Innovations in Public Leadership Development

This is the best single-source guide to leadership development in the public sector. It offers a wealth of advice for teachers, students, trainers, human resource officers, and established leaders. The all-original chapters include discussions of leadership frameworks, competencies for public leaders for the "new governance," and strategies for senior leaders in government. The book's wide-ranging coverage includes in-depth discussions of specific approaches to learning methods such as action learning and social artistry, as well as presentations of leader development models such as transformational stewardship and global leadership. The contributors present experiences from real-world leadership development programs, and the book situates leader development within the current trends of networks, collaboration, and boundary-crossing work in the public sector.

Ethical Leadership

Increase your competitive advantage by taking a proactive approach to ethics-this book provides a road map for corporate leaders that show you how. Ethical Leadership will inspire your organization to elevate the level of its relationships with stakeholders and key constituents. It provides a powerful wake-up call that can result in higher revenues and more enduring relationships with customers, employees, and stakeholders. Ethical Leadership is full of steps and strategies to help organizations take a hard look at the way they do business, decide what changes are required, and transform principles into action.

An Introduction to Community Development

Beginning with the foundations of community development, An Introduction to Community Development offers a comprehensive and practical approach to planning for communities. Road-tested in the authors' own teaching, and through the training they provide for practicing planners, it enables students to begin making connections between academic study and practical know-how from both private and public sector contexts. An Introduction to Community Development shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes, encouraging students to ask: what is best practice when it comes to planning for communities, and how do we accurately measure the results of planning practice? This newly revised and updated edition includes: increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being and public health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available.

A Handbook for Collaborative Leaders

This book equates leadership with problem-solving. Don proves this with 30 years tutoring experience and by the rationale (and examples) in the written pages. Leaders solve problems. Don's book shows the methodology of collaboration, i.e. how-to collaborate. The initial section depicts collaboration as facilitated by a third party. It recommends this as a learning tool before engaging in deliberations where the facilitator "owns" a stake in the problem. A follow-up section discusses collaborating amid anger, hidden agenda and two-party collaboration. In other words, when a stakeholder and facilitator are one. In this manner, learning is incremental, developmental; knowledge is added to what has already been learned. A Handbook for Collaborative Leaders: Millennials Assess the Workplace of Today introduces a twin-poled leader model to replace the Situational Leadership of Paul Hersey and Ken Blanchard. It argues that H/B's accepted model, now some 60 years in use, misidentifies the situation as revolving around internal measures such as knowledge, trust, and closeness. Rather, the actual situation must be defined by external measures -- chiefly, what is confronting workers and what problem does this situation present. Bi-Polar leading reconciles authority-based leading with

participatory models as challenged by jurist Michael Josephson in 1989. Until now, that challenge has gone unanswered. Throughout the book, readers will find a sense of supervisors and the rank-and-file bonding into something greater than themselves. Examples of such are found in the case studies, all written not by Don, but by his former students. Without a one-size-fits-all, workshop participants design their unique leader template, one which offers a menu of more than 24 intervention styles.

The Ways of the Leader

Leaders: Are you feeling overwhelmed in this post-pandemic world? The one-size-fits-all approaches no longer work. You need creative strategies based on godly wisdom that bring people together and break new ground. In *The Ways of the Leader*, Bill Mowry unpacks four competencies for everyday leaders in churches, ministries, communities, and businesses. To generate wisdom as a leader, you must become a lifelong learner who views your life and leadership as God's classroom for discovery; collaborator who engages people to explore, create, and implement new approaches; cultural detective who examines assumptions and values where you lead and live; and ministry innovator who discovers solutions that are crafted to the specific needs of your community. Rise up against the chaos of today as you nurture the wisdom to choose what is good (what brings life and nourishes people) and right (what is just and fair) and impact those right where you are with practical solutions.

How to Make Collaboration Work

Every day we work with others to solve problems and make decisions, but the experience is often stressful, frustrating, and inefficient. In *How to Make Collaboration Work*, David Straus, a pioneer in the field of group problem solving, introduces five principles of collaboration that have been proven successful time and again in nearly every conceivable setting. Straus draws on his thirty years of personal and professional experience to show how these principles have been applied by organizations as diverse as Ford Motor Company, the U.S. Environmental Protection Agency, Harvard Business School Publishing, Boston Public Schools, Kaiser Permanente, the city of Denver, and many others. *How to Make Collaboration Work* shows how collaboration can become a joy rather than a chore—a kind of chemical reaction that releases far more energy than it consumes.

