Tools for Conflict Resolution

Have you been searching for a way to resolve conflict that doesn't involve a series of ten or more steps? Do you think that perhaps a key to conflict resolution must come from within? How can teachers and pre-service teachers help their students learn and use strategies for conflict resolution? Tools for Conflict Resolution is a practical method for teaching conflict resolution skills to students in grades K-12. Conflict is a part of everyone's life. It is the authors' belief that if each student is given tools for handling conflict, and these tools are used each time conflict arises that soon students become proficient conflict managers. This book begins with a chapter, which introduces Peter Senge's five disciplines: Personal Mastery, Mental Models, Shared Vision, Team Building, and Systems Thinking. After reading this chapter, the reader is able to embrace the five disciplines and begin practicing the adult level. As teachers, we teach from who we are. The rest of the book is filled with actual lesson plans, which are directly tied to the Multiple Intelligences Theory and are developmentally appropriate for students. Case studies, role- plays, skits, literature, songs, and co-operative learning activities are the primary instructional methods used to teach students conflict resolution skills. An annotated bibliography is included to assist teachers in extending lessons. These lessons may be taught during Social Studies as a unit on character education or could be used during a guidance class.

The Big Book of Conflict Resolution Games: Quick, Effective Activities to Improve Communication, Trust and Collaboration

Make workplace conflict resolution a game that EVERYBODY wins! Recent studies show that typical managers devote more than a quarter of their time to resolving coworker disputes. The Big Book of Conflict-Resolution Games offers a wealth of activities and exercises for groups of any size that let you manage your business (instead of managing personalities). Part of the acclaimed, bestselling Big Books series, this guide offers step-by-step directions and customizable tools that empower you to heal rifts arising from ineffective communication, cultural/personality clashes, and other specific problem areas—before they affect your organization's bottom line. Let The Big Book of Conflict-Resolution Games help you to: Build trust Foster morale Improve processes Overcome diversity issues And more Dozens of physical and verbal activities help create a safe environment for teams to explore several common forms of conflict—and their resolution. Inexpensive, easy-to-implement, and proved effective at Fortune 500 corporations and mom-and-pop businesses alike, the exercises in The Big Book of Conflict-Resolution Games delivers everything you need to make your workplace more efficient, effective, and engaged.

Settle Conflicts Right Now!

Noting that elementary school students can learn to resolve basic everyday conflicts without resorting to verbal or physical aggression, this empathy-based program provides a foundation for resolving problems without the intervention of mediators or adults and for providing written documentation of the solution for parents, administrators, and teachers. The program is designed to be introduced to a class in three to four 30-minute lessons. Children learn to write or draw why they are upset, exchange papers and learn why the other person is upset, write or draw a possible solution, share solutions with the other person, and mark the other person's paper to indicate what they agree to do to help end the conflict. Chapters 1 and 2 of the book explain how the process works. Chapter 3 shows how to use the process in the classroom. Chapter 4 illustrates how to set up basic conflict resolution centers that can be used in a variety of locations within a school. Chapters 5 and 6 tell how to use the process in group or individual counseling and at home. Included in this guide are lesson plans, reproducible worksheets, and posters that illustrate the conflict resolution process. Appended are samples showing how the technique works and answers to commonly asked questions. (KB)

One World

One World offers educators a practical curriculum for teaching tolerance and conflict resolution. Fifty hands on activities help students understand how personal values are formed; how misperceptions

affect relationships; and how they can communicate effectively. Lessons on decision-making, creative thinking, and conflict management give them the practical skills that foster tolerance. Each lesson plan contains learning objectives, background information, materials needed, activities, activity or resource sheets, discussion questions, and teacher tips.

Lesson Plan and Record Book

Help your middle and high school students learn to communicate and cooperate with each other. Through these experiential activities, students will become skillful in communicating, trusting, working together, and managing conflicts. Contains reproducible activities.

Conflict Management Training Activities

The lessons in this guide teach high school students the essential skills they'll need to manage and resolve interpersonal conflict in creative, positive ways. Along the way students will also explore diversity, power, and prejudice as they continue to develop greater emotional and social skillfulness. Conflict Resolution in the High School contains: 36 core skill lessons An exploration of 8 different implementation models In-depth information on how to infuse conflict resolution into the standard high school curriculum Ideas for assessing student learning 9 additional, multi-period activities for taking the skills and concepts further The curriculum encourages students to connect the concepts and skills taught in the lessons to their own personal experiences. Students learn to analyze conflict, deal with feelings more effectively, defuse anger, and negotiate and mediate personal and group conflicts. Students also learn how to build more positive intergroup relations and explore how they can use their new skills and understandings to make a positive difference in their communities.

