

capital investment appraisal techniques

[#capital investment appraisal](#) [#investment appraisal techniques](#) [#capital budgeting methods](#) [#npv irr payback period](#) [#project evaluation](#)

Capital investment appraisal techniques are essential tools for businesses to evaluate the profitability and viability of potential long-term projects. These methods, fundamental to sound financial decision-making and capital budgeting, include Net Present Value (NPV), Internal Rate of Return (IRR), and Payback Period, helping organizations select the most financially sound investments to maximize shareholder wealth.