Environmental Leadership

This reference handbook tackles issues relevant to leadership in the realm of the environment and sustainability.

Leading in a VUCA World

This open access book brings together works by specialists from different disciplines and continents to reflect on the nexus between leadership, spirituality and discernment, particularly with regard to a world that is increasingly volatile, uncertain, complex, and ambiguous (VUCA). The book spells out, first of all, what our VUCA world entails, and how it affects businesses, organizations, and societies as a whole. Secondly, the book develops new perspectives on the processes of leadership, spirituality, and discernment, particularly in this VUCA context. These perspectives are interdisciplinary in nature, and are informed by e.g. management studies, leadership theory, philosophy, and theology.

Rural Social Work

A thoughtful text integrating strengths, assets, and capacity-building themes with contemporary issues in rural social work practice. Now in its second edition, *Rural Social Work* is a collection of contributed readings from social work scholars, students, and practitioners presenting a framework for resource building based on the strengths, assets, and capacities of people, a tool essential for working with rural communities. This guide considers methods for social workers to participate in the work of sustaining rural communities. Each chapter features a reading integrating the themes of capacity-building and rural social work; discussion questions that facilitate critical thinking around the chapter; and suggested activities and assignments. *Rural Social Work, Second Edition* explores: Important practice issues in rural communities, including the challenges of working with stigmatized populations such as gay, lesbian, bisexual, and transgendered people, the homeless, and people living with HIV/AIDS. Practice models that hold special promise for rural social workers, including evidence-based practice and community partnership models. Newer research tools such as asset mapping, social network analysis, concept mapping, and Geographic Information Systems (GIS). Exploring how social workers can

integrate the tremendous resources that exist in rural communities into their practice, *Rural Social Work, Second Edition* provides a solid introduction to the complex, challenging, and rewarding work of building and sustaining rural communities.

From Command to Community

Diverse essays create a new definition of leadership education based in colleges and universities

The Leadership Dozen

What You Need To Know About “The Leadership Dozen” The Leadership Dozen are 12 specific skills and qualities that are embedded in a leadership perspective that embraces a people approach through “people skills.” Because of the importance of influence in leadership, connecting with people through relationships (with “strong people skills”) is critical to leadership effectiveness and success. The Leadership Dozen are the tools that a leader can use to strengthen their ability to influence and build strong “people skills.” More important, the 12 skills and qualities are learnable and can be developed further through continuous practice. All one needs to do is to invest time, energy, and effort to experience amazing results. The Leadership Dozen is an examination of how great leaders over the course of history have used a dozen or more skills and qualities to successfully lead their organizations or their causes. The book emphasizes one of the most indispensable core values – people skills. If you want to become a better leader, connect with people more effectively, accomplish more positive results, and feel that you are making a difference in people’s lives, then the Leadership Dozen can help you in meeting your goals and expectations. The Leadership Dozen is a must.

Introduction to Community Development

Introduction to Community Development provides students of community and economic development with a theoretical and practical introduction to the field of community development. Bringing together leading scholars in the field of community development, the book follows the curriculum needs in offering a progression from theory to practice, beginning with a theoretical overview, an historical overview, and the various approaches to community development.

Learning to Lead

This is a book about leadership for college and university administrators, written by a professor of higher education who has also had a long administrative career.

Planning with Complexity

Analyzing emerging practices of collaboration in planning and public policy to overcome the challenges complexity, fragmentation and uncertainty, the authors present a new theory of collaborative rationality, to help make sense of the new practices. They enquire in detail into how collaborative rationality works, the theories that inform it, and the potential and pitfalls for democracy in the twenty-first century. Representing the authors’ collective experience based upon over thirty years of research and practice, this is insightful reading for students, educators, scholars, and reflective practitioners in the fields of urban planning, public policy, political science and public administration.

Leadership in Social Care

The latest research on leadership issues in social care is drawn together to provide a resource for social care practitioners & service providers, as well as academics, researchers & students.