A Festive Feast

Describes the six-step conflict resolution process, called "Talk It Out," developed by educator Barbara Porro to teach students to solve their own real-life problems, such as teasing, cheating, hitting, and others, and includes lesson plans, scripts, and other resource tools.

Talk it Out

For K-6 teachers and counselors, here are over 100 step-by-step lessons and illustrated activities that give students the tools and empathy they need to solve conflicts peacefully and feel like winners. The wide variety of lessons and activities that will appeal to all students are organized into four sections: * Conflict-Resolution Activities for Educators helping the teacher model appropriate behaviors through 12 self-empowerment activities. * Building the Groundwork for Conflict Resolution 29 activities to help students build their own positive identity and deal with inner-directed anger. * Conflict-Resolution Activities for Your Classroom 69 activities develop children's conflict-solving skills and reduce their anger toward others. * Conflict-Resolution Activities for Your School 19 activities, including those that alert students to bullies and what can be done to prevent bullying.

Ready-to-Use Conflict-Resolution Activities for Elementary Students

This workbook was designed to assist teachers by providing strategies, activities, and lesson plans for implementing conflict resolution skills in the pre-kindergarten and elementary classroom. It can be tailored to fit the needs of each individual classroom and learning style.

Conflict Resolution in the Classroom Workbook

Based on the view that making social concepts and feelings concrete would help children in primary grades to take turns, cooperate, and solve their problems respectfully, this curriculum uses a story about the Rainbow Kids, an imaginary community of children, to introduce children to social concepts

and conflict resolution skills. The Rainbow Kids experience emotions that are conveyed by the weather around them. These simple "sunny" and "cloudy" metaphors turn abstract notions of behavior into physical expressions young children can easily comprehend. Part 1 of the curriculum guide describes the impetus for the program, discusses how the program works, summarizes the story, and details the procedures involved in presenting the program. Part 2 contains the seven lessons and two activities comprising the program; this part includes sample program materials in six appendices, and lists selected resources for elementary school teachers. Part 3 is a separate booklet for students containing "The Rainbow Kids" story. (Contains 15 references.) (KB)

Teaching Conflict Resolution with the Rainbow Kids Program

A Lonely pencil timidly draws a boy, a dog and other items, but soon faces a problem as his creations begin demanding changes, and when he draws an eraser to make them happy, the real trouble begins.

The Pencil

Every time a heart-wrenching display of violence in the schools or an appalling act of childhood aggression achieves its '15 minutes of fame' in the media, we all shake our heads in dismay, despair over what should have been done and feel deeply grateful that it happened somewhere else. But, of course, there's no guarantee. These things can and do happen anywhere. And it is not what we do after, but what we can do before that matters. Teaching our children, in the early grades, about resolving conflicts is an urgently needed step in that direction.

C-A-R-E Project

Clear, simple language and realistic illustrations teach children the process of peaceful conflict resolution.

Talk and Work It Out

Making Things Right is designed to be used in several ways: 1. To train students to become mediators and peacemakers in their classroom and at home and as peer mediators for their school. 2. To train students to understand and participate in a restorative justice/discipline structure in the classroom based on the book *Discipline That Restores: Strategies to Create Respect, Cooperation, and Responsibility in the Classroom* by Ron and Roxanne Claassen. 3. To train parents who want to understand and use a constructive conflict management strategy in their families. Making Things Right is divided into three sections. The first section consists of the lesson plans for each of thirty-two activities. The second section is called Projections and Handouts (larger print makes them easier to read when projected). The third section consists of the Student Folder Items. The time listed for each activity is an approximation and provided to help the teacher determine how they want to combine or use individual activities to fit their time frames. Making Things Right is designed to be used both for whole-class trainings in which lessons are taught on a daily basis spread over several days for one to two weeks, and for two-day student mediator training seminars. Our preference is to use the lessons with the entire class so all have the skills and strategies to be peaceful problem solvers. It is especially helpful for educating students about the theory, skills and strategies used in *Discipline That Restores*, also by Ron and Roxanne Claassen. *Discipline That Restores* gives teachers and administrators the knowledge and skills for implementing restorative justice discipline in the classroom and school. It is important for students to have as much knowledge of this structure and process as their teachers and school administrators so all are better able to constructively resolve conflicts together. Lessons are designed to help students learn and become equipped to understand and implement conflict and peacemaking theory, skills and strategies. Students will learn some theory and be encouraged to develop their own theories for why we are interested in learning about new strategies for problem solving, and they will participate in lessons that will teach a specific process to use for problem solving and peacemaking as individuals in relationship with others and as mediators. Making Things Right provides activities that build student understanding of the mediation process and gives students a chance to practice the process through roleplay. This training will enable students to develop practical skills that will help them respond constructively to conflicts in many areas of their own lives as well as help others. Punishment for misbehavior causes resentment to grow, and what appears as evil intent is a consequence of that resentment. Punishment damages relationship at least a little and sometimes a lot. We have discovered that the most effective way to respond to misbehavior is to gain the cooperation of each person involved - it is rare that misbehavior involves only one person - then to sit down with them and help them solve the