New Public Management

The UK has played a pivotal role in the development of New Public Management (NPM). This book offers an original, comprehensive and multidisciplinary analysis of the impact of the New Public Management in the UK, and situates these analyses in a broader comparative perspective. Its chapters consider: competing typologies of NPM issues of professionalism within NPM debates on social exclusion and equity the role of different research approaches in evaluating NPM the evolving nature of NPM and impact of modernisation evaluations of NPM in mainland Europe, North America, Africa and the developing World, Australia, and Pacific-Asia. Leading authorities from around the world present evaluations of current thinking in NPM and highlight the challenges which will shape future development

and research approaches. New Public Management presents a timely and constructive overview of the nature and impact of the NPM and offers important lessons for public management across the world.

The Politics of Hope

[i]The Politics of Hope[/i] presents cogent research on human potential and leadership against the backdrop of an insider's political war stories. The result is a clear picture of American democracy as an exciting four-step evolutionary process that mirrors the macrocosm of the evolution of all humanity. That the scope of our world has narrowed due to rapid and chaotic social change brought on by the Internet and other global communication technologies, is a fact not lost on Zajonc. [i]The Politics of Hope[/i] is a call to action for American citizens, recognizing that to revive the dream of democracy worldwide, our nation must set the stage for political greatness on a global scale.

Leadership

Leadership is viewed as a phenomenon allowing advantages for organizations and their success. Although much research has been done on the concept of leadership, many studies do not include the different styles, perspectives, and contexts of leadership. As such, this book aims to fill this gap by combining several studies on leadership from different perspectives. The various chapters address such topics as millennial leaders, Theory X style leadership, leadership in the turbulent environment, emotional intelligence, and much more. This volume shows how new insights about leadership can stimulate organizational development in various countries and regions worldwide.

Handbook on Theories of Governance

The thoroughly revised and updated Handbook on Theories of Governance brings together leading scholars in the field to summarise and assess the diversity of governance theories. The Handbook advances a deeper theoretical understanding of governance processes, illuminating the interdisciplinary foundations of the field.

Creating Conditions for Promising Collaboration

This publication focuses on the conditions for promising collaboration. Collaboration is becoming a dominant instrument in today's economy and society and manifests itself in many shapes and forms. It is a challenging instrument which still isn't very well understood and poses the business community in front of a number of challenging dilemma's. We position collaboration as a multidisciplinary phenomenon and - based on years of research and as reflective practitioners - offer a comprehensive model for analyzing and designing collaborative processes that is both scientifically rooted and applicable in practice. A better understanding of collaborative processes will enhance the success of alliances, networks, chains and strategic partnerships. In addition to this we look to the future of organizing from a collaborative perspective and address the challenges ahead.

Collaborative Information Seeking

Compiled by world- class leaders in the field of collaborative information retrieval and search (CIS), this book centres on the notion that information seeking is not always a solitary activity and working in collaboration to perform information-seeking tasks should be studied and supported. Covering aspects of theories, models, and applications the book is divided in three parts: · Best Practices and Studies: providing an overview of current knowledge and state-of-the-art in the field. · New Domains: covers some of the new and exciting opportunities of applying CIS · New Thoughts: focuses on new research directions by scholars from academia and industry from around the world. Collaborative Information Seeking provides a valuable reference for student, teachers, and researchers interested in the area of collaborative work, information seeking/retrieval, and human-computer interaction.

The Social Change Model

A comprehensive guide to using the Social Change Model in all types of curricular and co-curricular settings This book is designed to provide leadership educators with a wealth of classroom and workshop activities, discussion and reflection questions, assignment suggestions, and additional resources such as video clips and supplementary readings. It also includes several case studies for students to consider the implications of applying all eight elements of the Social Change Model in a variety of contexts. The Social Change Model of Leadership Development—upon which the book is based—was designed

by well-known leadership educators and received wide acclaim and use. The validity of this model has been established through a number of research studies including the Multi-Institutional Study of Leadership. Written by leading experts and developers of the Social Change Model who often present and consult on the topic Helps curricular and co-curricular leadership educators teach the Social Change Model through individual and group activities, reflection questions, and discussion questions. Walks course or workshop facilitators through the entire process of teaching the content and facilitating and debriefing activities If you're a leadership educator of high school, undergraduate, or graduate school students, The Social Change Model: Facilitating Leadership Development is indispensable reading. Please note that The Social Change Model: Facilitating Leadership Development is intended to be used as a Facilitator's Guide to Leadership for a Better World, 2nd Edition (978-1-119-20759-7) in seminars, workshops, and college classrooms. You'll find that, while each book can be used on its own, the content in both is also designed for use together. A link to the home page of Leadership for a Better World can be found below under Related Titles.