problem. Responding this way transforms an otherwise destructive event into a teaching and learning situation for everyone involved and builds relationship. Personal experience has shown that students, kindergarten and above, can understand and respond constructively; students grade four and above can readily understand and use these concepts in their own interpersonal conflicts and as mediators. Roxanne used this curriculum for many years with her 8th grade students and with parents. Many have used this curriculum to train high school students. All teachers make some adaptations to best use it with their audience.

Making Things Right

Based on the principles of cooperation and problem solving, conflict resolution helps students solve problems themselves by identifying underlying needs and finding solutions that meet everyone's interests to the fullest extent possible. With an easy-to-use workbook format.

The Handbook of Conflict Resolution Education

Consists of a systematic program designed to show teachers methods that will help their students ward off or even bypass many conflicts and also presents nonviolent ways to resolve conflicts that do occur.

Conflict Resolution, Grades K-4

For use with upper elementary and middle school students. Imagine a school or classroom where learners manage and resolve their own conflicts, where students and teachers cooperate, where diversity is celebrated, where feelings are expressed in ways that are neither aggressive nor destructive, where responsibility is the norm. Creating the Peaceable School presents a workable plan for achieving this vision. Through the conflict resolution strategies of mediation, negotiation, and group problem solving, students learn to recognize, manage, and resolve conflicts in peaceful, noncoercive ways. The Student Manual is a workbook that summarizes important concepts and contains a variety of forms and worksheets designed to reinforce learning.

Creating the Peaceable School

Annotation "Conflict and Communication offers educators a practical curriculum on conflict management that helps students understand the nature of conflict and learn the skills that will enable them to deal with conflicts in their lives. The book is divided into two parts: Conflict Management and Student Mediation." "Conflict Management contains 60 hands-on activities that help students understand how personal values are formed, how misperceptions and misunderstandings arise and affect relationships, and how they can communicate effectively. The activities explain the roots and consequences of conflict, offer specific strategies for dealing with conflict, and help students discover basic human rights and their connection to conflict."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. A practical workplace guide to handling conflict effectively Managing employees and encouraging them to work together toward a common goal is an essential skill that all leaders should possess. Conflict Resolution at Work For Dummies provides the tools and advice you need to restore peace, train your colleagues to get along better with others, prevent conflicts from ever starting, and maintain better productivity while boosting morale. One of the only trade publications that takes the manager's perspective on how to address conflicts, resolve disputes, and restore peace and productivity to the workplace Examines more positive means for resolving conflicts (other than arguing, surrendering, running away, filing a lawsuit, etc.) Helps managers and employees sort through problems and make the workplace a more rewarding place No manager should be without Conflict Resolution at Work For Dummies!

Conflict Resolution at Work For Dummies

This elementary curriculum is based on the nationally recognized Resolving Conflict Creatively Program on conflict resolution and social and emotional learning. The book contains 16 lessons per grade level focused on five themes: Making Connections, Emotional Literacy, Caring and Effective Communication, Cultural Competence and Social Responsibility, and Conflict Management and Responsible Decision-Making. Each lesson also includes connection to children's literature and a listing of major curriculum standards that are addressed in the lesson. The lessons in this volume are specifically geared for students in K-2 classrooms.

Conflict Resolution Education

Using Social Emotional Learning to Prevent School Violence is an essential resource that seeks to close the existing gap in literature on ways to mitigate school violence, as well as to advocate for the integration of social emotional learning in schools. In an effort to create culturally responsive, student-centered, and secure school environments, this book outlines strategies that highlight the importance of collaboration between critical stakeholders in identifying and mitigating bullying, assisting students struggling with relationship building skills, grief and loss, and anger; particularly those that demonstrate the need for power and control or the desire for retaliation. Mental health issues are also taken into consideration. Proactive responses and best practices are exemplified in order to equip struggling students with resources that foster their well-being and success. Dr. Paolini draws upon extensive research in her depiction of school violence in America's education system and designs lesson plans and activities that address and align with each of the social emotional learning core competencies for both elementary and secondary school counselors. This book will be of interest to critical stakeholders in P-12 settings as well as those in higher education, particularly as a resource for graduate students training to become transformative school counselors.