Community Visioning Programs

Community visioning is key in helping local public officials and community leaders create a flourishing future for their cities, and is essential for the effective planning and implementation of these strategies. Visioning involves collaborative goal setting to motivate actions – of planners, citizens, and officials – in order to design and carry out a strategic planning process for the successful development of the community. The use of visioning since the 1980s has led to a wealth of information on the productivity of the paths it has taken. The contributors, all with experience working in the area, review the successes and failures of the strategies, and look at new innovations which are pushing the frontiers of community visioning. This review of the development of visioning focuses on small and medium sized communities in North America. It aims to guide citizens, local leaders and planners on what strategies are best to help them revitalise their communities and ensure a prosperous future.

Experiencing the Outdoors

The space is outdoors. The experience is personal and the journey can be solitary or take place in groups. Informal or formal the places visited are sites of learning. Locked in memory our experiences in the outdoors are a constant source of wonderment and food to replenish our sense of wellbeing. Our experiences in the outdoors can endure in the abstract as ideas for developing a sense of a well lived life. They can also draw us back to places and reenergise the body. Physical and emotional wellbeing collides in the unexpected events that flourish in the outdoors. Our readiness for enjoyment and personal development are subjective states which this book challenges. Traversing the landscape of the outdoors the collection of chapters contained range from the theoretical to the practical including strategies for teaching and learning that are transdisciplinary. With ideas for practitioners as well as thoughtful reading for readers of diverse ages and interests this book includes contributions from Australia, New Zealand, Hong Kong, United Kingdom and Canada.

Early Development and Leadership

Today we often look to our leaders in business, government, or the social sector, to make effective decisions in a complex world. Whether they are asked what steps to take to improve competitiveness in a global economy or to make tough ethical choices, well-trained leaders are critical to organizational effectiveness. Although we know much about leadership development for individuals after they take their first job, we know relatively little about their earlier experiences that contributed to their interest in leadership or subsequent effectiveness as leaders. This volume brings together researchers who explore leadership at different points before individuals enter the workforce and asks important questions surrounding definitions of leadership behavior, necessary leader skills and age-related leader tasks, factors contributing to development of leader identity, and ways to improve the process of leader development. With contributions from well-known leadership researchers such as Robert Sternberg, Howard Gardner, Bruce Avolio, and Susan Komives, the volume shows research evidence for factors such as early childhood and youth experiences on leadership development, which have implications for the way we understand and train leadership in today's organizations.

Managerial Flow

When globalization affects jobs and economies, policy makers strive to plan, design and implement actions to support their communities and businesses (Ansell and Gash 2007). Furthermore, local

development policies are at the core of international cooperation programs or more in general represent a challenge for emerging countries. They could refer to infrastructure, entrepreneurship innovation or urban renewal. However, more frequently than not, development policies, which involve different institutional levels and public and private players, fail due to poor implementation management. This research book presents a managerial approach (the so called Managerial Flow) that could help the closure of gaps that hamper an efficient and effective policy execution. The managerial flow model observes the phenomenon of policy implementation for economic development through managerial lens. In the book, the research team has empirically identified five gaps in practice whereupon public policy implementation falls down. As a response Managerial Flow model outlines sets of managerial actions that can be adopted to facilitate a clear 'flow' from policy development through to implementation. This book expands on the Managerial Flow model, and acts as both a practical guide to stimulate evidence based policy implementation in governments and as theoretical contribution to policy and strategy execution. Written for researchers and academics, this book begins by outlining the theoretical foundations of Managerial Flow and moves to unpack application and cases, based in different sectors and countries, in order to discuss and show how the Managerial Flow approach can concretely support managers in the implementation of economic development policies. It reviews and discusses how the managerial flow could be relevant in the implementation of a set of sectorial policies and uses the managerial flow concept to analyse cases of economic development and establish lessons for broader management scope.

Facilitator's Guide to Participatory Decision-Making

"The best book on collaboration ever written!" —Diane Flannery, founding CEO, Juma Ventures And now this classic book is even better—much better. Completely revised and updated, the second edition is loaded with new tools and techniques. Two powerful new chapters on agenda design A full section devoted to reaching closure More than twice as many tools for handling difficult dynamics 70 brand-new pages and over 100 pages significantly improved