One World

Currently, peace education remains marginalized in our education system, however, a united front can be formed and powerful paradigms can empower educators to play a critical role in peace building through scholarship, practice and activism. Indeed, educators around the world are developing effective strategies to transform education as a powerful force for global peace. The diverse array of contributors in the book demonstrate that educators as peace makers can be and have been instrumental in

transforming social forces, the self and others for the construction of global peace. The book aims to broaden the educational discourse in order to make room for new visions to educate future generations for peace. Local and global efforts to build a long-lasting peace are presented through the lens of education. The timeliness of peace education surely renders this book relevant to educators and the general public alike as individuals, communities, and organizations struggle to find pathways to peace in a global world. In other words, this book will interest scholars and the general public concerned about the building of global peace. The book can be source book for educators at elementary, secondary, and postsecondary institutions to explore multiple ways to conduct effective peace education at all levels of education. The book may also be used as a textbook by instructors of multicultural education, of comparative & international education, and of undergraduate and graduate peace education courses.

Connected and Respected

Designed especially for preservice teachers, this book links substantive, current scholarship on major topics in the management of international conflict with exemplary instructional methods in social studies education. Through vignettes and case studies of actual classroom practice, the reader learns from experienced teachers how they integrate different instructional methods to achieve content goals. The book contains an appendix on resources that provides additional information on organizations, instructional materials, computer networks, and other scholarly work that can help teachers improve their instruction on international conflict management. Teaching About International Conflict and Peace can make a significant difference in preparing social studies teachers to help their students acquire knowledge and understanding of how the peoples of the world have dealt with international conflict in the past and how increasing global interconnections provide new alternatives for the management of international conflict in the present and future.

Using Social Emotional Learning to Prevent School Violence

ESL instructors without a background in conflict resolution (CR) who teach intermediate to advanced courses at colleges, universities, or in Intensive English Programs, may want to provide students with valuable negotiation and mediation skills. Author Barrie J. Roberts is an experienced ESL teacher, lawyer, mediator, and Alternative Dispute Resolution (ADR) Administrator for southern California Superior Courts. In this book, she draws upon her experience using these activities in a variety of ESL settings and courses with students from all over the world to inspire other ESL teachers to add CR approaches to their activities, lessons, and courses. Following an introduction to conflict resolution, Conflict Resolution Training for the Classroom shows how much of the teaching of CR is similar to teaching ESL. It outlines ways to apply negotiation and mediation to ESL activities, how to prevent and resolve conflicts, how to use specific types of role-plays to address conflicts, and how to design successful activities. The book also includes a list of resources and sample syllabi.

Create an inclusive classroom for all through engaging maths activities such as Shape Bingo, Cake Splat! and Fruity Fractions, all of which have been matched to the UK National Curriculum P Levels 4 - 8. Tailored to the specific P Level, each lesson plan includes a learning objective, the resources needed, the main activity, a plenary and a consolidation activity to help support children's understanding. When working with children, and especially those with SEN, lessons need to meet their interests as well as their needs by containing visual stimulus, movement and fine and gross motor skills, and the activities in this book have been specifically designed with this in mind. This straightforward and practical book

offers you 101 creative classroom activities for teaching maths to pupils who are achieving at P Levels 4 - 8 and Key Stage One as well as mapping the range of additional skills they will acquire.

But It's Not My Fault

This volume is an essential, cutting-edge reference for all practitioners, students, and teachers in the field of dispute resolution. Each chapter was written specifically for this collection and has never before been published. The contributors--drawn from a wide range of academic disciplines--contains many of the most prominent names in dispute resolution today, including Frank E. A. Sander, Carrie Menkel-Meadow, Bruce Patton, Lawrence Susskind, Ethan Katsh, Deborah Kolb, and Max Bazerman. The Handbook of Dispute Resolution contains the most current thinking about dispute resolution. It synthesizes more than thirty years of research into cogent, practitioner-focused chapters that assume no previous background in the field. At the same time, the book offers path-breaking research and theory that will interest those who have been immersed in the study or practice of dispute resolution for years. The Handbook also offers insights on how to understand disputants. It explores how personality factors, emotions, concerns about identity, relationship dynamics, and perceptions contribute to the escalation of disputes. The volume also explains some of the lessons available from viewing disputes through the lens of gender and cultural differences.
